Applicability Information

- 1) Does your facility perform spray-applied coating operations? **YES** **NO**
- Spray-applied coating operations means activities that involve the application of coatings using a hand-held device that creates an atomized mist of coating and deposits the coating on (1) miscellaneous parts and/or products made of metal or plastic, or combinations of metal and plastic; or (2) motor vehicles and mobile equipment (such as heavy-duty trucks, truck trailers, buses, construction equipment, motor homes, self-propelled vehicles and equipment that may be drawn and/or driven on a roadway).*
- Coatings means materials containing target HAPs (compounds of Cr, Pb, Mn, Ni, or Cd) that are spray-applied to a substrate for decorative, protective, or functional purposes. This does not include the following materials: 1) those that consist only of protective oils for metal, acids, bases, or any combination of these substances, 2) paper film or plastic film that may be pre-coated with an adhesive by the film manufacturer, 3) Adhesives, sealants, maskants, or caulking materials, 4) temporary protective coatings, lubricants, or surface preparation materials, or 5) in-mold coatings that are spray-applied in the manufacture of reinforced plastic composite parts.*
- 2) Does your facility do any paint stripping using methylene chloride (MeCl) ? **YES** **NO**
- Paint stripping means the removal of dried paint (including, but not limited to, paint, enamel, varnish, shellac, and lacquer) from wood, metal, plastic, or other substrates.*

If you answered “NO” to both Questions 1 and 2 above, Stop here and return this form to the address at the bottom of page 2; otherwise, please continue on page 2.

Operation Description

If you answered "Yes" to question 1 on Page 1 (Spray-Applied Coatings Operation):

- Do you have a Motor Vehicle or Mobile Equipment surface coating operation? YES NO
- Do you have a Miscellaneous Surface Coating operation(s)? YES NO
- How many spray booths do you have? _____
- How many preparation stations do you have? _____
- How many painters are usually employed at the operation? _____

Miscellaneous surface coating operation means the collection of equipment used to apply surface coating to miscellaneous parts and/or products made of metal or plastic, including applying cleaning solvents to prepare the surface before coating application, mixing coatings before application, applying coating to a surface, drying or curing the coating after application, or cleaning coating application equipment, but not plating. The use of solvent to clean parts (for example, to remove grease during a mechanical repair) does not constitute a miscellaneous surface coating operation if no coatings are applied. Surface coatings applied to wood, leather, rubber, ceramics, stone, masonry, or substrates other than metal and plastic are not considered miscellaneous surface coating operations for the purposes of this subpart.

If you answered "Yes" to question 2 on Page 1 (Paint Stripping Operation):

- What method(s) of paint stripping do you employ? Chemical Mechanical
 - What substrates do you strip? Wood Plastic Metal
 - How much MeCl do you currently use per year? _____
 - Do you plan to annually use more than one ton after the compliance date*? YES NO
- * The compliance date for existing sources is January 10, 2011.

When was the startup date of your affected source? _____ (Month, Day, Year)

Statement of Compliance

I, _____, certify that _____:
(Owner/Operator) (Facility/Business name)

_____ Is in compliance with each of the relevant requirements* of this subpart
[this initial notification also serves as the notification of compliance status (NOCS)].

_____ Is Not in compliance at this time.

* 40 CFR 63.11173(a) through (d) for paint stripping operations, or

* 40 CFR 63.11173(e) through (g) for surface coating operations

Signature: _____
