

## **PART II**

### **ATTACHMENTS AND OPERATIONAL DATA**

#### **MOBILE WASTE TIRE PROCESSING OPERATION**

Please submit the following information as a part of the application for a mobile waste tire processing operation. (Note: all information should be typewritten).

**A. Property Information and Maps**

The physical address of the site where the operating records will be kept and where the processing equipment will be stored while not in operation. Additionally, a county or city map of the area which details the location of this site in relation to the county or city. This map may be a high quality photocopy.

**B. Local Government Regulations**

Prior to the operation of a mobile waste tire processing unit, it is the responsibility of the operator to confirm that the operation will be in conformance with all local laws, regulations, and ordinances. This confirmation must be obtained from the appropriate county and/or city officials in which the mobile processing equipment will operate.

**C. Plan of Operation**

A plan of operation for the mobile waste tire processing operation should be submitted to include:

- a. A description of the operation including how tires will be managed at a site from the point of arrival of the mobile processing unit to the ultimate transportation of the processed tires off the site for recycling or disposal.
- b. The design and performance specifications of the equipment, a description of the final processed form of the tires, a maintenance plan for the processing equipment, and a description of how the equipment will be mobilized.
- c. The days and hours of operation of the mobile processing unit.
- d. Details of all waste tire transportation activity away from the processing locations such as who generally will conduct the transportation of the processed tires from the site(s) and to what recycling/disposal site(s) the processed tires will be transported.
- e. A list of all known authorized waste tire collection sites, generator sites, landfills, or clean-up sites where this mobile waste tire processing unit will be operated and the owner or responsible party of these properties.

**Permit Application**  
**Page 2 of 2**

- f. If the applicant is responsible for transporting the tires off site, a copy of an executed contract or other written agreement with the recycling/ disposal facility(s) which will be accepting the processed tires.
  
- g. A description of the anticipated service area for this processing operation including existing or anticipated agreements or contracts with local governments or regional solid waste authorities. Generally, the service area should be described either in terms of the cities, counties or states in which the business will operate or by some radius (in miles) from a certain fixed location.
