Industrial Landfills:.....	35
Industrial and Institutional Rubbish Sites:	38

INTRODUCTION

The Mississippi Department of Environmental Quality (MDEQ) developed this status report to provide information on solid waste disposal activities that were conducted during Calendar Year 2003 at all permitted landfills and rubbish sites within the State of Mississippi. An annual report on the solid waste disposal activities conducted at each landfill and rubbish site in the state is due to MDEQ from the facility owner each year by February 28th. This status report provides summary information on the amounts of solid waste disposed at both commercial and non-commercial disposal facilities as listed below:

Part I - Commercial Solid Waste Disposal Facilities

Part I of this report contains a summary report on disposal activities conducted at commercial disposal facilities in the state. A commercial solid waste disposal facility means any facility that is engaged in the disposal of solid waste for compensation or which accepts waste from more than one generator not owned by the facility owner. Commercial solid waste disposal facilities include:

- Municipal Solid Waste (MSW) Landfills
- Non-Municipal Solid Waste (non-MSW) Landfills
- Class I and Class II Rubbish Sites

Part II - Non-Commercial Solid Waste Disposal Facilities

Part II of this report contains a summary report on disposal activities conducted at non-commercial disposal facilities. A non-commercial solid waste disposal facility means a facility that receives solid waste from one generator and where the disposal facility is not operated for compensation. Non-commercial solid waste disposal facilities include:

- Industrial Landfills
- Industrial and Institutional Rubbish Sites

This status report contains information that may be utilized by local government officials and/or solid waste decision makers, disposal facility owners and operators, state agencies and other organizations. The information provided includes the following:

1. The total amount of waste received at each permitted solid waste disposal facility as reported by the facility owners/operators;
2. An estimated remaining life at solid waste disposal facilities as reported by the facility owners/operators; and
3. State maps showing the approximate geographic locations of each disposal facility.

Copies of this report will be provided to local government officials and/or solid waste decision makers to assist them in planning for the management of solid wastes in their jurisdictions. A copy of this status report will also be provided to the Mississippi State Tax Commission for

verification of the information that the State Tax Commission receives from commercial facility owners/operators each year.

The annual reports indicate that a total of approximately 6,938,655 tons of solid waste was disposed during Calendar Year 2003 at commercial and non-commercial landfills and rubbish sites in Mississippi. Approximately 44% of the total waste was disposed at commercial landfills, 45% at non-commercial landfills, 11% at commercial rubbish sites, and 0.28% was disposed at non-commercial rubbish sites (see Figure: 1 below).

Figure: 1

This status report also indicates that Mississippi received a total of 743,179 tons of solid waste from out-of-state sources representing 11% of the total solid waste that was disposed in Mississippi during Calendar Year 2003. Commercial landfills received approximately 624,956 tons and commercial rubbish sites received approximately 118,223 tons of out-of-state waste.

The information on the total amount of wastes received in tons/year at landfills and rubbish sites has not been verified or altered by the MDEQ for accuracy. For additional information on this Status Report or to review the individual facility annual reports, please contact:

Mr. Pradip Bhowal, Environmental Administrator

PART I
COMMERCIAL SOLID WASTE DISPOSAL FACILITIES

Municipal Solid Waste (MSW) Landfills

Municipal Solid Waste (MSW) Landfills are disposal facilities that are designed and constructed to receive a wide range of nonhazardous solid wastes for disposal including household garbage, nonhazardous industrial wastes, and special wastes such as asbestos or treated medical wastes. There were seventeen (17) MSW landfills that operated during Calendar Year 2003. According to the annual reports submitted by the owners/operators, these landfills received a total of 2,979,490 tons of solid waste during Calendar Year 2003.

The annual report on the solid waste disposal activities conducted at each MSW landfill is required by the Mississippi Code Annotated Section 17-17-219 (Supp. 2003) and Section IV.B.14 of the Mississippi Nonhazardous Waste Management Regulations. This report contains a summary of these individual facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the approximate geographic locations of all MSW landfills;
2. A summary of operational information contained in the individual annual reports for Calendar Year 2003 for MSW landfills; and
3. Individual state maps for the 17 active MSW landfills including geographic locations, the geographic areas serviced with the amount of wastes received in tons/year, and other pertinent information.

The Overall Trend in Disposal of Waste at MSW Landfills in Mississippi

Data in the 2003 Status Report on Solid Waste Disposal Facilities indicates that Mississippi landfills continue to receive an increasing amount of municipal solid waste for disposal (see Figure: 2 below).

Figure: 2

Comparing the disposal rates from Figure: 2 above for municipal solid waste during the years 2000, 2001, 2002, and 2003 yields the following information:

Total waste received at MSW landfills

- 2,570,879 tons during 2000
- 2,808,684 tons during 2001
- 2,877,376 tons during 2002
- 2,979,490 tons during 2003

Over this four-year period, the amount of waste coming to MSW landfills in Mississippi increased from 2.57 million tons to 2.98 million tons (by about 16%).

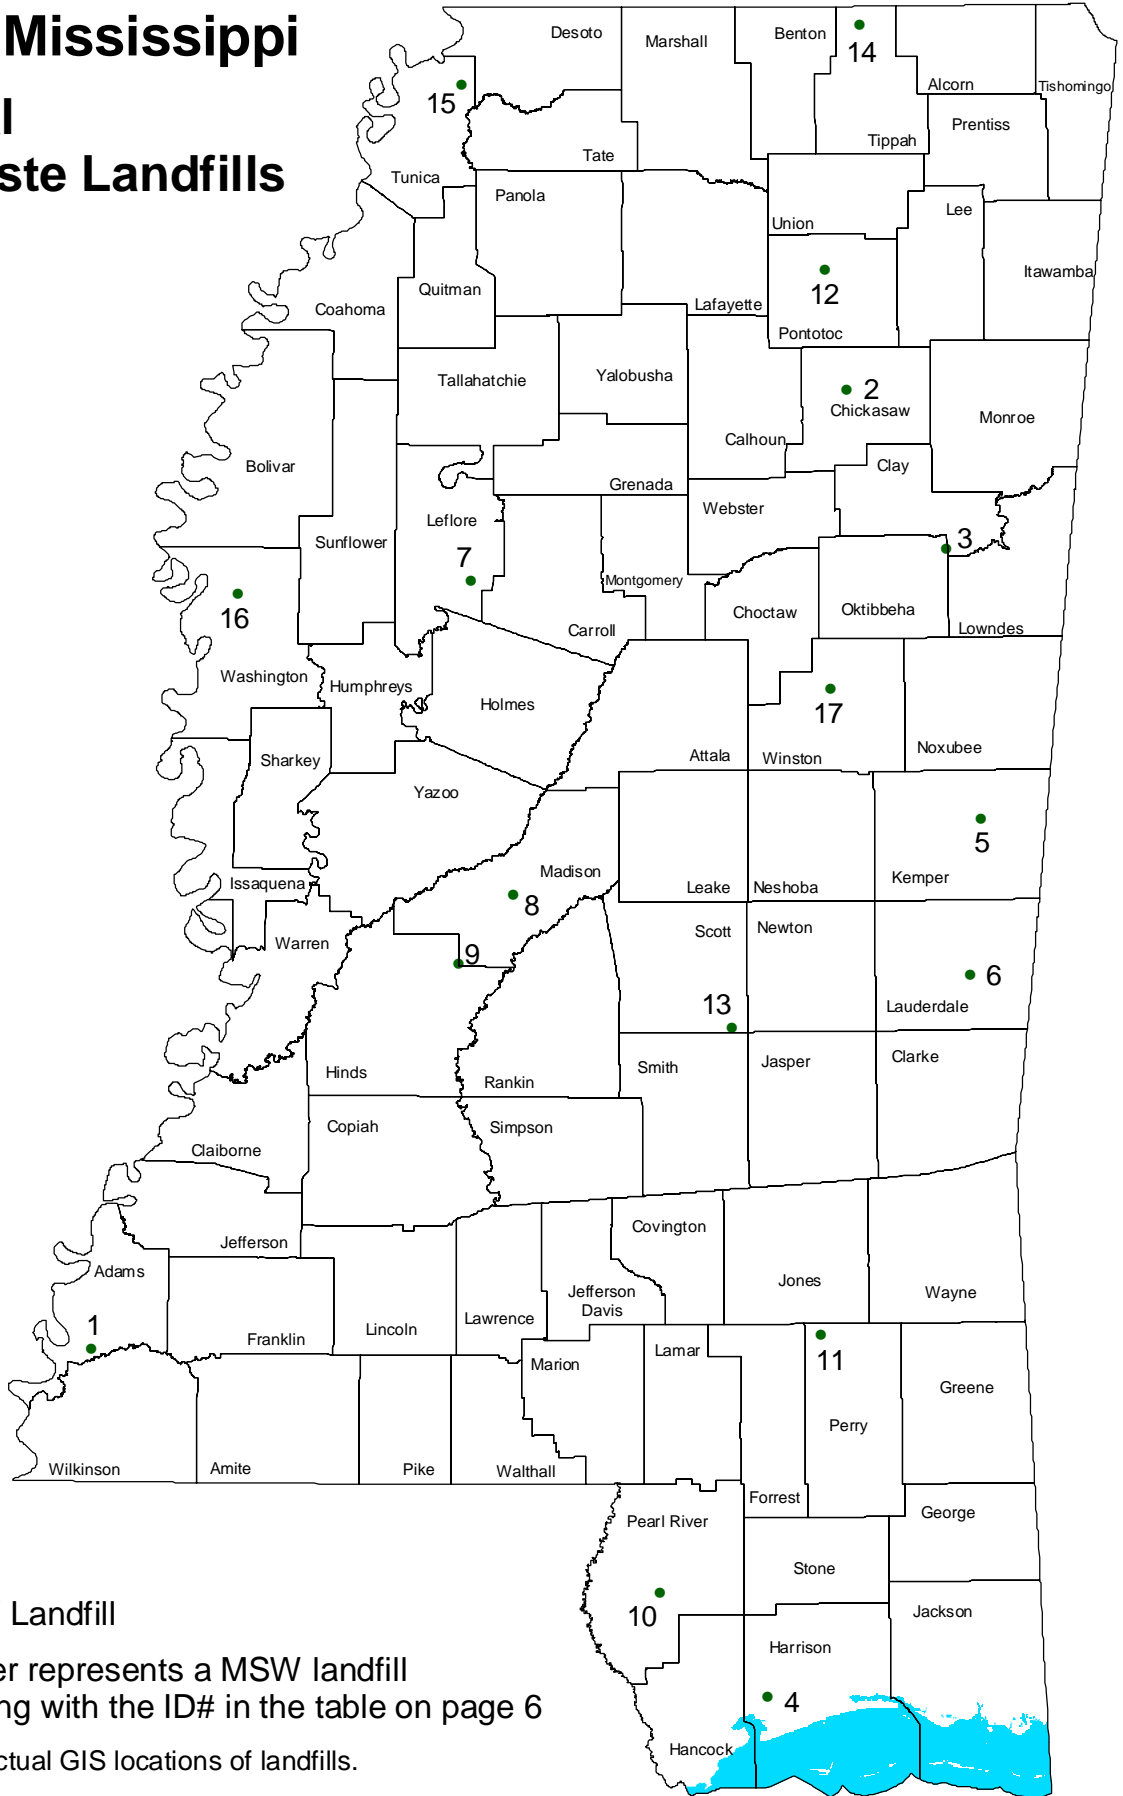

Out-of-state waste received at MSW landfills

- 334,365 tons of out-of-state waste received during 2000
- 466,399 tons of out-of-state waste received during 2001
- 537,504 tons of out-of-state waste received during 2002
- 579,752 tons of out-of-state waste received during 2003

Over this four-year period, the amount of out-of-state waste coming to MSW landfills in Mississippi increased from 0.34 million tons to 0.58 million tons (by about 70%).

