Industrial and Institutional Rubbish Sites	45
PART III - SOLID WASTE LAND APPLICATION FACILITIES	48
Solid Waste Land Application Facilities	49

INTRODUCTION

The Mississippi Department of Environmental Quality (MDEQ) developed this status report to provide information on certain solid waste management activities that were conducted during Calendar Year 2005. Past status reports have primarily focused on solid waste disposal activities, but this report also contains solid waste management information for permitted land application facilities. Another new component of this report includes waste disposal information for emergency rubbish disposal sites that were approved by MDEQ to operate temporarily in the aftermath of Hurricane Katrina to assist with the disposal of the massive amounts of hurricane debris. A report on the solid waste management or disposal activities conducted at each landfill, rubbish site, and land application facility in the state is required to be submitted to MDEQ by the facility owner each year. This status report provides summary information on the amounts of solid waste received at these solid waste management facilities as listed below:

Part I - Commercial Solid Waste Disposal Facilities

Part I of this report contains a summary report on disposal activities conducted at commercial disposal facilities in the state. A commercial solid waste disposal facility means any facility that is engaged in the disposal of solid waste for compensation or which accepts waste from more than one generator not owned by the facility owner. Commercial solid waste disposal facilities include:

- Municipal Solid Waste (MSW) Landfills
- Non-Municipal Solid Waste (non-MSW) Landfills
- Class I and Class II Rubbish Sites

Part II - Non-Commercial Solid Waste Disposal Facilities

Part II of this report contains a summary report on disposal activities conducted at non-commercial disposal facilities. A non-commercial solid waste disposal facility means a facility that receives solid waste from one generator and where the disposal facility is not operated for compensation. Non-commercial solid waste disposal facilities include:

- Industrial and Institutional Landfills
- Industrial and Institutional Rubbish Sites

Part III – Solid Waste Land Application Facilities

Part III of this report contains a summary of information on activities conducted during Calendar Year 2005 at permitted land application facilities in Mississippi. A land application facility means a facility that receives wastes for incorporation into the soil, injection below the land surface, or other application of wastes for soil amendment or conditioning purposes or biodegradation of the wastes.

This status report contains information that may be utilized by local government officials and/or solid waste decision makers, disposal facility owners and operators, state agencies, and other organizations. The information provided in the report includes the following:

1. The total amount of waste received at each permitted or authorized solid waste disposal facility as reported by the facility owners/operators;
2. An estimated remaining life at solid waste disposal facilities as reported by the facility owners/operators; and
3. State maps showing the locations of each disposal facility.

Copies of this report will be provided to local government officials and/or solid waste decision makers to assist them in planning for the management of solid wastes in their jurisdictions. A copy of this status report will also be provided to the Mississippi State Tax Commission for verification of the information that the State Tax Commission receives from commercial facility owners/operators each year.

The annual reports indicate that a total of approximately 9,107,962 tons of solid waste was received during Calendar Year 2005 at commercial and non-commercial landfills and rubbish sites, and emergency rubbish disposal sites for Hurricane Katrina debris. Approximately 36.33% (3,309,068 tons) of the total waste was disposed at commercial landfills, 27.94% (2,544,384 tons) at non-commercial landfills, 35.20% (3,206,404 tons) at commercial rubbish sites, and 0.53% (48,106) at non-commercial rubbish sites (see Figure: 1 below).

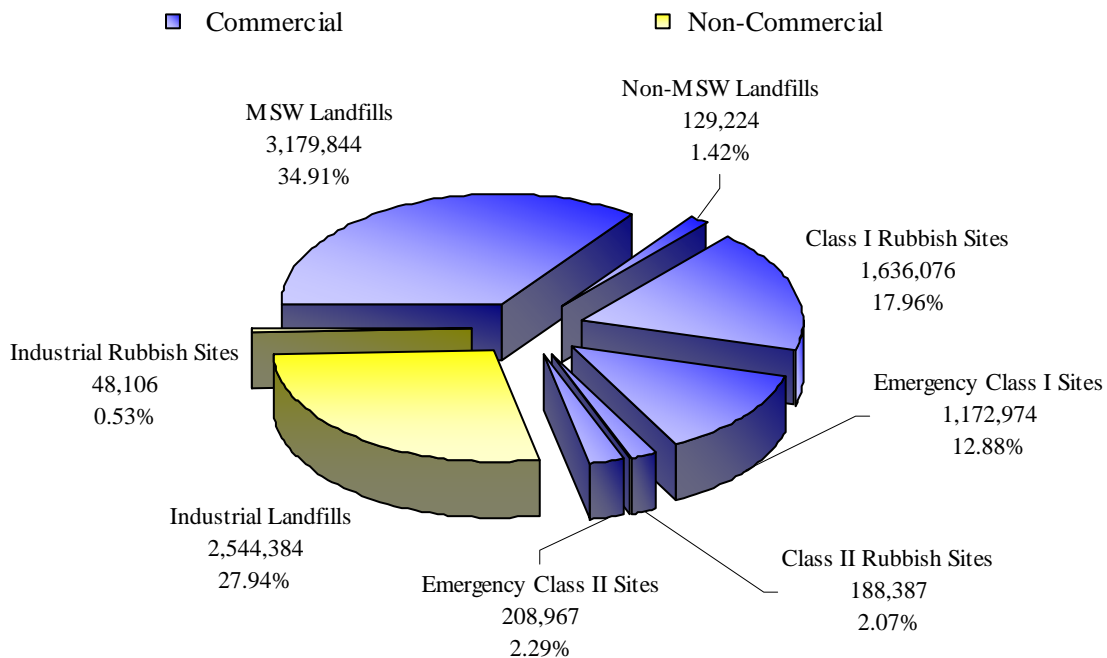

FIGURE 1

This status report also indicates that Mississippi received a total of 687,440 tons of solid waste from out-of-state sources representing approximately 7.55% of the total solid waste that was disposed in Mississippi during Calendar Year 2005. Commercial landfills received approximately 600,833 tons and commercial rubbish sites received approximately 86,607 tons of out-of-state waste.

The annual reports indicate that a total of approximately 79,742 tons of solid waste was received during Calendar Year 2005 at land application sites. Approximately 39.45% (31,457 dry tons) of the total waste applied during Calendar Year 2005 was municipal wastewater sludge and the remaining 60.55% (48,285 dry tons) was waste other than municipal wastewater sludge such as wood ash, pulp and paper mill sludge, etc (see Figure: 2 below).

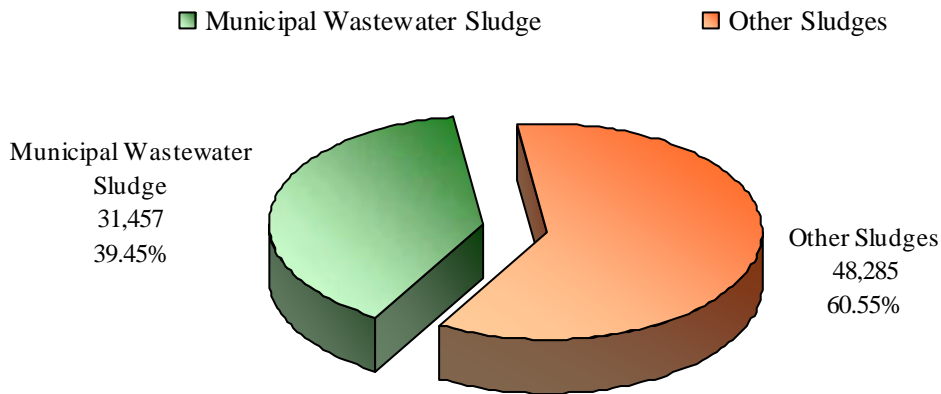

FIGURE 2

The submitted information on the total amount of wastes received in tons/year at landfills, rubbish sites, and land application sites has not been verified by the MDEQ for accuracy. For additional information on this Status Report or to review the individual facility annual reports, please contact:

Mr. Pradip Bhowal, Environmental Administrator

PART I

**COMMERCIAL SOLID WASTE
DISPOSAL FACILITIES**

Municipal Solid Waste (MSW) Landfills

MSW Landfills are disposal facilities that are designed and constructed to receive a wide range of nonhazardous solid wastes for disposal including household garbage, nonhazardous industrial wastes, and special wastes such as asbestos or treated medical wastes. There were 17 MSW landfills that operated in the state during Calendar Year 2005. According to the annual reports submitted by the owners/operators, these landfills received a total of 3,179,844 tons of solid waste during Calendar Year 2005.

The annual report on the solid waste disposal activities conducted at each MSW landfill is required by the Mississippi Code Annotated Section 17-17-219 (Supp. 2005) and Section IV.B.15 of the Mississippi Nonhazardous Solid Waste Management Regulations. This report contains a summary of these individual facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the locations of MSW landfills;
2. A summary of operational information contained in the individual annual reports for Calendar Year 2005 for MSW landfills; and
3. Individual state maps for the 17 active MSW landfills including geographic locations, the geographic areas serviced with the amount of wastes received in tons/year, and other pertinent information.

MSW Landfill Disposal Trends

Data in this report indicates that during 2005, Mississippi landfills received more municipal solid waste (approximately 224,254 tons) as compared to the amount received during Calendar Year 2004. (see Figure: 3 below).

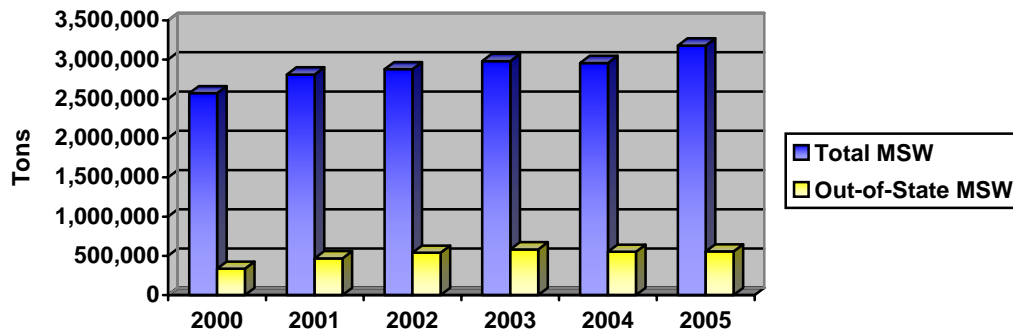

FIGURE 3

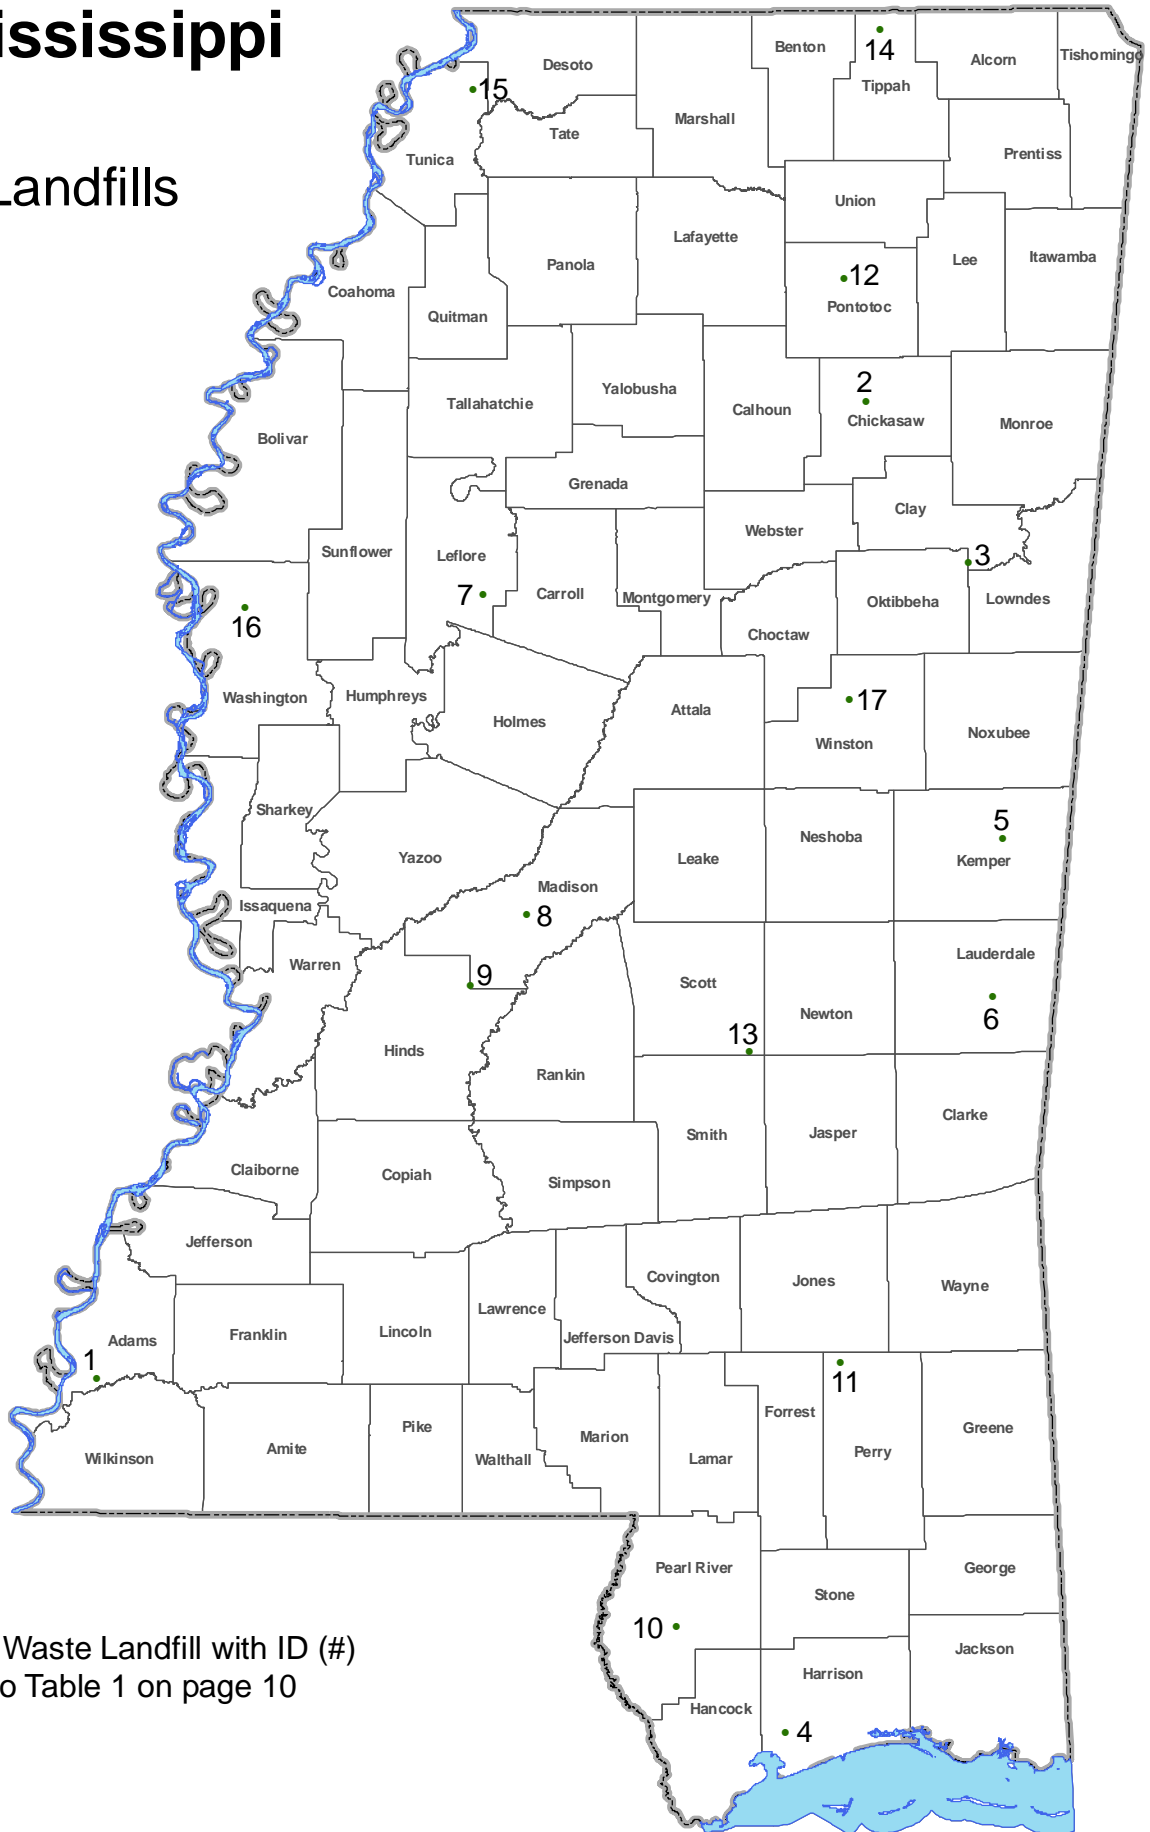

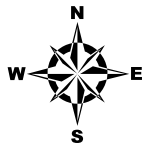

Figure: 4 below shows a comparison of disposal rates during the six year period from Calendar Year 2000 thru 2005. Over this six year period, the average annual percent change in disposal rates was +4.4% for total MSW, +3.3% for in-state MSW, and +11.6% for out-of-state MSW.

MSW (tons)	CALENDAR YEAR						Avg. Annual % Change
	2000	2001	2002	2003	2004	2005	
Total	2,570,879	2,808,684	2,877,376	2,979,490	2,955,590	3,179,844	+4.4

[* Tons per day calculated using 310 days/year]

PLANTATION OAKS LANDFILL

Waste Management of Mississippi, Inc.

