**THE PERMIT BOARD CONSIDERED THE FOLLOWING
OFFICE OF POLLUTION CONTROL MATTERS:**

Construction Building Material Branch

Huey P. Stockstill, LLC, Picayune Ready Mix and Asphalt Plant:

Michael Griffith of MDEQ's Environmental Permits Division presented Huey P. Stockstill, LLC's application for modification of its certificate of coverage under the Hot Mix Asphalt General Permit MSR 700098. The applicant sought to modify its coverage to add a 200-ton/hour electric rock crusher, powered by a 650-HP diesel-fired generator, to its facility. Visitors were present on behalf of Huey P. Stockstill, LLC. There were no other visitors present. Mr. Griffith recommended approval of the modification request.

On motion by Jim Lipe and seconded by Jan Boyd, the Permit Board voted to accept the staff's recommendation to issue the Modification.

Solid Waste Management and Mining Branch

Waste Management of Mississippi, Inc.; Prairie Bluff Sanitary Landfill and Recycling Center, Reissuance of Solid Waste Permit # SW009010B0302, Chickasaw County

Charlie Bock of MDEQ's Environmental Permits Division advised the Permit Board that the Waste Management of Mississippi, Inc., Prairie Bluff Sanitary Landfill requested reissuance of its Solid Waste Permit #SW009010B0302, Chickasaw County. Mr. Bock advised the Board that Waste management was not proposing any lateral or height expansion in its application for reissuance. Mr. Bock further advised the Permit Board that MDEQ conducted a public hearing regarding the requested reissuance to receive public comments; however, no one submitted any public comments. Mr. Bock stated that MDEQ's Environmental Compliance and Enforcement Division inspected the facility and found no violations. Mr. Bock recommended approval.

On motion by Jan Boyd and seconded by Jim Lipe, the Permit Board voted to accept the staff's recommendation to reissue the permit.

Agricultural Branch

GottaGoPoultry; Issuance of Coverage under the AFO General Permit #MSG201834, Copiah County, and Issuance of Large Construction Stormwater Coverage Permit #MSR106963, Copiah County.

Tracy Tomkins of the Environmental Permits Division advised the Permit Board that GottaGoPoultry applied for coverage under the State of Mississippi AFO General Permit and for coverage under the State of Mississippi Large Construction Storm Water General Permit in Copiah County. MDEQ received one letter of concern from Ms. Mona Jacob about potential health risks associated with animal pollution. There were no visitors in attendance. Ms. Tomkins stated that MDEQ had inspected the facility and concluded that the facility met the regulatory siting criteria. Ms. Tomkins recommended approval.

On motion by Jim Lipe and seconded by Dennis Riecke, the Permit Board voted to accept the staff's recommendation to issue both permits.

Solid Waste Policy, Planning and Grants Branch

Statewide General Permit for Biosolids Land Application Sites (SWGP-BLA)

Jennifer Milner, State Biosolids Coordinator with the Solid Waste Policy, Planning, and Grants Branch, and Mark Williams, Administrator of the Solid Waste Policy, Planning and Grants Branch of the Environmental Permits Division, proposed to the Permit Board that a General Permit be issued for Biosolids land application sites in the State of Mississippi that meet the siting criteria and operational standards established by the Mississippi Nonhazardous Solid Waste Management Regulations and the Federal 40 CFR 503 Standards for the Use and Disposal of Sewage Sludge. Ms. Milner stated that the proposed General Permit went to public notice in July 2015 and MDEQ held a public hearing on August 4, 2015.

The MDEQ staff addressed the Permit Board's questions regarding public notice, contiguous landowner notifications, and sampling requirements. DEQ has a 30 year history of issuing individual permits for these types of sites and DEQ will continue to issue individual permits for sites when the terms and conditions of the general permit would not address site specific issues. Mr. Williams stated that the disposal sites are typically agricultural and the biosolids actually have commercial value as fertilizer because of the nutrient values of this type of waste.

On motion by Jim Lipe and seconded by Jan Boyd, the Permit Board voted to accept the staff's recommendation to issue a Statewide General Permit for Biosolids Land Application Sites. Mr. Riecke voted against issuance. He added for the record: "It is our opinion that groundwater and surface water should be monitored and there should be adjacent landowner notifications."

OTHER BUSINESS

Mr. Roy Furrh informed the Permit Board that the Legal Department is working to modify the Public Records Regulations to incorporate changes in state law regarding copy cost and costs associated with staff time spent responding to such requests. The Mississippi Commission on Environmental Quality will consider whether to adopt the regulations; however, Mr. Furrh stated he would also send them to the Permit Board Members. MDEQ will have a public hearing in early October to receive public comments regarding the draft regulations.

Mr. Furrh also informed the Permit Board that the minute entry for the Special Permit Board Meeting of September 1-2, 2015, would be submitted to the Permit Board at its October 13, 2015, meeting. Mr. Furrh further stated legal staff would prepare proposed Findings of Fact, and Conclusions of Law ("FOFCOL") for the Permit Board to consider. Mr. Furrh anticipated presenting the proposed FOFCOL for the Board to consider at its November meeting; however, Mr. Furrh acknowledged the timing of the draft FOFCOL was largely dependent on when the Court Reporter could prepare and submit the hearing transcript.

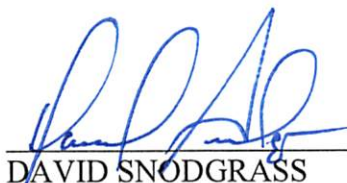

CONFIRMATION OF THE NEXT REGULAR PERMIT BOARD MEETING

David Snodgrass confirmed that the next Regular Meeting will be held on October 13, 2015.

MEETING ADJOURNED

There being no further business to come before the Permit Board, David Snodgrass adjourned the meeting.
