Do not include plastic tubs such as margarine, yogurt and ice cream container, or motor oil bottles. Clear plastic jars with screw lids are acceptable.	Curbside in plastic bin provided by city 228/435-6271	Rinse plastic bottles and jars Remove and throw away plastic caps Stomp flat to save space in bin
Used Motor Oil	Advance Auto Parts - 1 to 3 gallons Auto Zone - 1 to 3 gallons Wal-Mart Tire & Lube Express - 1 to 3 gal. For a detailed list contact Miss. DEQ at 601/961-5171.	Place used motor oil in empty milk or oil bottle(s) with screw-on cap. Please do not put used motor oil in your garbage or pour it down the street drain.
Tires and Lead Acid Batteries	Advance Auto Parts will take your old lead acid batteries at no charge without the purchase of a new one. Autozone, NAPA and Wal-Mart will take your old battery with the purchase of a new battery. Call 228/868-8752 for your nearest scrap tire disposal site in Harrison County.	Leave old tires and lead acid batteries with the retailer who sells and/or installs the new one on your vehicle. They are required to accept them by law. Tires and lead acid batteries are banned from landfills, the waste hauler will not collect them with your household garbage.
Textiles- Old clothing, except for shoes	Goodwill Industries	Clean and dry clothing only. Useable household items. Can be tax deductible!
Nickel-Cadmium (Ni-Cd) Rechargeable Batteries – batteries that power camcorders, cordless and cellular phones, laptop computers, and cordless power tools.	Call 1-800-8-BATTERY for the nearest retail drop-off site in Biloxi and Harrison County.	Do not dispose in regular garbage. These batteries contain toxic metals including cadmium and lead.

Did You Know . . .

Each year in Mississippi we throw away enough garbage to cover 600 football fields to a depth of 6 feet in compacted garbage!!!

Our garbage is made up of the following: 41% paper, 18% yard waste, 9% metals, 8% glass, 8% food waste, 7% plastic, and 9% other.

Approximately 40 to 60% of our waste stream is recyclable.

Newspapers are recycled into new newspapers, paper egg cartons, cereal boxes, cellulose household insulation, and acoustical ceiling tiles.

Corrugated boxes are recycled into new corrugated containers.

Aluminum cans and/or aluminum scrap are recycled into metal products made of aluminum including airplanes, cars, and more soda cans.

Steel cans and/or steel scrap are recycled into metal products made of steel including structural steel in building, bolts and nuts, coathangers and more steel cans.

Plastic bottles are recycled into plastic lumber for picnic tables and park benches, carpet, clothing, and more plastic bottles.

Used motor oil is recycled into re-refined motor oil or fuel blended with other fuels to be burned at industry boilers for energy.
