INTRODUCTION

The Mississippi Department of Environmental Quality (MDEQ) developed this status report to provide information on certain solid waste management activities that were conducted during Calendar Year 2007. A report on the solid waste management or disposal activities conducted at each landfill, rubbish site, and land application facility in the state is required to be submitted to MDEQ by the facility owner each year. This status report provides summary information on the amounts of solid waste disposed at these solid waste management facilities during 2007 as listed below:

Part I - Commercial Solid Waste Disposal Facilities

Part I of this report contains a summary report on disposal activities conducted at commercial disposal facilities in the state. A commercial solid waste disposal facility is any facility that is engaged in the disposal of solid waste for compensation or which accepts waste from more than one generator not owned by the facility owner. Commercial solid waste disposal facilities include:

- Municipal Solid Waste (MSW) Landfills
- Non-Municipal Solid Waste (non-MSW) Landfills
- Class I and Class II Rubbish Sites

Part II - Non-Commercial Solid Waste Disposal Facilities

Part II of this report contains a summary report on disposal activities conducted at non-commercial disposal facilities. A non-commercial solid waste disposal facility is a facility that receives solid waste from a single generator and that is not operated for compensation. Non-commercial solid waste disposal facilities include:

- Industrial and Institutional Landfills
- Industrial and Institutional Rubbish Sites

Part III - Solid Waste Land Application Facilities

Part III of this report contains a summary of information on activities conducted at permitted land application facilities in Mississippi. A land application facility is a facility that receives wastes for incorporation into the soil, injection below the land surface, or other application of wastes on the land for soil amendment or conditioning purposes or for biodegradation of the wastes.

This status report contains information that may be utilized by local government officials and solid waste decision makers, disposal facility owners and operators, state agencies, and other organizations. The information provided in the report includes the following:

1. The total amount of waste received during Calendar Year 2007 at each permitted or authorized solid waste disposal facility as reported by the facility owners/operators;
2. The estimated remaining life at solid waste disposal facilities as reported by the facility owners/operators at the end of Calendar Year 2007; and
3. State maps showing the locations of each disposal facility.

Copies of this report will be provided to local government officials and solid waste decision makers to assist them in planning for the management of solid wastes in their jurisdictions. A copy of this status report will also be provided to the Mississippi State Tax Commission for verification of the information that the State Tax Commission receives from commercial disposal facility owners/operators each year.

The annual reports indicate that a total of approximately 8,357,968 tons of solid waste was received during Calendar Year 2007 at commercial and non-commercial landfills and rubbish sites, and one remaining emergency rubbish disposal site for Hurricane Katrina debris. Approximately 40.49% (3,384,507 tons) of the total waste was disposed at commercial landfills, 39.18% (3,275,055 tons) at non-commercial landfills, 19.43% (1,623,785 tons) at commercial rubbish sites, and 0.89% (74,622 tons) at non-commercial rubbish sites (see [Figure 1](#) below).

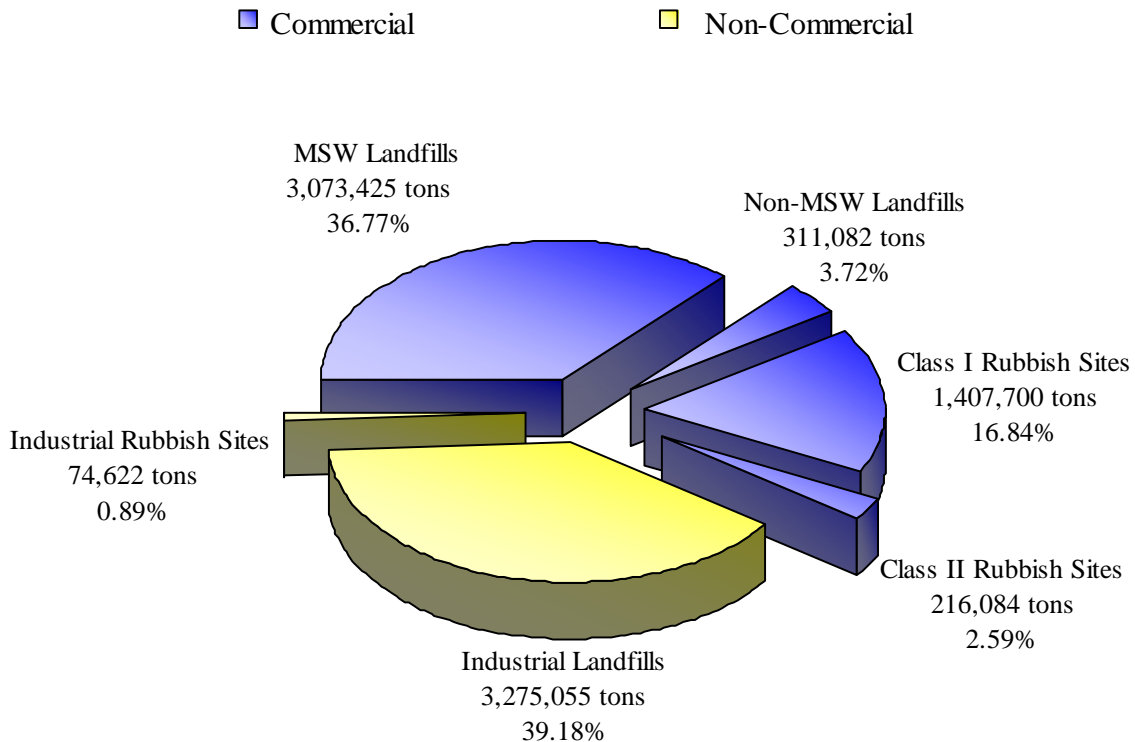

FIGURE 1

This status report also indicates that Mississippi received a total of 857,929 tons of solid waste from out-of-state sources representing approximately 10.26% of the total solid waste that was disposed in Mississippi during Calendar Year 2007. Commercial landfills received approximately 763,634 tons and commercial rubbish sites received approximately 94,295 tons of out-of-state waste.

The annual reports indicate that a total of approximately 40,978 tons of solid waste was received during Calendar Year 2007 at land application sites. Approximately 32.69% (13,394 dry tons) of the total waste applied in the state during Calendar Year 2007 was municipal wastewater sludge (biosolids) and the remaining 67.31% (27,584 dry tons) was waste other than municipal wastewater sludge such as pulp and paper mill sludge, wood ash, and other materials (see [Figure 2](#) below).

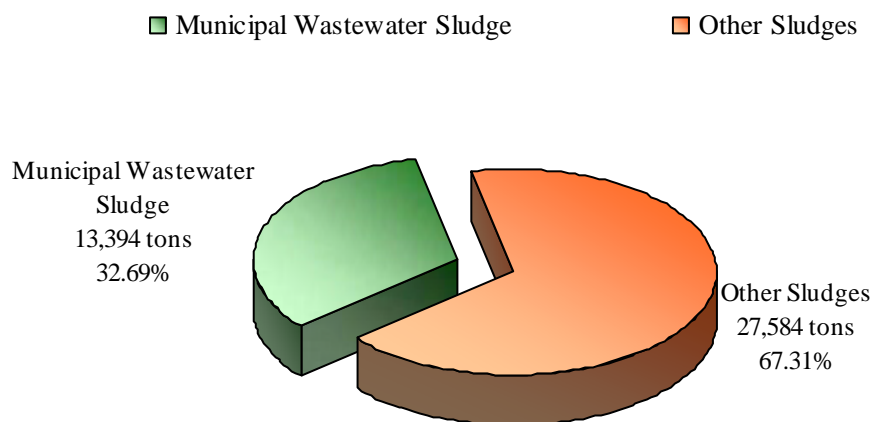

FIGURE 2

The submitted information on the total amount of wastes received in tons for Calendar Year 2007 at landfills, rubbish sites, and land application sites has not been verified by the MDEQ for accuracy. For additional information on this Status Report or to review the annual reports for a specific solid waste management facility, please contact:

PART I

**COMMERCIAL SOLID WASTE
DISPOSAL FACILITIES**

This page intentionally left blank.

Municipal Solid Waste (MSW) Landfills

MSW Landfills are disposal facilities that are designed and constructed to receive a wide range of nonhazardous solid wastes for disposal including household garbage, commercial business wastes, nonhazardous industrial wastes, and special wastes such as asbestos or treated medical wastes. There were 18 MSW landfills that operated in the state during Calendar Year 2007. According to the annual reports submitted by the owners/operators, these landfills received a total of 3,073,425 tons of solid waste during Calendar Year 2007.

The annual report on the solid waste disposal activities conducted at each MSW landfill is required by the Mississippi Code Annotated Section 17-17-219 and Section IV.B.15 of the Mississippi Nonhazardous Solid Waste Management Regulations. This report contains a summary of the information from these individual facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the locations of MSW landfills;
2. A summary of operational information contained in the individual annual reports for Calendar Year 2007 for MSW landfills; and
3. Individual state maps for the 18 active MSW landfills including geographic locations, the geographic areas serviced with the amount of wastes received in tons/year, and other pertinent information.

MSW Landfill Disposal Trends

Data in this report indicates that during 2007, Mississippi MSW landfills received approximately 323,322 tons less municipal solid waste than during Calendar Year 2006 (see [Figure 3](#) below). This decrease in the amount of waste disposed is likely attributed to the large amounts of hurricane debris disposed during Calendar Year 2006 in the state.

