**THE PERMIT BOARD CONSIDERED THE FOLLOWING OFFICE OF
POLLUTION CONTROL MATTERS:**

Agriculture Branch

**Peyton's Place Issuance of Coverage under the AFO General Permit
#MSG201826, Simpson County, Mississippi and Issuance of Large Construction
Storm Water Coverage Permit #MSR106924, Simpson County, Mississippi:**

Tracy Tomkins of the Environmental Permits Division advised the Board that Peyton's Place applied for coverage under the State of Mississippi AFO General Permit and for coverage under the State of Mississippi Large Construction Storm Water General Permit for operation of six poultry houses in Simpson County, Mississippi. MDEQ received one letter of concern from Mr. Jeffrey Harris about health risks associated with animal pollution. Both MDEQ's regional office and staff of MDEQ's Environmental Permits Division conducted pre-permitting inspections of the proposed facility and found the proposed facility met the regulatory siting criteria and would comply with all legal and regulatory requirements. Mr. Greg Dampeer, on behalf of his brother Jeffrey Harris and the Dampeer family, attended the meeting and stated his family's concerns. Mr. Dampeer specifically expressed his concerns with the health impacts that could be caused by the spread of the H5N2 virus (bird flu) from the northern states to poultry farms in the South.

The proposed permittee, Mr. Peyton Little, spoke in favor of the permit. Mr. Little stated that he intended to comply with the requirements of the permits. Mr. Little agreed, although not required by the regulations, to maintain the trees around the area of the broiler houses as a vegetative buffer between the facility and the surrounding property owners. Ms. Tomkins agreed to work with Mr. Little to establish an agreeable portion of the forested area surrounding his property as a non-binding agreement on a buffer zone which should help to mitigate some of the air emissions. Based on the proposed facility's compliance with the siting criteria, and compliance with all regulatory technical requirements, Ms. Tomkins stated staff's recommendation that the Permit Board issue the two permit coverages to Peyton's Place.

On motion by Jim Lipe and seconded by Jan Boyd, the Permit Board voted to accept the staff's recommendation to issue both permits.

Solid Waste Management and Mining Branch

**Waste Management of MS, Inc., Pecan Grove Landfill and Recycling Center
and Rubbish Site in Harrison County, Permit # MSU215001**

Mr. Charlie Bock of the Environmental Permits Division advised the Permit Board that Waste Management of MS, Inc., Pecan Grove Landfill and Recycling Center and Rubbish Site in Harrison County applied for issuance of State Operating Permit with no discharge for the Pecan Grove Landfill which is currently a permitted Municipal Solid Waste Landfill in Harrison County.

The facility is currently permitted to collect and transport all leachate offsite for disposal. This new permit would alternatively allow the onsite treatment and use of landfill leachate. MDEQ did not receive any public comments during the public notice period nor did it receive any comments at the public hearing MDEQ held on the matter on July 7, 2015. No visitors attended the public hearing. MDEQ staff determined that the permit application was complete and met all applicable requirements. Staff recommended that the Permit Board issue the permit.

On motion by Jim Lipe and seconded by Jan Boyd, the Permit Board voted to accept the staff's recommendation to issue the permit.

Surface Mining Applications:

Mr. James Matheny presented two W.S. Red Hancock surface mining applications to the Permit Board. Surface Mining Application A1913 proposes to mine 4 acres on consecutive point bars to a total depth of two feet for sand and gravel. Surface Mining Application A1914 proposes to open pit mine 13 total acres. Five acres will consist of four adjacent point bars mined to a total depth of two feet for sand and gravel. Eight acres will be outside of the creek channel and will be open pit mined to a total depth of 20 feet for borrow material. After several questions from the Permit Board, Mr. Matheny recommended issuance of the surface mining permits. He indicated that the applicant had satisfied the Office of Geology requirements for obtaining a surface mining permit. A motion was made by David Snodgrass to accept the staff's recommendation; no one seconded the motion. A motion to table the matter until the next Permit Board meeting was made by Ms. Leslie Royals to allow a further investigation into the impacts of the permits. Jim Hoffmann seconded the motion to table the matter and David Snodgrass opposed the motion.

Mr. Shannon Lowery was in attendance in support of the issuance of the surface mining permits. Mr. Lowery is the Health and Safety / Environmental Coordinator for W. S. Red Hancock. Mr. Lowery stated that he believes that all of

the application requirements and conditions for the permits have been met. During the public notice period the applicant addressed all of the concerns from the public and outside agencies. This included a "mussel survey" requested by the U.S. Fish and Wildlife Service, a "cultural resources survey" requested by the Mississippi Department of Archives and History, as well as an "ordinary high water determination" by the U.S. Army Corps of Engineers. Jim Lipe motioned to repeal the motion to table and David Snodgrass seconded the motion to allow Mr. Lowery and his consultant to discuss and confirmed the conditions of the permit. Jeremy Smith with FC&E Engineering was present and stated to the Permit Board that he had reviewed and approved the special conditions of the permits outlined by MDEQ. David Snodgrass motioned to accept the staff's recommendation to issue both of the surface mining permits. Jim Lipe seconded the motion and the Permit Board voted to issue the permits. Mike Bograd abstained on all motions.