Safe Disposal, Inc.

- Active Landfill GIS Location
32° 47' 53.6" N
88° 34' 21.4" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

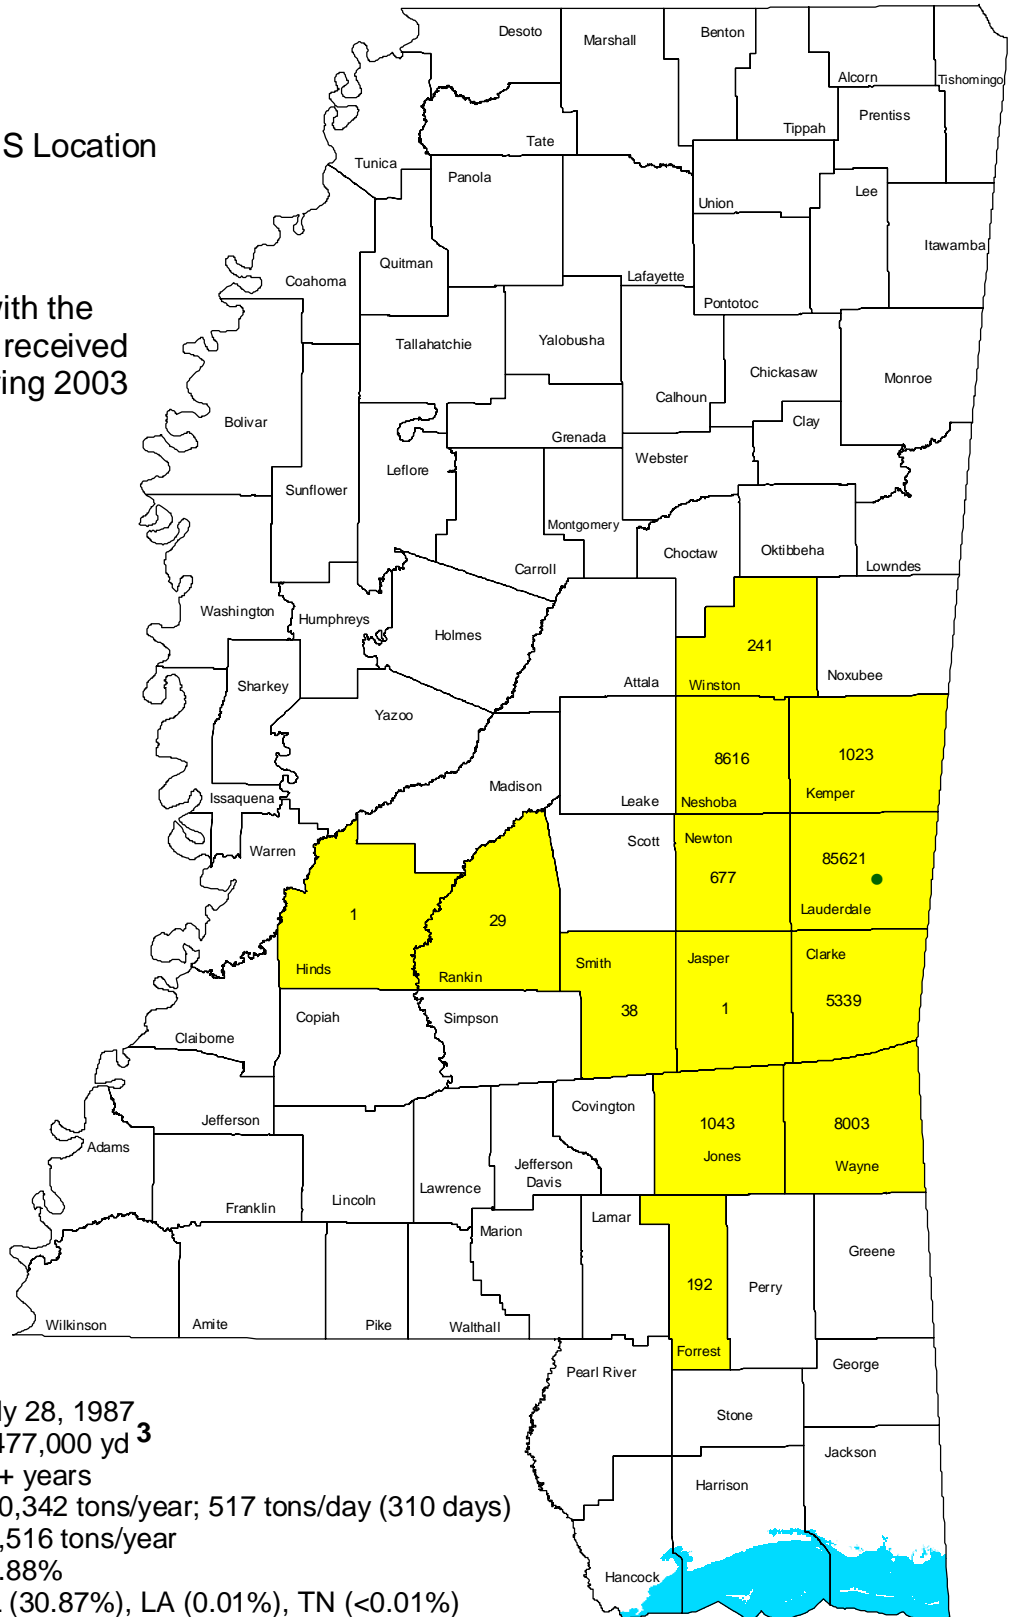

Permit Issuance Date: April 12, 1994
 Permitted Airspace: 445,850 yd³
 Remaining Life: 5 years
 Waste: 20,764 tons/year; 67 tons/day (310 days)
 Out-of-State Waste: 569 tons/year
 % Out-of-State Waste: 2.74%
 Other States Serviced: AL (2.74%)

PINE RIDGE SANITARY LANDFILL

Waste Management of Mississippi, Inc.

- Active Landfill GIS Location
32° 22' 31.3" N
88° 36' 36.8" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

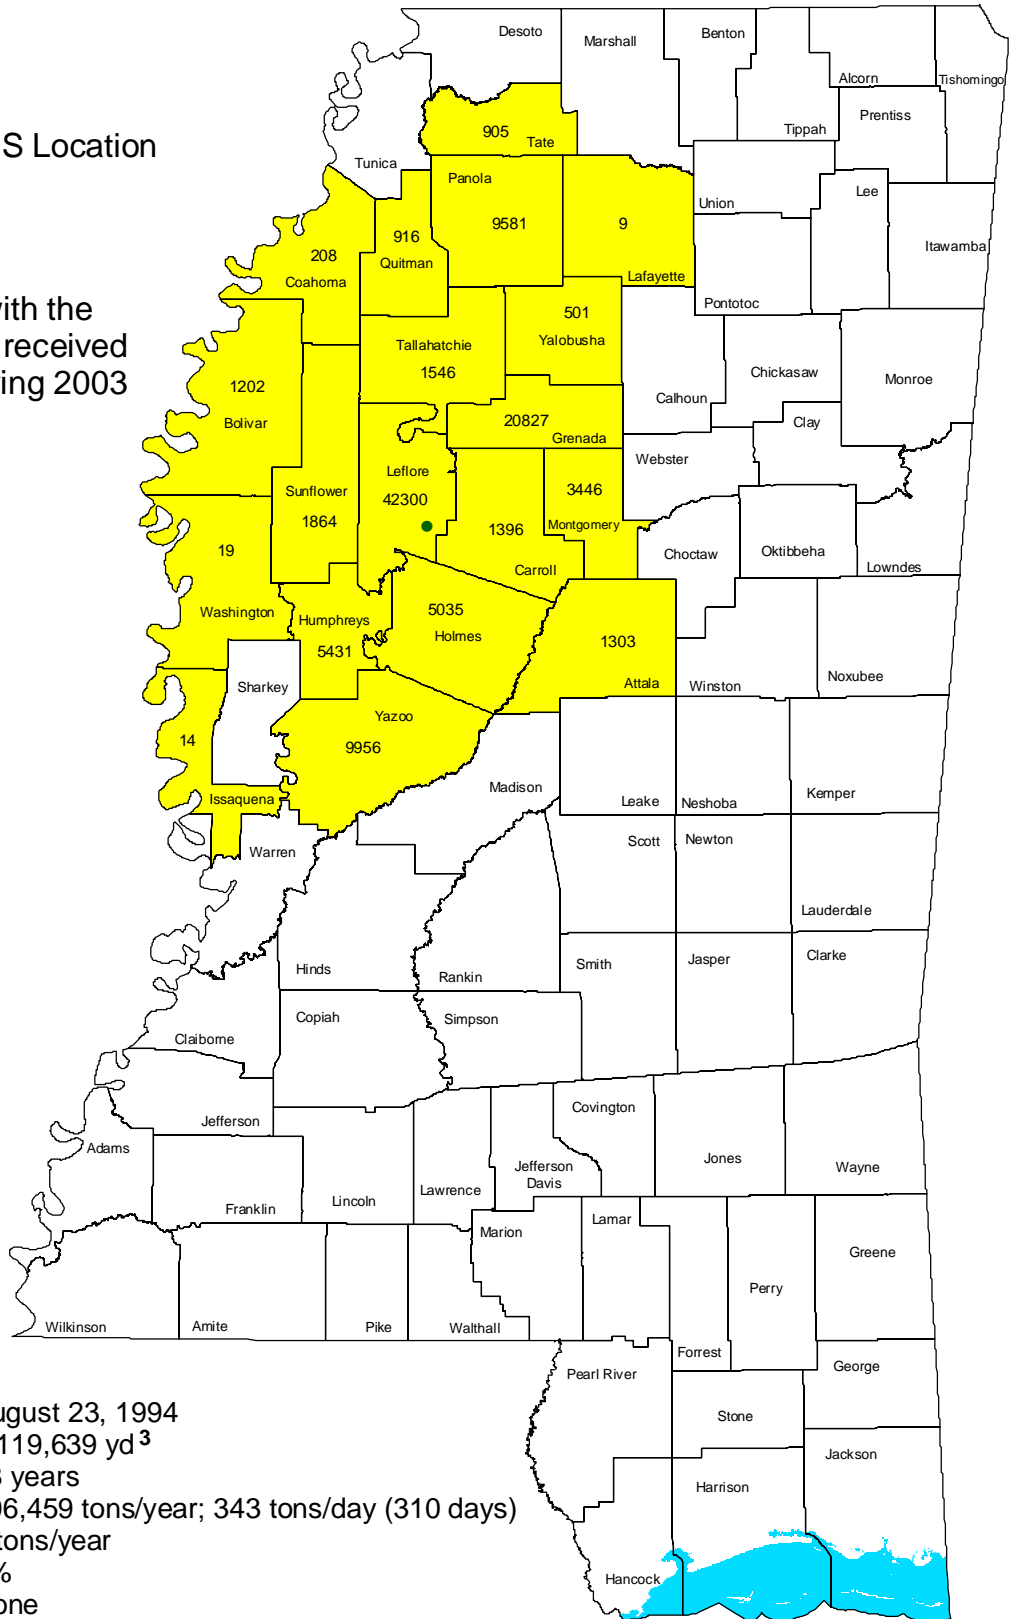

Permit Issuance Date: July 28, 1987
 Permitted Airspace: 9,477,000 yd³
 Remaining Life: 20+ years
 Waste: 160,342 tons/year; 517 tons/day (310 days)
 Out-of-State Waste: 49,516 tons/year
 % Out-of-State Waste: 30.88%
 Other States Serviced: AL (30.87%), LA (0.01%), TN (<0.01%)