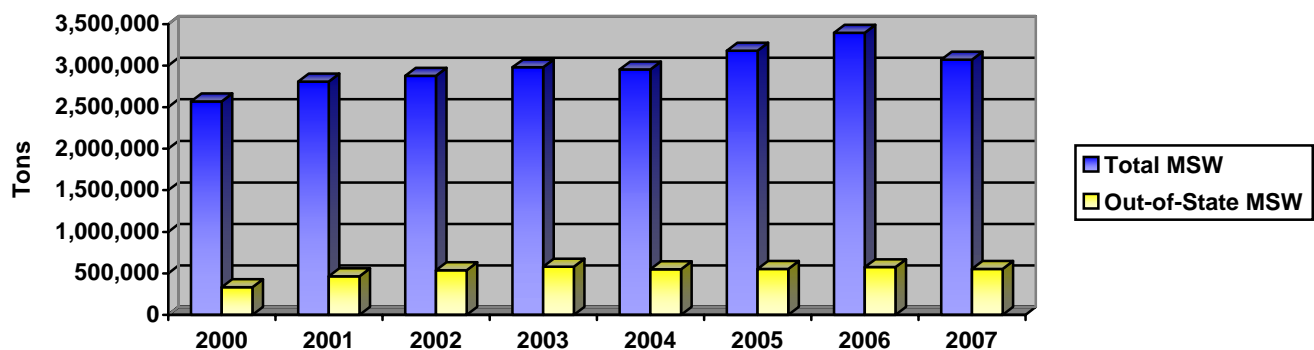

FIGURE 3

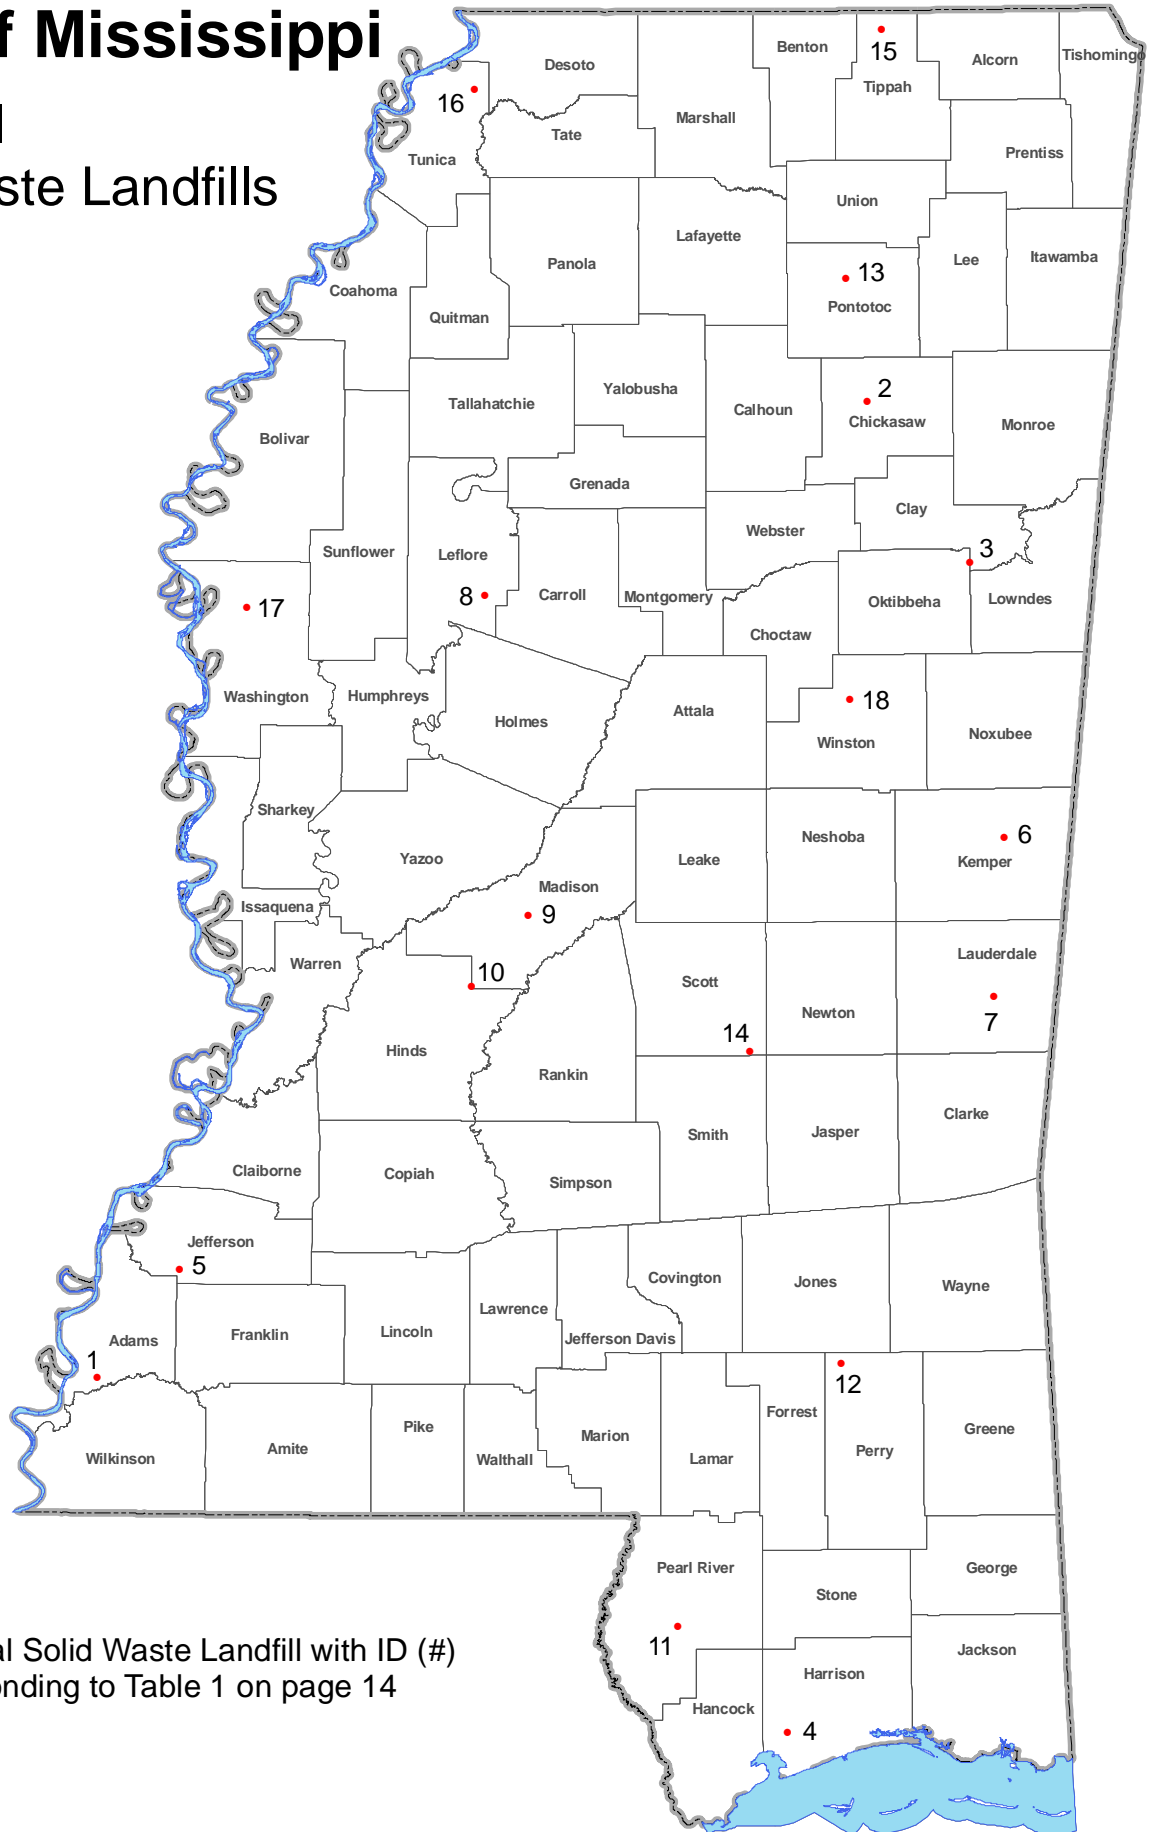

Figure 4 below shows a comparison of the annual disposal amounts for MSW landfills over the six year period from Calendar Years 2002 through 2007. Over this six year period, the average annual percent change in disposal rates was +1.53% for total MSW, +1.75% for in-state MSW, and +0.66% for out-of-state MSW. The total amount of wastes disposed at MSW Landfills during Calendar Year 2007 represents a 6.81% increase over the total amount of waste received in Calendar Year 2002.

MSW (tons)	CALENDAR YEAR						Avg. Annual % Change
	2002	2003	2004	2005	2006	2007	
Total	2,877,376	2,979,490	2,955,590	3,179,844	3,396,747	3,073,408	+1.53

 % Out-of-State Waste: 0%
 Other States Serviced: None

PECAN GROVE LANDFILL

Waste Management of Mississippi, Inc.

- Landfill GIS Location
30° 25' 37.2" N
89° 16' 00.8" W

 Areas serviced with the amount of waste received (in tons) during 2007

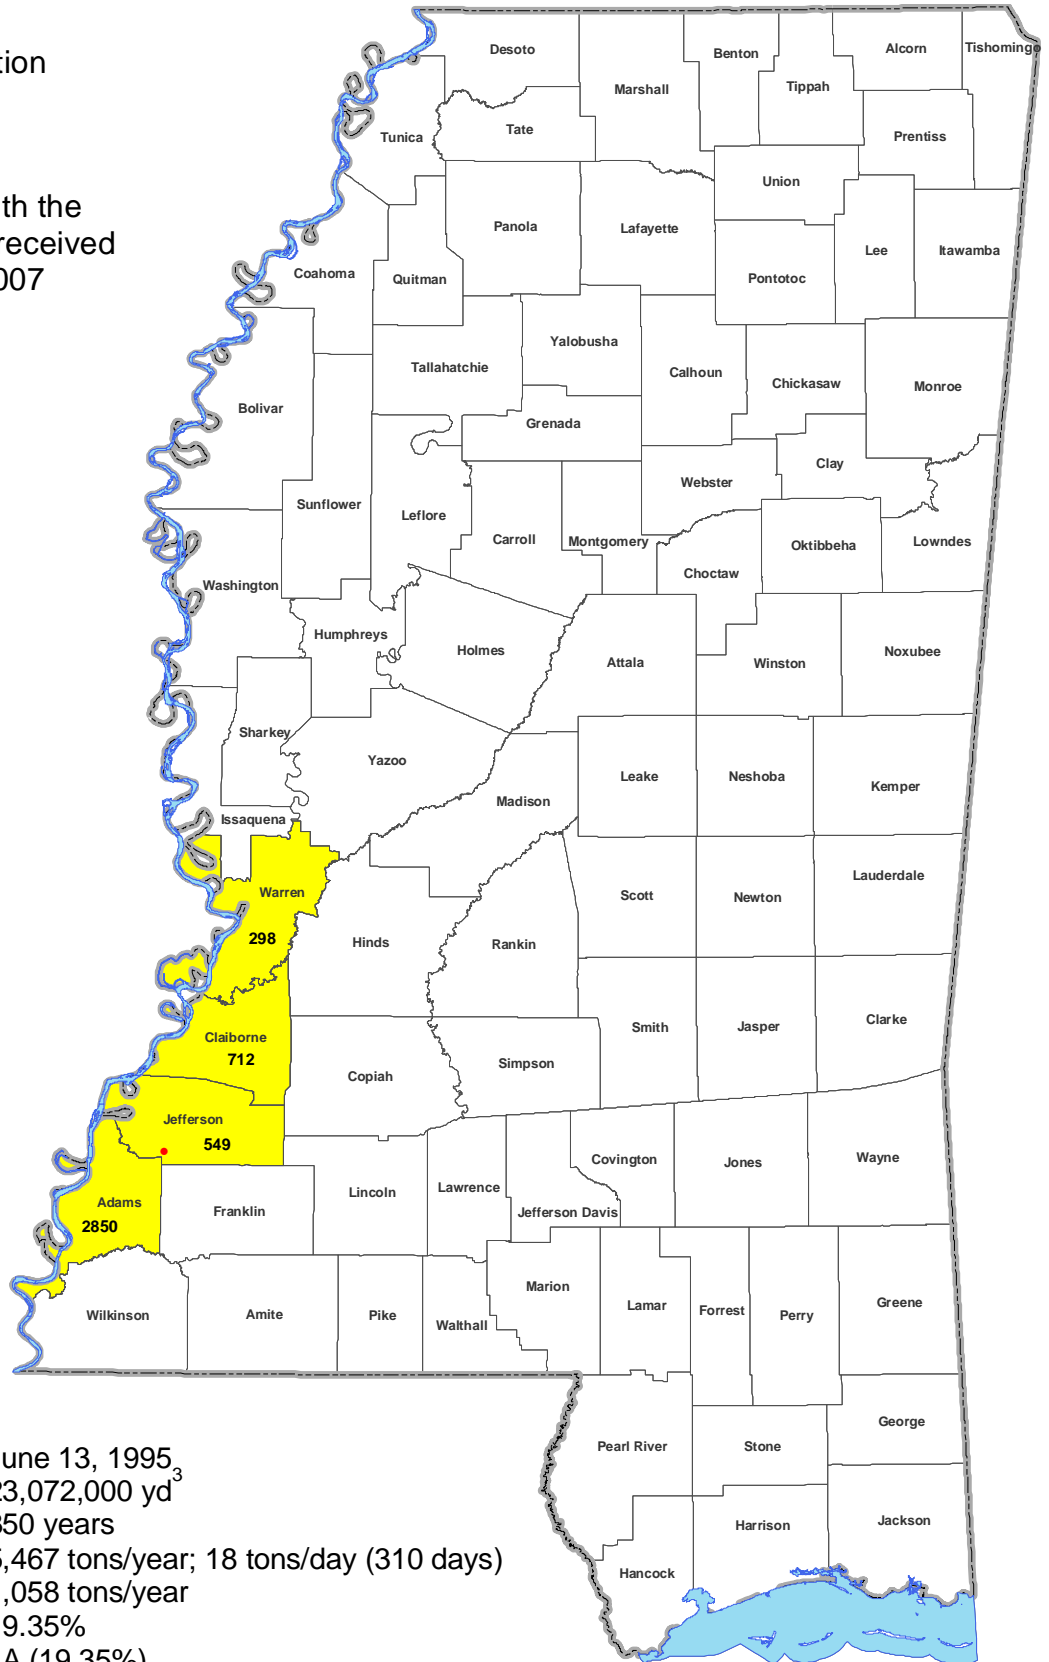

Permit Issuance Date: July 14, 1987
 Permitted Airspace: 22,975,000 yd³
 Remaining Life: 26 years
 Waste: 382,800 tons/year; 1,235 tons/day (310 days)
 Out-of-State Waste: 28,861 tons/year
 % Out-of-State Waste: 7.54%
 Other States Serviced: AL (0.97%), LA (6.57%)

JEFFERSON COUNTY LANDFILL

Southern Landfill Management, Inc.