- Landfill GIS Location
31° 21' 27.4" N
91° 23' 43.6" W

 Areas serviced with the amount of waste received (in tons) during 2005

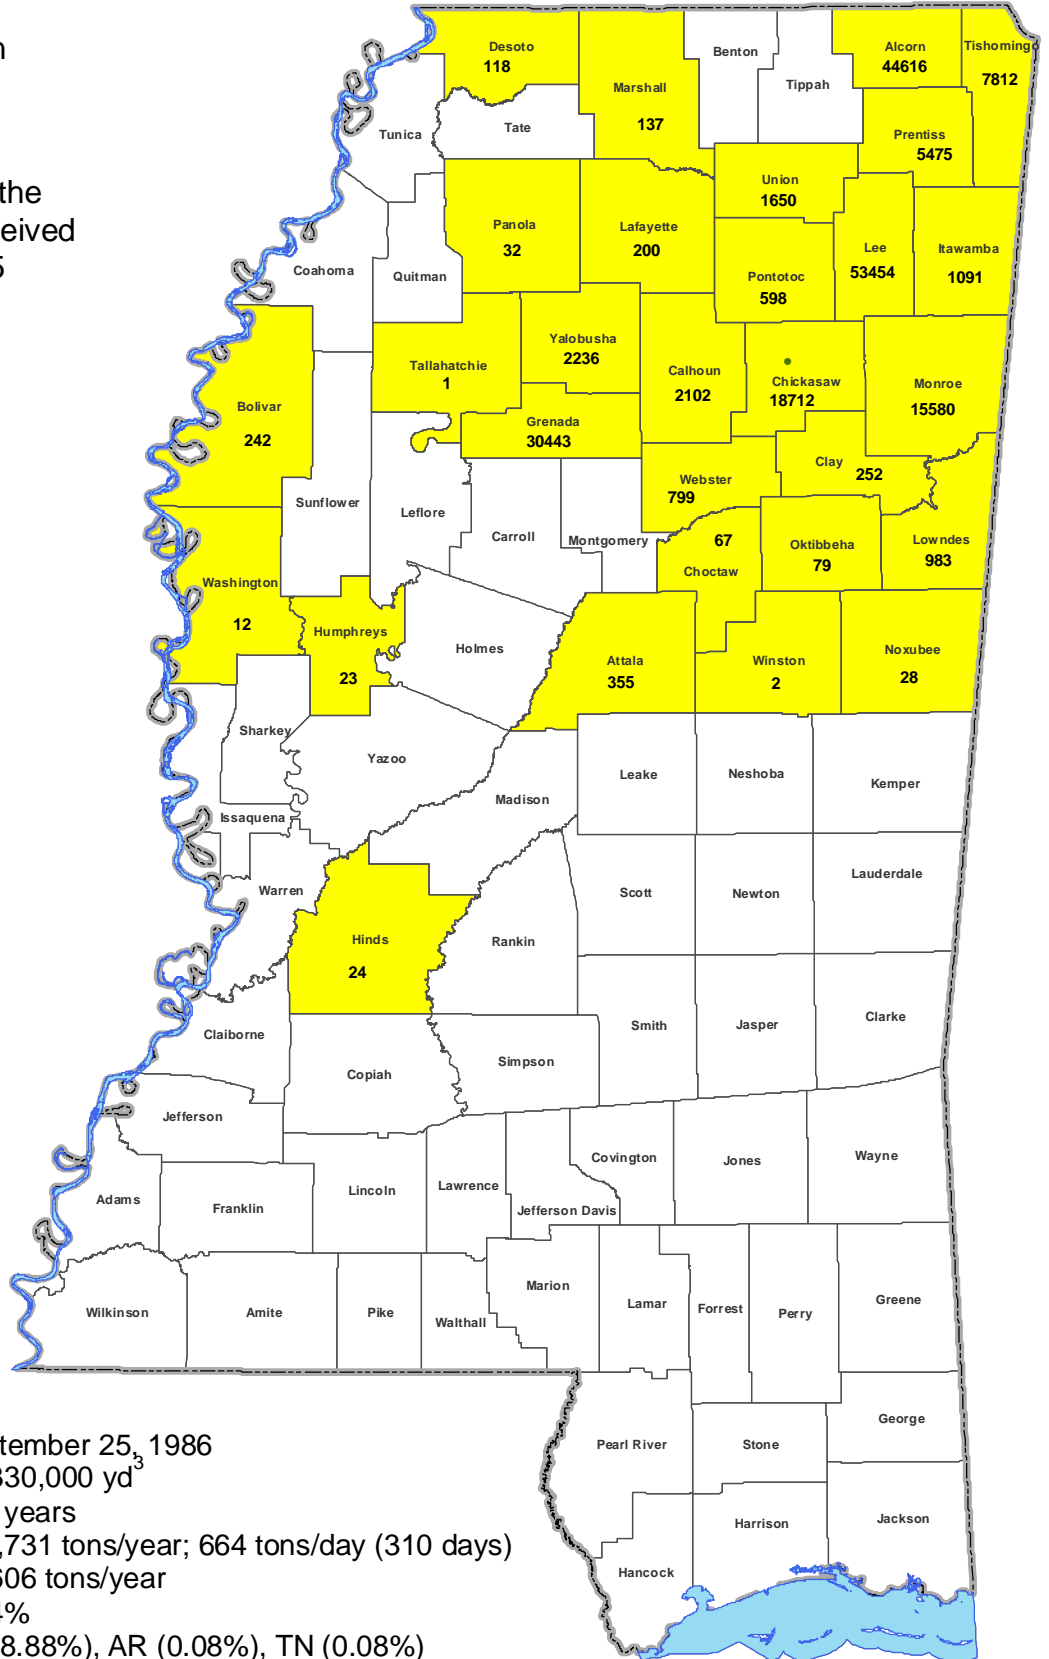

Permit Issuance Date: March 28, 1989
 Permitted Airspace: 11,146,000 yd³
 Remaining Life: 47 years
 Waste: 142,510 tons/year; 460 tons/day (310 days)
 Out-of-State Waste: 8,867 tons/year
 % Out-of-State Waste: 6.22%
 Other States Serviced: LA (6.22%)

PRAIRIE BLUFF LANDFILL

Waste Management of Mississippi, Inc.

- Landfill GIS Location
33° 57' 30.7" N
88° 59' 31.4" W

 Areas serviced with the amount of waste received (in tons) during 2005

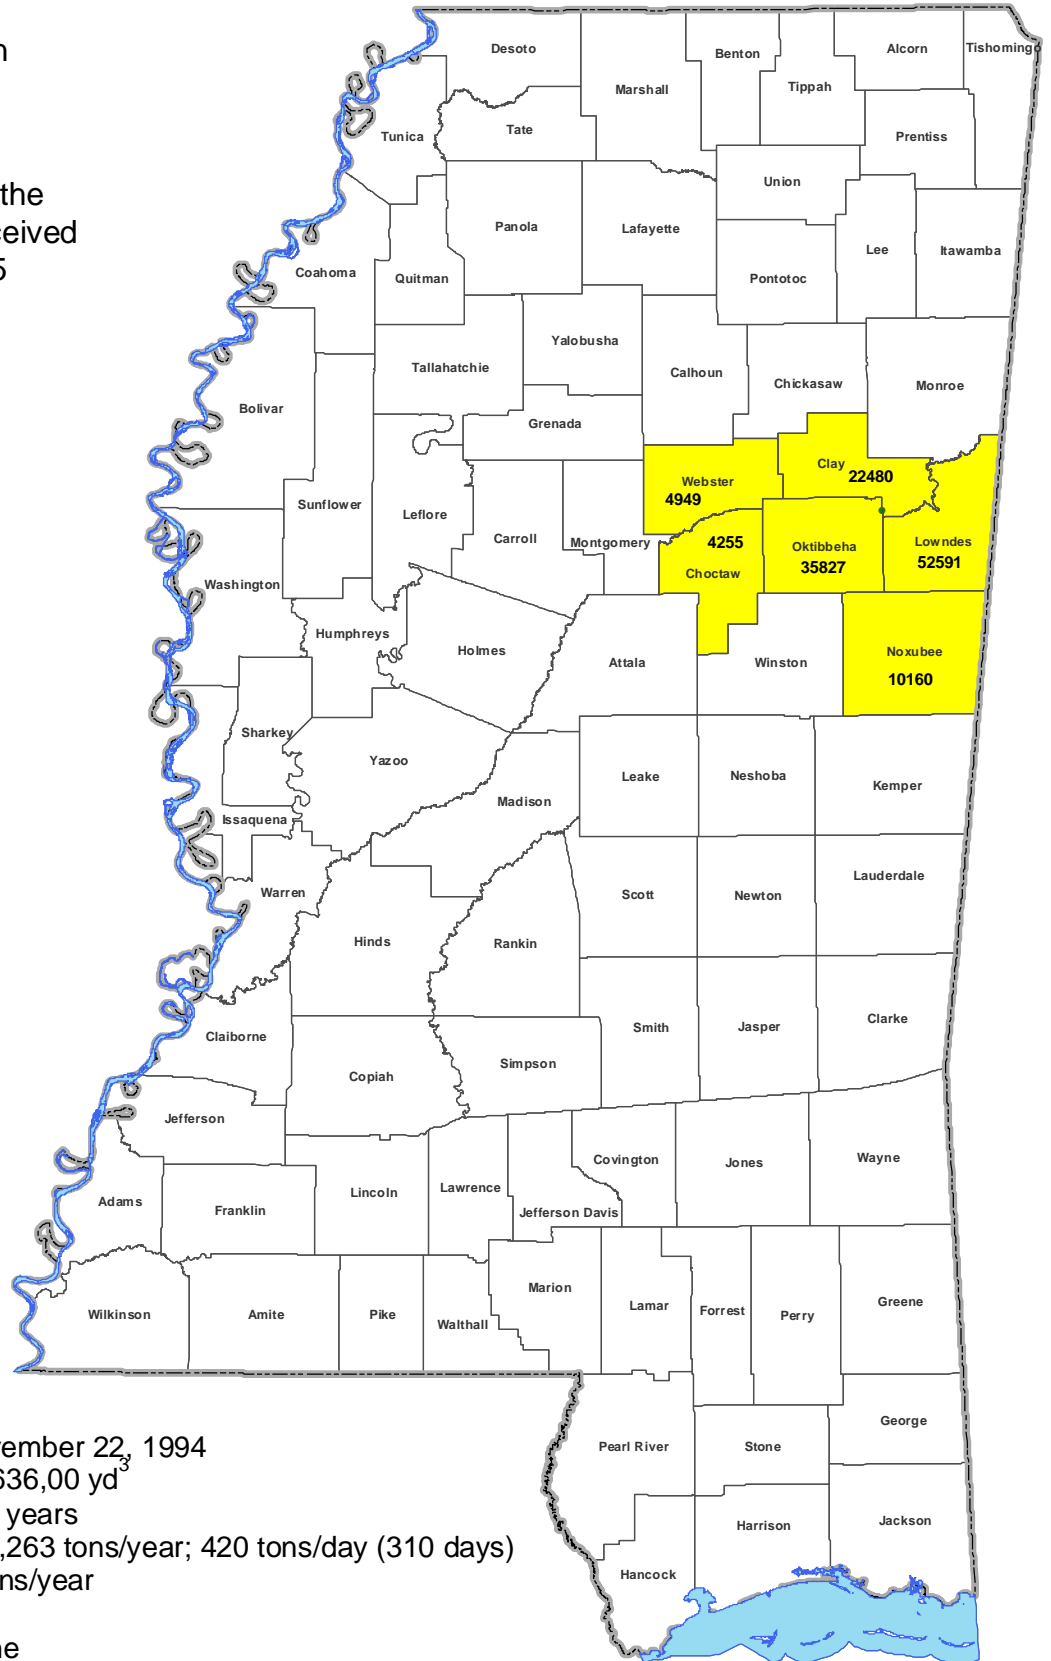

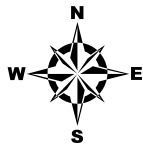

Permit Issuance Date: September 25, 1986
 Permitted Airspace: 46,330,000 yd³
 Remaining Life: 150 years
 Waste: 205,731 tons/year; 664 tons/day (310 days)
 Out-of-State Waste: 18,606 tons/year
 % Out-of-State Waste: 9.04%
 Other States Serviced: AL (8.88%), AR (0.08%), TN (0.08%)

GOLDEN TRIANGLE REGIONAL LANDFILL

Golden Triangle Regional Solid Waste Management Authority

- Landfill GIS Location
33° 31' 41.8" N
88° 40' 20.6" W

 Areas serviced with the amount of waste received (in tons) during 2005

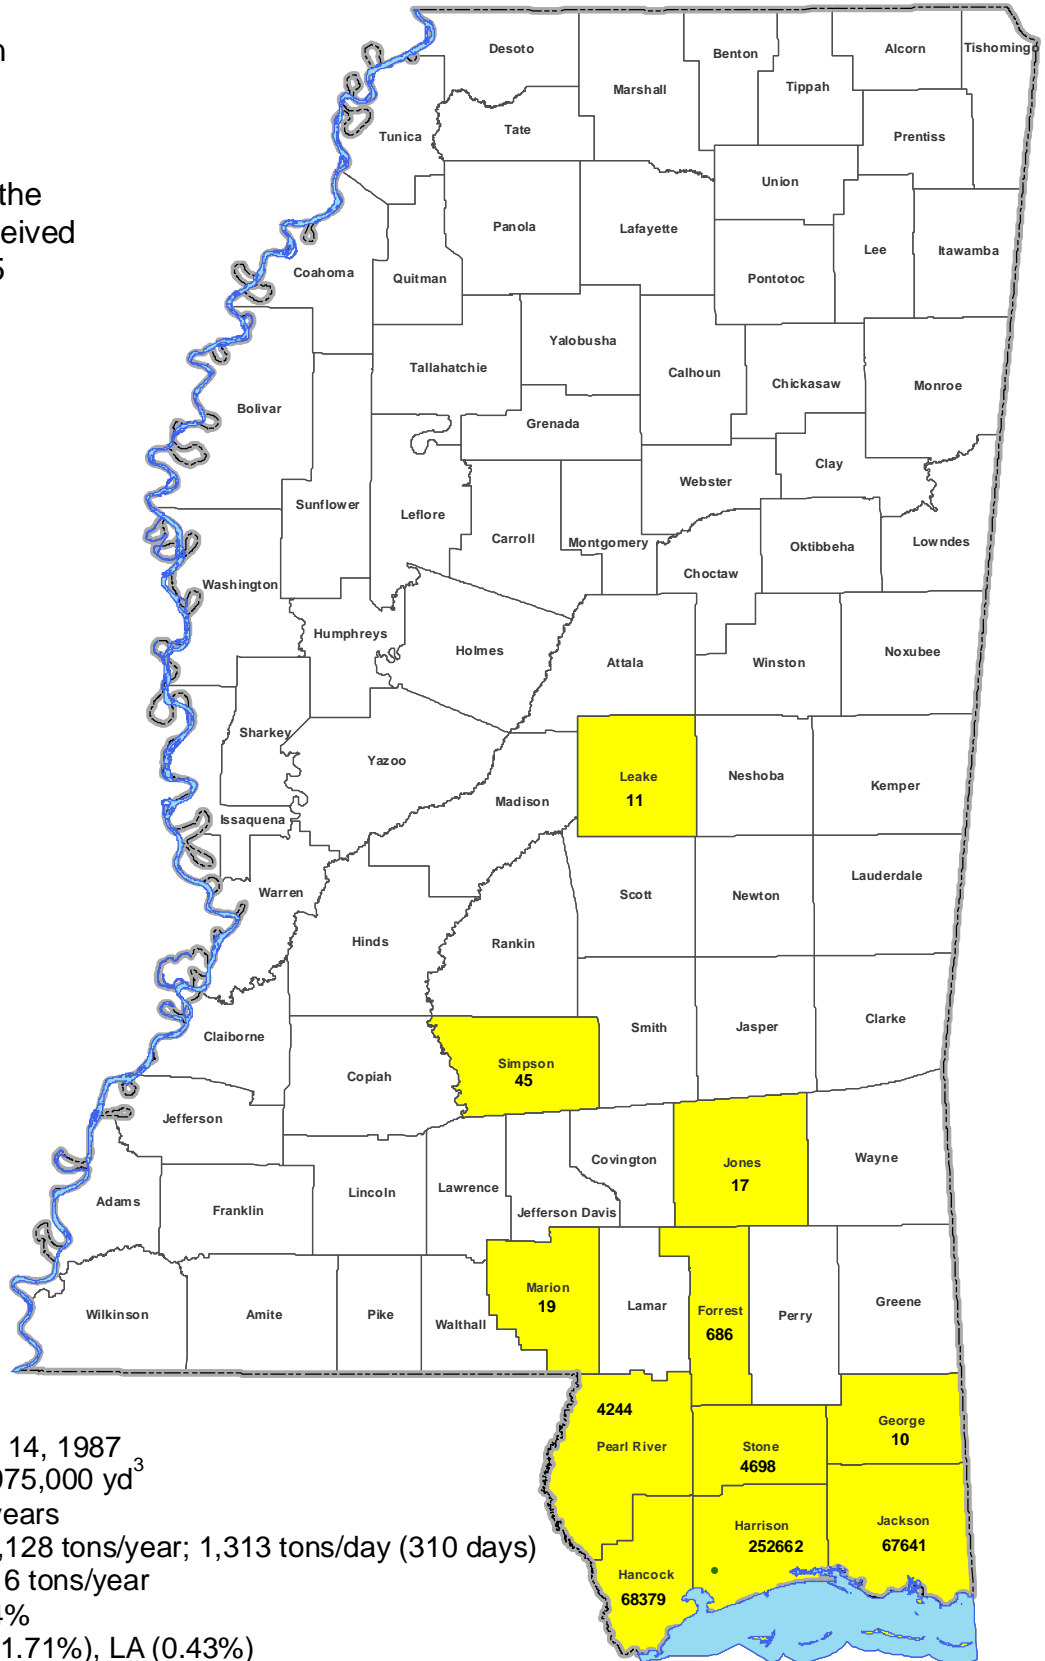

Permit Issuance Date: November 22, 1994
 Permitted Airspace: 38,636,00 yd³
 Remaining Life: 154 years
 Waste: 130,263 tons/year; 420 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

PECAN GROVE LANDFILL

Waste Management of Mississippi, Inc.

