

DIVISION OF LEAKING UNDERGROUND STORAGE TANK (UST) SITES

INTRODUCTION:

UST Technical handles releases from UST systems. Staff are divided into two Technical Sections as follows:

I	Supervisor	Martha Martin	(601) 961-5058
	Project Manager	Dan Harper	(601) 961-5354
	Project Manager	April Cameron	(601) 961-5186
	Project Manager	Brittany Jamison	(601) 961-5063
II	Supervisor	Joseph Curro	(601) 961-5655
	Project Manager	Heather Pitts	(601) 961-5079
	Project Manager	John Traweek	(601) 961-5603

RELEASE REPORT:

New releases should be reported to Martha Martin or Joseph Curro. Once the release has been entered into the database, the leaking site will be transferred to the appropriate project manager.

DIVISION OF SITES:

The attached table lists past and present tank owners of leaking UST sites and their assigned UST Technical Project Manager. In general, one tank owner is assigned to the same project manager for multiple leaking sites, but may be assigned to more than one project manager if necessary. If there is no project manager listed, either the tank owner has no active leaking sites, or a project manager has not been assigned yet.