- Landfill GIS Location
31° 38' 56.9" N
91° 08' 50.0" W

 Areas serviced with the amount of waste received (in tons) during 2007

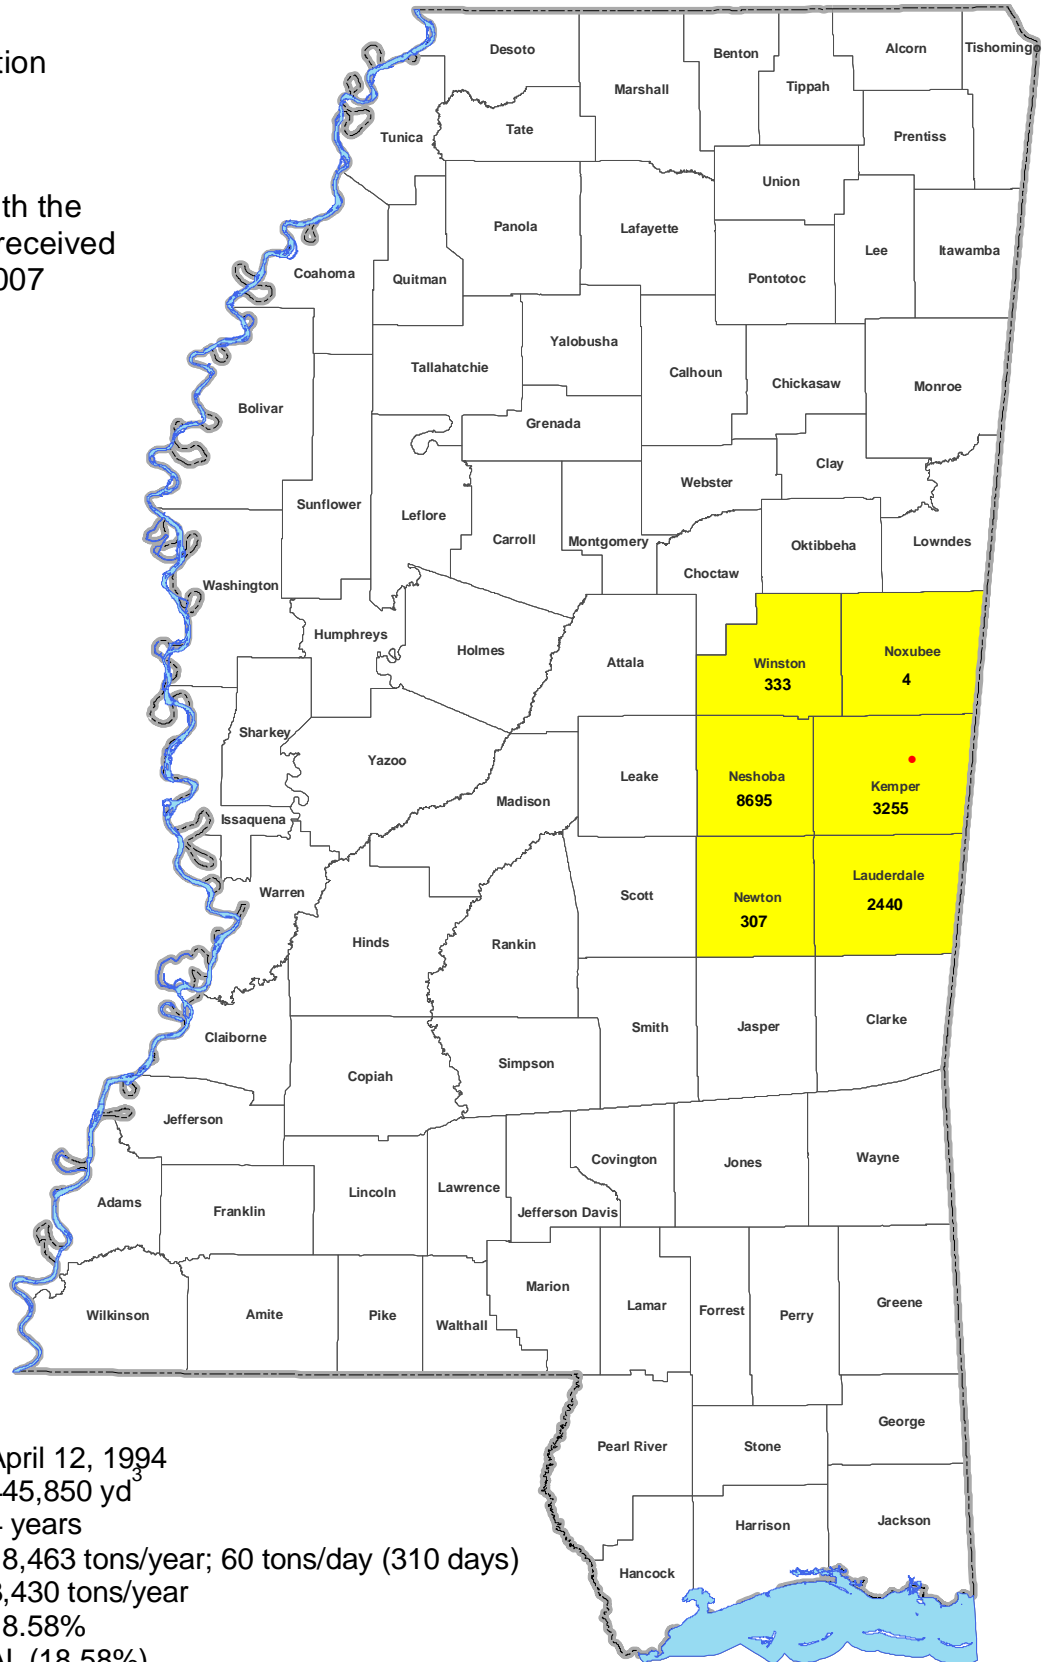

Permit Issuance Date: June 13, 1995₃
 Permitted Airspace: 23,072,000 yd³
 Remaining Life: 350 years
 Waste: 5,467 tons/year; 18 tons/day (310 days)
 Out-of-State Waste: 1,058 tons/year
 % Out-of-State Waste: 19.35%
 Other States Serviced: LA (19.35%)

KEMPER COUNTY SOLID WASTE LANDFILL

Kemper County Landfill Company

- Landfill GIS Location
32° 47' 53.6" N
88° 34' 21.4" W

- Areas serviced with the amount of waste received (in tons) during 2007

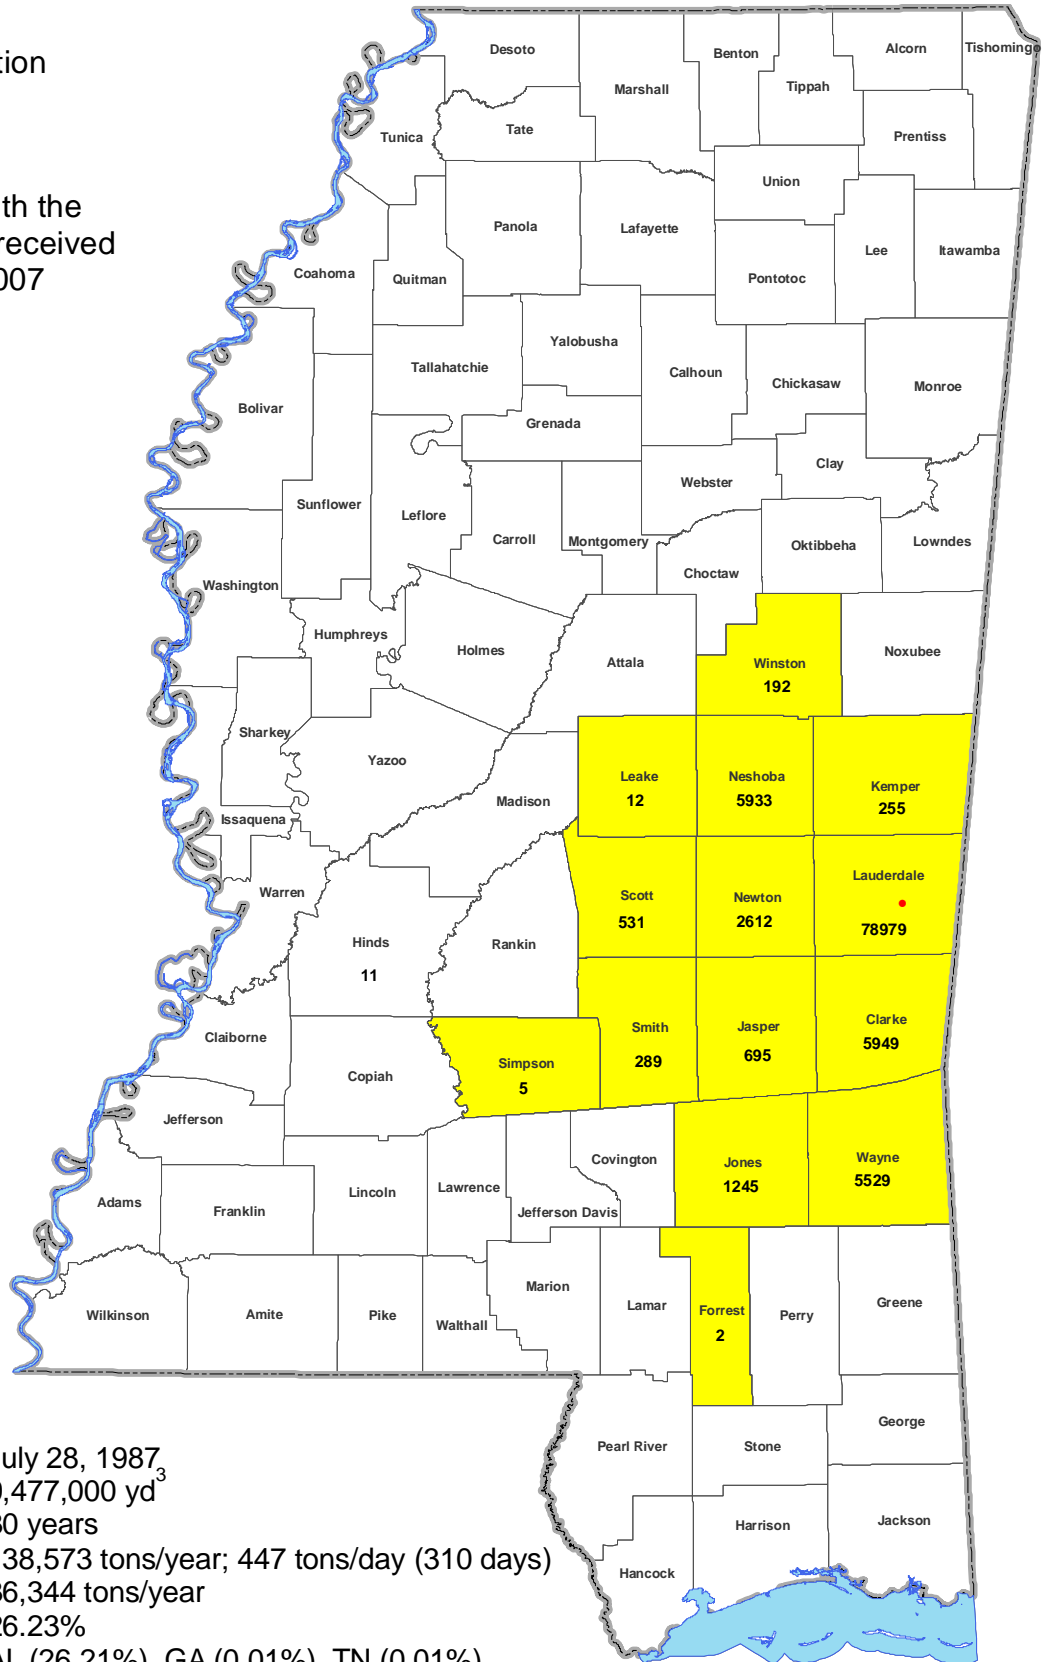

Permit Issuance Date: April 12, 1994
 Permitted Airspace: 445,850 yd³
 Remaining Life: 4 years
 Waste: 18,463 tons/year; 60 tons/day (310 days)
 Out-of-State Waste: 3,430 tons/year
 % Out-of-State Waste: 18.58%
 Other States Serviced: AL (18.58%)

PINE RIDGE SANITARY LANDFILL

Waste Management of Mississippi, Inc.