LEFLORE COUNTY MUNICIPAL SOLID WASTE LANDFILL

Leflore County Board of Supervisors/ Santek Environmental of Mississippi, LLC

- Active Landfill GIS Location
33° 26' 44.0" N
90° 12' 28.0" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

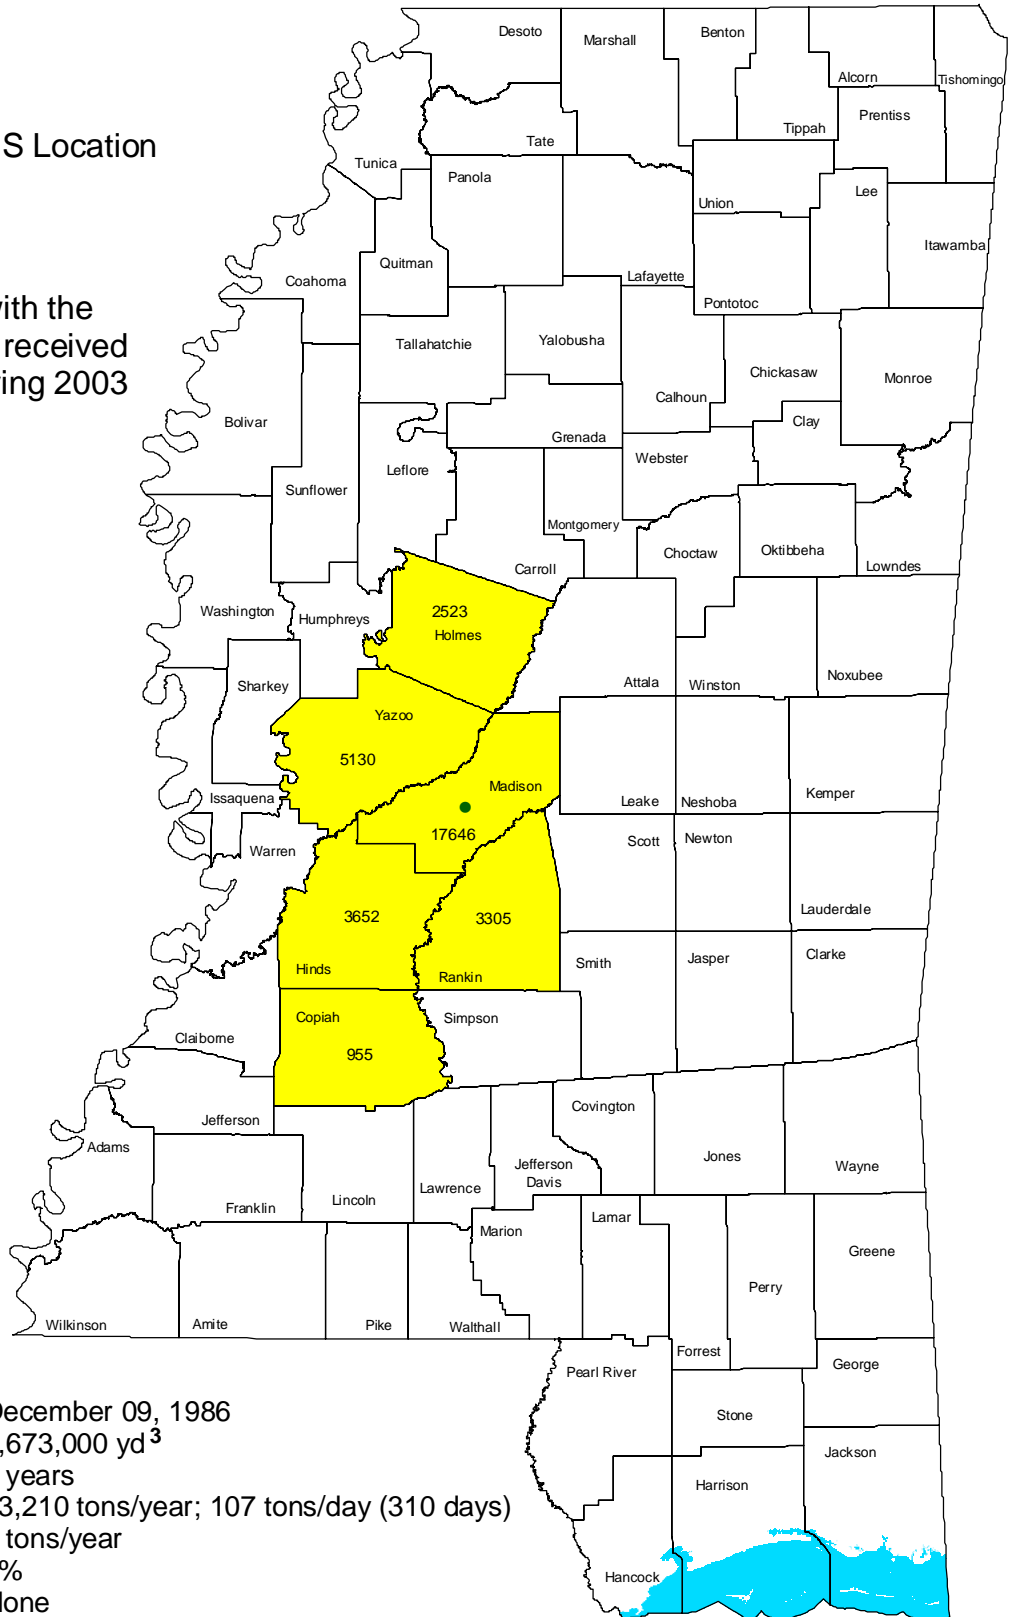

Permit Issuance Date: August 23, 1994
 Permitted Airspace: 4,119,639 yd³
 Remaining Life: 18 years
 Waste: 106,459 tons/year; 343 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

CANTON SANITARY LANDFILL

City of Canton

- Active Landfill GIS Location
32° 35' 49.2" N
90° 03' 59.3" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

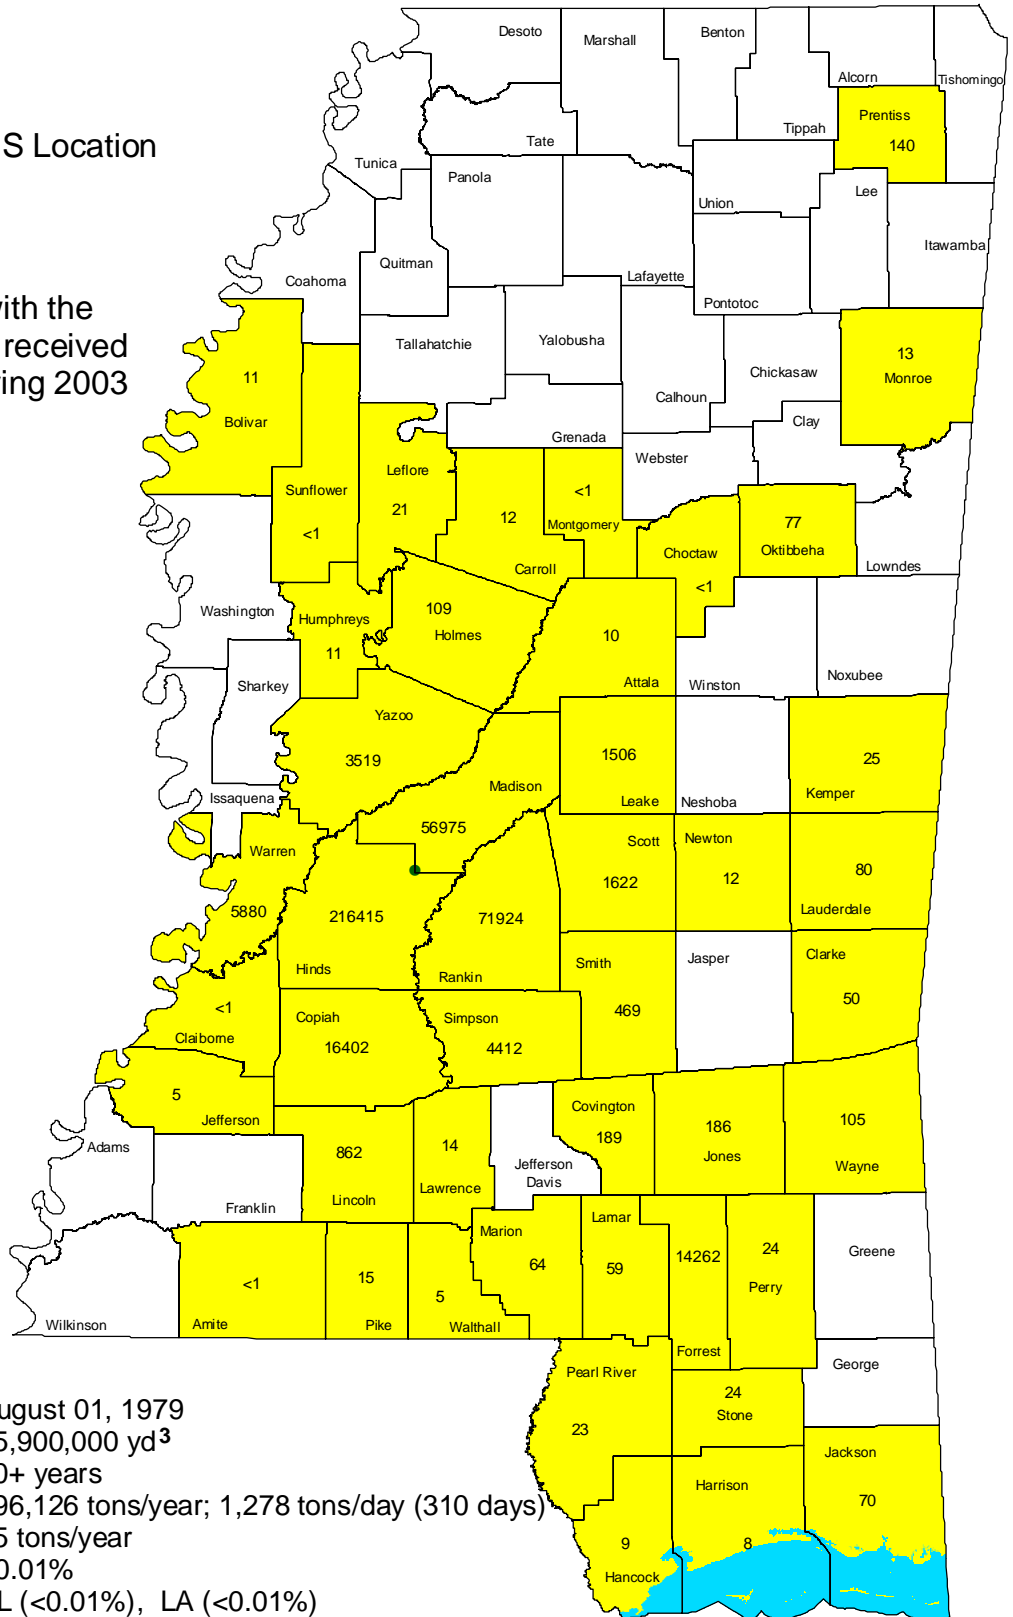

Permit Issuance Date: December 09, 1986
 Permitted Airspace: 1,673,000 yd³
 Remaining Life: 7 years
 Waste: 33,210 tons/year; 107 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

LITTLE DIXIE LANDFILL

BFI Waste Systems of North America, Inc.

