**RE: COMMUNITY ENGAGEMENT PROGRESS REPORT MAY THROUGH JULY 2016,
KUHLMAN ELECTRIC CORPORATION CLEAN UP ACTIONS, CRYSTAL SPRINGS,
MISSISSIPPI**

Dear Ms. Collier:

This report provides a summary of community engagement actions taken for the Kuhlman Electric Corporation (KEC) environmental clean-up actions in Crystal Springs, Mississippi, as required by the Community Engagement Plan approved by the Mississippi Department of Environmental Quality (MDEQ) on July 17, 2012. This report will cover the period from May 2016 through and including July 2016. Future reports will continue to be provided quarterly.

KEC has continued to be actively engaged with the community. During this quarter, KEC with its consultants Environmental Management Services (EMS) and Caffee, Caffee and Associates (CCA) has updated and notified Crystal Spring's residents of remedial activities through community meetings, one-on-one dialogue, and the quarterly newsletters.

The following CAP milestone activities were initiated or continued during this reporting period.

- Soil Vapor Extraction System Operation and evaluation (ongoing).
- Capacity Plan Implementation –Potential replacement supply wells installation completed.
 - Testing of second permanent supply well completed.
 - Approval of first and second supply well (CSW-WA 9 and 10) received from MDOH.
 - Planning for supply well controls integration with City water distribution system underway.
 - Planning for new supply pipeline underway.

Progress in implementing the Community Engagement Plan as it relates to these specific milestones, above, is detailed in Table 1 (attached). There were no required activities that were not completed.

Several community relations actions are conducted on an as-needed basis, designed to meet the requests and needs of the public. The status of these actions is as follows:

Melissa McGee-Collier

July 29, 2016

Page 2

Points of Contact

The local contact is Lorraine Stoer, Managing Director for the ABB Crystal Springs facility.

Fact Sheets

Fact sheets are available on an ongoing basis, as requested from the public. Fact sheets available are:

- Soil Vapor Extraction
- Air Sparging
- Monitored Natural Attenuation
- Groundwater Corrective Action Plan

Media Releases and Briefings

There were no media releases or briefings.

Public Notices

There were no Public Notices required or completed.

Information Repository

The information repository is maintained by MDEQ online at <https://www.deq.state.ms.us> and at the Crystal Springs Public Library Information Desk, 200 South Jackson Street, Crystal Springs, MS. MDEQ adds approved documents and final reports only. During this reporting period, the following submittals were made:

- Semi-annual Groundwater Assessment Report (June 28,2016)

Local Briefings and telephone briefings

Caffee, Caffee and Associates, on behalf of KEC, has continued to hold several small group and individual meetings, as well as telephone conversations each month during the reporting period, including attendance at the Chamber of Commerce meetings. CCA has maintained communication and a presence in the community each month to reassure residents of KEC's community engagement efforts. Additionally, representatives held one-on-one talks with businesses and churches in Crystal Springs while hand delivering copies of the KEC newsletter (see Direct Mail below).

Melissa McGee-Collier

July 29, 2016

Page 3

Public Meeting, Open Houses and Small Group Meetings

CCA has continually offered updates through monthly small group meetings during the reporting period not including those who received newsletters (see Direct Mail below).

CCA and KEC also participated in the annual Tomato Festival. KEC had two booths – one for information and one misting tent. CCA spoke with and updated approximately 250 attendees. Attendees also had an opportunity to sign up to receive the quarterly newsletters.

Direct Mail

KEC continued to distribute copies of the quarterly newsletter. KEC also published the fifteenth edition of a quarterly newsletter, the Kuhlman Cleanup News in July 2016. Over 1500 newsletters will be distributed. Newsletters are delivered to more than 300 individuals, local businesses, and churches. Businesses and churches receive copies of the newsletter to ensure a broad distribution and that interested individuals have multiple locations to obtain a copy. This issue of the newsletter provided updates on the soil vapor extraction system, water quality monitoring, and new municipal supply well progress. A copy is attached.

Comment Period and Comment Responses

MDEQ has not notified KEC of any other public notice/comment periods required at this time.

Upcoming Activities

KEC will provide the next quarterly update in October 2016. Please do not hesitate to contact me with any questions you might have.

Sincerely,

Lorraine Stoer

Kuhlman Cleanup News

Newsletter on Kuhlman Environmental Cleanup in Crystal Springs, MS

PUBLIC WATER SUPPLY WELL UPDATE

We are excited to announce that the testing for a second new public water supply well is complete and the well has been approved by the Mississippi State Department of Health. There are now two new public water supply wells approved for use. The next step will be to integrate the wells into the existing City well operational schedule and distribution system.

The City water supply well project will also include new water pipelines from east of Crystal Springs. This is necessary due to the size of the existing underground piping. The new water line will tie into the existing piping arrangement and reduce the potential for leaks. We will work closely with the City to minimize the impact to private property and newly paved roads and streets.

We thank the City of Crystal Springs for their cooperation and assistance with this process.

PUBLIC DOCUMENTS REPOSITORY

Public documents referenced in the Newsletter are available at:

- Crystal Springs Library; and
- www.mdeq.state.ms.us.

WATER MONITORING

The semi-annual sampling of the groundwater monitoring wells was performed in March and a report was submitted to and approved by MDEQ.

Soil Vapor Extraction System

The SVE continues to operate at full capacity, successfully removing chemicals from the soil beneath the plant.

UPCOMING EVENTS

- Continued operation of the full scale Soil Vapor Extraction system
- Continued monitoring of existing public supply wells.
- Updating the well use survey.

FACT SHEETS AVAILABLE

We understand that the terms sometimes used in the newsletters and reports can be a little confusing. For this reason, we have fact sheets available that will describe the Soil Vapor Extraction process, Monitored Natural Attenuation and Groundwater Corrective Action Plan. Any of these fact sheets can be requested by contacting Caffee, Caffee and Associates (contact information in on the front of the newsletter).

QUESTIONS OR COMMENTS

Please submit questions or comments to Brenda Bell Caffee of Caffee, Caffee and Associates at 601-336-7212.

2016 ANNUAL TOMATO FESTIVAL

Kuhlman Electric Corporation participated in the annual Tomato Festival with two booths – an informational table and a misting tent. It is through these endeavors that we are able to keep the residents of Crystal Springs abreast of our remedial activities. We applaud the Kuhlman staff and all the community residents that participated in the 5K run. Good health to all!

Private Well Survey

The survey of private water wells that was performed a few years ago is being updated to determine if there have been any changes in the use of City water or groundwater. Survey crews may be seen in the neighborhood and residents may be asked for information related to any new or old wells. This survey is being taken to ensure the quality of the drinking water is protected. Your cooperation is appreciated.