- Landfill GIS Location
32° 22' 31.3" N
88° 36' 36.8" W

 Areas serviced with the amount of waste received (in tons) during 2007

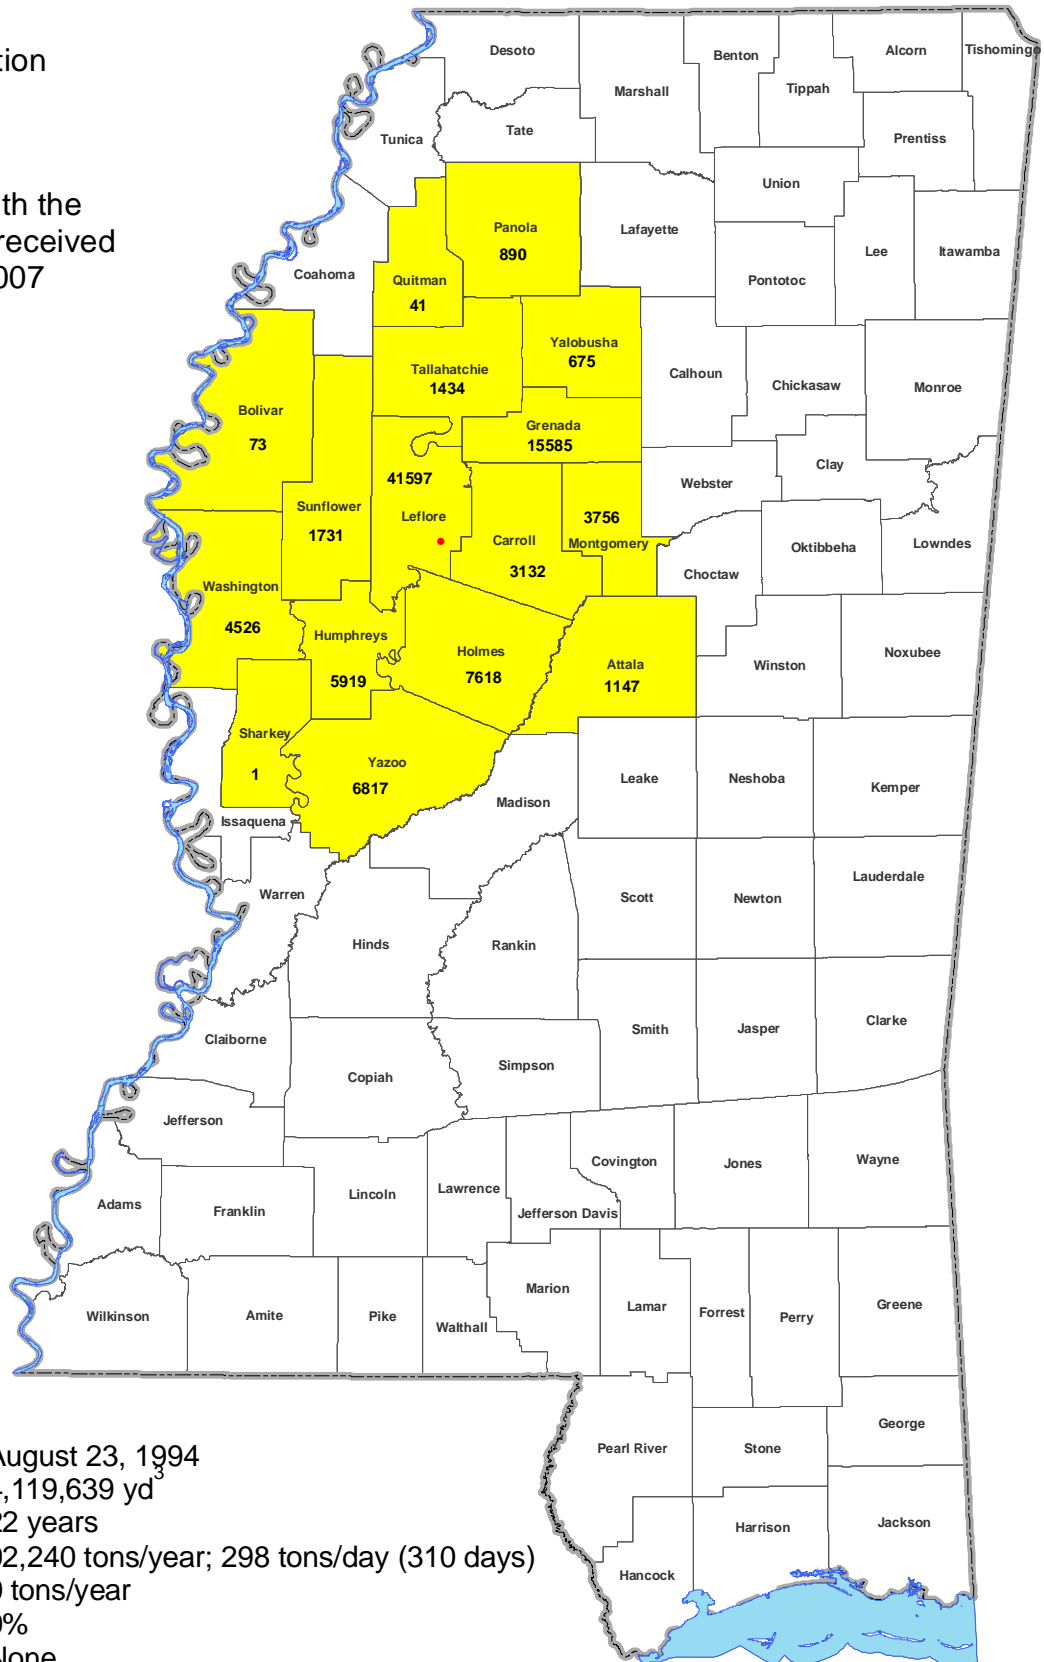

Permit Issuance Date: July 28, 1987₃
 Permitted Airspace: 9,477,000 yd₃
 Remaining Life: 30 years
 Waste: 138,573 tons/year; 447 tons/day (310 days)
 Out-of-State Waste: 36,344 tons/year
 % Out-of-State Waste: 26.23%
 Other States Serviced: AL (26.21%), GA (0.01%), TN (0.01%)

LEFLORE CO. MUNICIPAL SOLID WASTE LANDFILL

Leflore County Board of Supervisors/ Waste Connections, Inc.

- Landfill GIS Location
33° 26' 44.0" N
90° 12' 28.0" W

 Areas serviced with the amount of waste received (in tons) during 2007

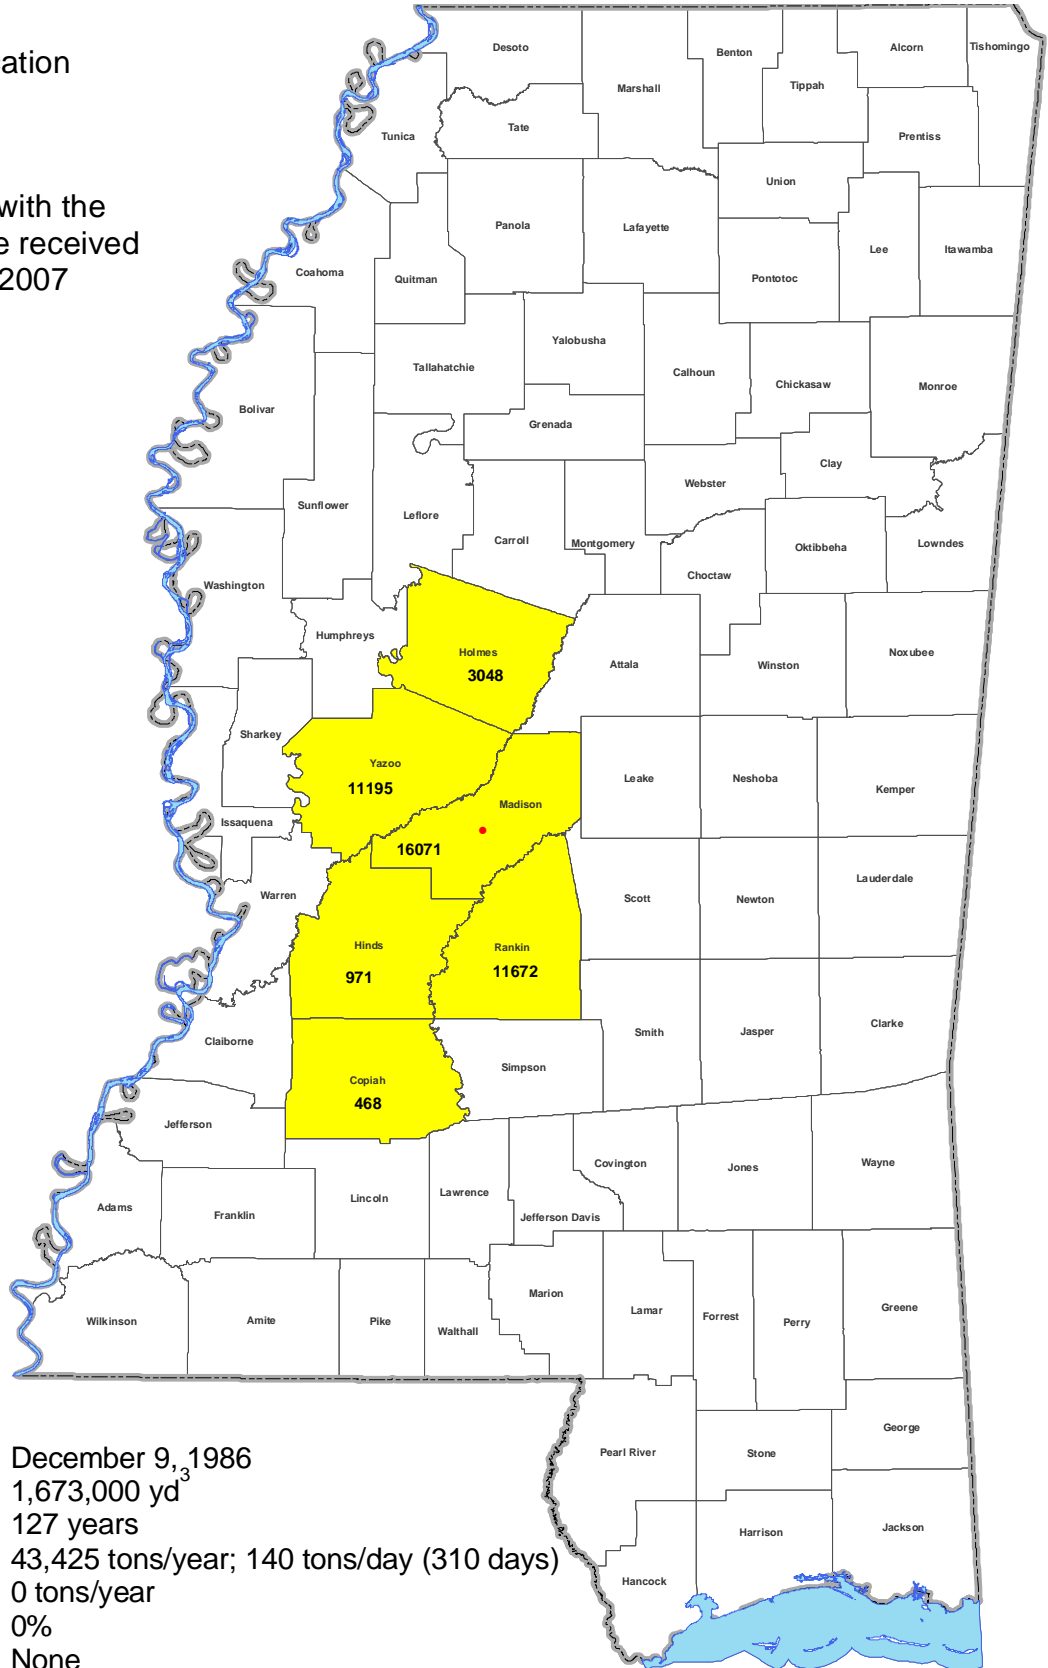

Permit Issuance Date: August 23, 1994
 Permitted Airspace: 4,119,639 yd³
 Remaining Life: 22 years
 Waste: 92,240 tons/year; 298 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

CANTON SANITARY LANDFILL

City of Canton

- Landfill GIS Location
32° 35' 49.2" N
90° 03' 59.3" W

 Areas serviced with the amount of waste received (in tons) during 2007

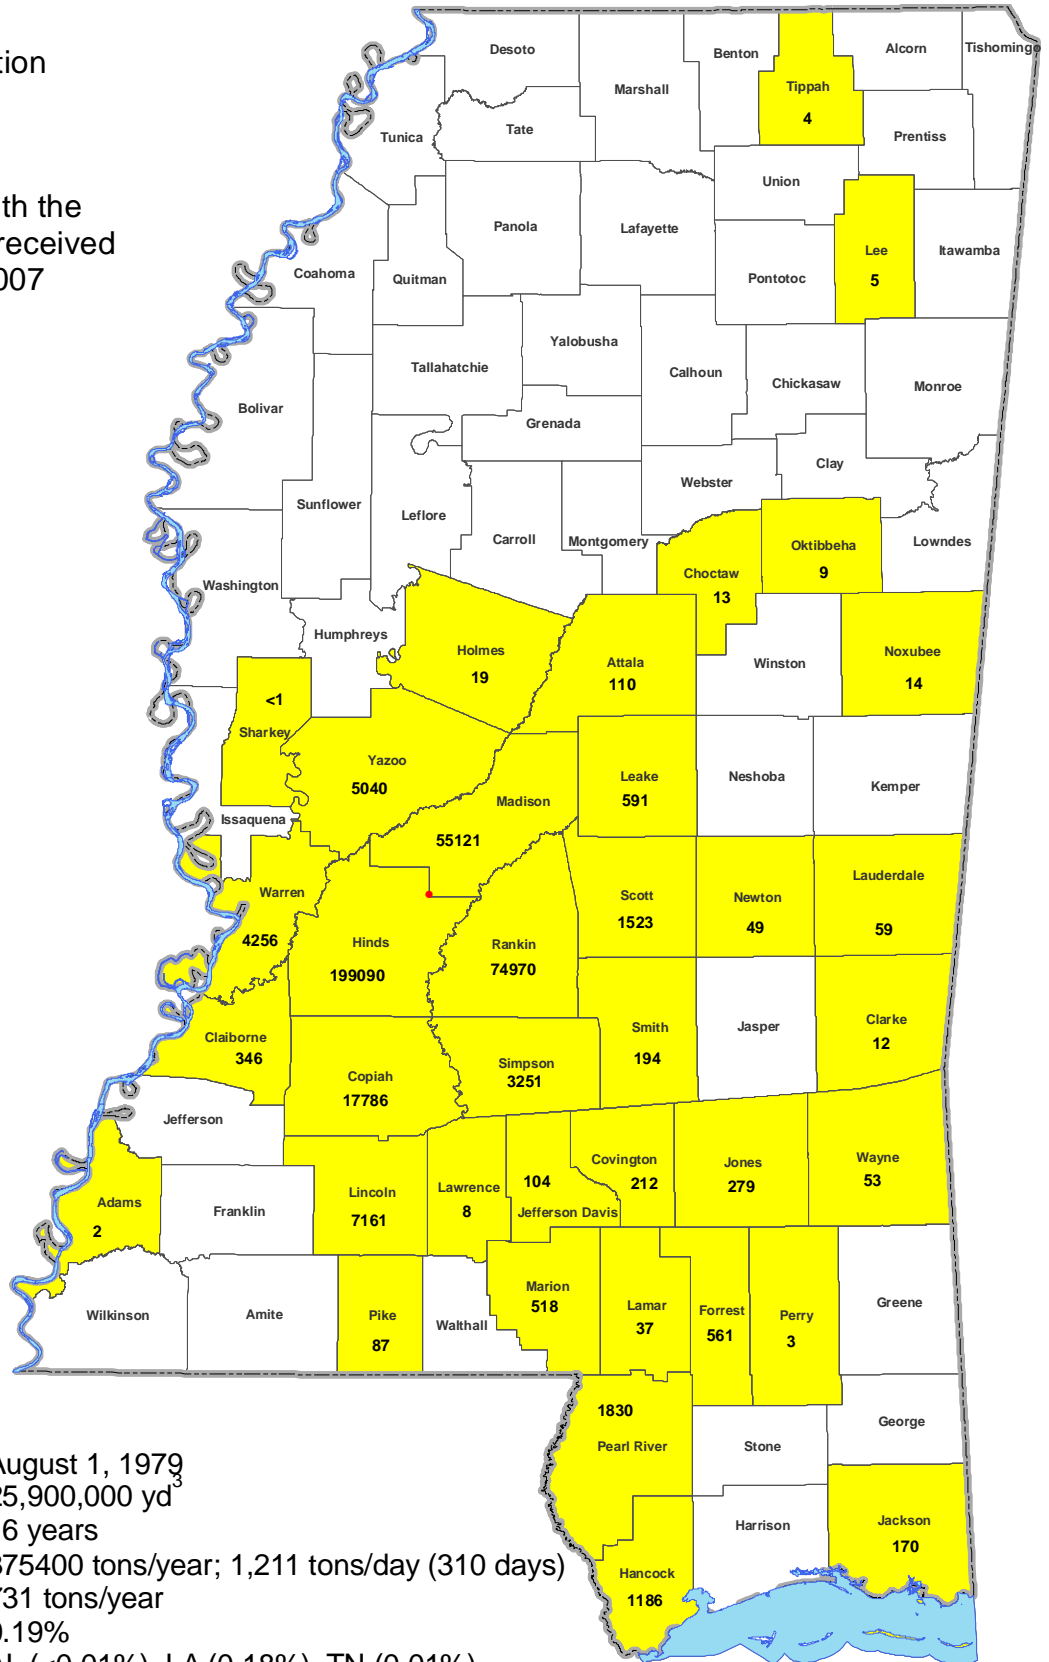

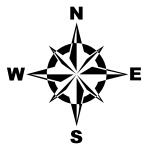

Permit Issuance Date: December 9, 1986
 Permitted Airspace: 1,673,000 yd³
 Remaining Life: 127 years
 Waste: 43,425 tons/year; 140 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