- Active Landfill GIS Location
32° 24' 31.6" N
90° 14' 35.7" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

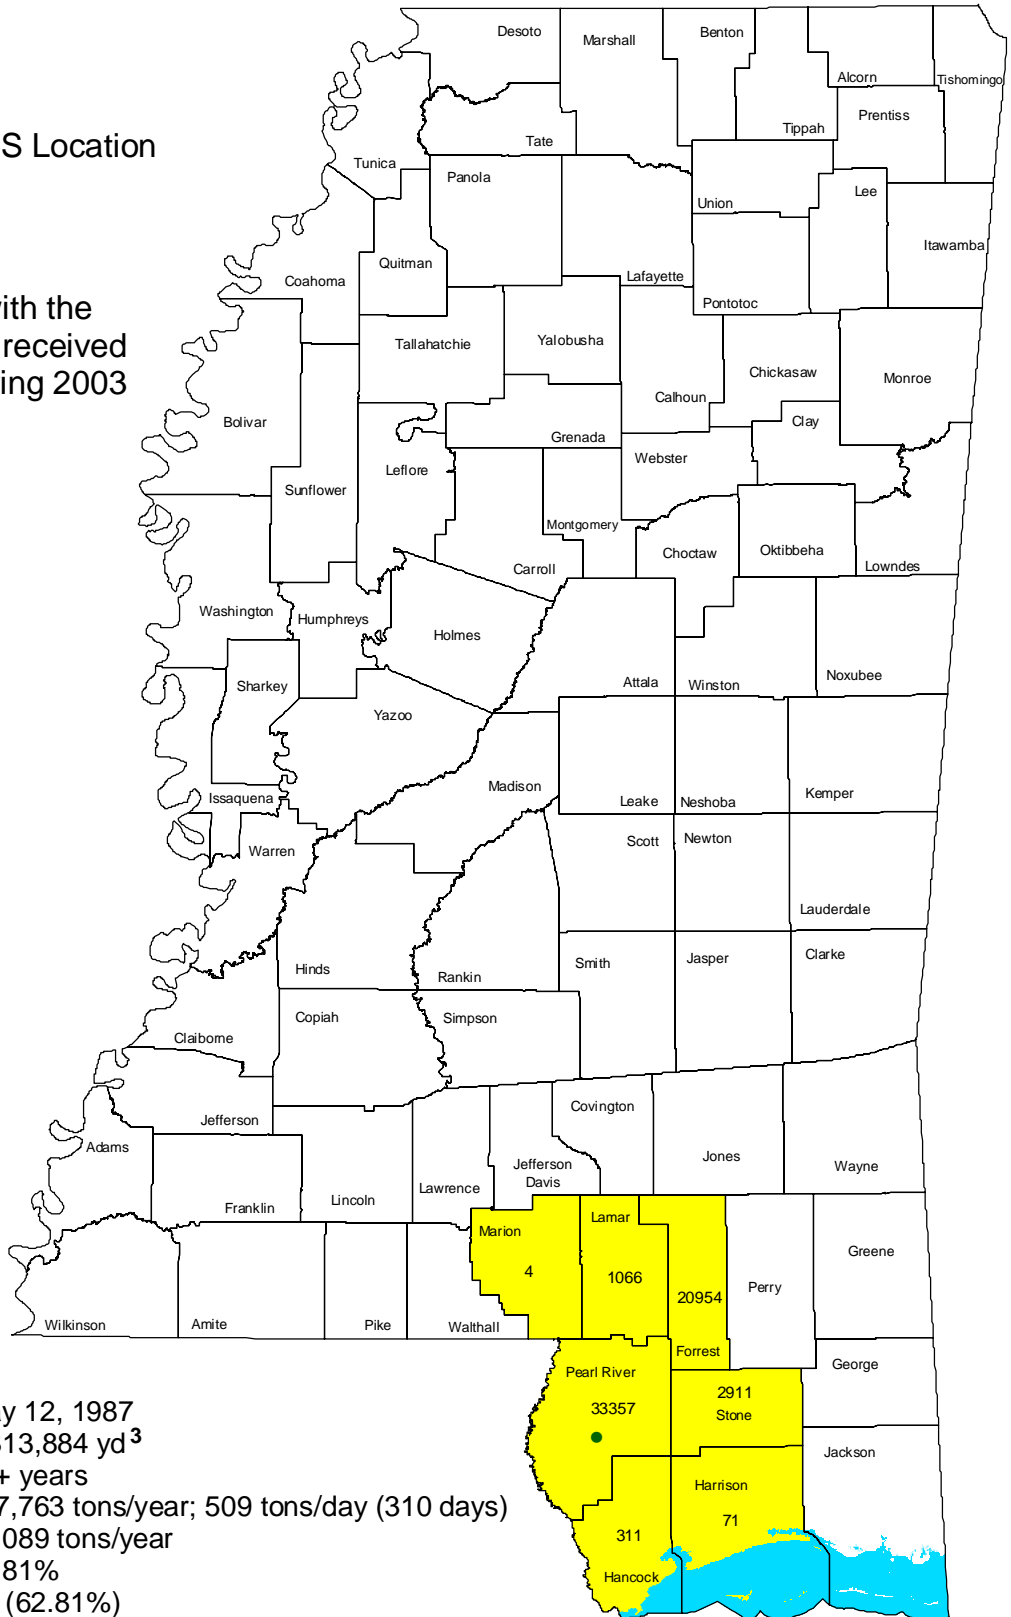

Permit Issuance Date: August 01, 1979
 Permitted Airspace: 25,900,000 yd³
 Remaining Life: 20+ years
 Waste: 396,126 tons/year; 1,278 tons/day (310 days)
 Out-of-State Waste: 25 tons/year
 % Out-of-State Waste: <0.01%

CLEARVIEW ENVIRONMENTAL CONTROL FACILITY

Chambers of Mississippi, Inc.

- Active Landfill GIS Location
32° 14' 07.3" N
89° 22' 20.2" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

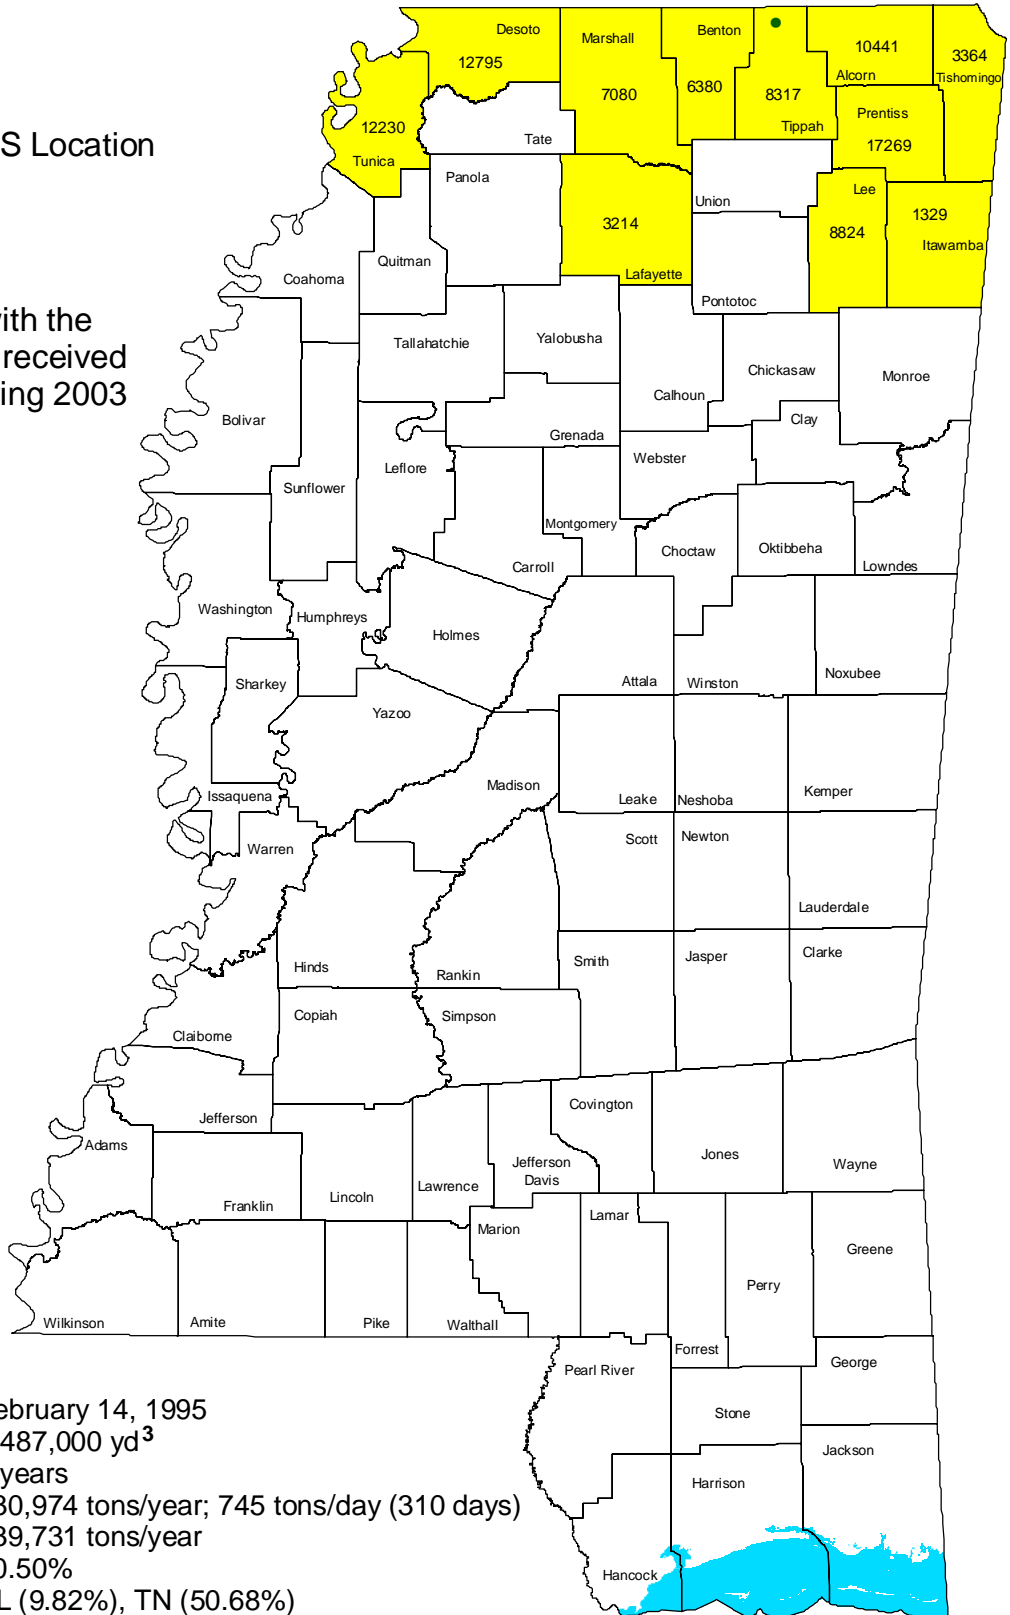

Permit Issuance Date: November 28, 1989
 Permitted Airspace: 19,700,000 yd³
 Remaining Life: 20+ years
 Waste: 318,887 tons/year; 1,029 tons/day (310 days)
 Out-of-State Waste: 536 tons/year
 % Out-of-State Waste: 0.17%
 Other States Serviced: AL (0.17%)

NORTHEAST MISSISSIPPI REGIONAL LANDFILL

Northeast Mississippi Solid Waste Management Authority/Waste Services, Inc.

