

December 22, 2010

Mr. Mark Williams, P.E. Administrator

MS. Dept. Of Environmental Quality

P.O. Box 2261

Jackson, MS 39225

Dear Mr. Williams:

See enclosed letters (6) signed by residents of Madison County who oppose the Bilberry North County Line Landfill.

Please contact me by phone (601-856-7971) or email ([sylviathomas81@yahoo.com](mailto:sylviathomas81@yahoo.com)) if you have questions.

Thank you.

Sylvia M. Thomas, President

North Livingston Homeowners Association

Mr. Mark Williams, P.E. Administrator  
MS Dept. of Environmental Quality  
P.O. Box 2261  
Jackson, MS 39225

Dear Mr. Williams:

I Sandra E. Lenoir strongly oppose the proposed North Countyline  
Bilberry Landfill in Madison County, MS.

I live in close proximity to the proposed site and as a resident in this community, property owner, parent/grandparent; I am adamantly opposed to a third landfill in Madison County. Our state currently has 18 counties with landfills (1 each county). Why does Madison County need three (3)? The Canton, MS landfill is grossly underutilized, now in Madison County. It appears the desire for a 3<sup>rd</sup> landfill is driven more by greed and not need.

The adverse impact on the health of community residents from airborne contaminants, devaluation of property, deterioration of our roads and the health of our residents compel me to request that you deny the permit for Madison County to proceed with this project.

I urge the decision makers to look at the problems caused by the Little Dixie site. Traffic from trucks to and from that site have caused our roads to be torn up, the air surrounding this site constantly has a foul odor and smell which attract stray animals, pests and critters.

**WE DO NOT WANT ANOTHER DEATH TRAP IN OUR COMMUNITY!**

**DENY THIS REQUEST BY MADISON COUNTY!**

Sincerely,

*Sandra E. Lenoir*  
154 Ledora Lane

I Arferia M. Thomas strongly oppose the proposed North Countyline  
Bilberry Landfill in Madison County, MS.

I live in close proximity to the proposed site and as a resident in this community, property owner, parent/grandparent; I am adamantly opposed to a third landfill in Madison County. Our state currently has 18 counties with landfills (1 each county). Why does Madison County need three (3)? The Canton, MS landfill is grossly underutilized, now in Madison County. It appears the desire for a 3<sup>rd</sup> landfill is driven more by greed and not need.

The adverse impact on the health of community residents from airborne contaminants, devaluation of property, deterioration of our roads and the health of our residents compel me to request that you deny the permit for Madison County to proceed with this project.

I urge the decision makers to look at the problems caused by the Little Dixie site. Traffic from trucks to and from that site have caused our roads to be torn up, the air surrounding this site constantly has a foul odor and smell which attract stray animals, pests and critters.

**WE DO NOT WANT ANOTHER DEATH TRAP IN OUR COMMUNITY!**

**DENY THIS REQUEST BY MADISON COUNTY!**

Sincerely,

Arferia M. Thomas