LITTLE DIXIE LANDFILL

BFI Waste Systems of North America, Inc.

- Landfill GIS Location
32° 24' 31.6" N
90° 14' 35.7" W

 Areas serviced with the amount of waste received (in tons) during 2007

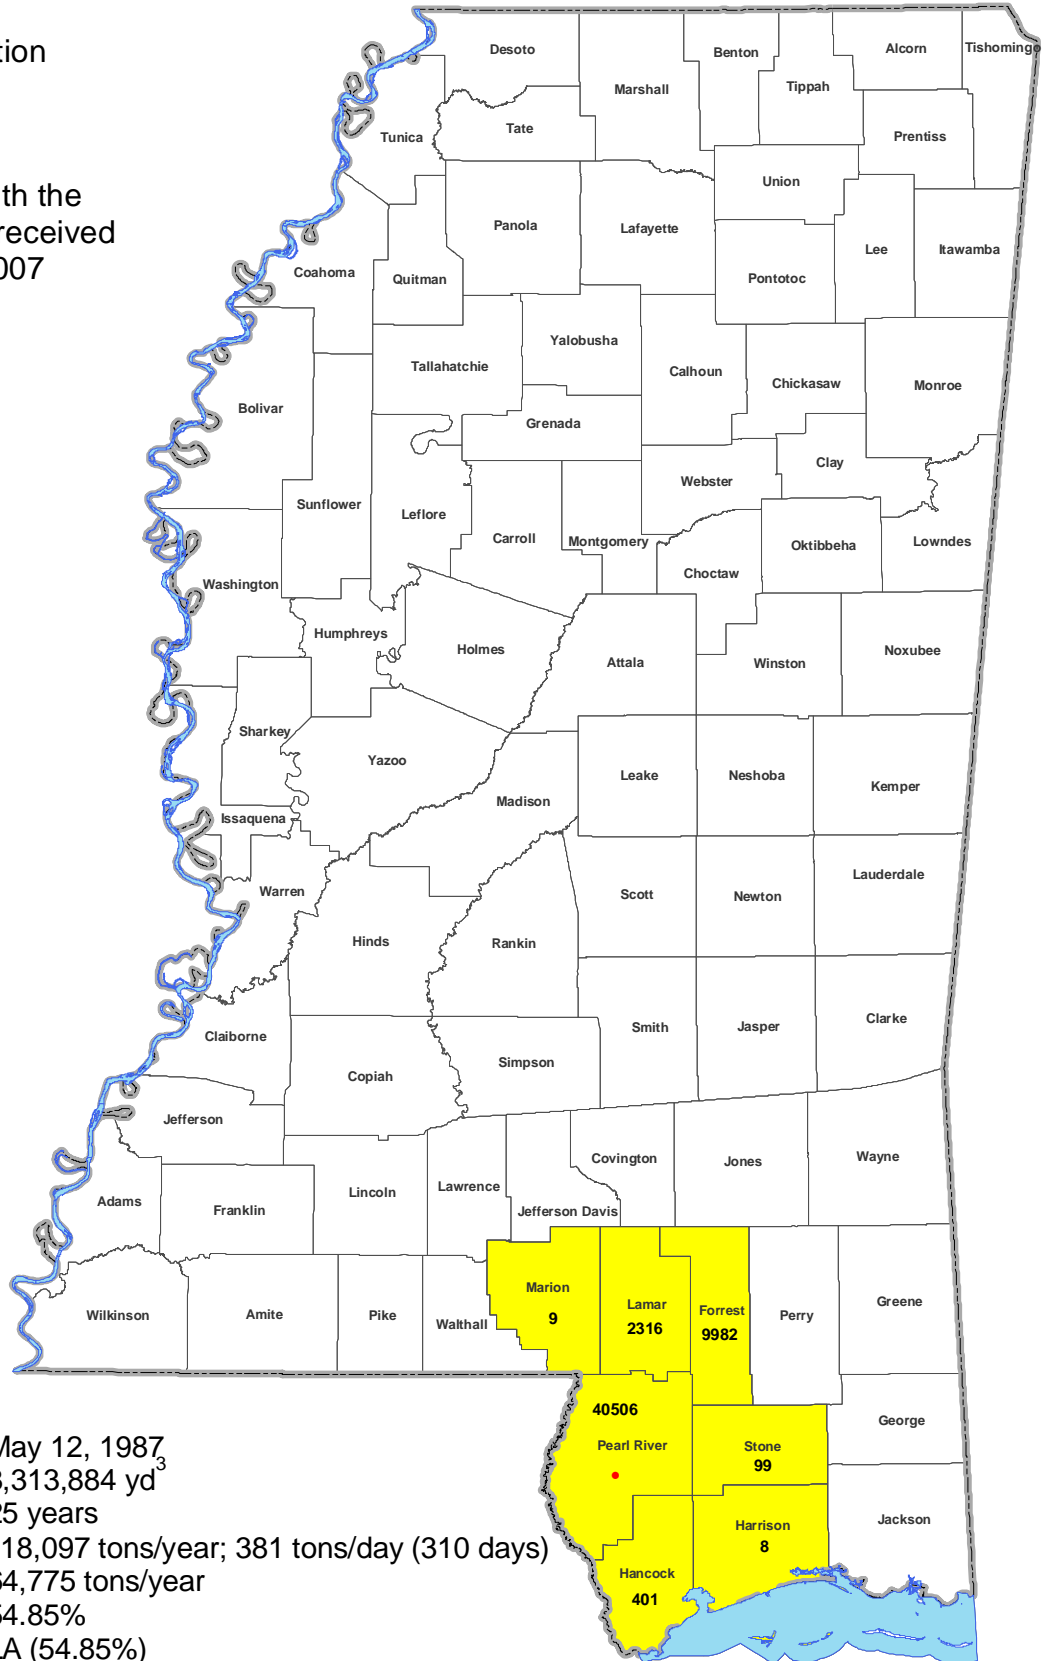

Permit Issuance Date: August 1, 1979
 Permitted Airspace: 25,900,000 yd³
 Remaining Life: 16 years
 Waste: 375400 tons/year; 1,211 tons/day (310 days)
 Out-of-State Waste: 731 tons/year
 % Out-of-State Waste: 0.19%
 Other States Serviced: AL (<0.01%), LA (0.18%), TN (0.01%)

CENTRAL LANDFILL

Trans American Waste Central Landfill, Inc.

- Landfill GIS Location
30° 42' 26.4" N
89° 36' 06.1" W

Areas serviced with the amount of waste received (in tons) during 2007

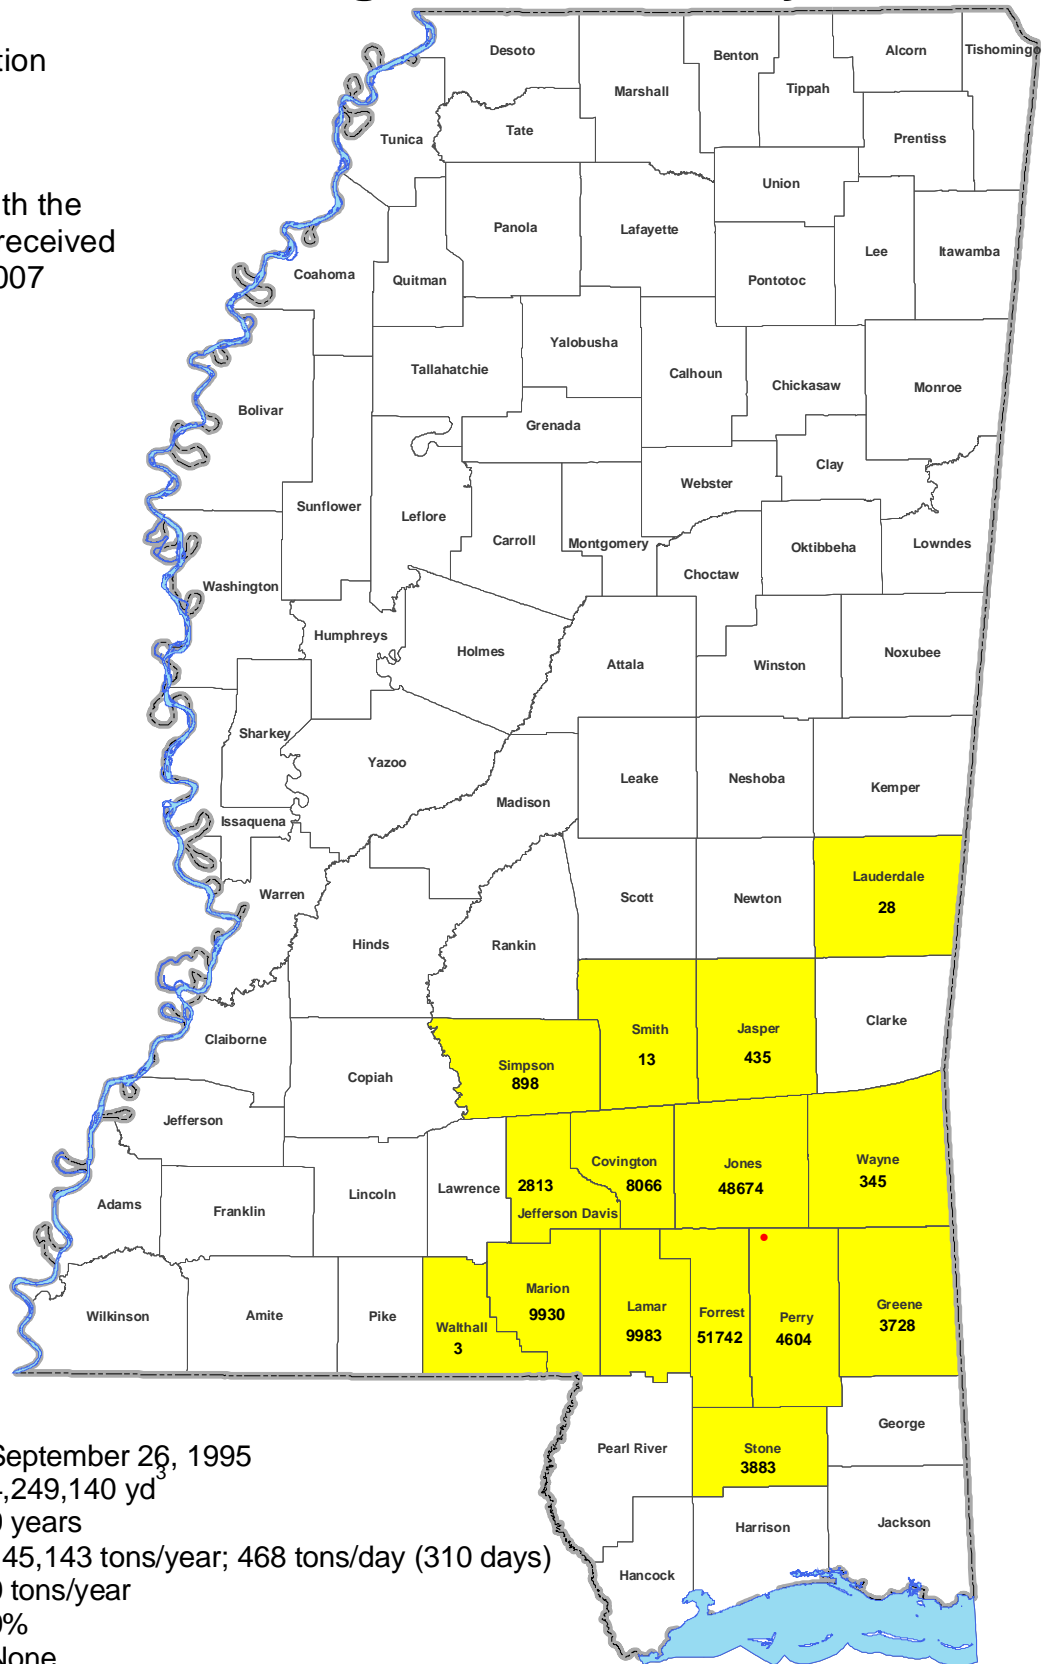

Permit Issuance Date: May 12, 1987
 Permitted Airspace: 8,313,884 yd³
 Remaining Life: 25 years
 Waste: 118,097 tons/year; 381 tons/day (310 days)
 Out-of-State Waste: 64,775 tons/year
 % Out-of-State Waste: 54.85%
 Other States Serviced: LA (54.85%)