- Landfill GIS Location
30° 25' 37.2" N
89° 16' 00.8" W

 Areas serviced with the amount of waste received (in tons) during 2005

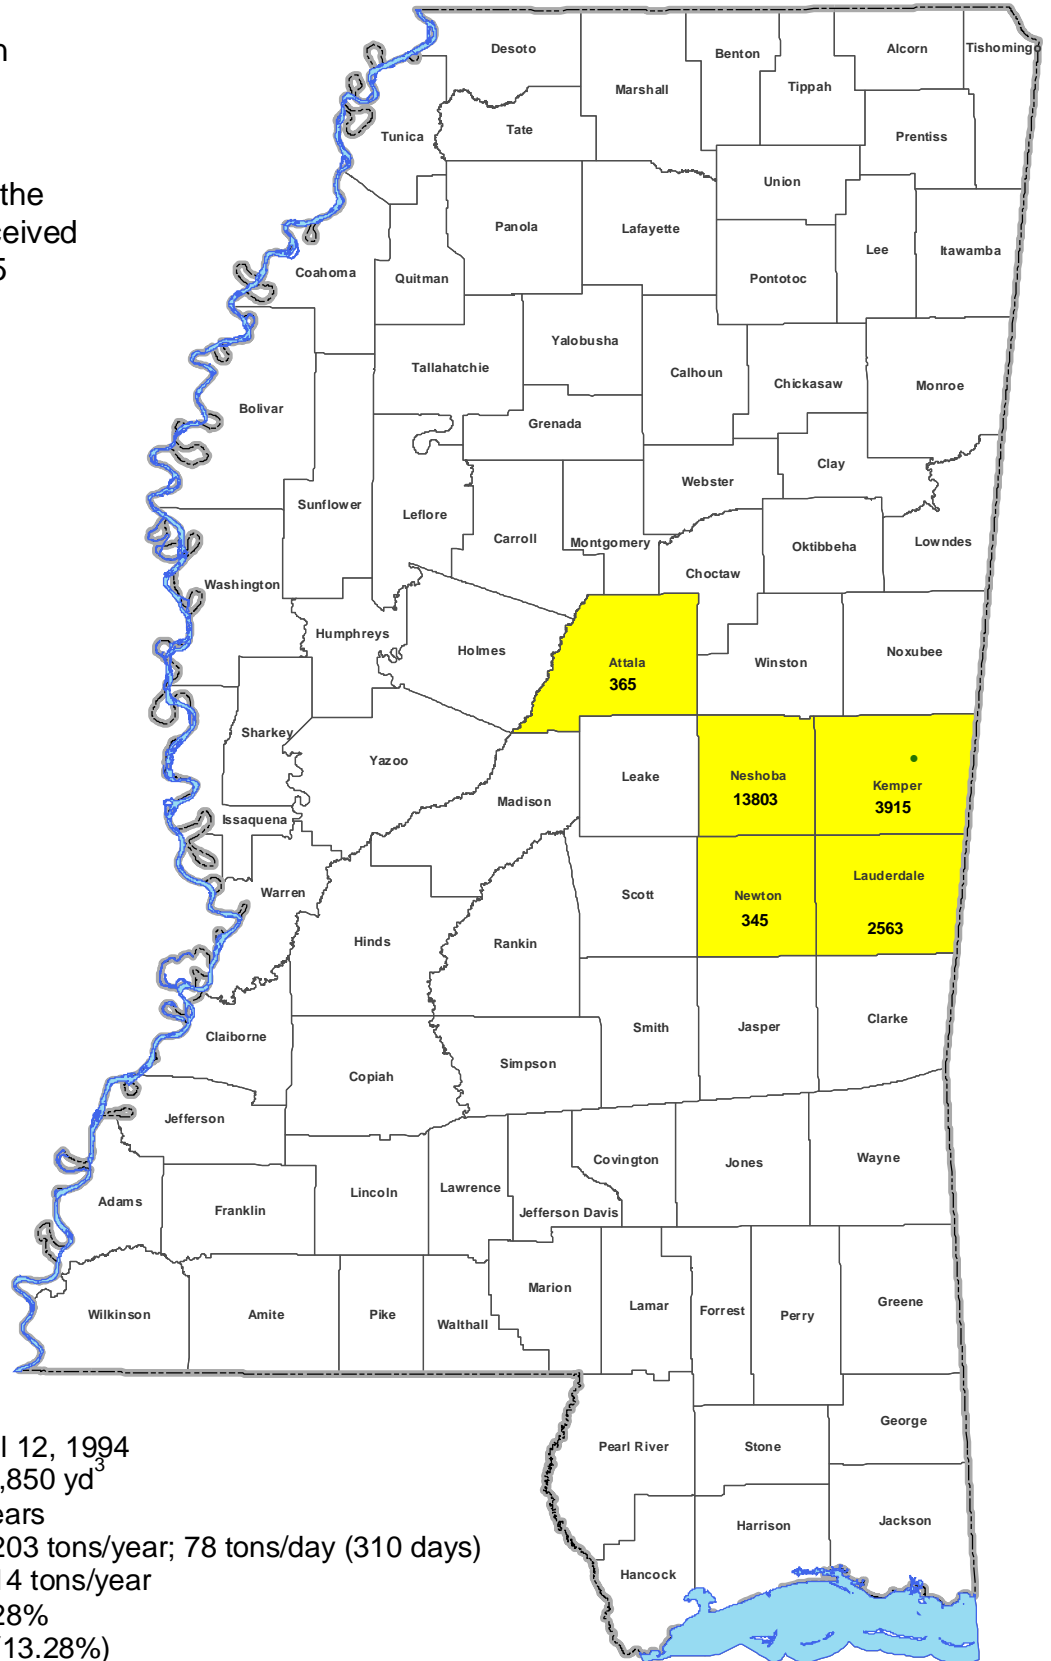

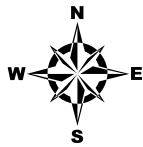

Permit Issuance Date: July 14, 1987
 Permitted Airspace: 22,975,000 yd³
 Remaining Life: 28 years
 Waste: 407,128 tons/year; 1,313 tons/day (310 days)
 Out-of-State Waste: 8,716 tons/year
 % Out-of-State Waste: 2.14%
 Other States Serviced: AL (1.71%), LA (0.43%)

KEMPER COUNTY SOLID WASTE LANDFILL

Kemper County Landfill Company

- Landfill GIS Location
32° 47' 53.6" N
88° 34' 21.4" W

- Areas serviced with the amount of waste received (in tons) during 2005

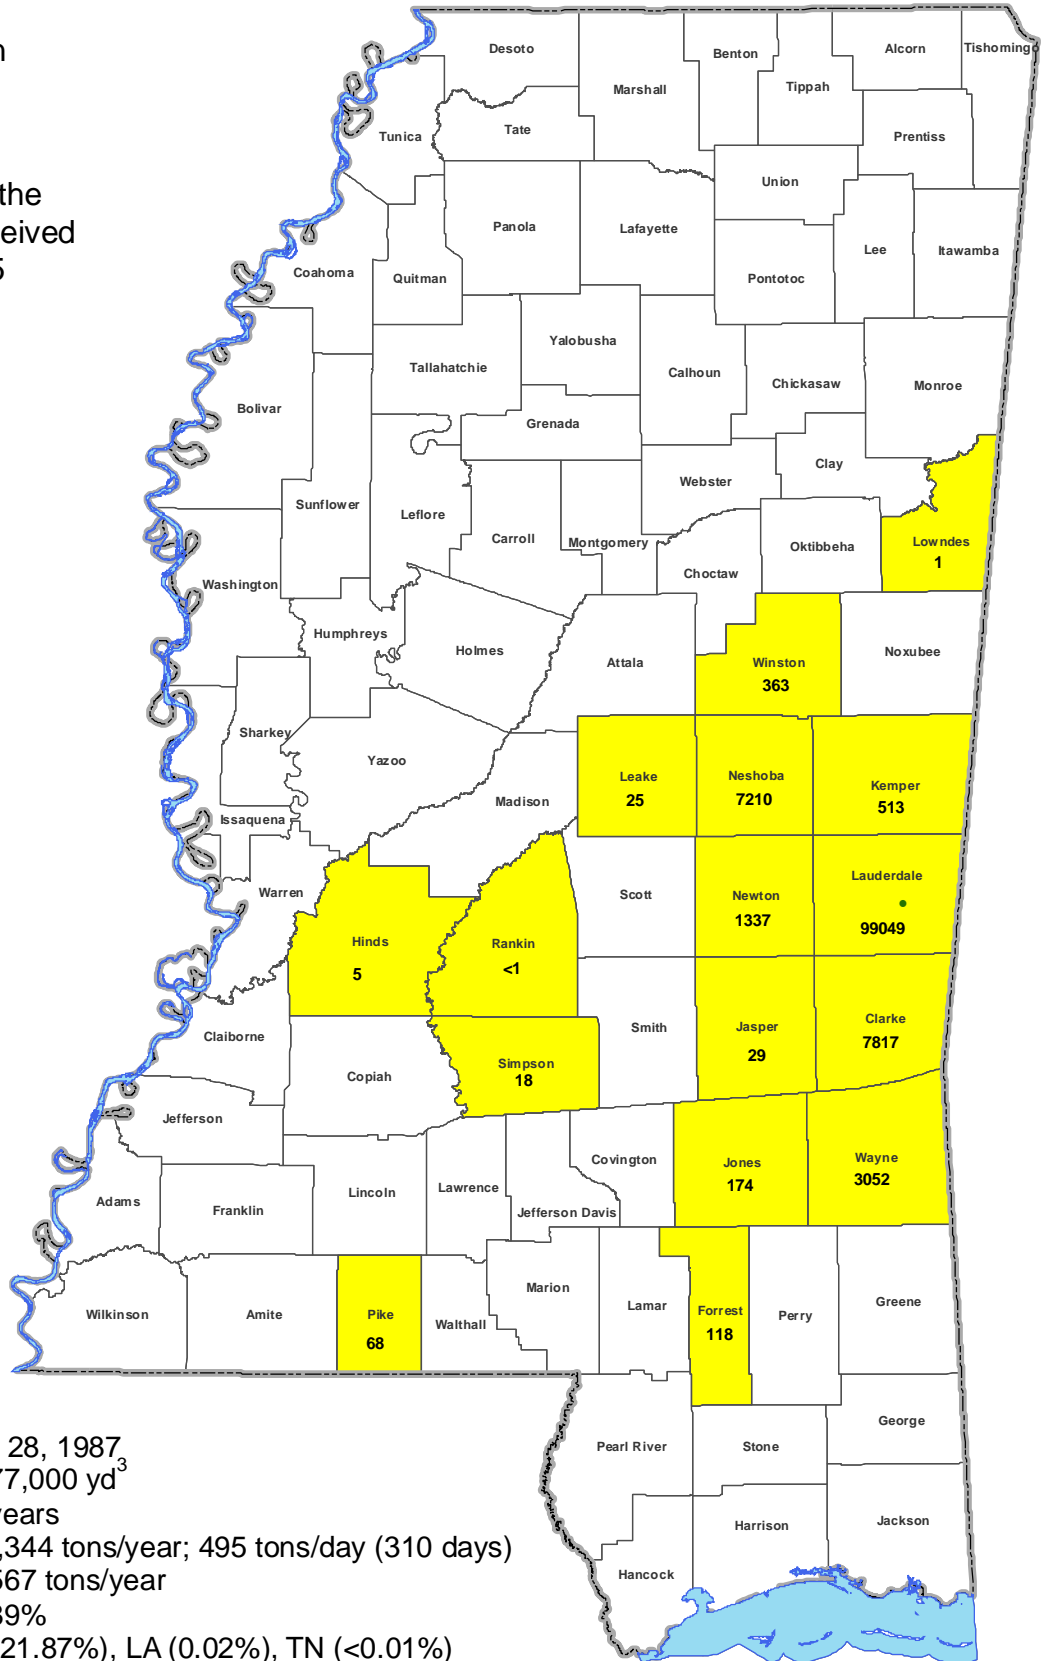

Permit Issuance Date: April 12, 1994
 Permitted Airspace: 445,850 yd³
 Remaining Life: 3 years
 Waste: 24,203 tons/year; 78 tons/day (310 days)
 Out-of-State Waste: 3,214 tons/year
 % Out-of-State Waste: 13.28%
 Other States Serviced: AL (13.28%)

PINE RIDGE SANITARY LANDFILL

Waste Management of Mississippi, Inc.

- Landfill GIS Location
32° 22' 31.3" N
88° 36' 36.8" W

 Areas serviced with the amount of waste received (in tons) during 2005

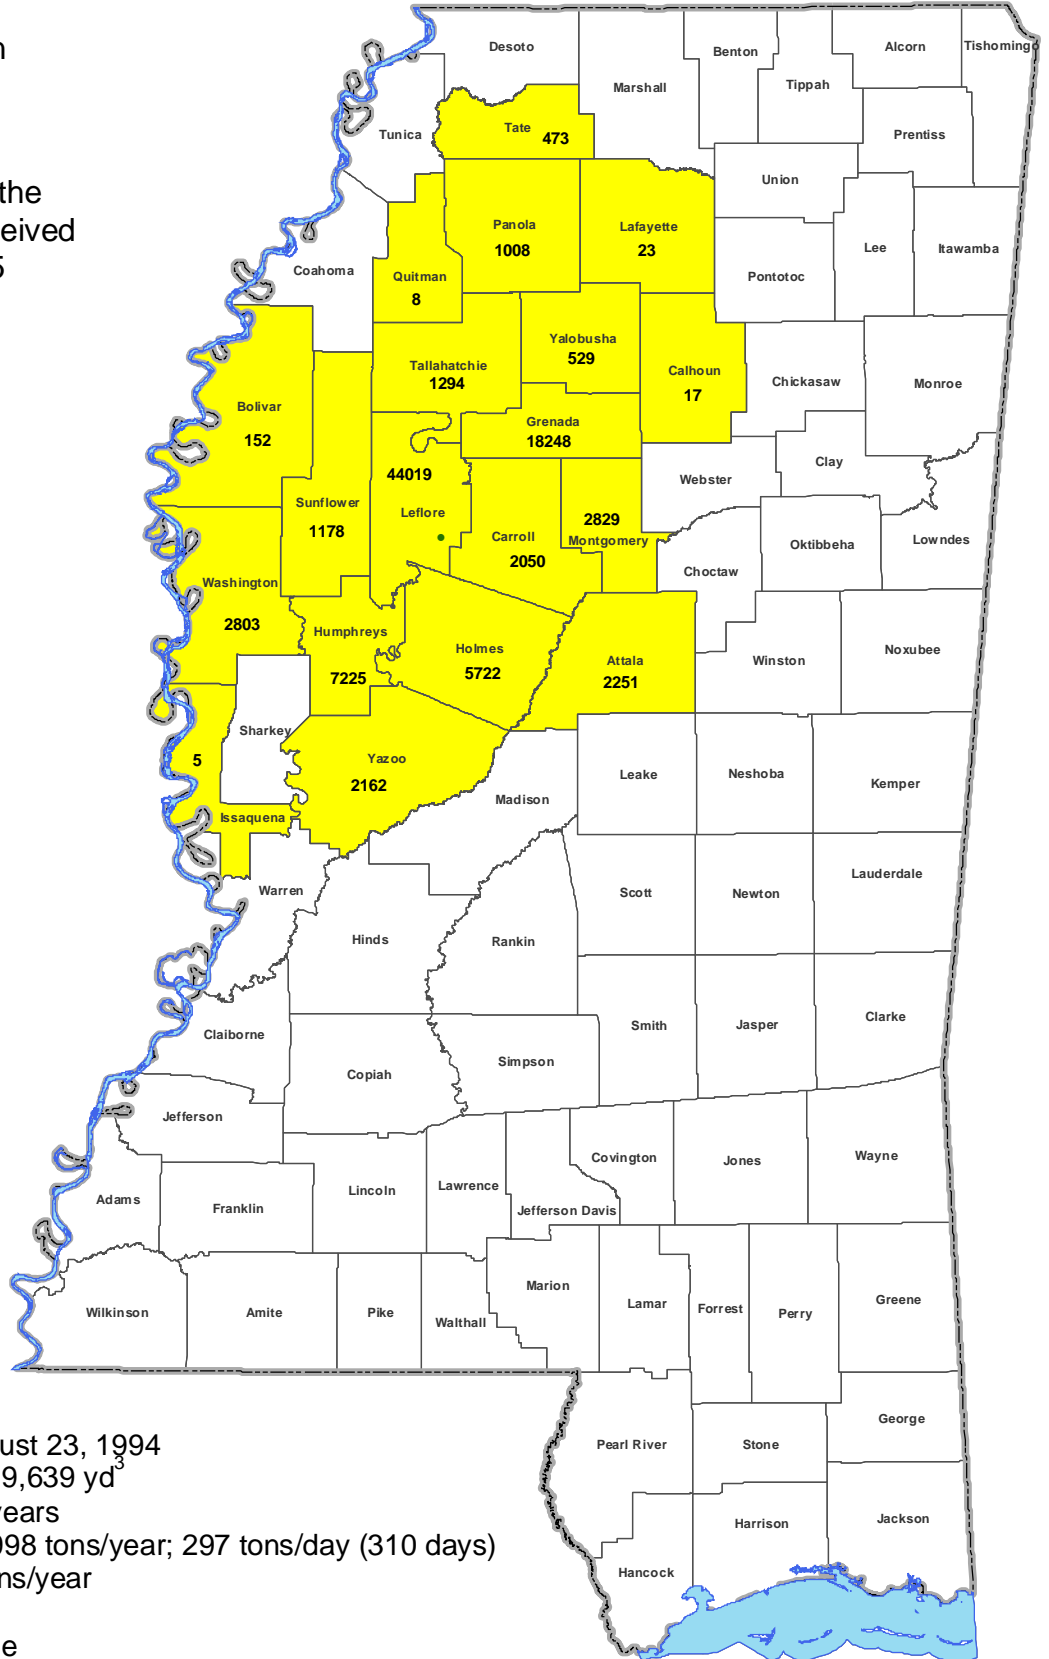

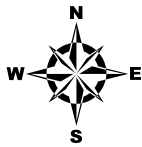

Permit Issuance Date: July 28, 1987
 Permitted Airspace: 9,477,000 yd³
 Remaining Life: 30 years
 Waste: 153,344 tons/year; 495 tons/day (310 days)
 Out-of-State Waste: 33,567 tons/year
 % Out-of-State Waste: 21.89%
 Other States Serviced: AL (21.87%), LA (0.02%), TN (<0.01%)

LEFLORE CO. MUNICIPAL SOLID WASTE LANDFILL

Leflore County Board of Supervisors/ Waste Connections, Inc.