- Active Landfill GIS Location
34° 56' 51.7" N
88° 56' 15.9" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

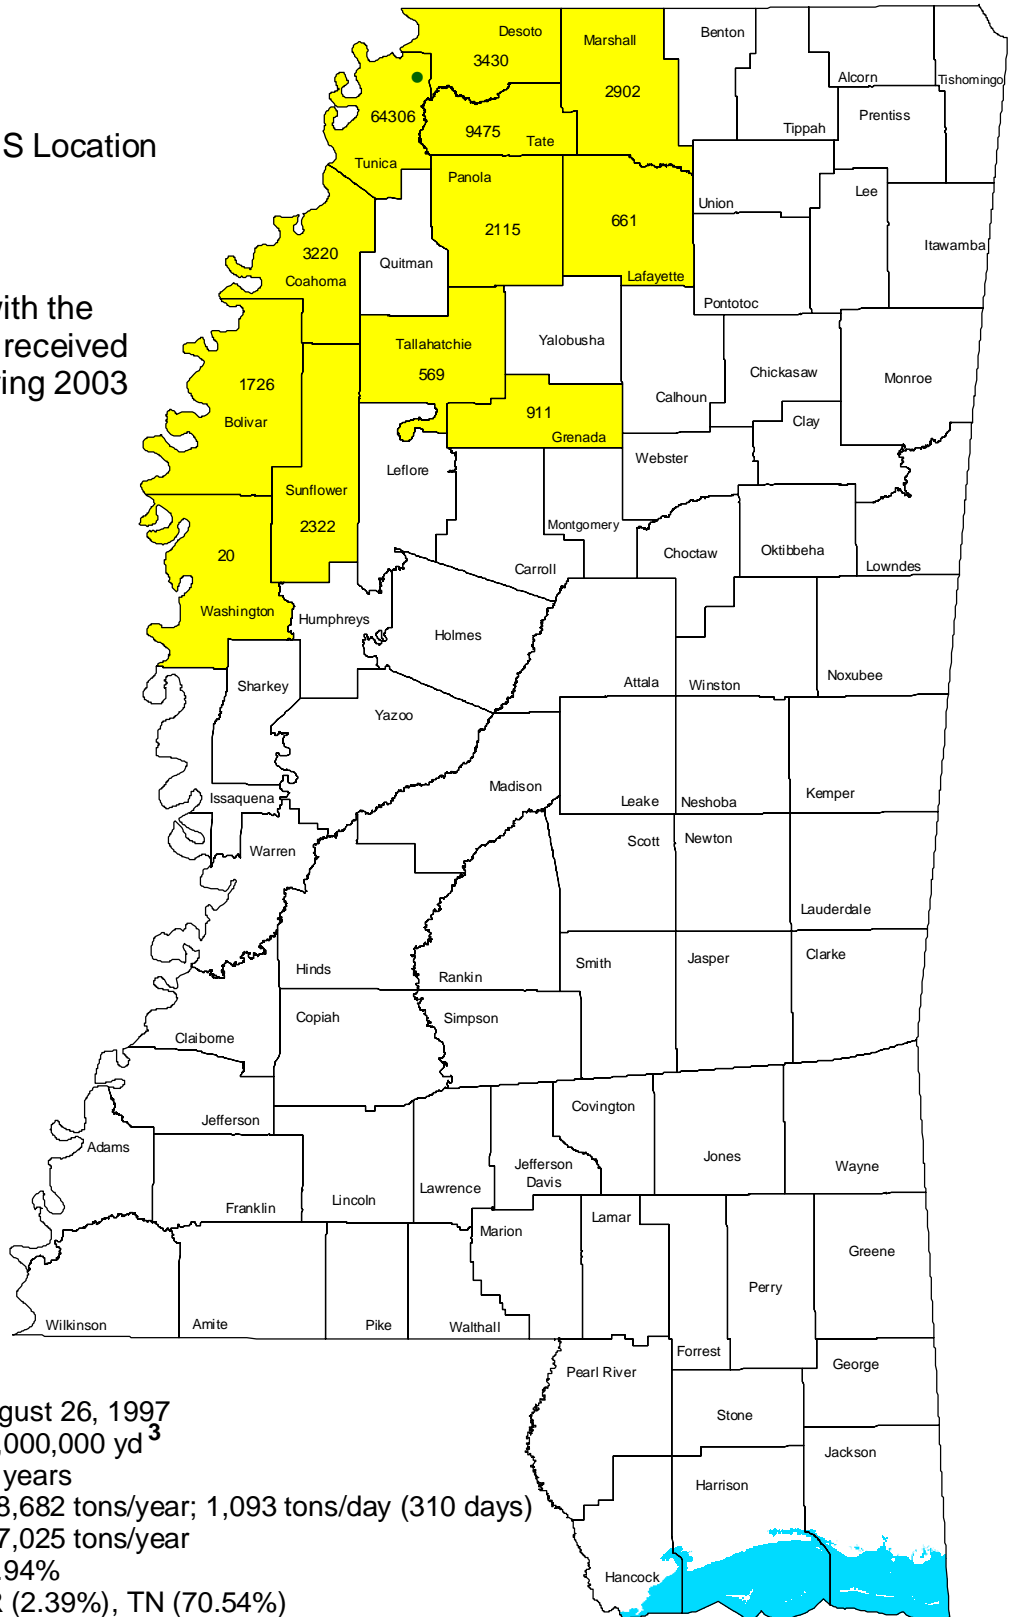

Permit Issuance Date: February 14, 1995
 Permitted Airspace: 6,487,000 yd³
 Remaining Life: 2 years
 Waste: 230,974 tons/year; 745 tons/day (310 days)
 Out-of-State Waste: 139,731 tons/year
 % Out-of-State Waste: 60.50%
 Other States Serviced: AL (9.82%), TN (50.68%)

TUNICA COUNTY LANDFILL

Trash Hunters of Tunica, Inc. (A Wholly Owned Subsidiary of USA Waste Services, Inc.)

- Active Landfill GIS Location
34° 47' 15.6" N
90° 14' 53.9" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