PINE BELT REGIONAL LANDFILL

Pine Belt Regional Solid Waste Management Authority

- Landfill GIS Location
31° 24' 20.3" N
89° 05' 37.7" W

 Areas serviced with the amount of waste received (in tons) during 2007

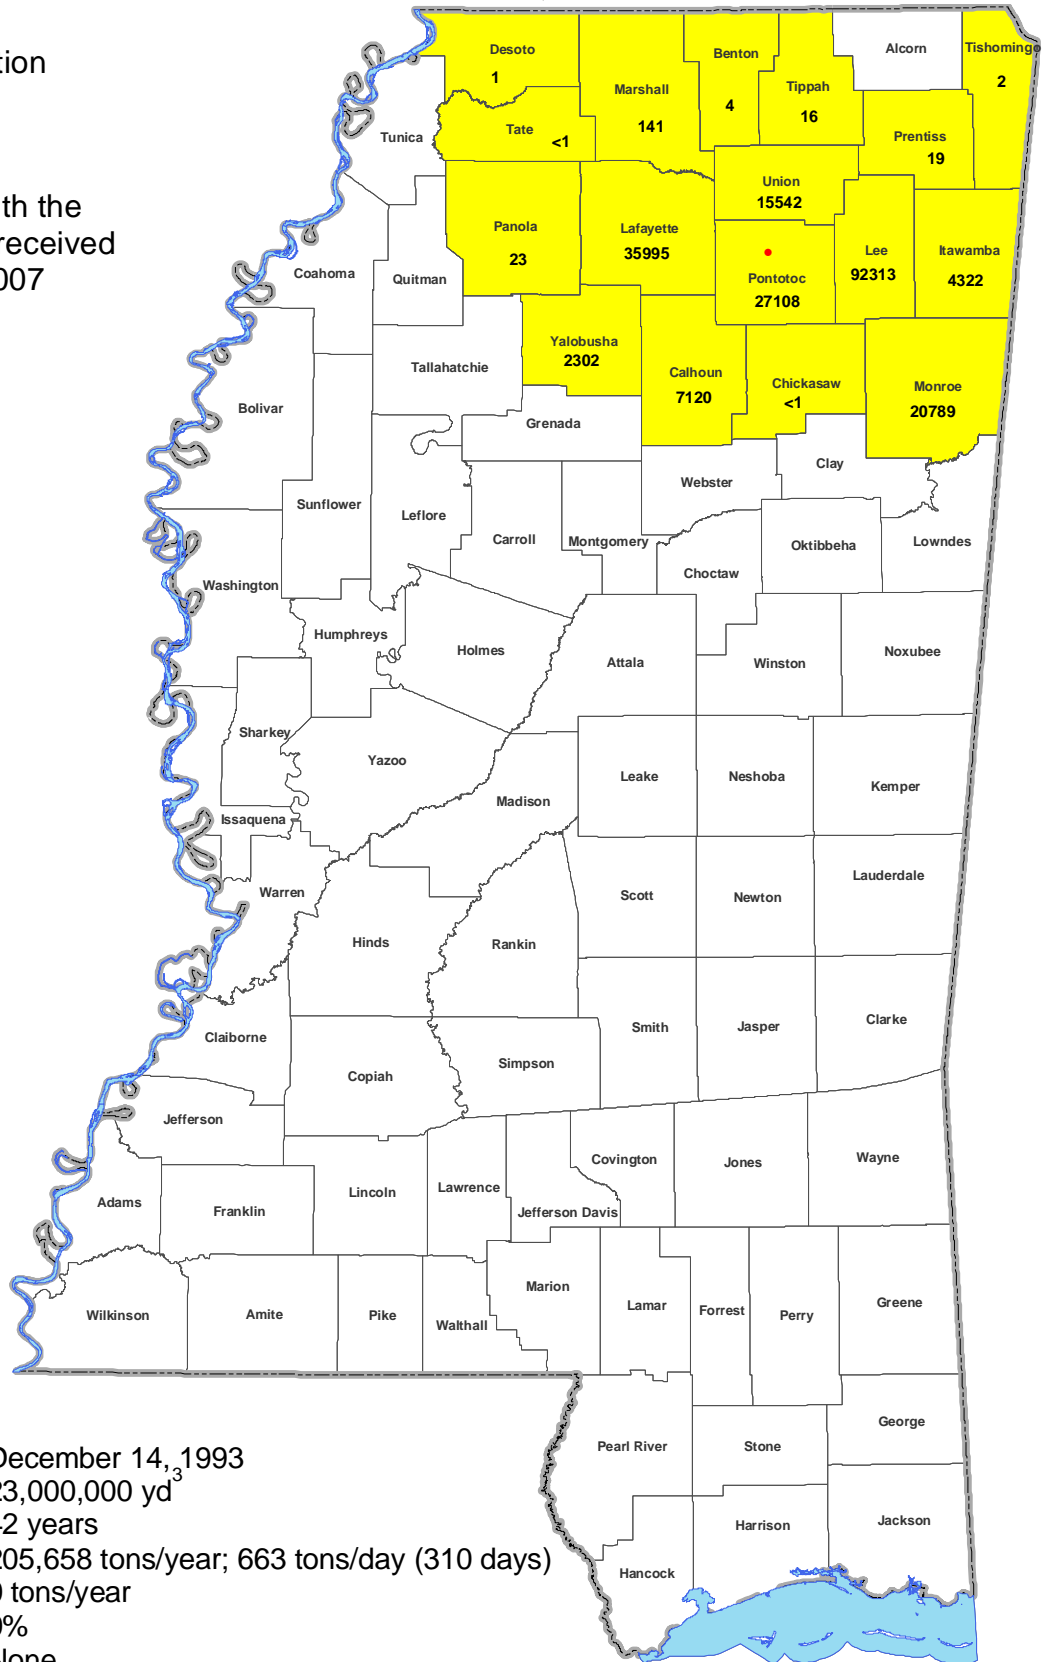

Permit Issuance Date: September 26, 1995
 Permitted Airspace: 4,249,140 yd
 Remaining Life: 9 years
 Waste: 145,143 tons/year; 468 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

THREE RIVERS REGIONAL LANDFILL

Three Rivers Solid Waste Management Authority/ Waste Connections, Inc.

- Landfill GIS Location
34° 17' 07.9" N
89° 03' 32.5" W

 Areas serviced with the amount of waste received (in tons) during 2007

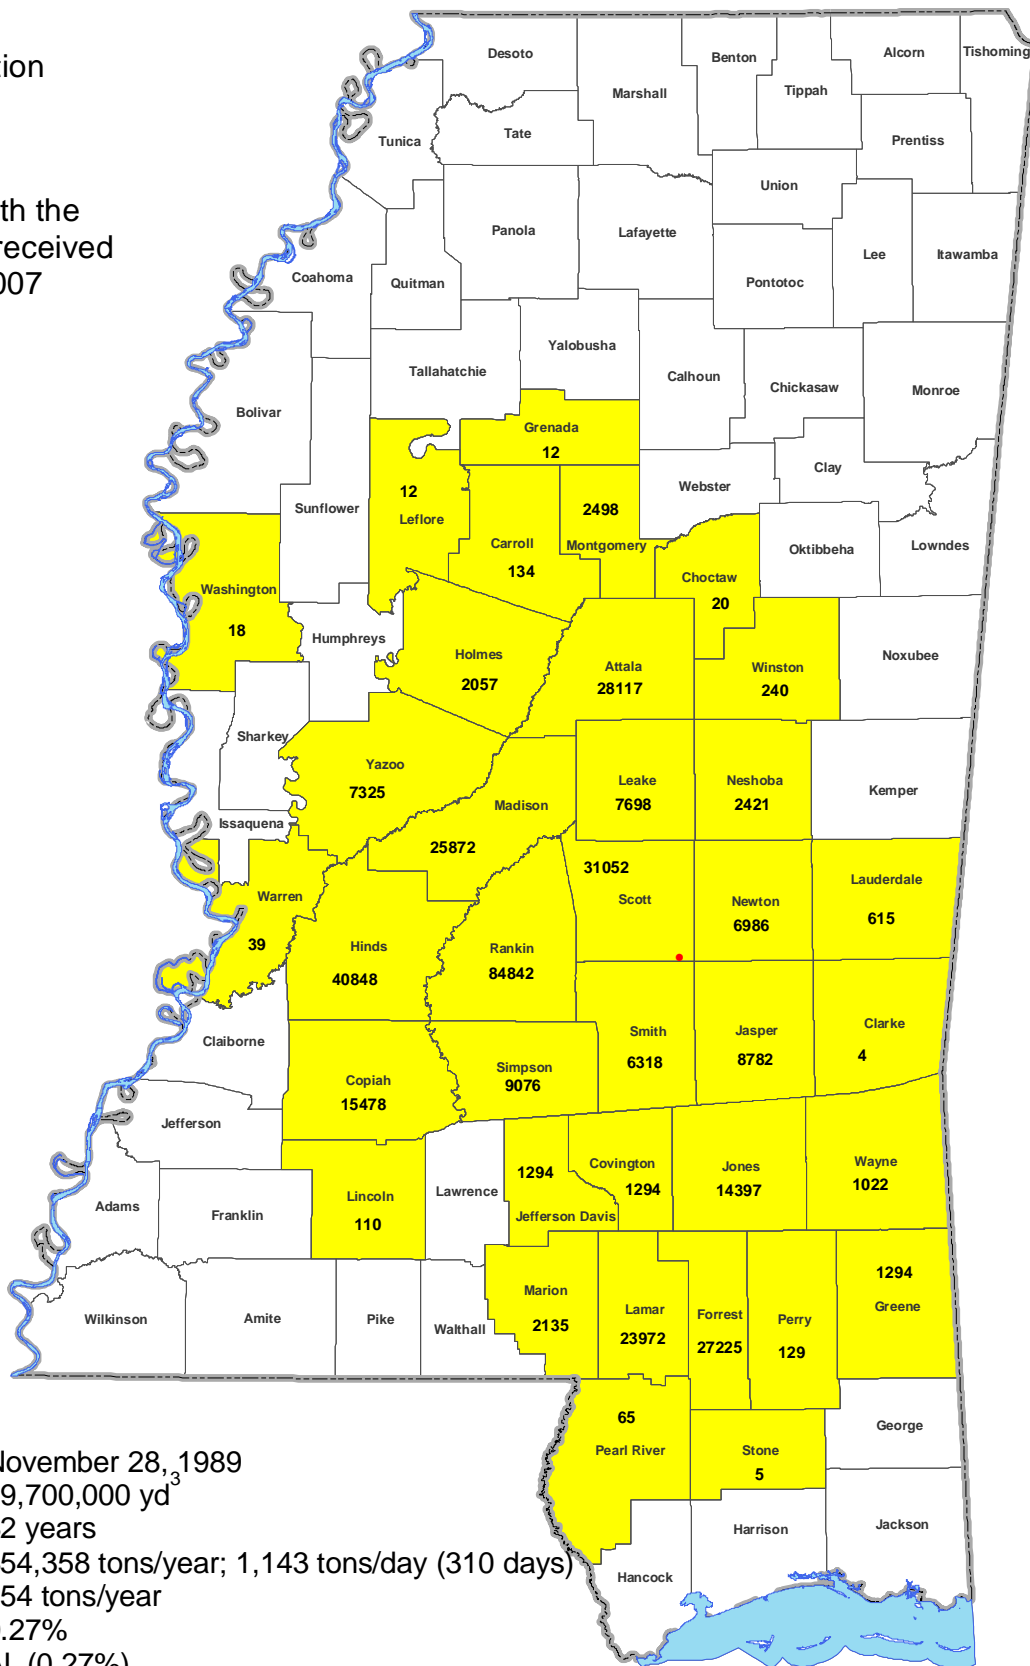

Permit Issuance Date: December 14, 1993
 Permitted Airspace: 23,000,000 yd³
 Remaining Life: 42 years
 Waste: 205,658 tons/year; 663 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

CLEARVIEW ENVIRONMENTAL CONTROL FACILITY

Chambers of Mississippi, Inc.