- Landfill GIS Location
33° 26' 44.0" N
90° 12' 28.0" W

 Areas serviced with the amount of waste received (in tons) during 2005

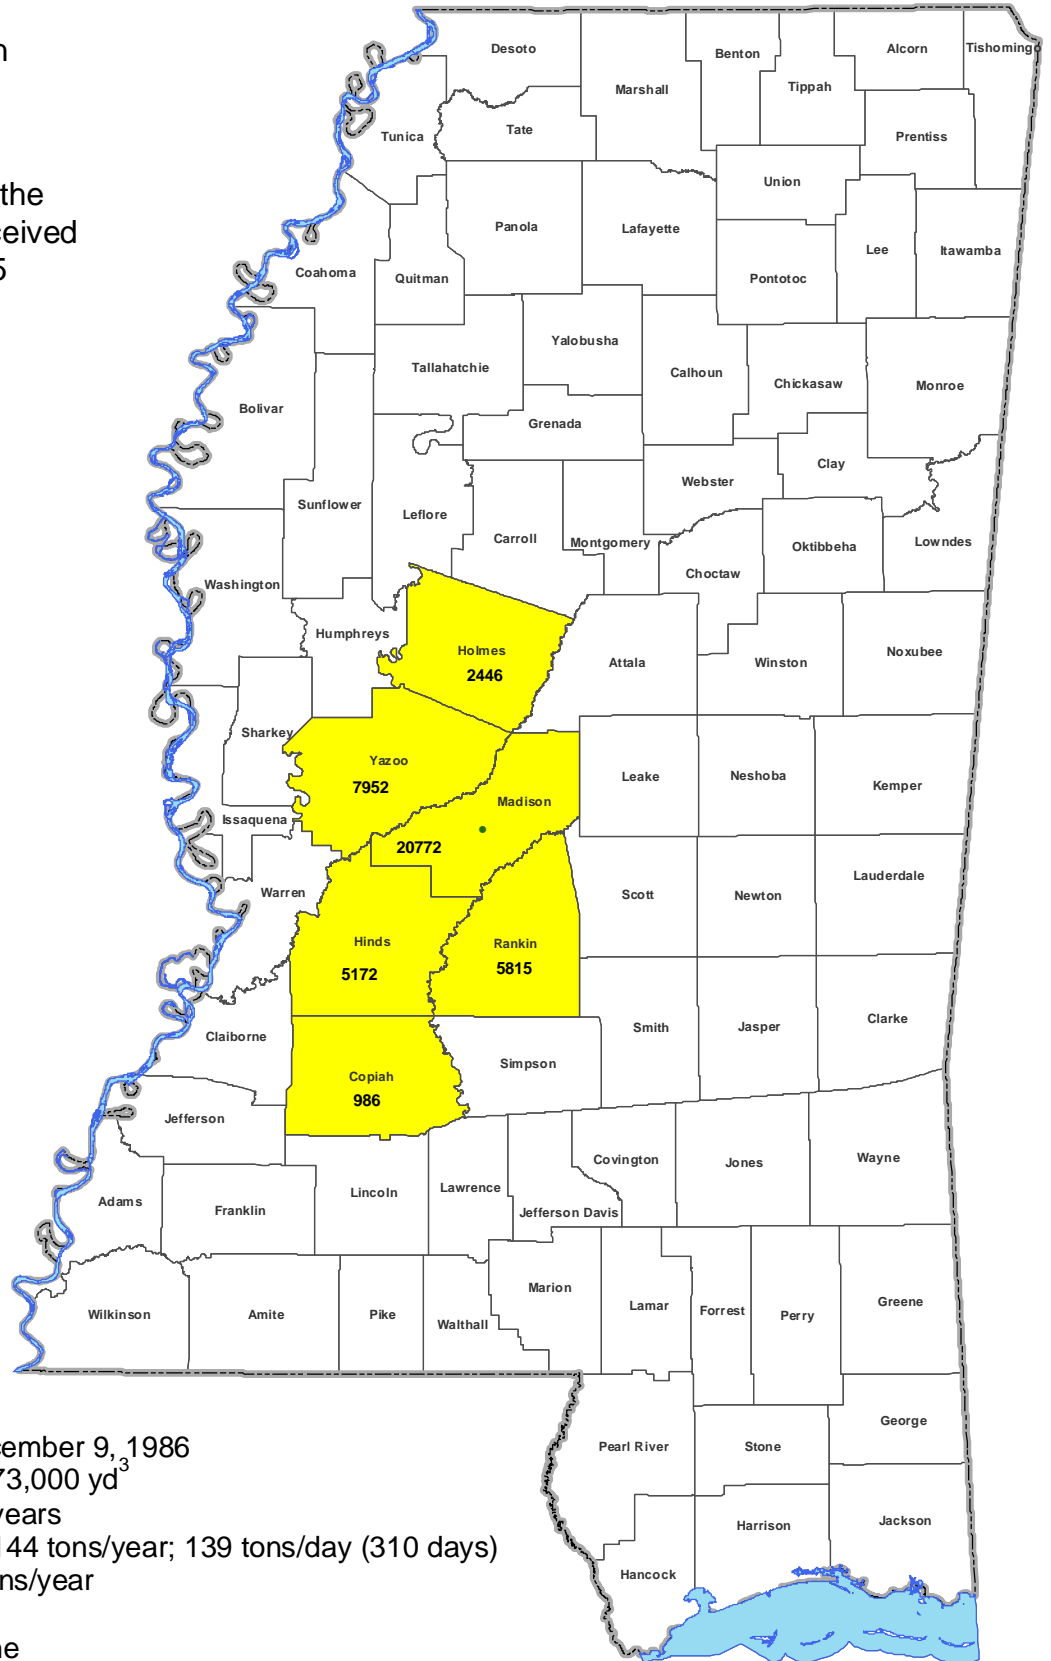

Permit Issuance Date: August 23, 1994
 Permitted Airspace: 4,119,639 yd³
 Remaining Life: 23 years
 Waste: 91,998 tons/year; 297 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

CANTON SANITARY LANDFILL

City of Canton

- Landfill GIS Location
32° 35' 49.2" N
90° 03' 59.3" W

 Areas serviced with the amount of waste received (in tons) during 2005

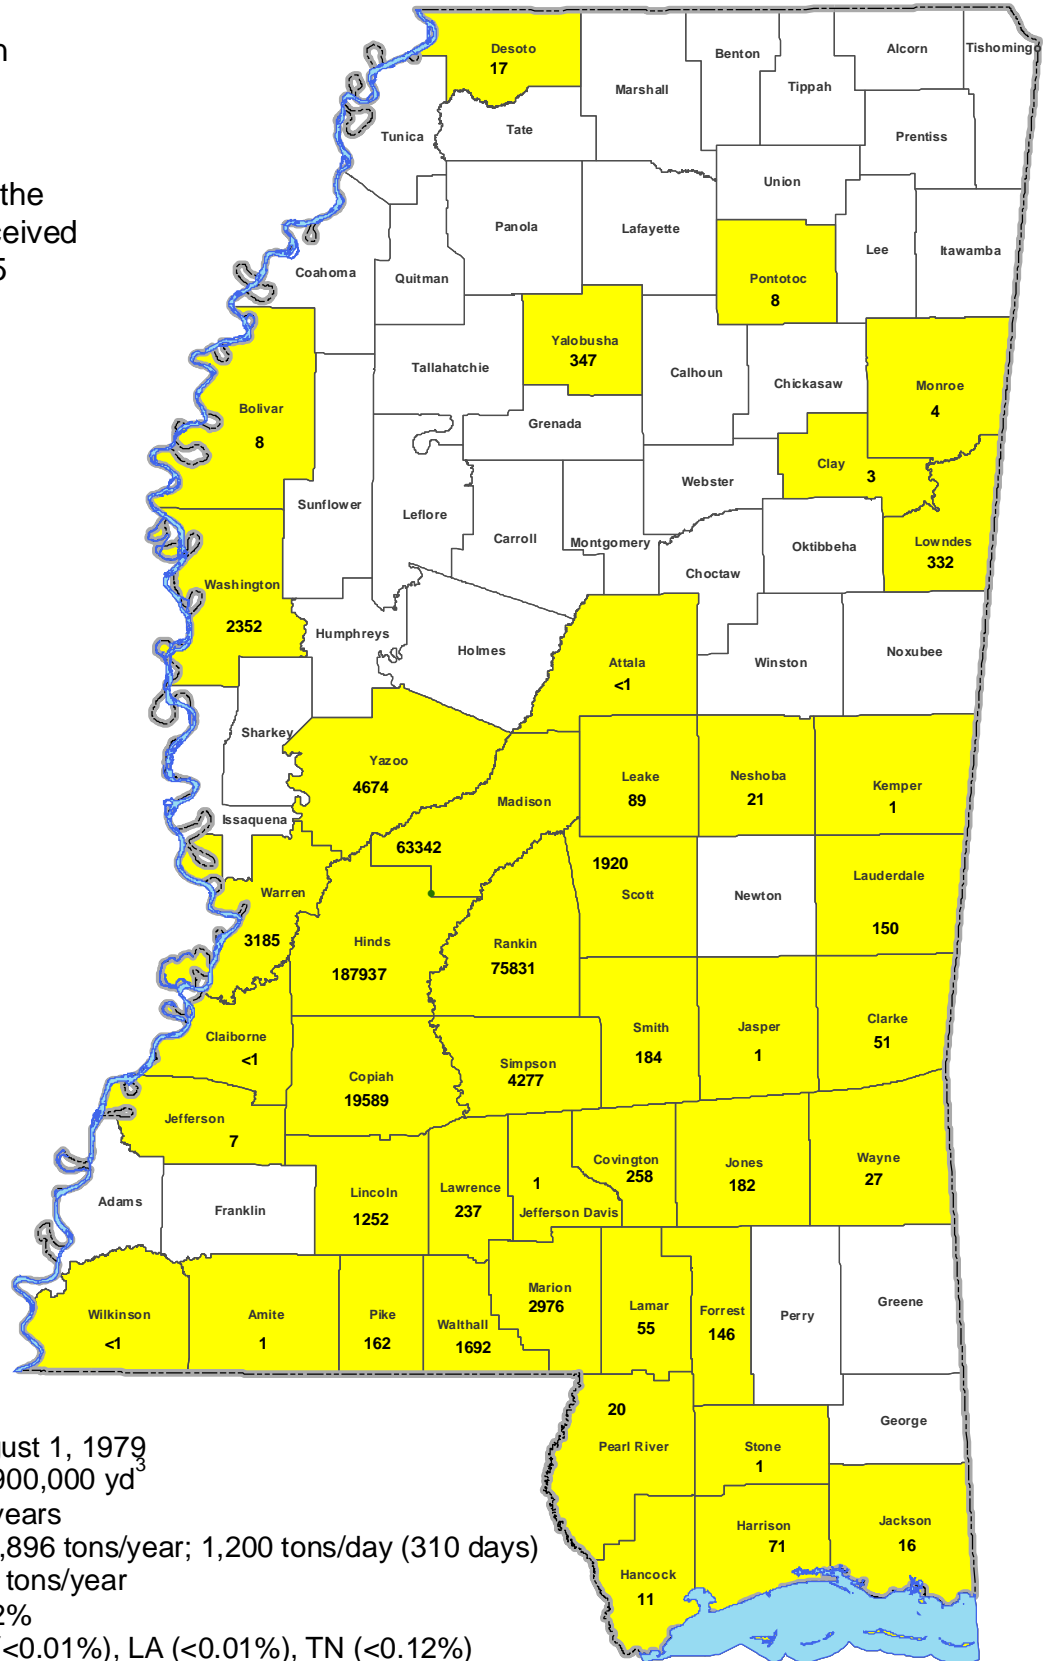

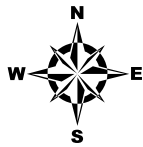

Permit Issuance Date: December 9, 1986
 Permitted Airspace: 1,673,000 yd³
 Remaining Life: 39 years
 Waste: 43,144 tons/year; 139 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

LITTLE DIXIE LANDFILL

BFI Waste Systems of North America, Inc.

- Landfill GIS Location
32° 24' 31.6" N
90° 14' 35.7" W

 Areas serviced with the amount of waste received (in tons) during 2005

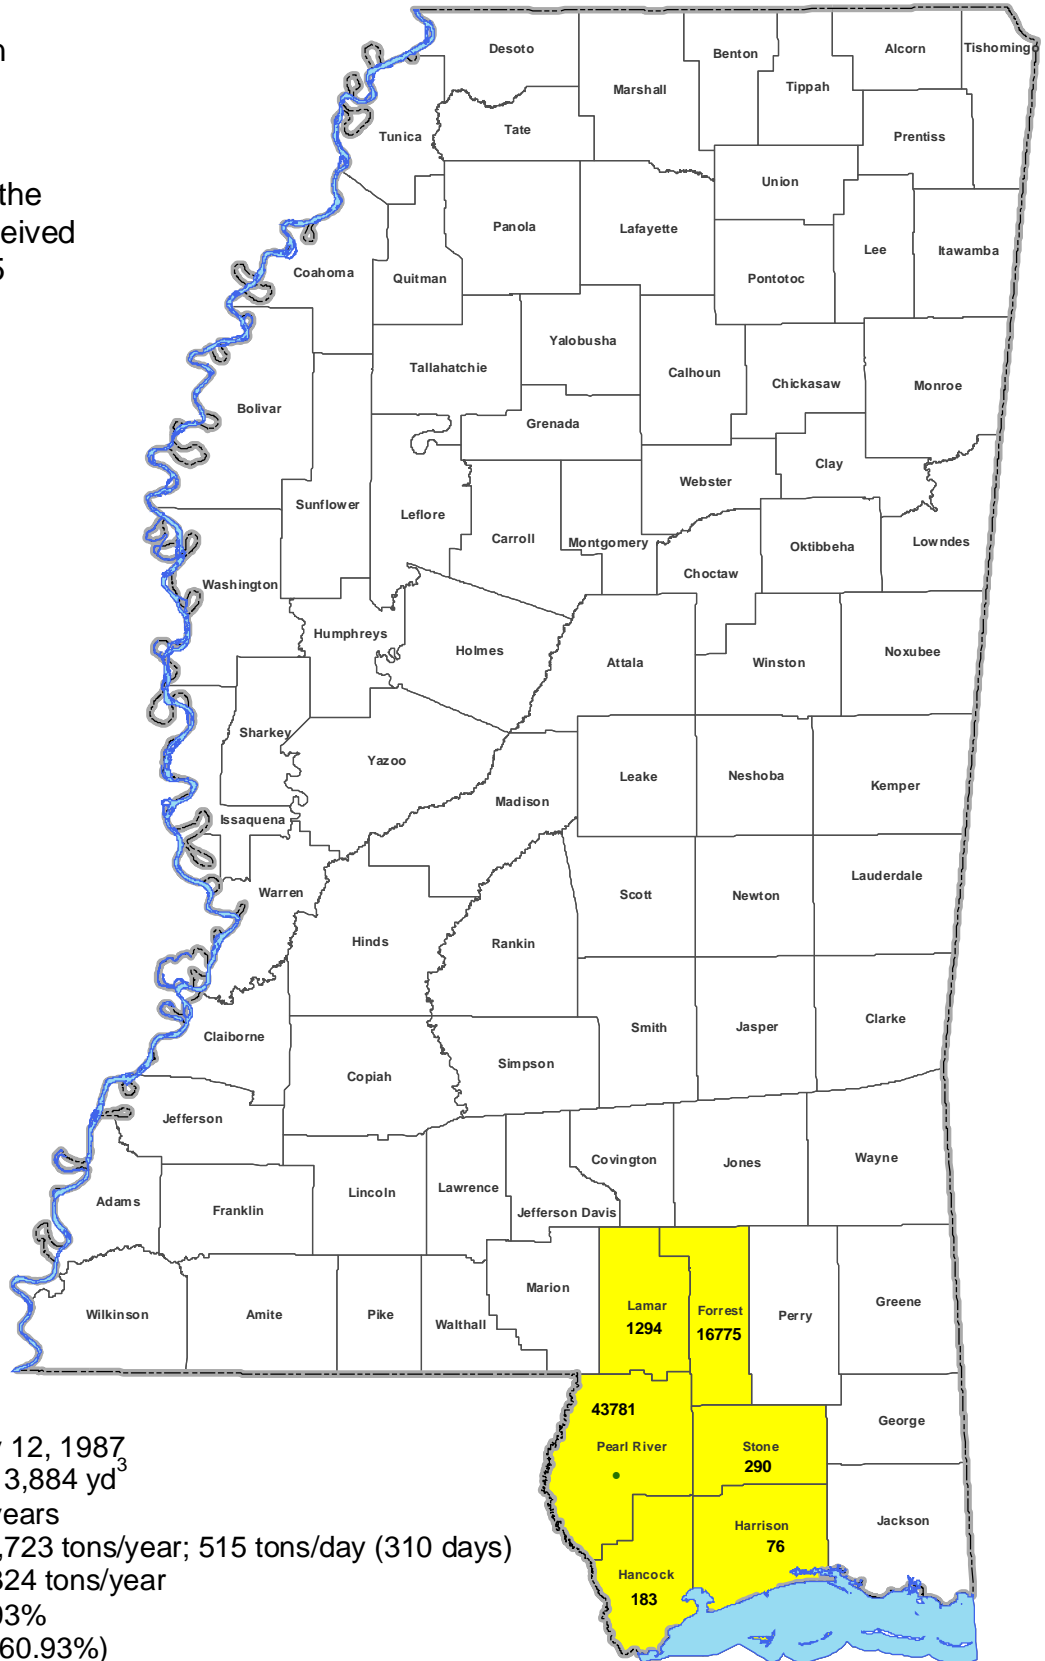

Permit Issuance Date: August 1, 1979
 Permitted Airspace: 25,900,000 yd³
 Remaining Life: 24 years
 Waste: 371,896 tons/year; 1,200 tons/day (310 days)
 Out-of-State Waste: 459 tons/year
 % Out-of-State Waste: 0.12%
 Other States Serviced: AL (<0.01%), LA (<0.01%), TN (<0.12%)

CENTRAL LANDFILL

Trans American Waste Central Landfill, Inc.