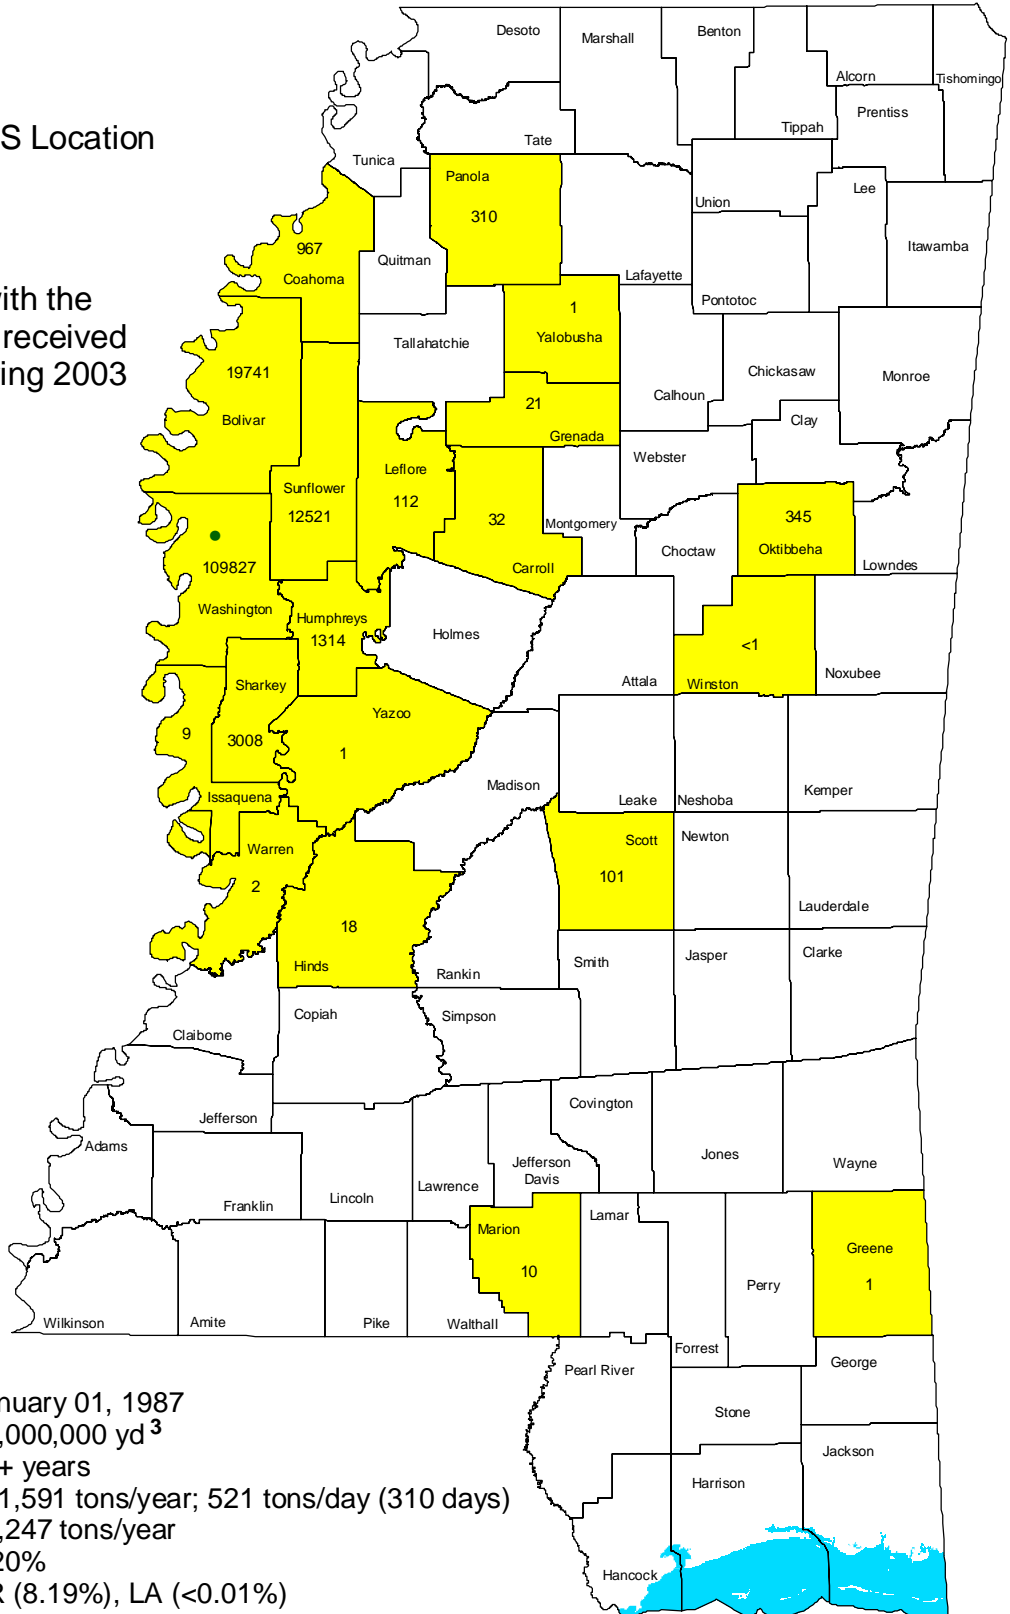

Permit Issuance Date: August 26, 1997
 Permitted Airspace: 16,000,000 yd³
 Remaining Life: 17 years
 Waste: 338,682 tons/year; 1,093 tons/day (310 days)
 Out-of-State Waste: 247,025 tons/year
 % Out-of-State Waste: 72.94%
 Other States Serviced: AR (2.39%), TN (70.54%)

BIG RIVER LANDFILL

BFI Waste Systems of North America, Inc.

- Active Landfill GIS Location
33° 24' 22.7" N
90° 57' 38.3" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

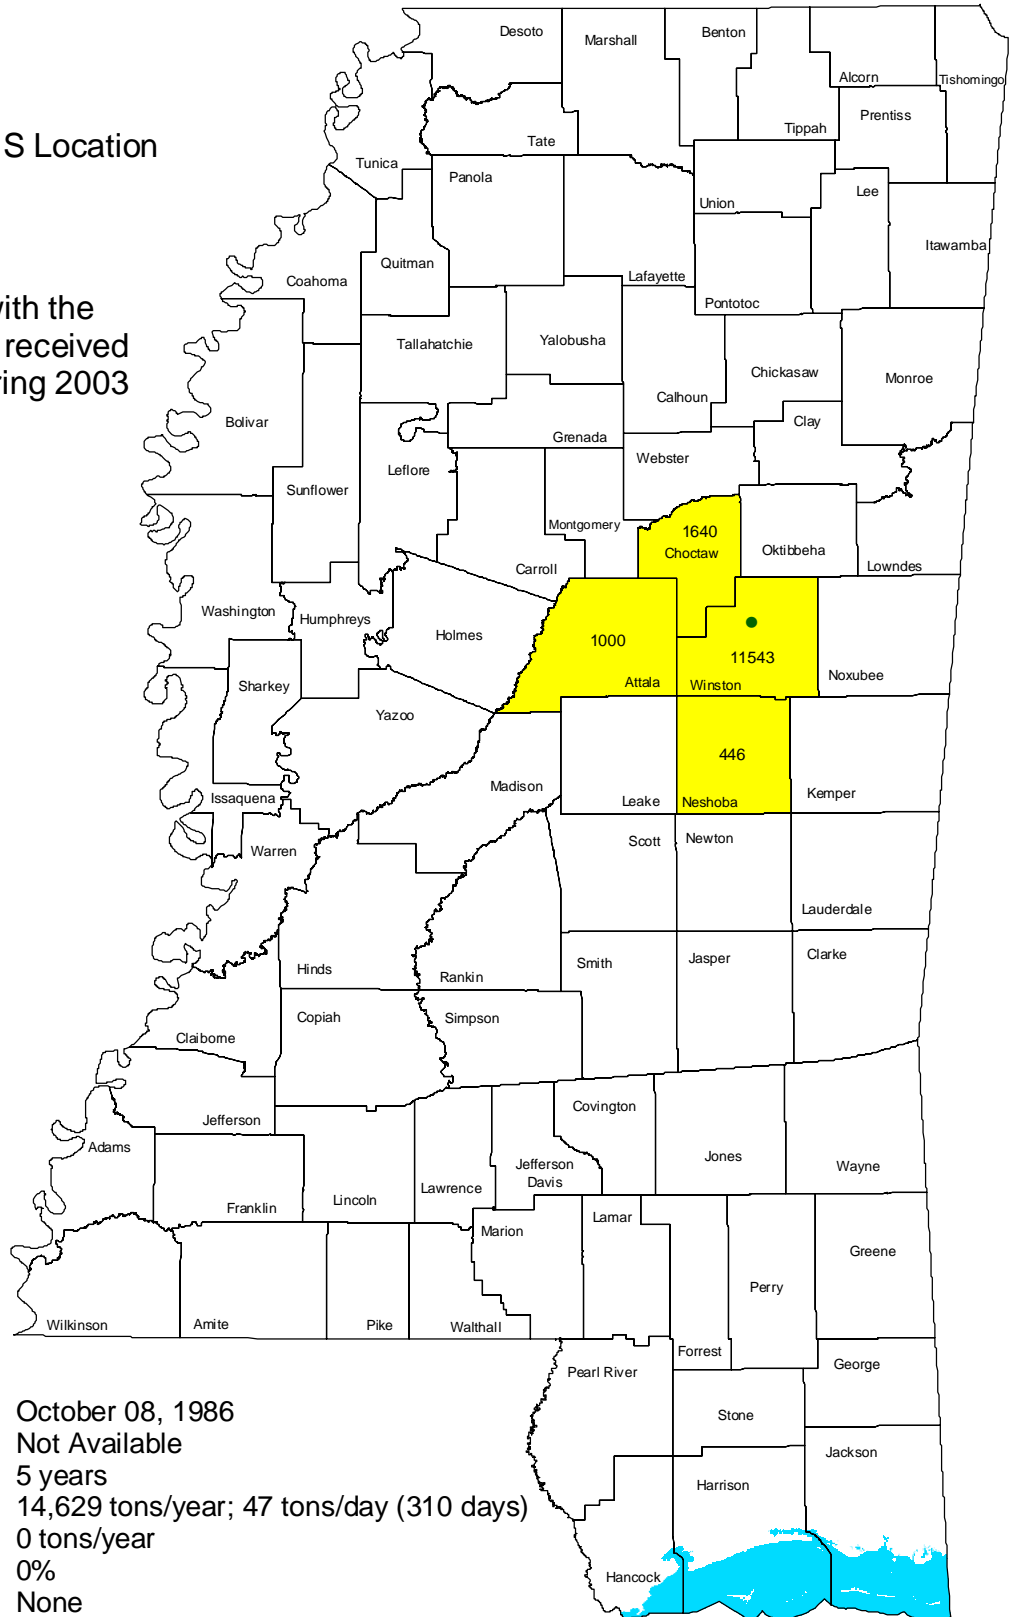

Permit Issuance Date: January 01, 1987
 Permitted Airspace: 16,000,000 yd³
 Remaining Life: 20+ years
 Waste: 161,591 tons/year; 521 tons/day (310 days)
 Out-of-State Waste: 13,247 tons/year
 % Out-of-State Waste: 8.20%
 Other States Serviced: AR (8.19%), LA (<0.01%)

CITY OF LOUISVILLE SOLID WASTE LANDFILL

City of Louisville

- Active Landfill GIS Location
33° 09' 09.4" N
89° 03' 03.5" W

- Areas serviced with the amount of waste received (in tons/year) during 2003

Permit Issuance Date: October 08, 1986
 Permitted Airspace: Not Available
 Remaining Life: 5 years
 Waste: 14,629 tons/year; 47 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

PART I
COMMERCIAL SOLID WASTE DISPOSAL FACILITIES

Non-Municipal Solid Waste (Non-MSW) Landfills

Non-Municipal Solid Waste (non-MSW) Landfills are disposal facilities that are designed and constructed to receive a limited range of nonhazardous solid wastes, such as industrial sludges and ashes, and special wastes, such as asbestos, for disposal. These landfills generally received waste from either one primary industrial source or received one primary waste stream. These facilities are not authorized to accept household garbage or other similar wastes. There were six (6) permitted non-MSW landfills that operated during Calendar Year 2003. One (1) of these six (6) landfills did not report. According to the annual reports submitted by the owners/operators, the remaining five (5) landfills received a total of 83,829 tons of solid waste during Calendar Year 2003.

The annual report on the solid waste disposal activities conducted at each non-MSW landfill is required by the Mississippi Code Annotated Section 17-17-219 (Supp. 2003) and Section IV.B.14 of the Mississippi Nonhazardous Waste Management Regulations. This report contains a summary of these individual facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the approximate geographic locations of all non-MSW landfills; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2003 for non-MSW landfills.

PART I

COMMERCIAL SOLID WASTE DISPOSAL FACILITIES

Class I and Class II Rubbish Sites

Class I and Class II Rubbish Sites are facilities that are designed and constructed to receive rubbish wastes from a variety of sources for disposal. Rubbish is a subset of the overall municipal solid waste stream generated in the State of Mississippi. A significant amount of rubbish wastes are managed and disposed of each year at commercial rubbish disposal facilities across the state.

There were eighty-one (81) permitted commercial class I rubbish sites, nine (9) of which were inactive during Calendar Year 2003. Also, five (5) sites did not report. According to the annual reports submitted by the owners/operators, a total of 703,416 tons of rubbish wastes were disposed of at the remaining sixty-seven (67) class I rubbish sites during Calendar Year 2003.

In addition, there were seventy (70) permitted commercial class II rubbish sites, twenty (20) of which were inactive during Calendar Year 2003. Also, six (6) sites did not report. According to the annual reports submitted by the owners/operators, a total of 51,510 tons of rubbish wastes were disposed of at the remaining forty-four (44) class II rubbish sites during Calendar Year 2003.

Class I rubbish sites may accept all solid wastes that are defined as rubbish wastes. These wastes generally include the following information:

- construction and demolition debris;
- brick, mortar, concrete, stone, and asphalt;
- cardboard;
- natural vegetation;
- appliances which have had the motor removed (except refrigerators);
- furniture;
- plastic, glass, crockery, and metal (except containers); and
- sawdust, wood shavings, and wood chips.

