

MONITORING WELL SAMPLING RECORD

Facility:	Name:	Address:	ID#:
Sampling:	Company/Firm:	Personnel:	Date:

Monitoring Well Identification #					
---	--	--	--	--	--

1. STATIC GROUNDWATER DATA BEFORE SAMPLING

A. Depth to Well Bottom measured during this event (ft)					
B. Depth to Free Product (ft)					
C. Depth to Groundwater (ft)					
D. Groundwater Elevation (ft)					
E. Free Product Thickness [1B-1C] (ft)					
F. Volume of Groundwater in Well (gallons)					

2. WELL PURGING DATA

A. Purging Technique					
B. Minimum Well Volumes to be Purged (gallons)					
C. Actual Gallons Purged (Indicate if Purged Dry)					
D. Time Purging Completed					

3. WELL SAMPLING DATA (All information in this section should be measured and recorded after at least 75% of the original volume has recovered.)

A. Depth to Groundwater Before Collection of Samples (ft)					
B. Time the Depth Was Measured in 3A					
C. Volume of Groundwater in Well at Time of Sampling (gallons)					
D. Total Time for Recovery [3B-2D] (min)					
E. Estimated Rate of Recharge [3C/3D] (gallons/min)					
F. Water Level at 75% Recovery (ft)					
G. Well Diameter (inches)					
H. Relative Top of Casing Elevation (ft)