- Landfill GIS Location
30° 42' 26.4" N
89° 36' 06.1" W

Areas serviced with the amount of waste received (in tons) during 2005

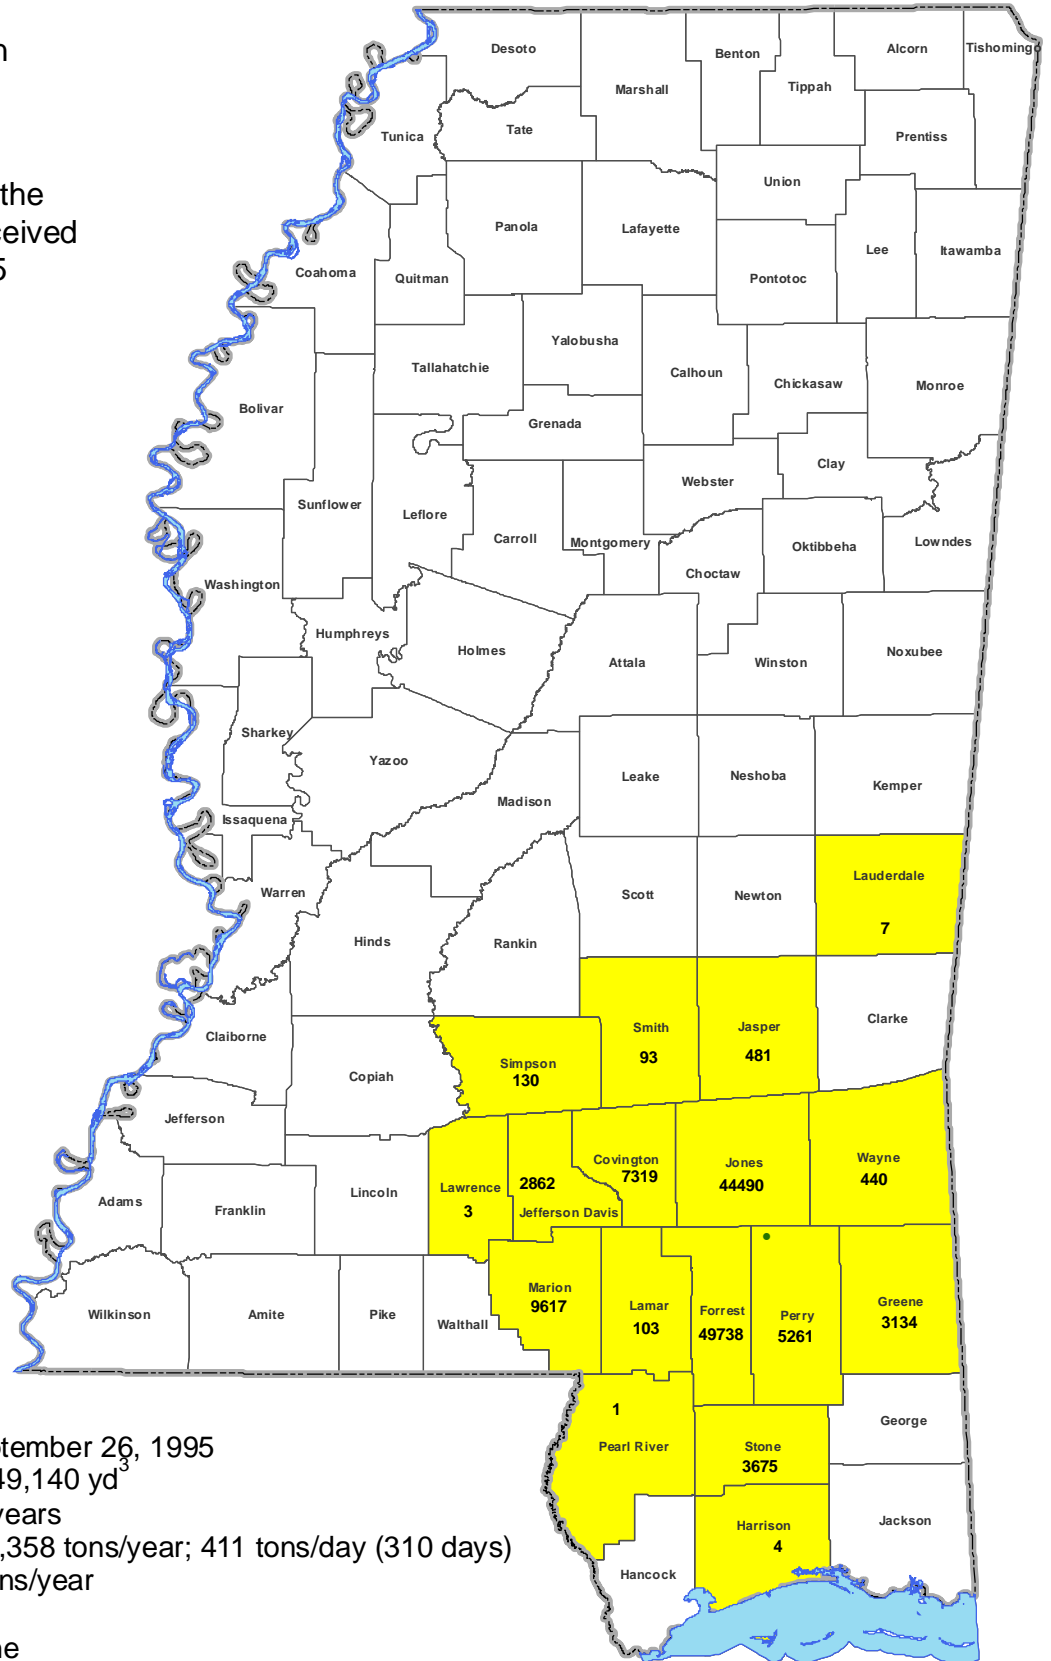

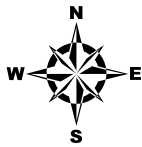

Permit Issuance Date: May 12, 1987
 Permitted Airspace: 8,313,884 yd³
 Remaining Life: 33 years
 Waste: 159,723 tons/year; 515 tons/day (310 days)
 Out-of-State Waste: 97,324 tons/year
 % Out-of-State Waste: 60.93%
 Other States Serviced: LA (60.93%)

PINE BELT REGIONAL LANDFILL

Pine Belt Regional Solid Waste Management Authority

- Landfill GIS Location
31° 24' 20.3" N
89° 05' 37.7" W

Areas serviced with the amount of waste received (in tons) during 2005

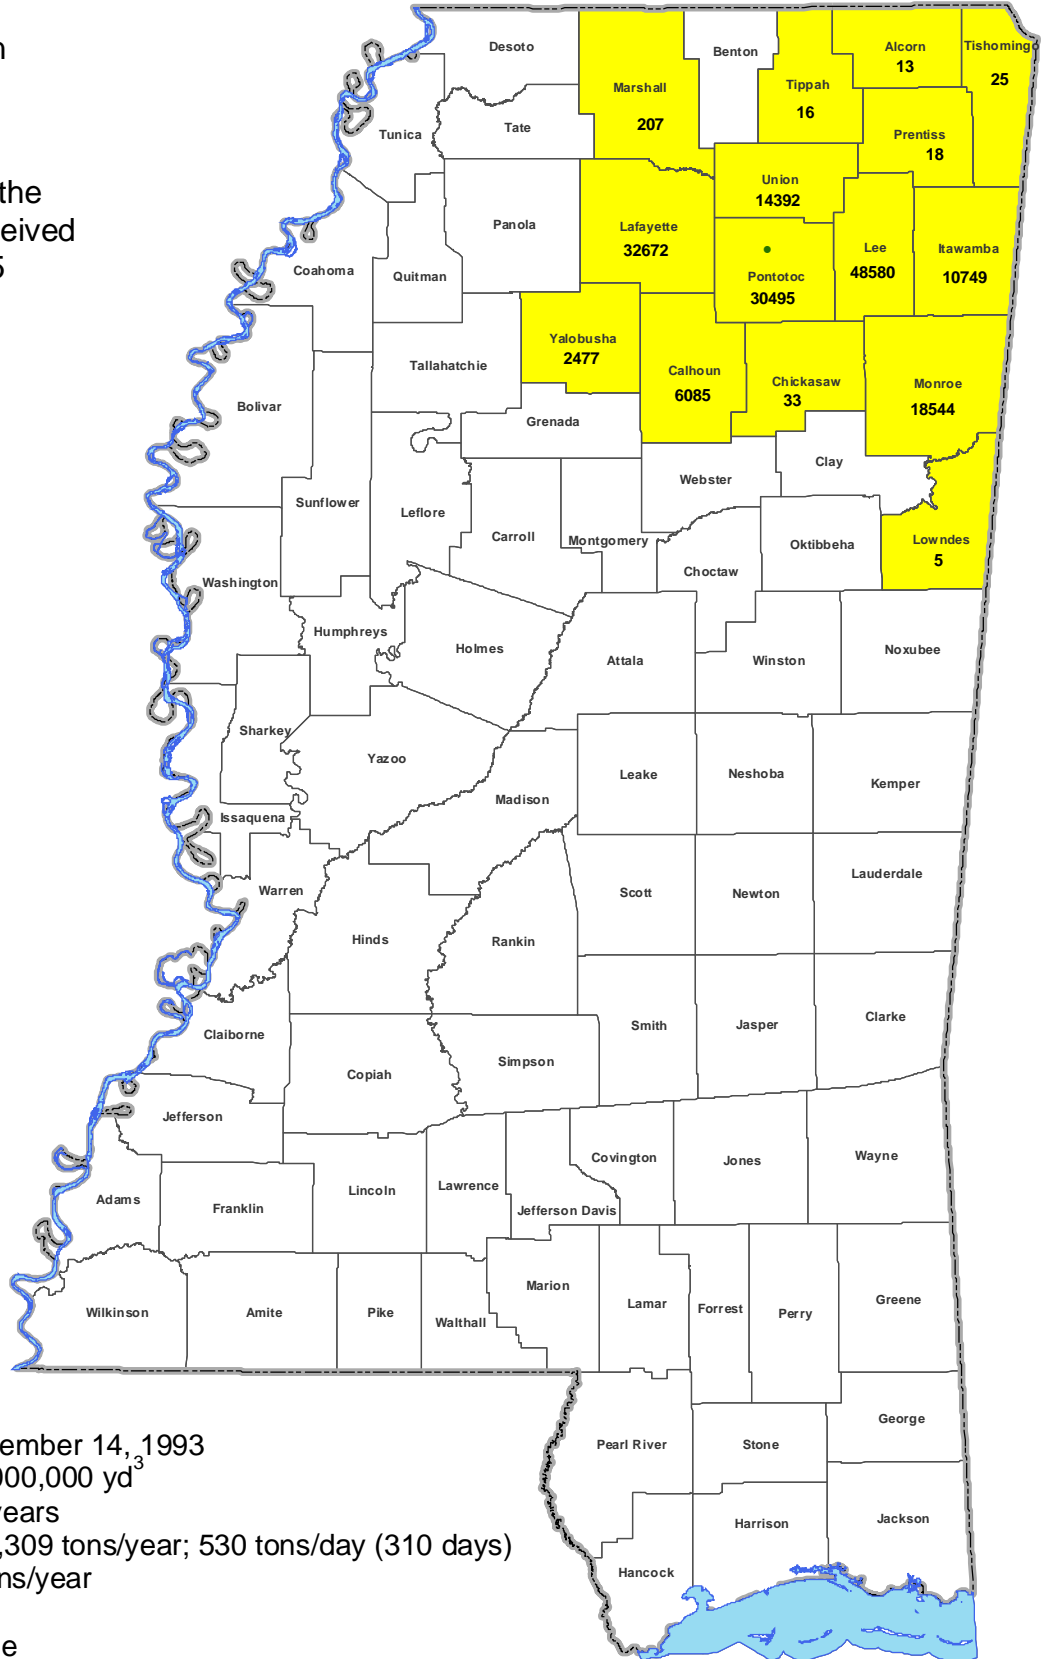

Permit Issuance Date: September 26, 1995
 Permitted Airspace: 4,249,140 yd³
 Remaining Life: 12 years
 Waste: 127,358 tons/year; 411 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

THREE RIVERS REGIONAL LANDFILL

Three Rivers Solid Waste Management Authority/ Waste Connections, Inc.

- Landfill GIS Location
34° 17' 07.9" N
89° 03' 32.5" W

 Areas serviced with the amount of waste received (in tons) during 2005

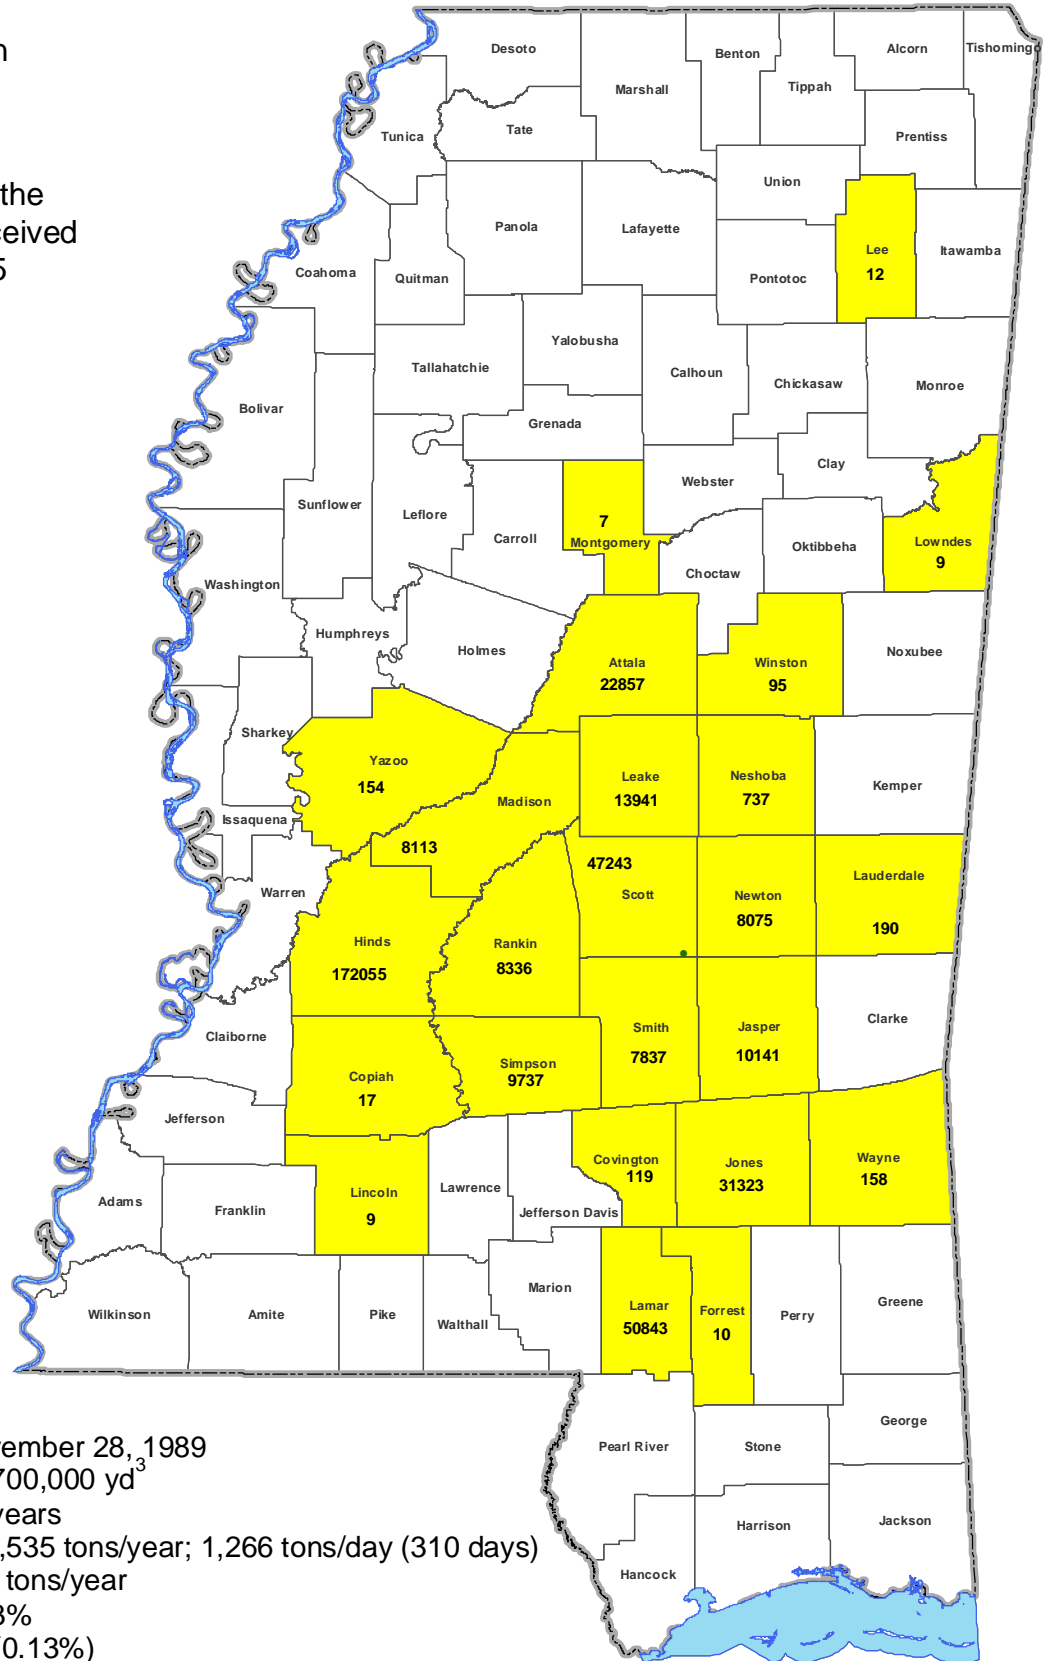

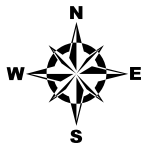

Permit Issuance Date: December 14, 1993
 Permitted Airspace: 23,000,000 yd³
 Remaining Life: 55 years
 Waste: 164,309 tons/year; 530 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

CLEARVIEW ENVIRONMENTAL CONTROL FACILITY

Chambers of Mississippi, Inc.

