Applicability Survey & Initial Notification <u>Painting, Paint Stripping, and Miscellaneous Surface Coating Operations at Area Sources</u> 40 CFR Part 63, Subpart HHHHHH

Company Name & Address: (Please make corrections)	
Company Name:	·
Facility Address	Mailing Address
Contact Information	
Representative Name:	Signature:
Title:	Phone Number:
Applicability Information (Note: See definitions on side 2)	
1) Does your facility perform spray-applied coating or painting operations?YESNO	
If "YES":	C (/D) (O () NIEG NO
 Do you have a Motor Vehicle Surface Coating/Painting Operation? YES NO Do you have a *Miscellaneous Surface Coating/Painting Operation(s) for unassembled parts? 	
VFS NO	
How many spray booths do you have? How many spray booths do you have?	
 How many preparation stations do you have? How many painters are usually employed at the operation? 	
parameter and assumity emproped at the operation.	
2) Does your facility do any paint stripping using methylene chloride (MeCl)?YESNO	
If "YES":	
What method(s) of paint stripping do you employ? Chemical Mechanical	
What substrates do you strip? Wood Plastic Metal	
How much MeCl do you currently use per year? NO. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1.	
 Do you plan to annually use more than one ton after the compliance date*?YESNO * The compliance date for existing sources is January 10, 2011. 	
3) When was the startup date of your business? (Month, Day, Year)	
STATEMENT OF COMPLIANCE (If "YES" to any above, complete below & Check one)	
I,, certify tha	.t:
I,, certify tha (Owner or Operator Name)	(Facility name)
Is in compliance with each of the relevant requirements* of this subpart and this initial notification also serves as the notification of compliance status (NOCS).	
Will be brought into compliance by the compliance date (January 10, 2011 for existing sources).	
* § 63.11173(a) through (d) for paint stripping operations, or § 63.11173(e) through (g) for surface coating operations	

Definitions (Note: other definitions are available in rule)

Spray-applied coating operations means activities that involve the application of coatings/paint using a hand-held device (ie. spray gun) that creates an atomized (spray) mist of coating and deposits the coating on (1) miscellaneous parts (unassembled) and/or products made of metal or plastic, or combinations of metal and plastic; or (2) motor vehicles (such as cars & trucks) and mobile equipment (such as heavy-duty trucks, truck trailers, buses, construction equipment, motor homes, self-propelled vehicles and equipment that may be drawn and/or driven on a roadway).

Coatings means paint or other materials containing target HAPs (compounds of Cr, Pb, Mn, Ni, or Cd) that are spray-applied to a substrate for decorative, protective, or functional purposes. This does not include the following materials: 1) those that consist only of protective oils for metal, acids, bases, or any combination of these substances, 2) paper film or plastic film that may be pre-coated with an adhesive by the film manufacturer, 3) Adhesives, sealants, maskants, or caulking materials, 4) temporary protective coatings, lubricants, or surface preparation materials, or 5) in-mold coatings that are spray-applied in the manufacture of reinforced plastic composite parts.

Miscellaneous surface coating operation means the collection of equipment used to apply surface coating to miscellaneous parts and/or products (unassembled parts) made of metal or plastic, including applying cleaning solvents to prepare the surface before coating application, mixing coatings before application, applying coating to a surface, drying or curing the coating after application, or cleaning coating application equipment, but not plating. The use of solvent to clean parts (for example, to remove grease during a mechanical repair) does not constitute a miscellaneous surface coating operation if no coatings are applied. Surface coatings applied to wood, leather, rubber, ceramics, stone, masonry, or substrates other than metal and plastic are not considered miscellaneous surface coating operations for the purposes of this subpart.