- Landfill GIS Location
32° 14' 07.3" N
89° 22' 20.2" W

 Areas serviced with the amount of waste received (in tons) during 2007

Permit Issuance Date: November 28, 1989
 Permitted Airspace: 19,700,000 yd³
 Remaining Life: 32 years
 Waste: 354,358 tons/year; 1,143 tons/day (310 days)
 Out-of-State Waste: 954 tons/year
 % Out-of-State Waste: 0.27%
 Other States Serviced: AL (0.27%)

NORTHEAST MISSISSIPPI REGIONAL LANDFILL

Northeast MS Solid Waste Management Authority

Waste Services of Northeast Mississippi, LLC

- Landfill GIS Location
34° 56' 51.7" N
88° 56' 15.9" W

 Areas serviced with the amount of waste received (in tons) during 2007

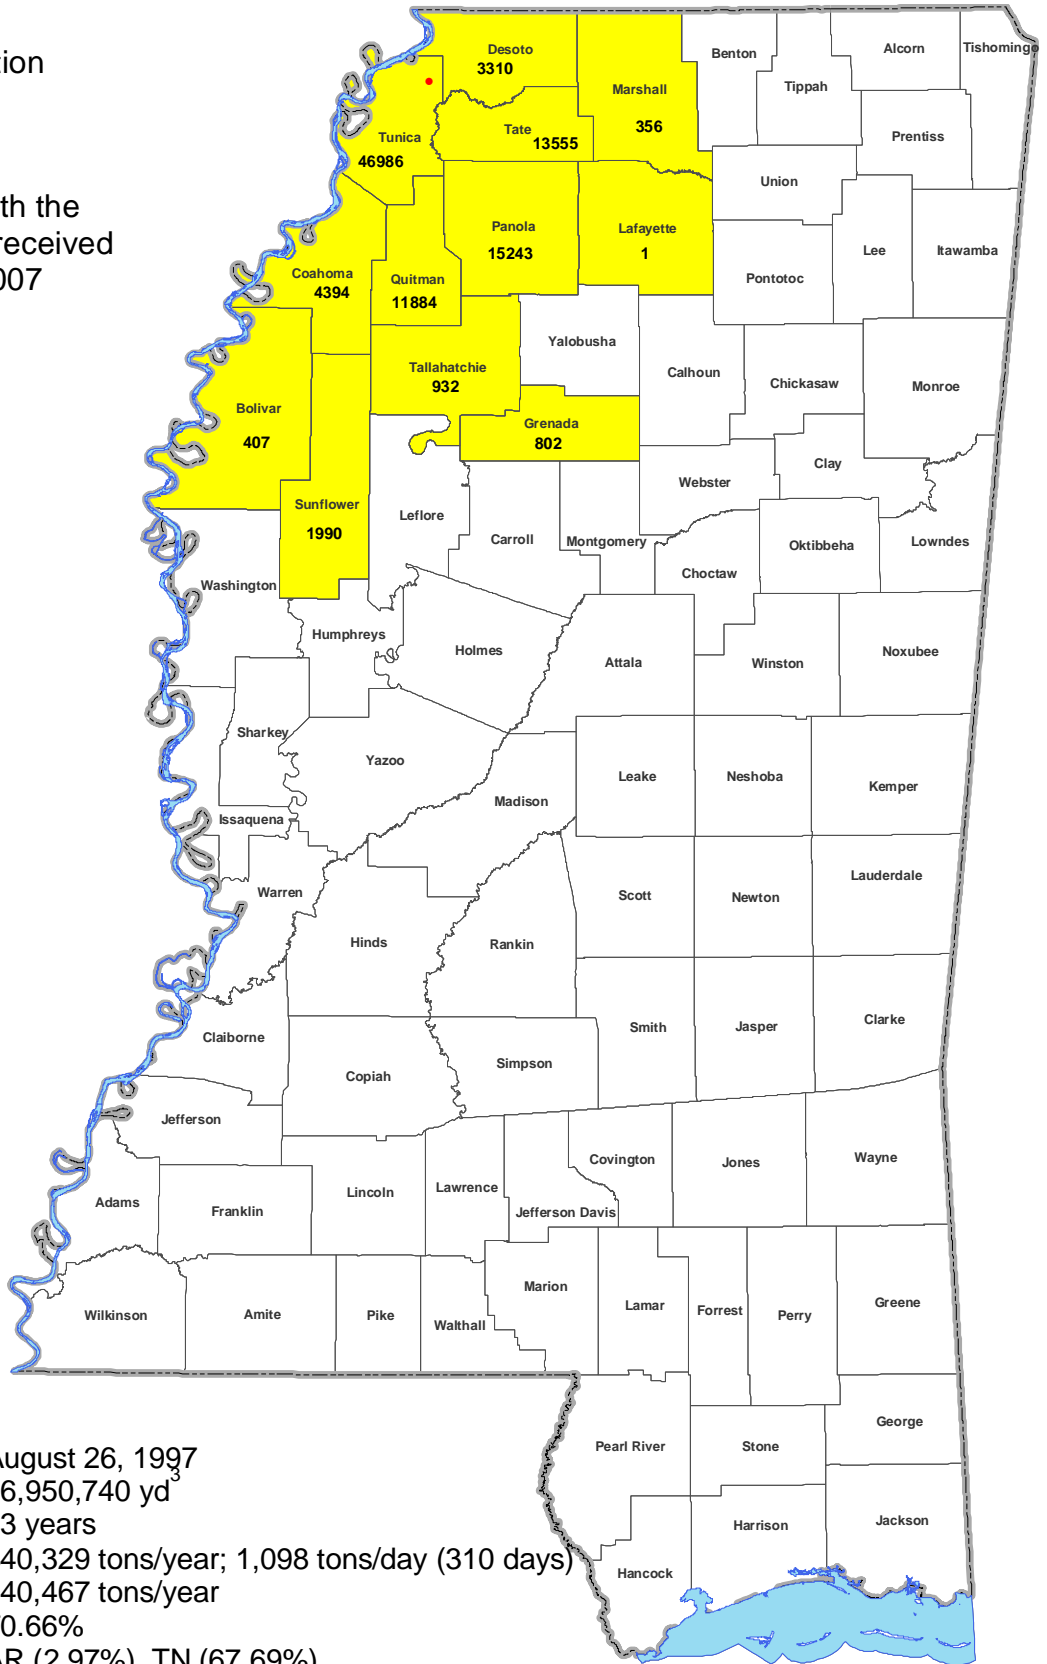

Permit Issuance Date: February 14, 1995
 Permitted Airspace: 11,240,000 yd³
 Remaining Life: 23 years
 Waste: 260,934 tons/year; 842 tons/day (310 days)
 Out-of-State Waste: 140,137 tons/year
 % Out-of-State Waste: 53.71%
 Other States Serviced: AL (21.41%), TN (32.30%)

TUNICA COUNTY LANDFILL

Waste Management of Tunica, Inc.

- Landfill GIS Location
34° 47' 15.6" N
90° 14' 53.9" W

 Areas serviced with the amount of waste received (in tons) during 2007

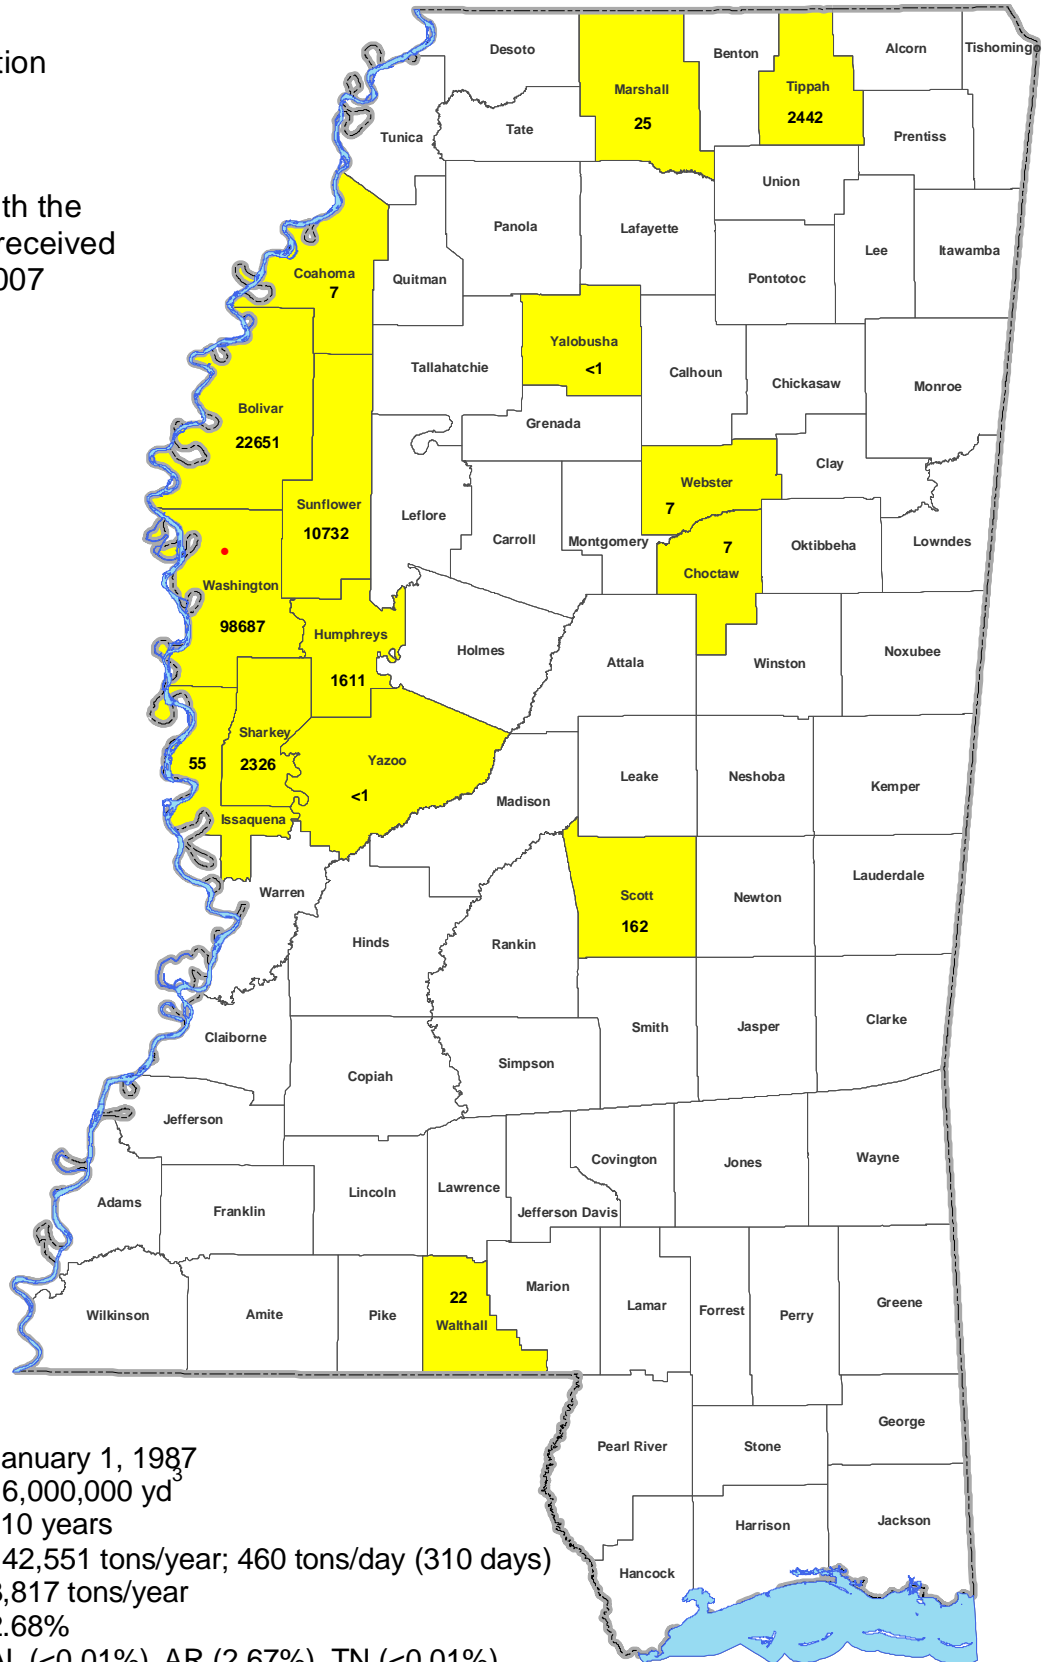

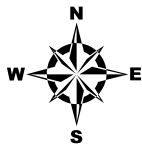

Permit Issuance Date: August 26, 1997
 Permitted Airspace: 26,950,740 yd³
 Remaining Life: 53 years
 Waste: 340,329 tons/year; 1,098 tons/day (310 days)
 Out-of-State Waste: 240,467 tons/year
 % Out-of-State Waste: 70.66%
 Other States Serviced: AR (2.97%), TN (67.69%)

BIG RIVER LANDFILL

BFI Waste Systems of North America, Inc.