- Landfill GIS Location
32° 14' 07.3" N
89° 22' 20.2" W

 Areas serviced with the amount of waste received (in tons) during 2005

Permit Issuance Date: November 28, 1989
 Permitted Airspace: 19,700,000 yd³
 Remaining Life: 37 years
 Waste: 392,535 tons/year; 1,266 tons/day (310 days)
 Out-of-State Waste: 517 tons/year
 % Out-of-State Waste: 0.13%
 Other States Serviced: AL (0.13%)

NORTHEAST MISSISSIPPI REGIONAL LANDFILL

Northeast MS Solid Waste Management Authority

Waste Services of Northeast Mississippi, LLC

- Landfill GIS Location
34° 56' 51.7" N
88° 56' 15.9" W

 Areas serviced with the amount of waste received (in tons) during 2005

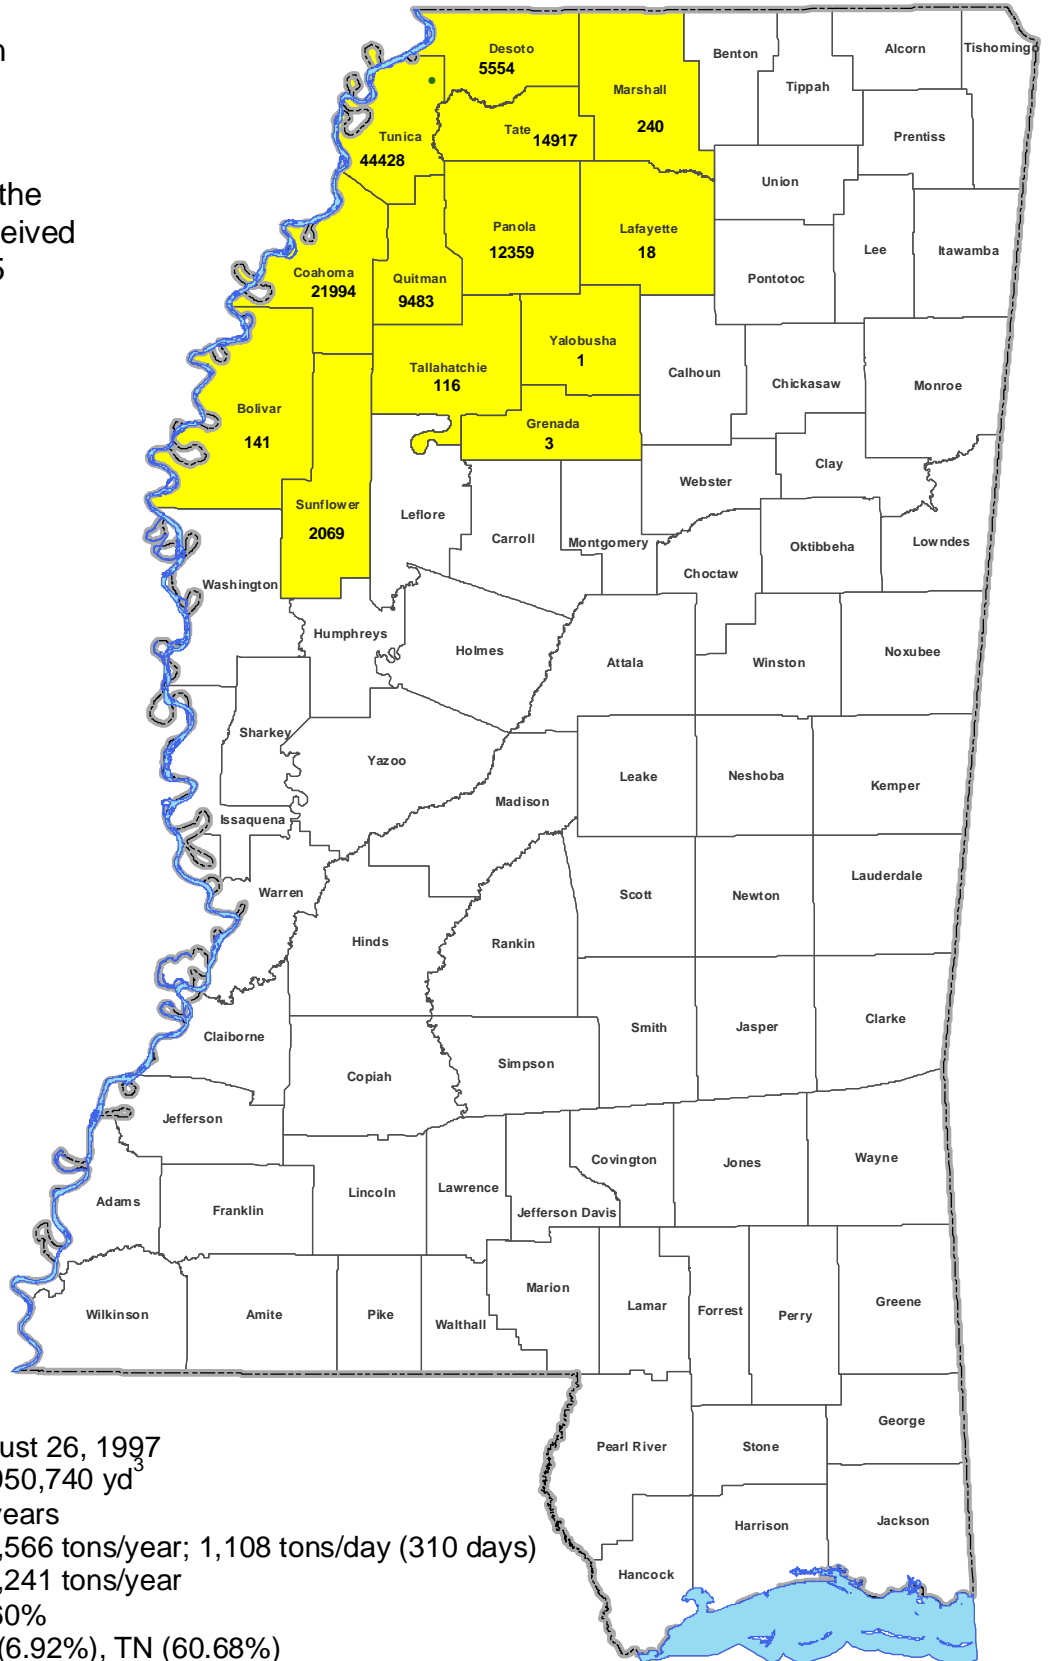

Permit Issuance Date: February 14, 1995
 Permitted Airspace: 6,487,000 yd³
 Remaining Life: 1 years
 Waste: 258,250 tons/year; 833 tons/day (310 days)
 Out-of-State Waste: 144,306 tons/year
 % Out-of-State Waste: 55.88%
 Other States Serviced: AL (13.56%), TN (42.32%)

TUNICA COUNTY LANDFILL

Waste Management of Tunica, Inc.

- Landfill GIS Location
34° 47' 15.6" N
90° 14' 53.9" W

 Areas serviced with the amount of waste received (in tons) during 2005

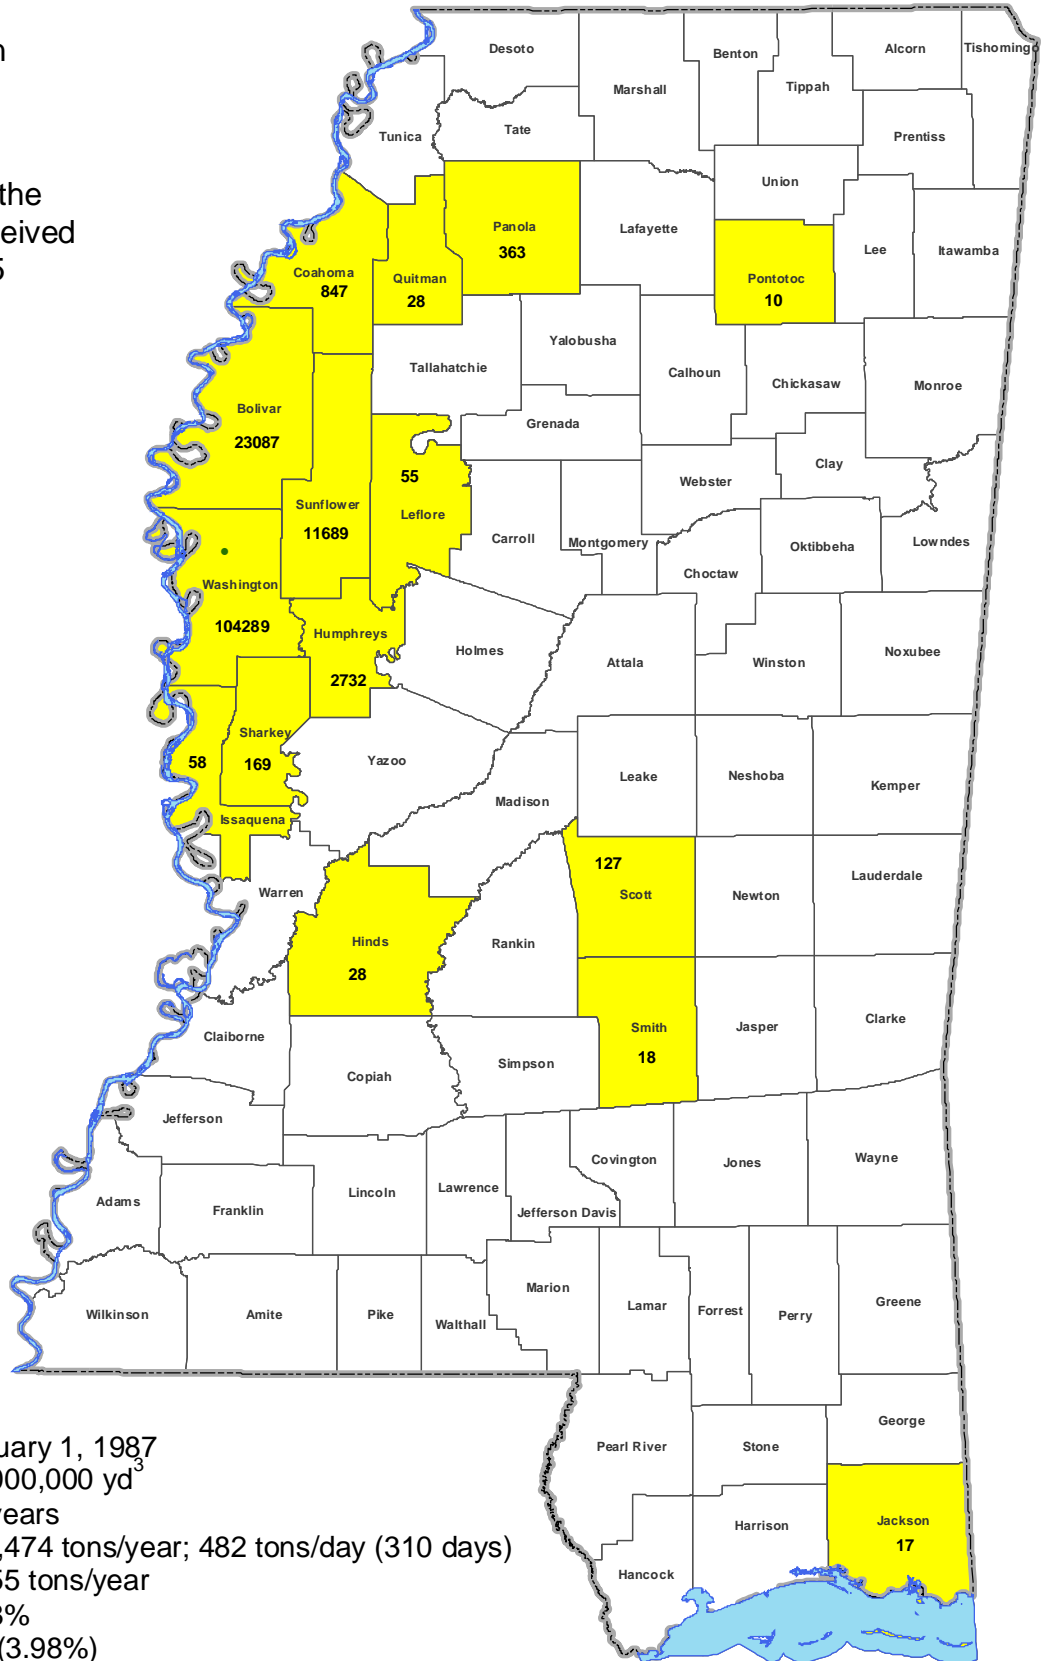

Permit Issuance Date: August 26, 1997
 Permitted Airspace: 26,950,740 yd³
 Remaining Life: 54 years
 Waste: 343,566 tons/year; 1,108 tons/day (310 days)
 Out-of-State Waste: 232,241 tons/year
 % Out-of-State Waste: 67.60%
 Other States Serviced: AR (6.92%), TN (60.68%)

BIG RIVER LANDFILL

BFI Waste Systems of North America, Inc.

- Landfill GIS Location
33° 24' 22.7" N
90° 57' 38.3" W

 Areas serviced with the amount of waste received (in tons) during 2005

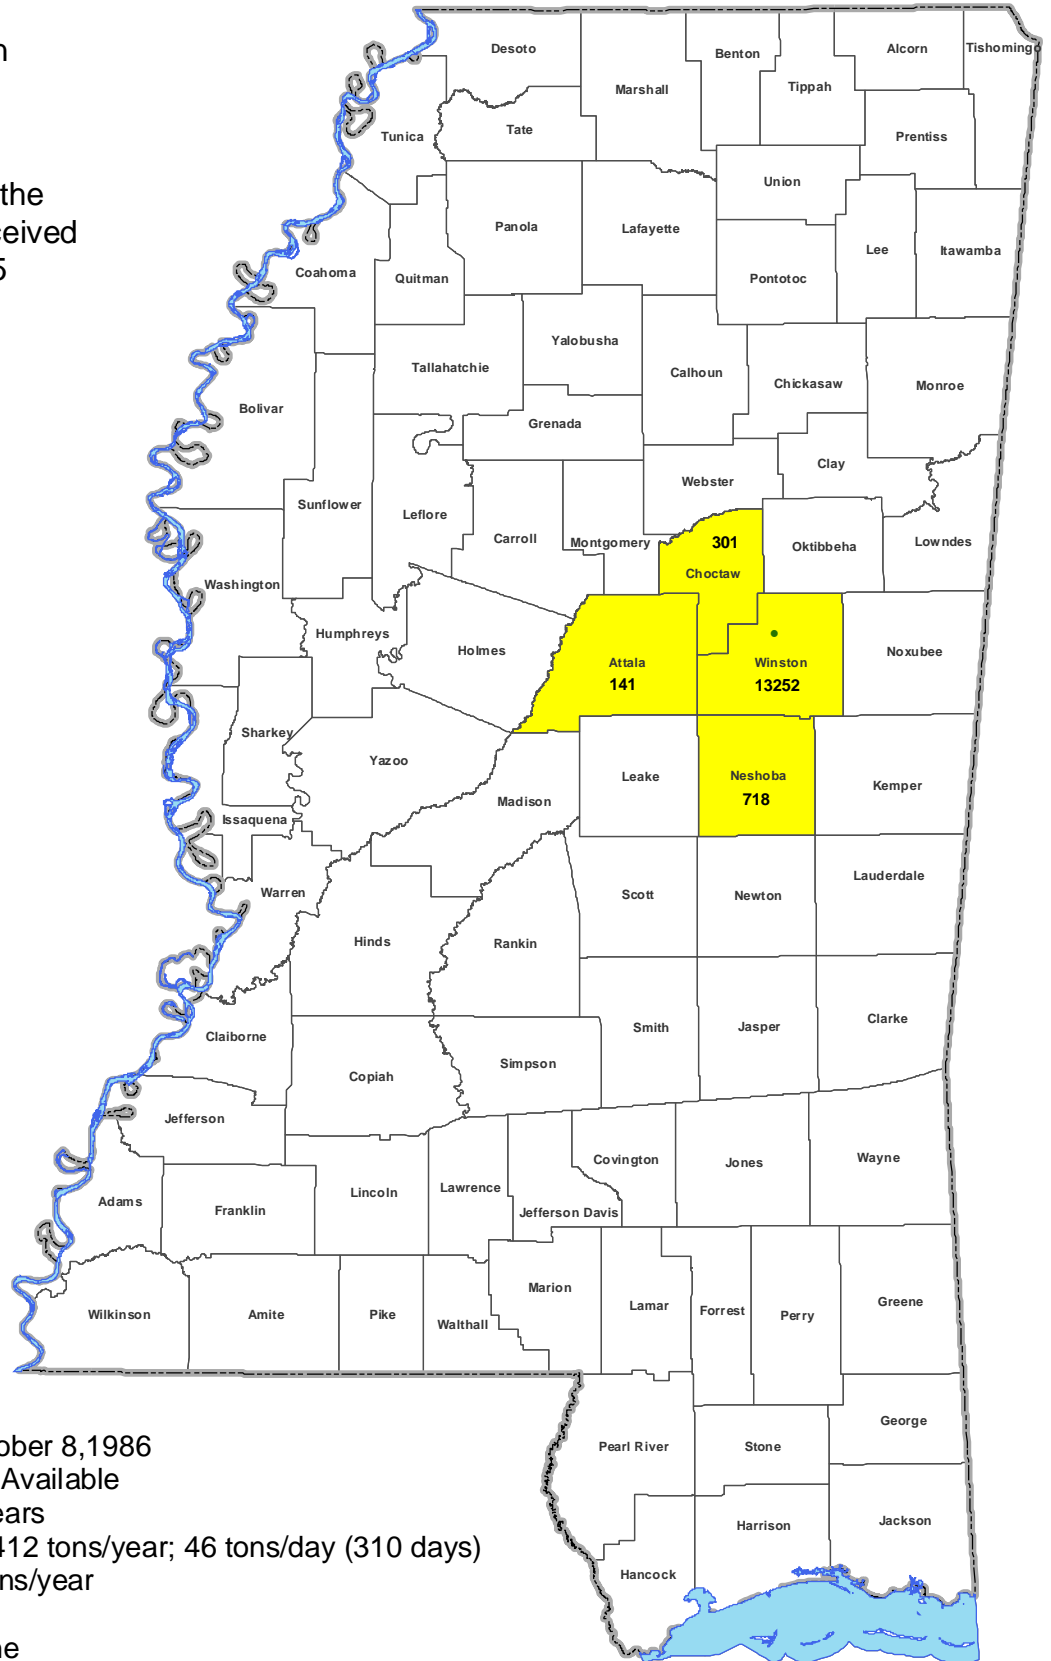

Permit Issuance Date: January 1, 1987
 Permitted Airspace: 16,000,000 yd³
 Remaining Life: 77 years
 Waste: 149,474 tons/year; 482 tons/day (310 days)
 Out-of-State Waste: 5,955 tons/year
 % Out-of-State Waste: 3.98%
 Other States Serviced: AR (3.98%)

CITY OF LOUISVILLE SOLID WASTE LANDFILL

City of Louisville

- Landfill GIS Location
33° 10' 06.0" N
89° 03' 15.0" W

 Areas serviced with the amount of waste received (in tons) during 2005

Permit Issuance Date: October 8, 1986
 Permitted Airspace: Not Available
 Remaining Life: 5 years
 Waste: 14,412 tons/year; 46 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

Non-Municipal Solid Waste (Non-MSW) Landfills

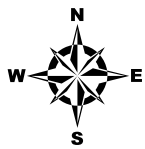

Non-MSW Landfills are disposal facilities that are designed and constructed to receive a limited range of nonhazardous solid wastes, such as industrial sludges and ashes, and special wastes, such as asbestos, for disposal. These landfills generally receive waste from either one primary industrial source or receive one primary waste stream. These facilities are not authorized to accept household garbage or other similar wastes. There were 6 permitted non-MSW landfills that operated during Calendar Year 2005. According to the annual reports submitted by the owners/operators, these 6 non-MSW landfills received a total of 129,224 tons of solid waste during Calendar Year 2005.