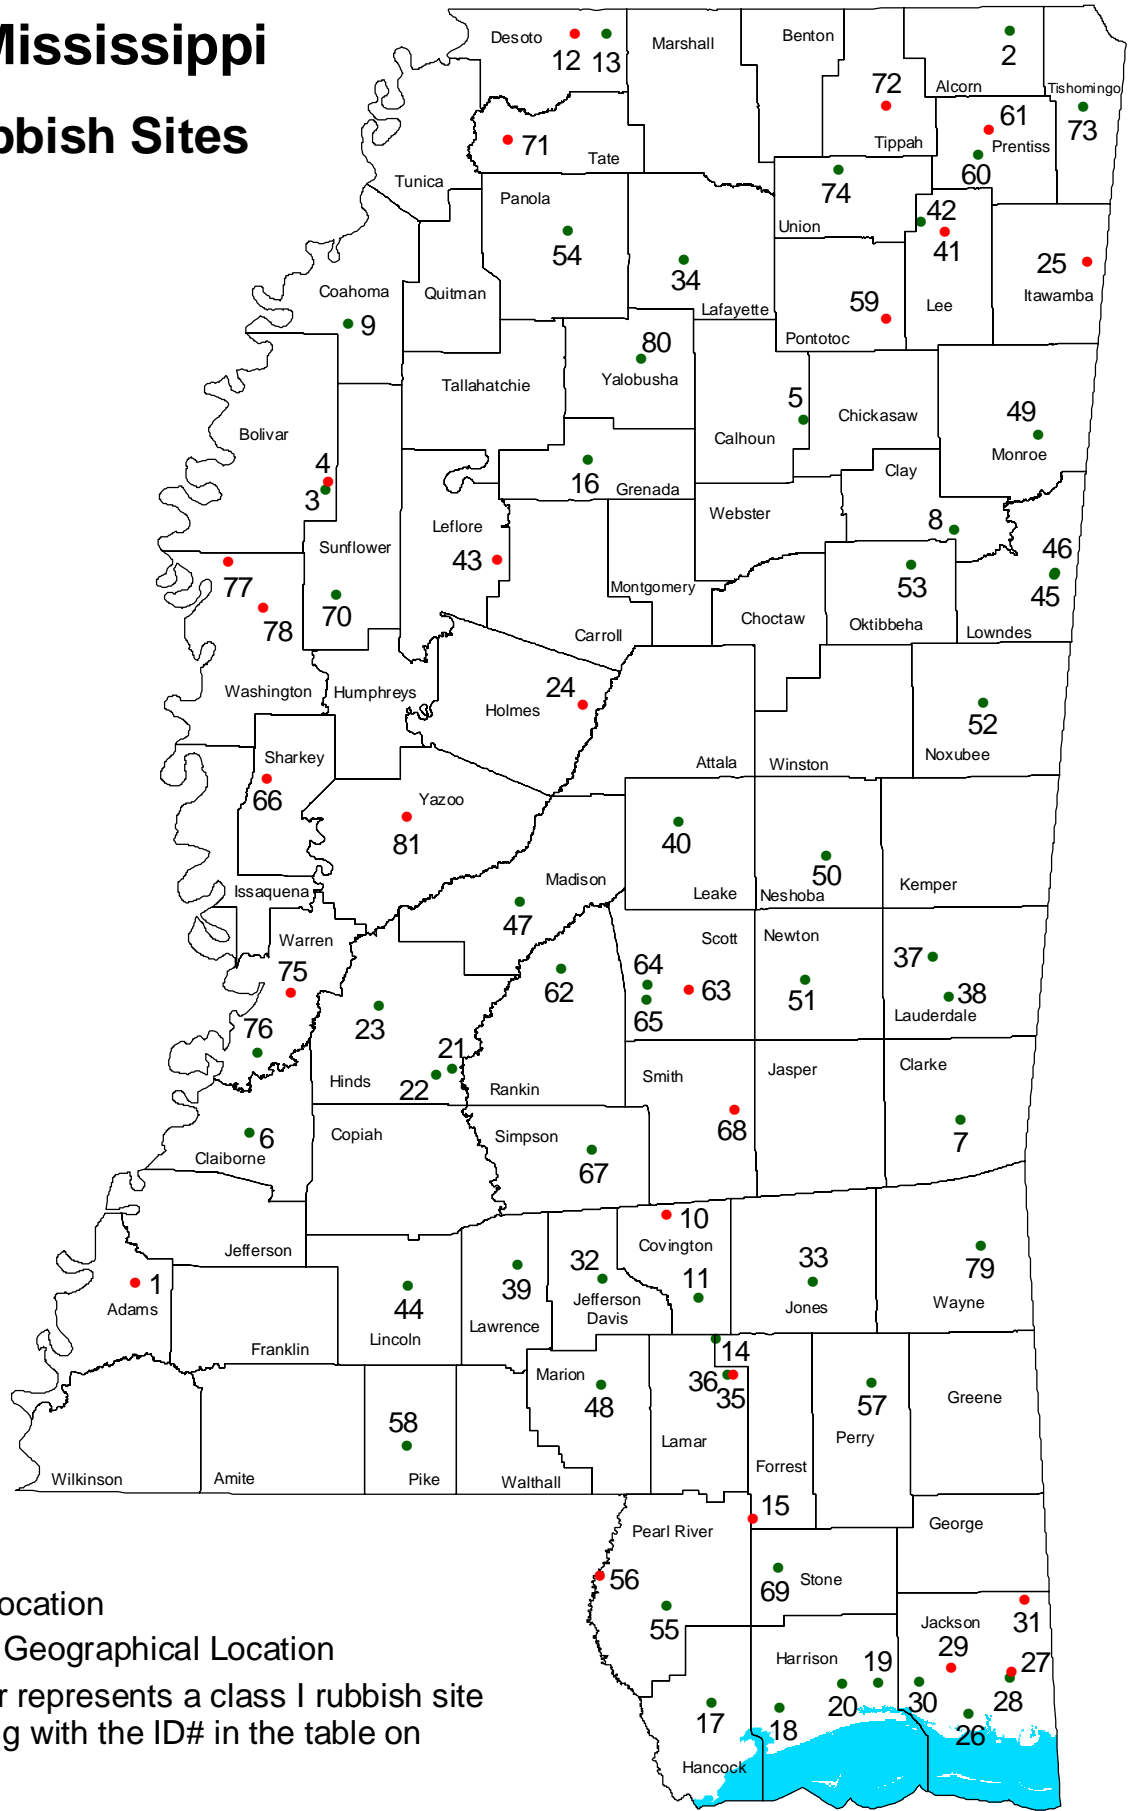

Class II rubbish sites may accept limited types of inert rubbish wastes. These inert wastes include natural vegetation, brick, mortar, concrete, stone, and asphalt.

The annual report on the solid waste disposal activity conducted at each rubbish site is required by the Mississippi Code Annotated, Section 17-17-219 (Supp. 2003), Section T of Statewide General Permit No. SWGP-R1 for class I rubbish sites, and Section R of Statewide General Permit No. SWGP-R2 for class II rubbish sites. This report contains a summary of these facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the approximate geographic locations of class I rubbish sites;
2. A summary of the information provided by rubbish site owners in the individual annual reports for Calendar Year 2003 for class I rubbish sites in Mississippi. The information is listed alphabetically by County;
3. A state map showing the approximate geographic locations of class II rubbish sites;
and
4. A summary of the information provided by rubbish site owners in the individual annual reports for Calendar Year 2003 for class II rubbish sites in the State of Mississippi. The information is listed alphabetically by County.