The annual report on the solid waste disposal activities conducted at each non-MSW landfill is required by the Mississippi Code Annotated Section 17-17-219 (Supp. 2005) and Section IV.B.15 of the Mississippi Nonhazardous Solid Waste Management Regulations. This report contains a summary of these individual facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the locations of non-MSW landfills; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2005 for non-MSW landfills. The information is listed alphabetically by County.

Class I and Class II Rubbish Sites

Class I and Class II Rubbish Sites are facilities that are designed and constructed to receive rubbish wastes from a variety of sources for disposal. Rubbish is a subset of the overall municipal solid waste stream generated in the State of Mississippi that includes non-putrescible types of wastes. A significant amount of rubbish wastes are managed and disposed of each year at commercial rubbish disposal facilities across the state. This was especially true in 2005 due to an unprecedented natural disaster caused by Hurricane Katrina. In addition to the existing 155 permitted rubbish sites in Mississippi, another 42 emergency disposal sites were authorized by MDEQ for disposal of rubbish debris from the Hurricane Katrina clean-up efforts.

Class I Rubbish Sites

There were 80 permitted commercial class I rubbish sites, 4 of which were inactive during Calendar Year 2005 and 3 did not report. According to the annual reports submitted by the owners/operators, a total of 1,636,076 tons of rubbish wastes were disposed of at the remaining 73 active class I rubbish sites during Calendar Year 2005. Also, 37 of these 74 class I rubbish sites reported receiving a total of 755,057 tons of debris related to Hurricane Katrina.

In addition, 13 out of 42 emergency disposal sites received class I type rubbish wastes resulting from Hurricane Katrina. According to the annual reports submitted by these emergency site owners/operators, a total of 1,172,974 tons of wastes were disposed during Calendar Year 2005.

Class I rubbish sites may accept all solid wastes that are defined as rubbish wastes. These wastes generally include the following information:

- construction and demolition debris;
- brick, mortar, concrete, stone, and asphalt;
- cardboard;
- natural vegetation;
- appliances which have had the motor removed (except refrigerators);
- furniture;
- plastic, glass, crockery, and metal (except containers); and
- sawdust, wood shavings, and wood chips.

Class II Rubbish Sites

There were 75 permitted commercial class II rubbish sites, 18 of which were inactive during Calendar Year 2005. Also, 1 class II site did not report. According to the annual reports submitted by the owners/operators, a total of 188,387 tons of rubbish wastes were disposed of at the remaining 56 active class II rubbish sites during Calendar Year 2005. Also, 25 of these 56 class II sites reported receiving a total of 66,353 tons of debris from Hurricane Katrina.

In addition, 29 out of 42 emergency disposal sites received class II type rubbish wastes (primarily vegetative debris) resulting from Hurricane Katrina. According to the annual reports submitted by these emergency site owners/operators, a total of 208,967 tons of wastes was disposed of at 26 emergency class II rubbish sites during Calendar Year 2005. The remaining 3 emergency class II rubbish sites had not reported at the time of publication.

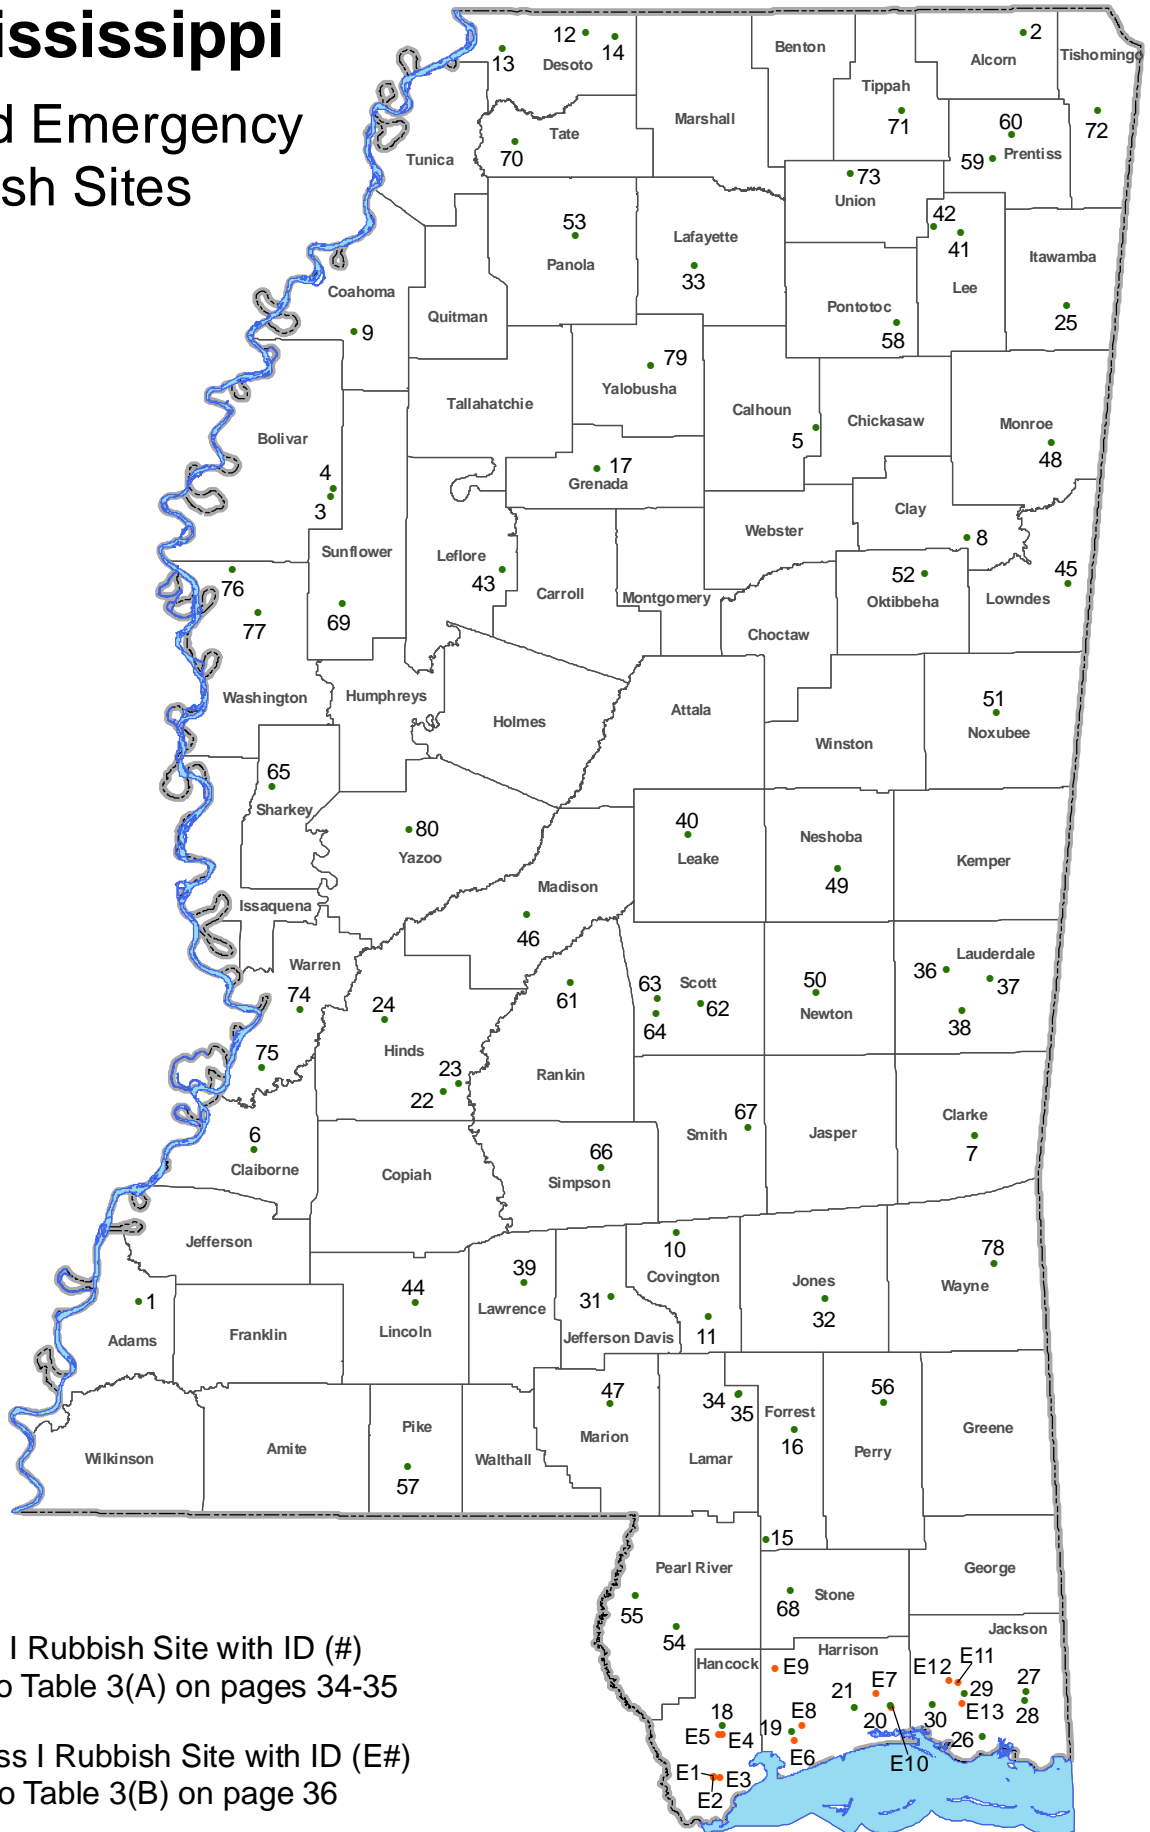

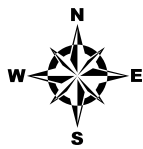

Class II rubbish sites may accept limited types of inert rubbish wastes. These inert wastes include natural vegetation, brick, mortar, concrete, stone, and asphalt.

An annual report on the solid waste disposal activity conducted at each rubbish site is required by the Mississippi Code Annotated, Section 17-17-219 (Supp. 2005), Section VI.E.16 of the Mississippi Nonhazardous Waste Management Regulations, Section T of Statewide General Permit No. SWGP-R1 for class I rubbish sites, and Section R of Statewide General Permit No. SWGP-R2 for class II rubbish sites. This report contains a summary of these facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the locations of permitted and emergency class I rubbish sites;
2. A summary of the information provided by rubbish site owners in the individual annual reports for Calendar Year 2005 for permitted and emergency class I rubbish sites in Mississippi. The information is listed alphabetically by County;
3. A state map showing the locations of permitted and emergency class II rubbish sites; and
4. A summary of the information provided by rubbish site owners in the individual annual reports for Calendar Year 2005 for permitted and emergency class II rubbish sites in the State of Mississippi. The information is listed alphabetically by County.

State of Mississippi

Permitted and Emergency Class I Rubbish Sites

- Permitted Class I Rubbish Site with ID (#) corresponding to Table 3(A) on pages 34-35
- Emergency Class I Rubbish Site with ID (E#) corresponding to Table 3(B) on page 36

PART II

**NON-COMMERCIAL SOLID WASTE
DISPOSAL FACILITIES**

Industrial and Institutional Landfills

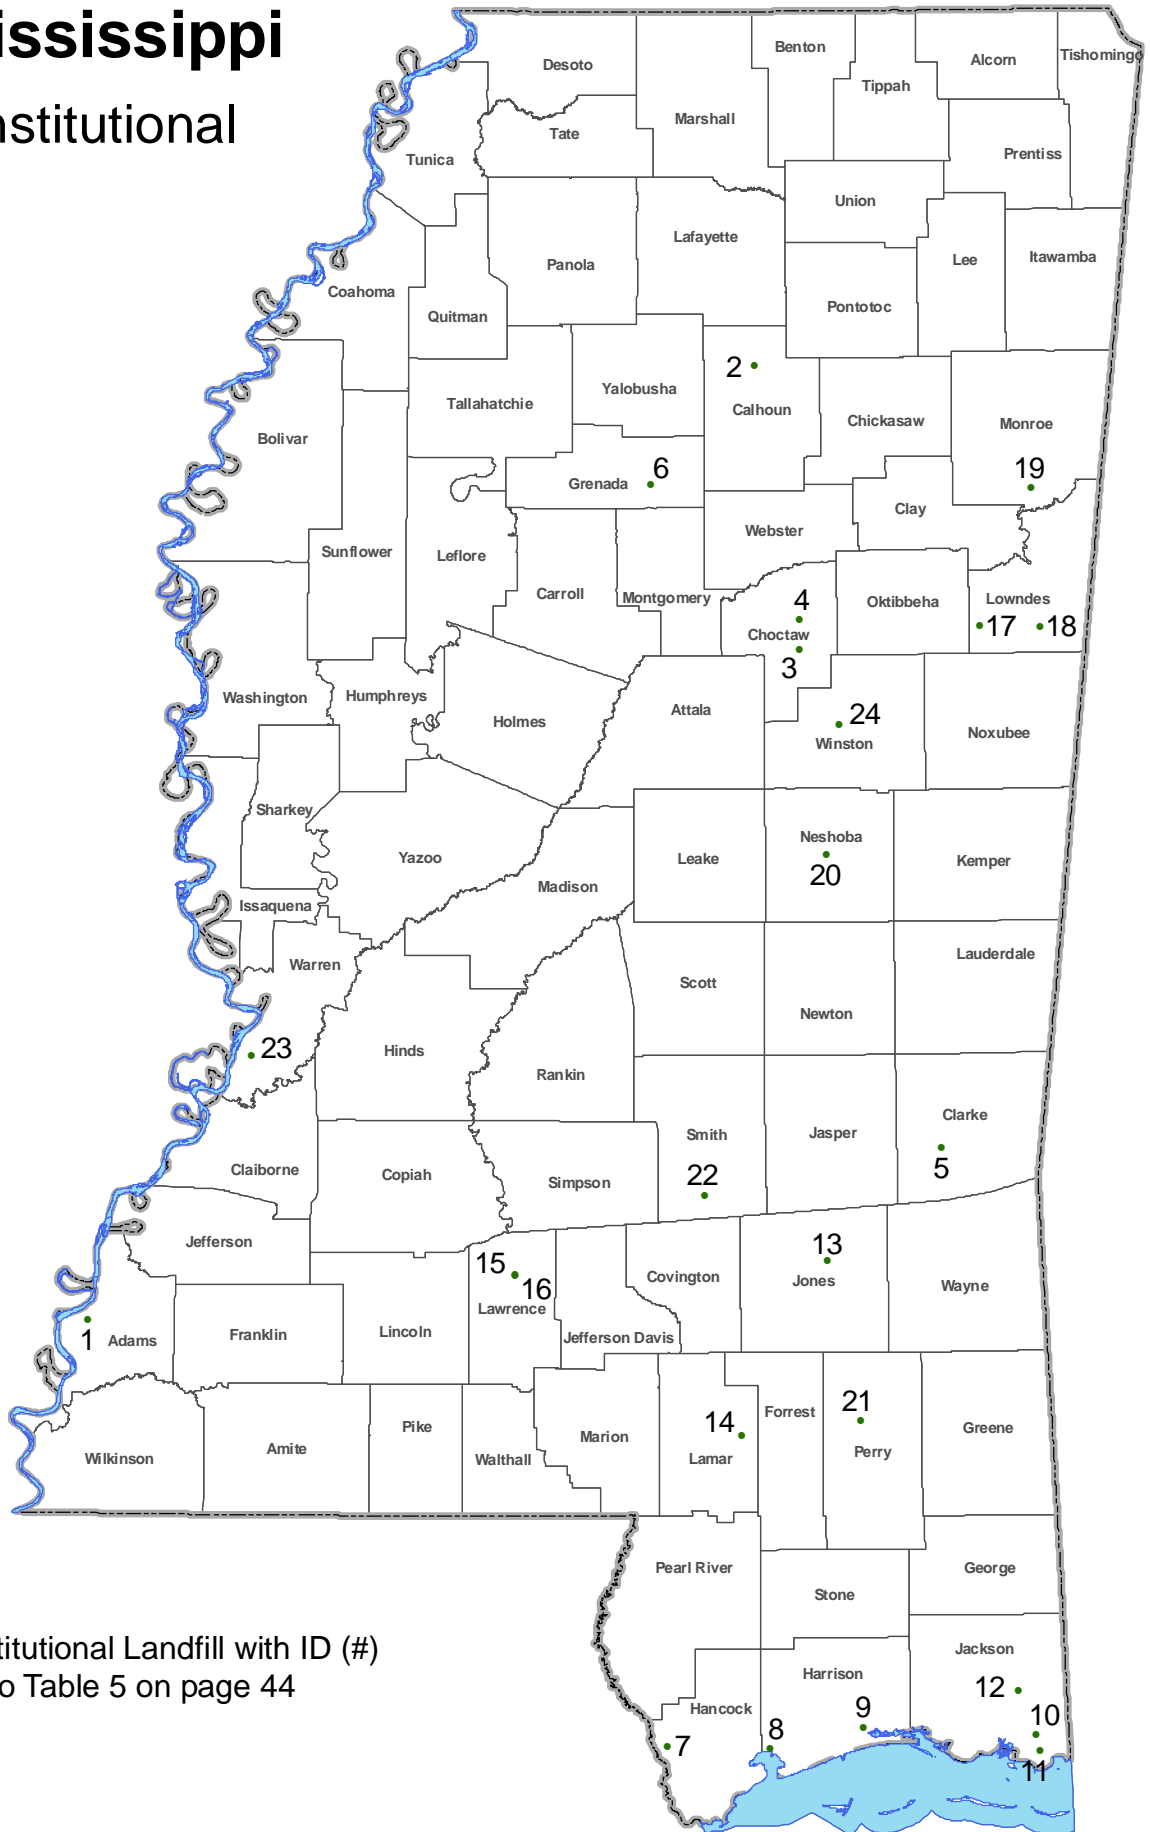

Industrial and Institutional Landfills are disposal facilities that are designed and constructed to receive nonhazardous industrial wastes and certain special wastes from one primary source for ultimate disposal. These disposal facilities are generally owned and operated by the industry or institution that generates the wastes. There were 24 permitted industrial and institutional landfills, of which 2 were inactive during Calendar Year 2005. According to the annual reports submitted by the owners/operators, a total of 2,544,384 tons of solid waste were disposed of at the remaining 22 landfills during Calendar Year 2005.

The annual report on the solid waste disposal activities conducted at each industrial and institutional landfill is required by the individual facility permit conditions. This report contains a summary report on the disposal activities conducted at landfills in Mississippi during Calendar Year 2005. The report includes the following information:

1. A state map showing the locations of industrial and institutional landfills; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2005 for industrial and institutional landfills. The information is listed alphabetically by County.

Industrial and Institutional Rubbish Sites

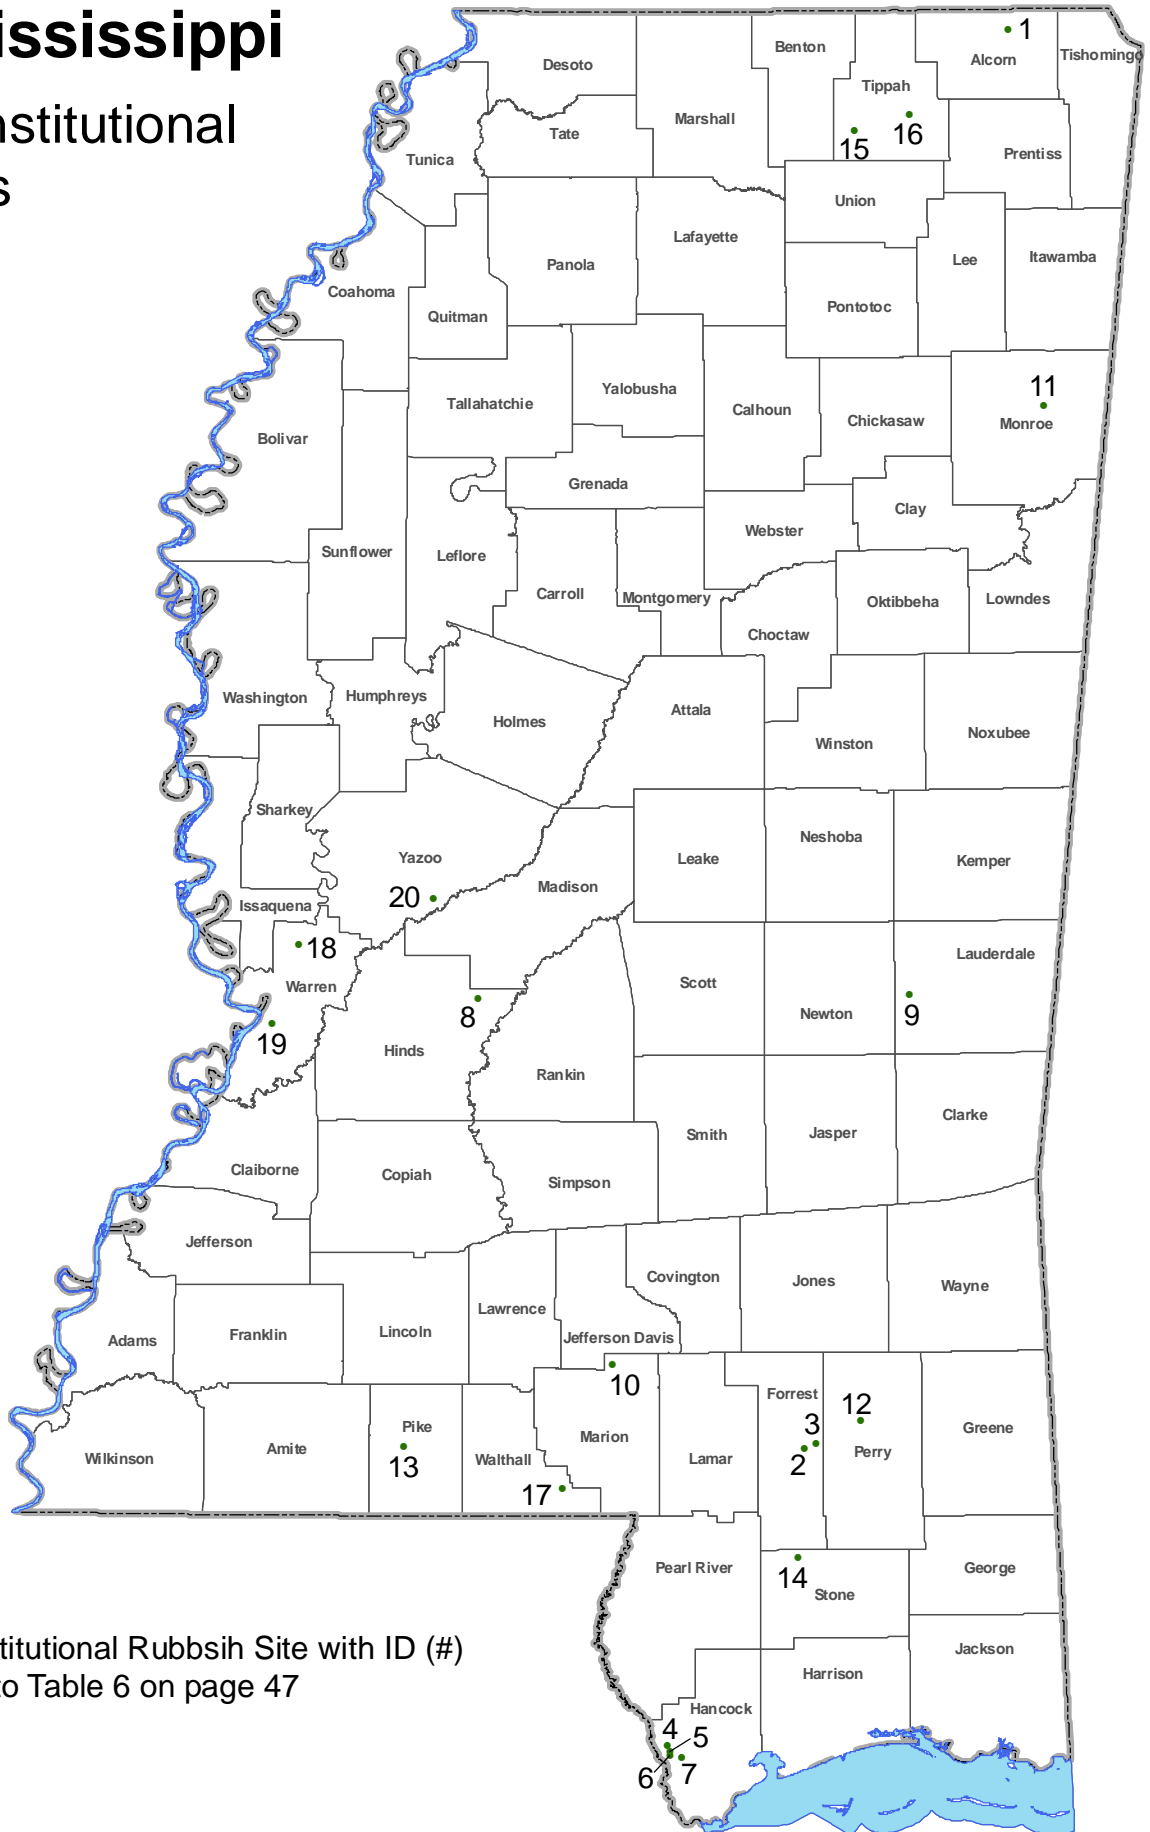

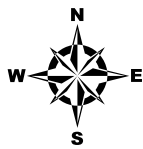

Industrial and Institutional Rubbish Sites are facilities that are designed and constructed to receive class I and/or class II rubbish wastes from industrial or institutional sources for disposal. These disposal facilities are generally owned and operated by the industry or institution that generates the wastes and are categorized as either class I or class II rubbish sites depending upon the types of waste disposed. There were 20 permitted industrial or institutional rubbish sites, 6 of which were inactive during Calendar Year 2005. According to the annual reports submitted by the owners/operators, a total of 48,106 tons of solid wastes were disposed of at the remaining 14 industrial rubbish sites during Calendar Year 2005.

The annual report on the solid waste disposal activity conducted at each rubbish site is required by Section VI.E.16 of the Mississippi Nonhazardous Solid Waste Management Regulations, Section T of Statewide General Permit No. SWGP-R1 for class I rubbish sites and Section R of Statewide General Permit No. SWGP-R2 for class II rubbish sites. This report contains a summary of the individual facility reports as reported by the facility owners. The report includes the following information:

1. A state map showing the locations of industrial and institutional rubbish sites; and
2. A summary of the information provided by the rubbish site owners in the individual annual reports for Calendar Year 2005 for all non-commercial rubbish sites in Mississippi. The information is listed alphabetically by County.

PART III

**SOLID WASTE LAND
APPLICATION FACILITIES**

Solid Waste Land Application Facilities

Land application facilities are sites where solid waste is applied to the land through either incorporation or injection or other application for soil amendment or conditioning purposes or for biodegradation of the waste. A significant amount of municipal wastewater sludge (commonly referred to as biosolids), non-municipal wastewater sludge, and other waste streams from industrial sources are land applied each year at the permitted land application facilities across the state.

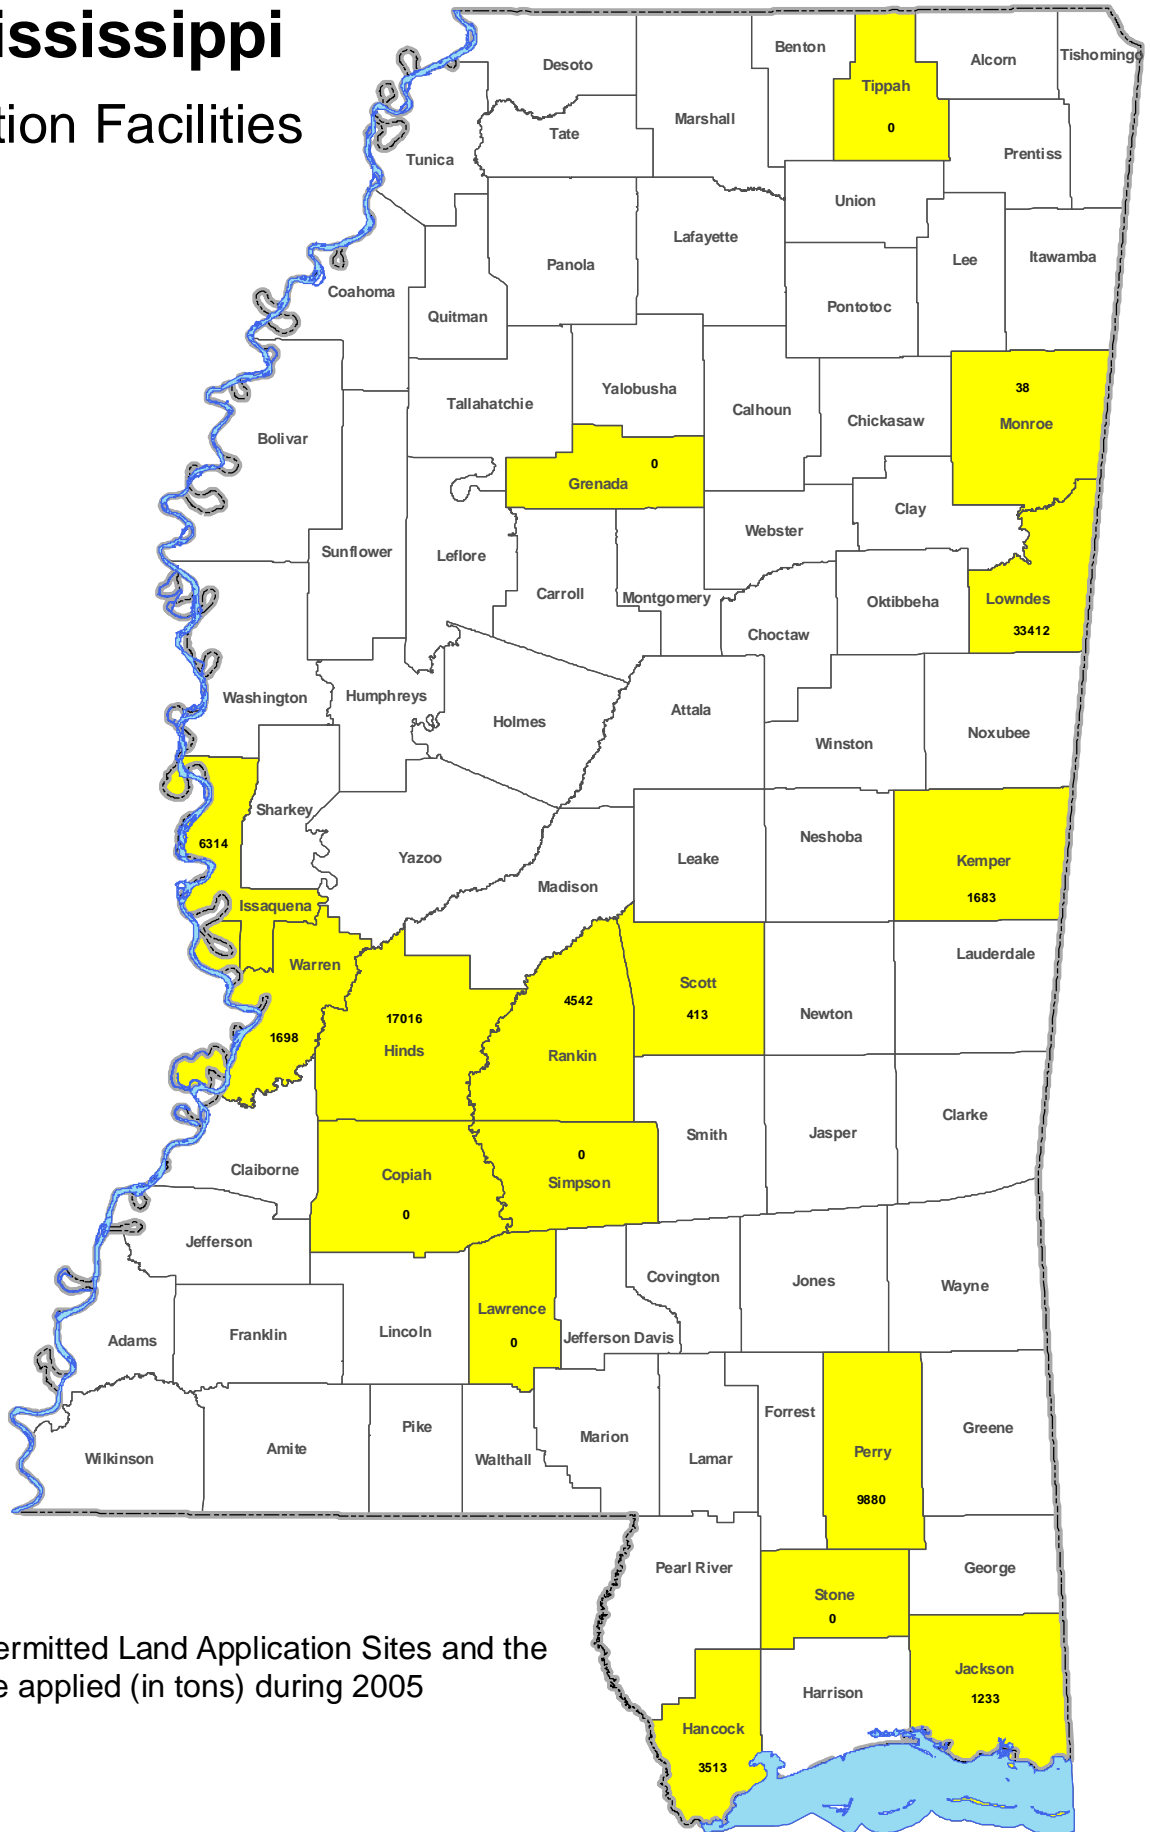

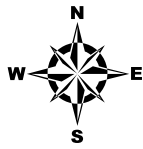

There were 26 permitted land application facilities, 9 of which were inactive during Calendar Year 2005. According to the submitted annual reports, a total of approximately 79,742 dry tons of solid waste was land applied during Calendar Year 2005 at 15 active land application facilities in Mississippi. Approximately 39.45% (31,457 dry tons) of the total waste applied during Calendar Year 2005 was municipal wastewater sludge and the remaining 60.55% (48,285 dry tons) was waste other than municipal wastewater sludge such as wood ash, pulp and paper mill sludge, etc.

An annual report on activities conducted at each land application site is required by the individual facility permit conditions. This report contains summary information on the activities conducted at the permitted land application sites in Mississippi during Calendar Year 2005. The report includes the following information:

1. A state map showing counties where land application sites are permitted; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2005 for land application sites. The information is listed alphabetically by County.