PART II
NON-COMMERCIAL SOLID WASTE DISPOSAL FACILITIES

Industrial Landfills

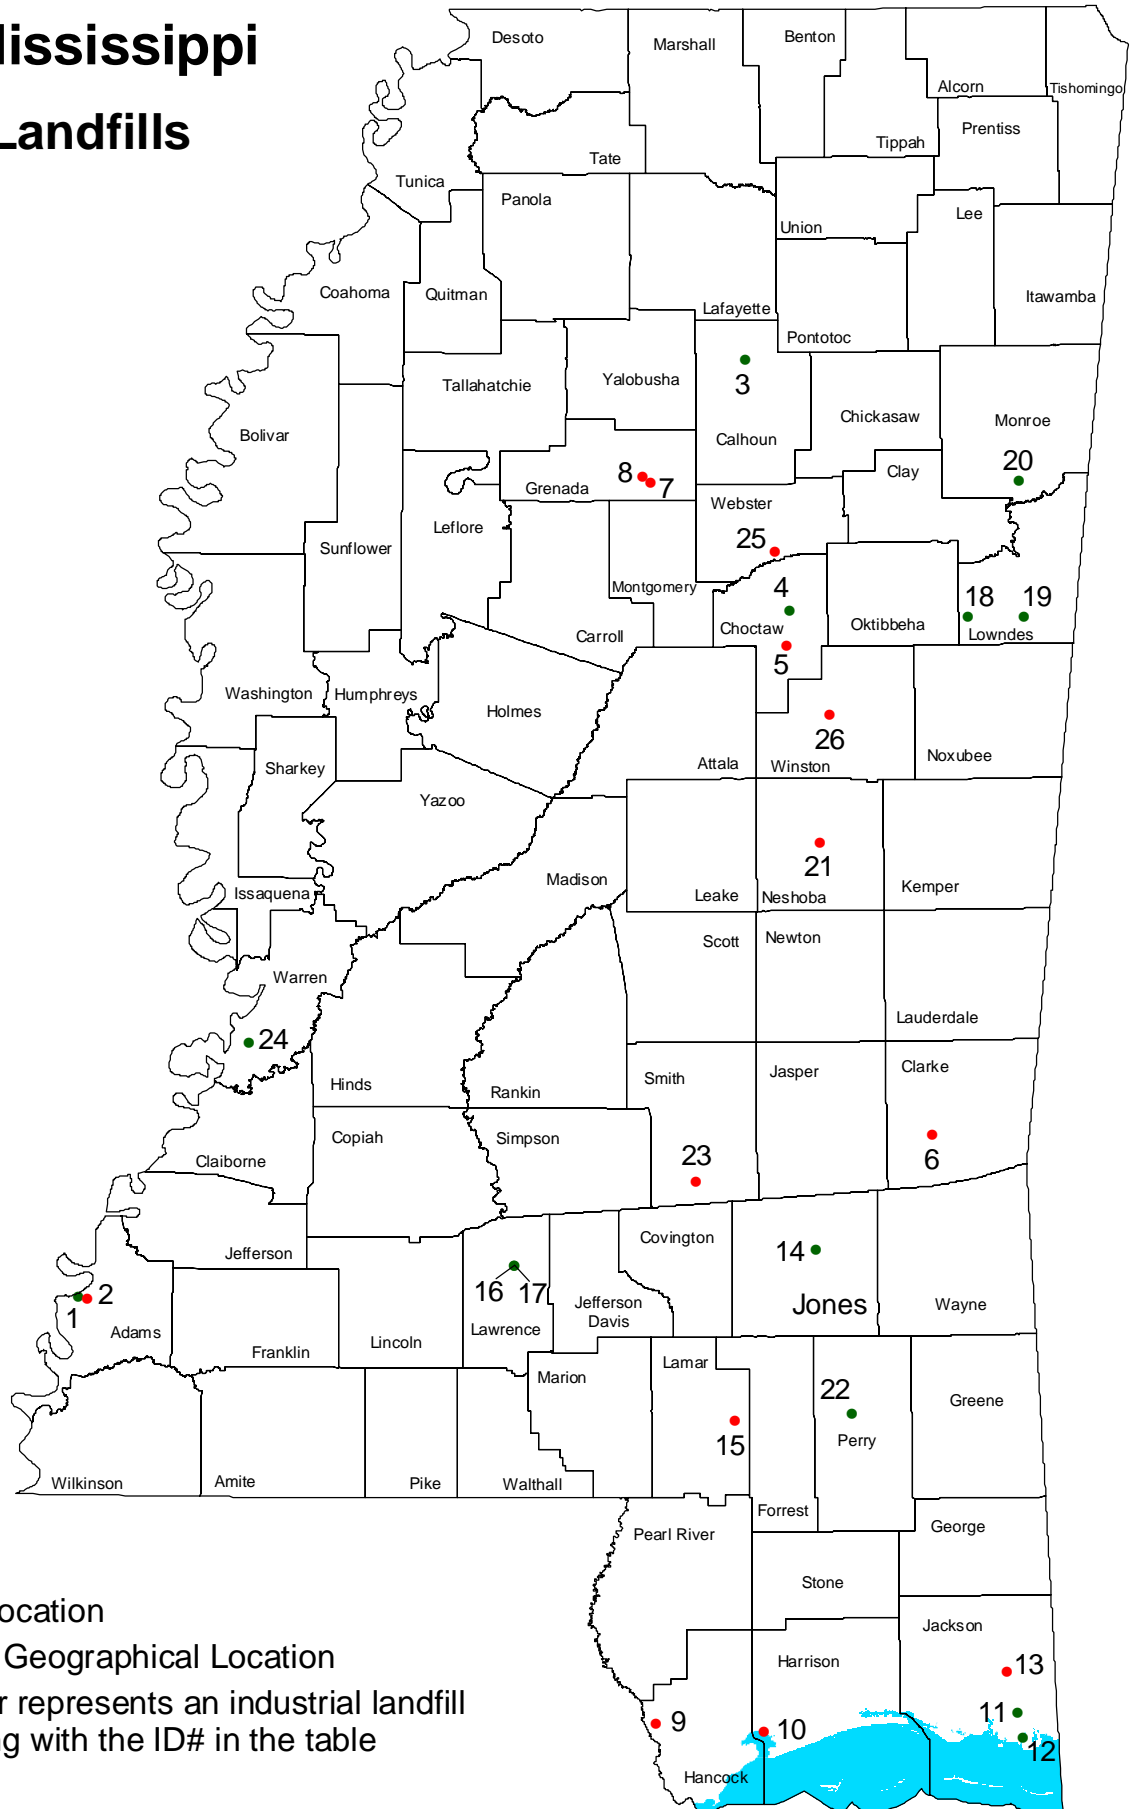

Industrial Landfills are disposal facilities that are designed and constructed to receive nonhazardous industrial wastes and certain special wastes from one primary source for ultimate disposal. These disposal facilities are generally owned and operated by the industry or institution that generates the wastes. There were twenty-six (26) permitted industrial landfills, four (4) of which were inactive during Calendar Year 2003. According to the annual reports submitted by the owners/operators, a total of 3,101,298 tons of solid waste were disposed of at the remaining twenty-two (22) industrial landfills during Calendar Year 2003.

The annual report on the solid waste disposal activities conducted at each industrial landfill is required by the individual facility permit conditions. This report contains a summary report on the disposal activities conducted at industrial landfills in Mississippi during Calendar Year 2003. The report includes the following information:

1. A state map showing the approximate geographic locations of all industrial landfills; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2003 for industrial landfills.

PART II

NON-COMMERCIAL SOLID WASTE DISPOSAL FACILITIES

Industrial and Institutional Rubbish Sites

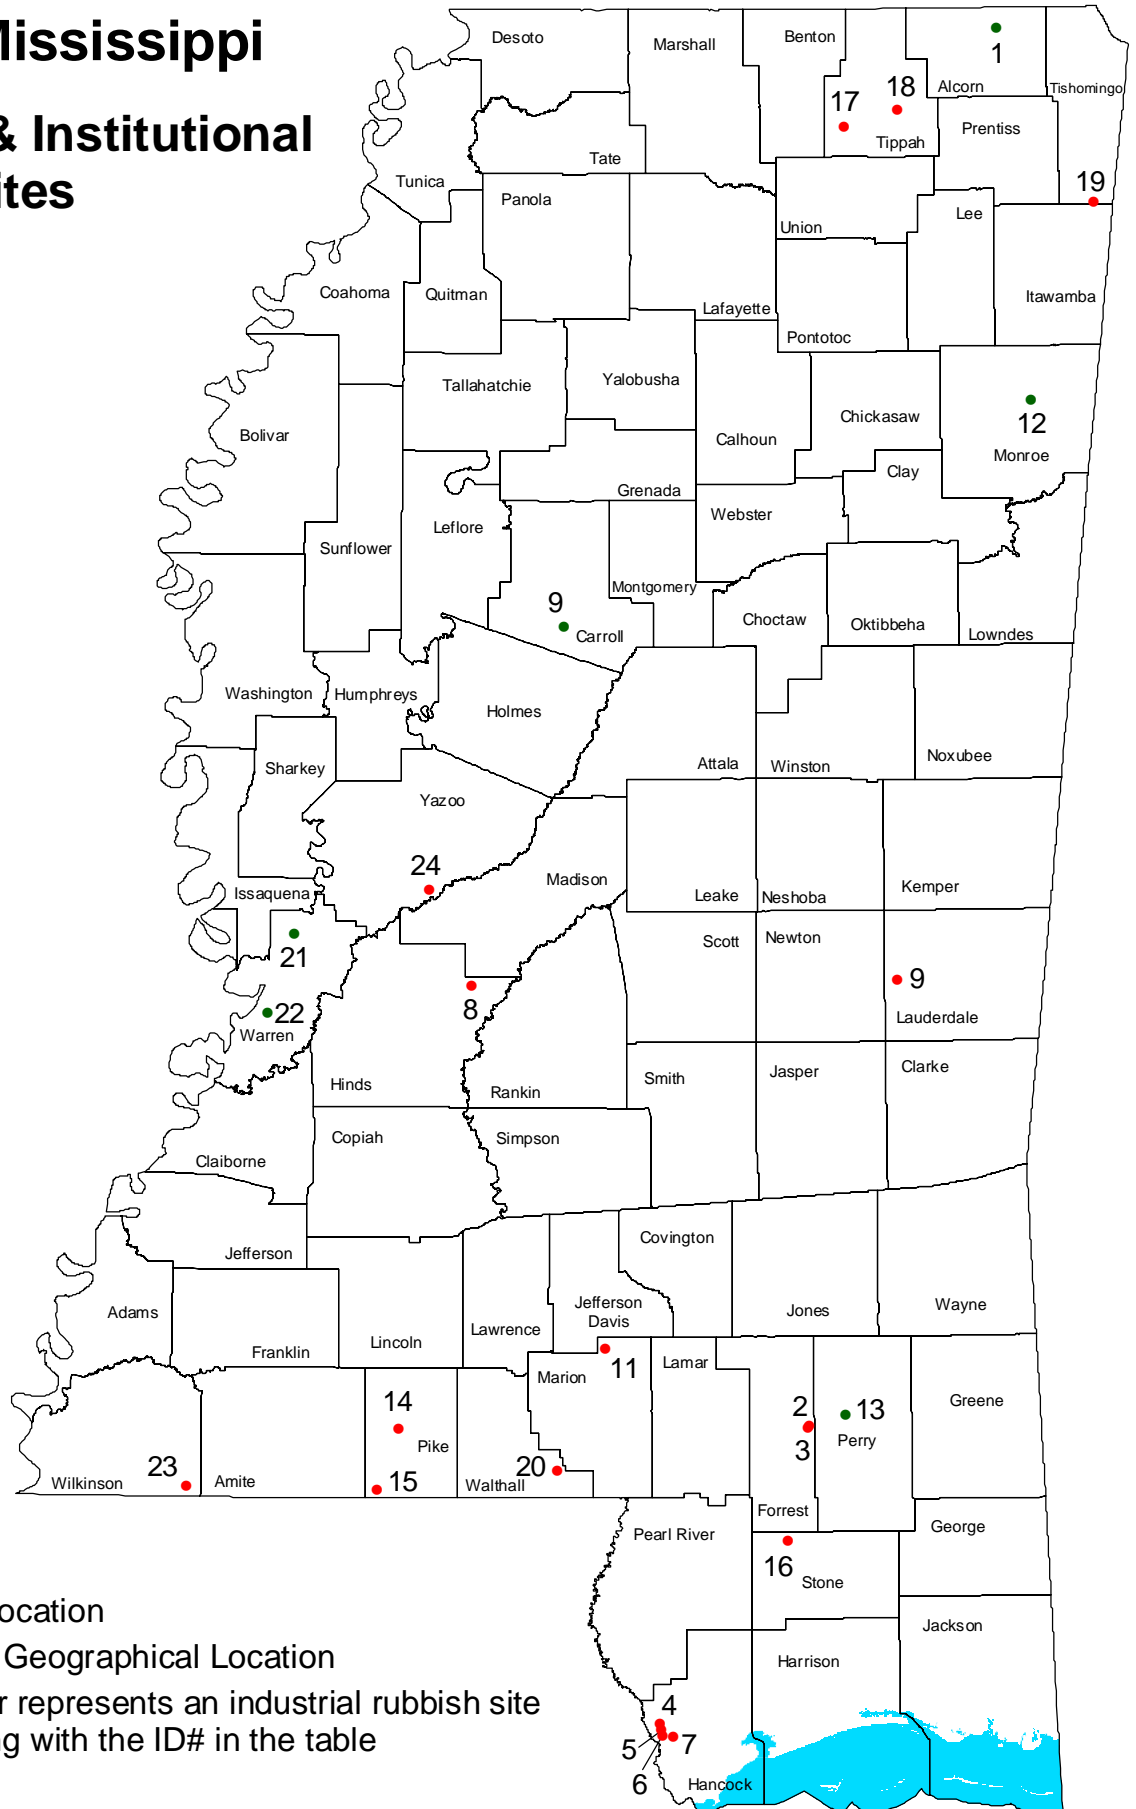

Industrial and Institutional Rubbish Sites are facilities that are designed and constructed to receive class I and/or class II rubbish wastes from industrial or institutional sources for disposal. These disposal facilities are generally owned and operated by the industry or institution that generates the wastes and are categorized as either class I or class II rubbish sites depending upon the types of waste disposed. There were twenty-four (24) permitted industrial or institutional rubbish sites, nine (9) of which were inactive during Calendar Year 2003. According to the annual reports submitted by the owners/operators, a total of 19,112 tons of solid waste were disposed of at the remaining fifteen (15) industrial rubbish sites during Calendar Year 2003.

The annual report on the solid waste disposal activity conducted at each rubbish site is required by Section T of Statewide General Permit No. SWGP-R1 for class I rubbish sites and Section R of Statewide General Permit No. SWGP-R2 for class II rubbish sites. This report contains a summary of the individual facility reports as reported by the facility owners. The report includes the following information:

1. A state map showing the approximate geographic locations of all industrial and institutional rubbish sites; and
2. A summary of the information provided by the rubbish site owners in the individual annual reports for Calendar Year 2003 for all non-commercial rubbish sites in Mississippi. The information is listed alphabetically by County.