- Landfill GIS Location
33° 24' 22.7" N
90° 57' 38.3" W

 Areas serviced with the amount of waste received (in tons) during 2007

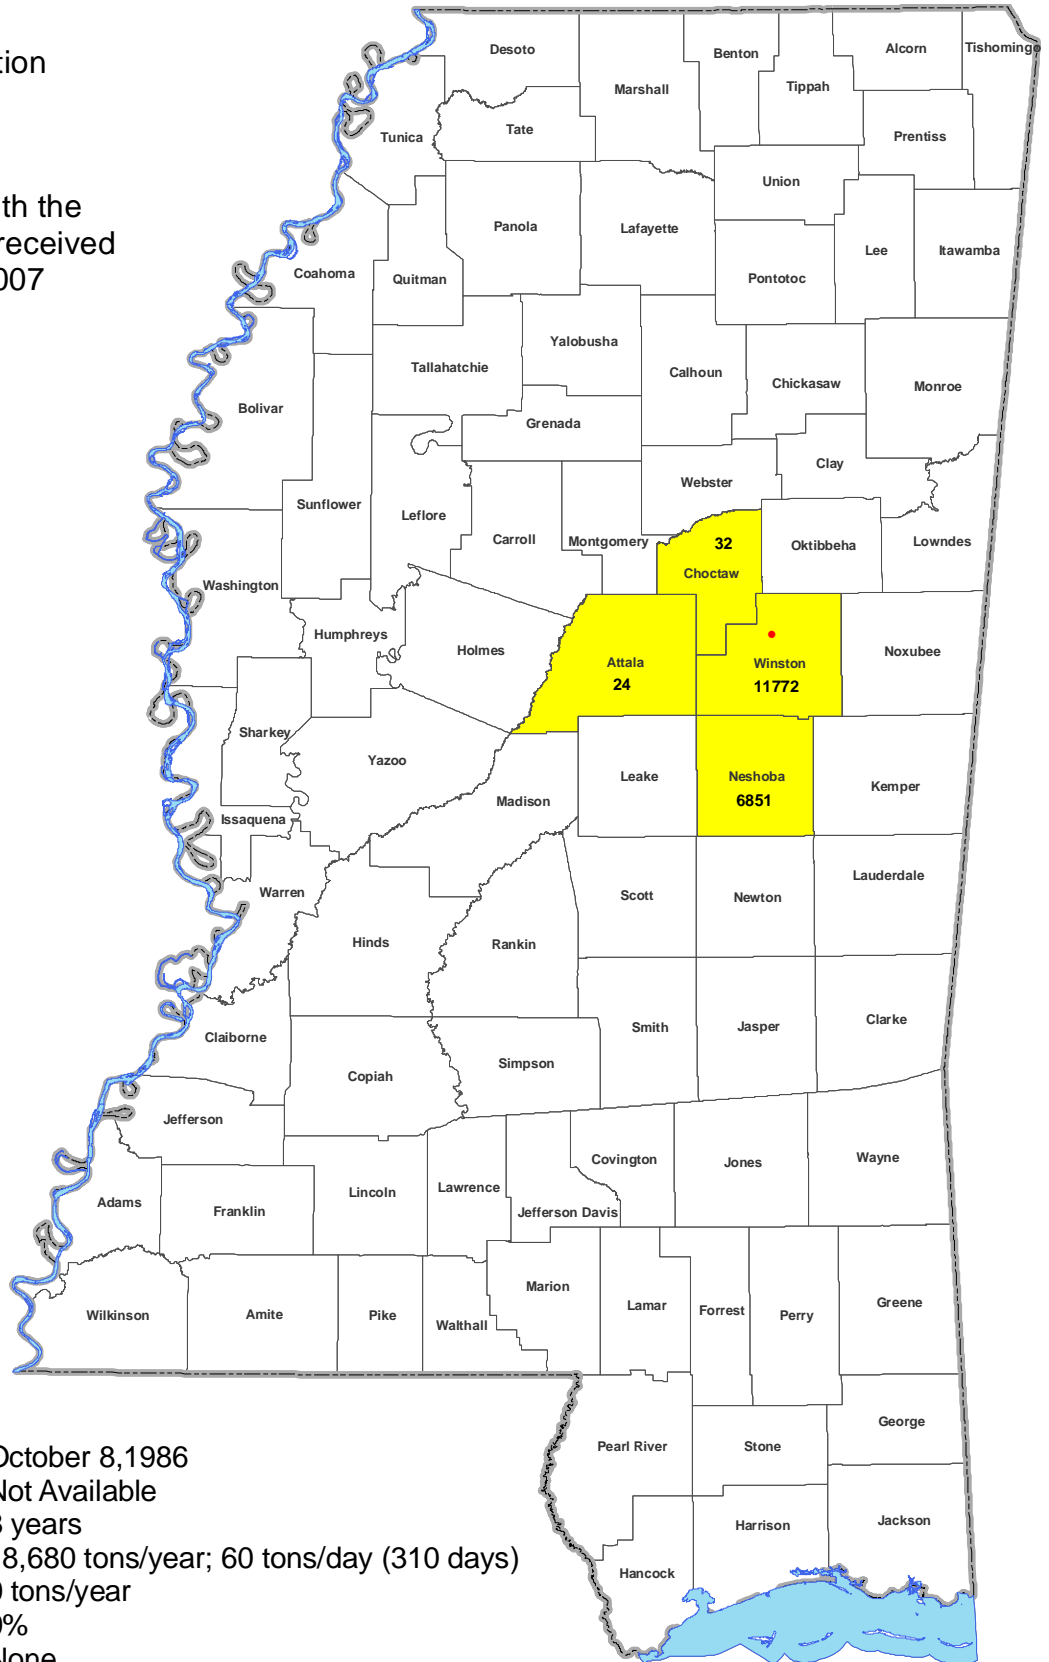

Permit Issuance Date: January 1, 1987
 Permitted Airspace: 16,000,000 yd³
 Remaining Life: 110 years
 Waste: 142,551 tons/year; 460 tons/day (310 days)
 Out-of-State Waste: 3,817 tons/year
 % Out-of-State Waste: 2.68%
 Other States Serviced: AL (<0.01%), AR (2.67%), TN (<0.01%)

CITY OF LOUISVILLE SOLID WASTE LANDFILL

City of Louisville

- Landfill GIS Location
33° 10' 06.0" N
89° 03' 15.0" W

 Areas serviced with the amount of waste received (in tons) during 2007

Permit Issuance Date: October 8, 1986
 Permitted Airspace: Not Available
 Remaining Life: 8 years
 Waste: 18,680 tons/year; 60 tons/day (310 days)
 Out-of-State Waste: 0 tons/year
 % Out-of-State Waste: 0%
 Other States Serviced: None

Non-Municipal Solid Waste (Non-MSW) Landfills

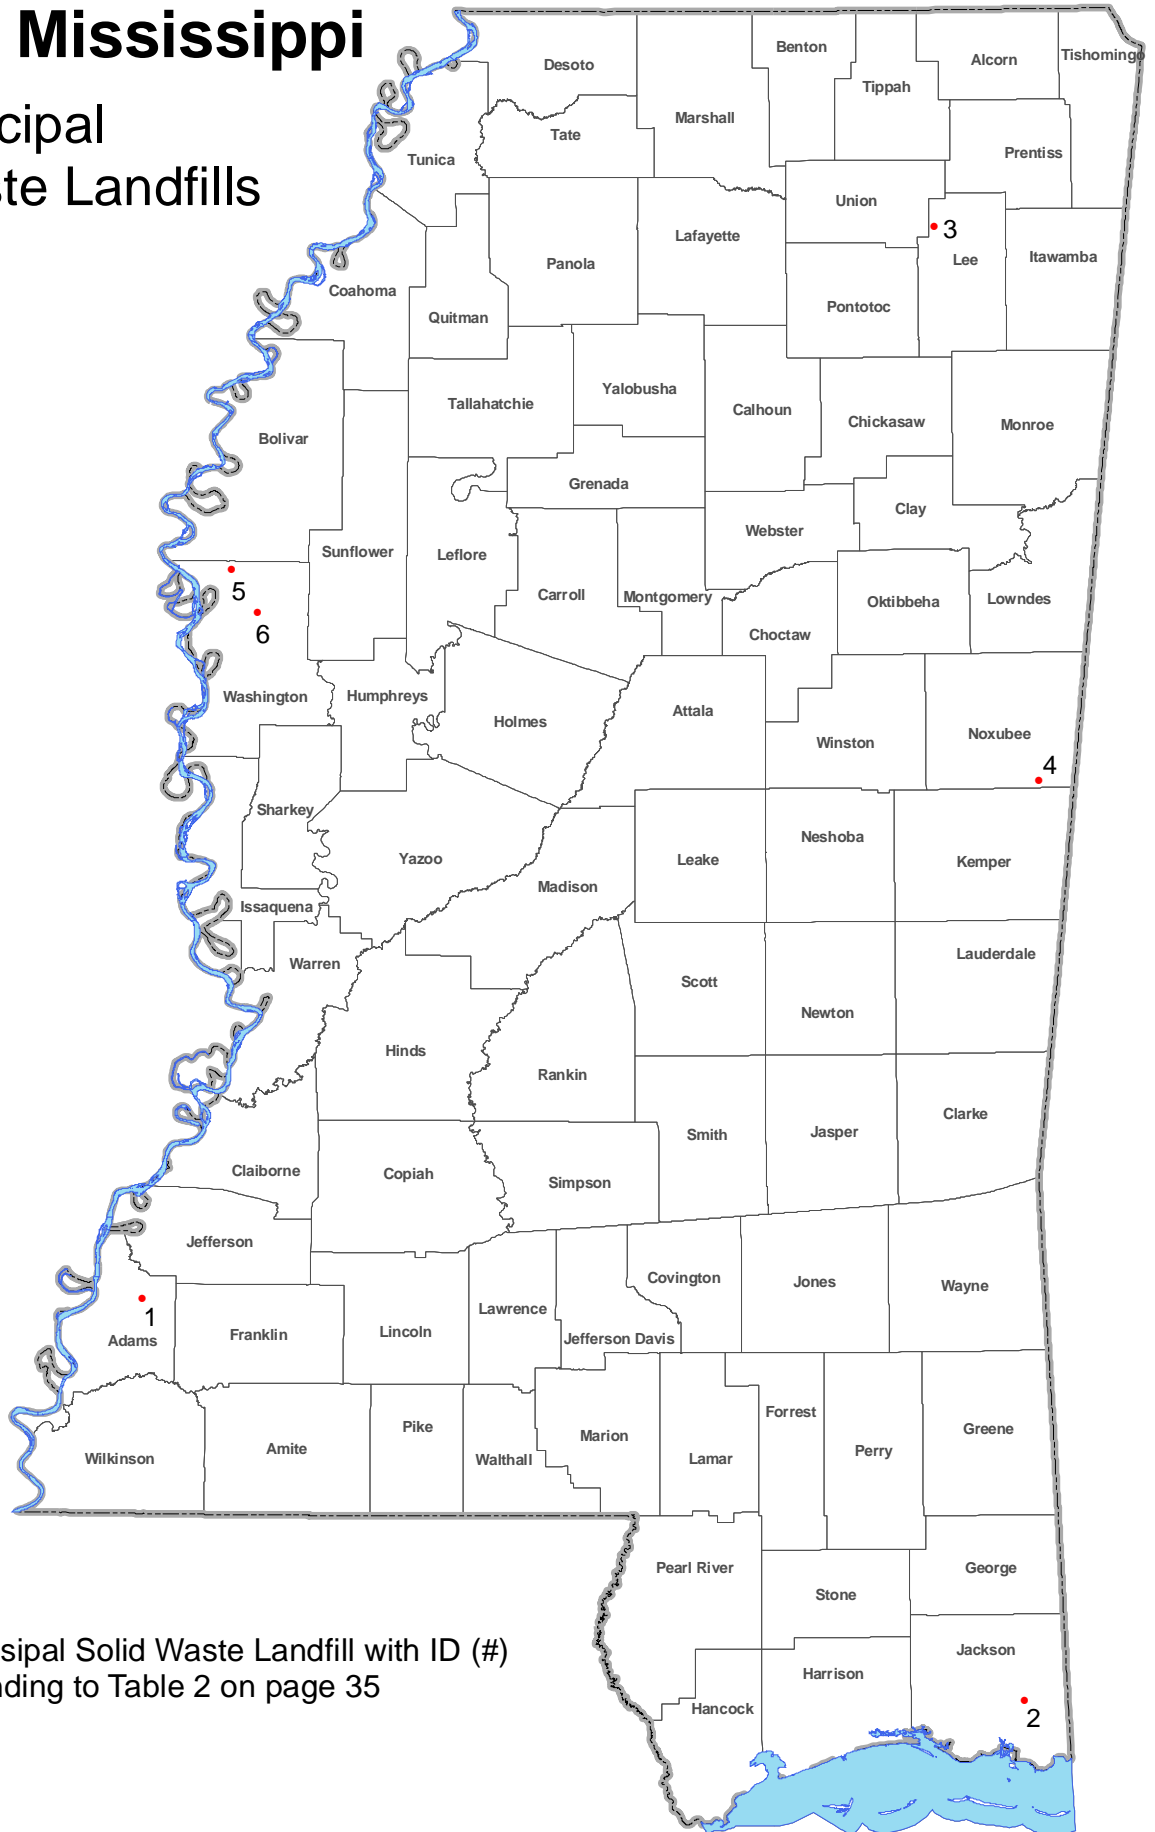

Non-MSW Landfills are commercial disposal facilities that are designed and constructed to receive a limited range of nonhazardous solid wastes including industrial sludges, ashes, and other process wastes or special wastes, such as asbestos, for disposal. These landfills generally receive waste from either one primary industrial source or receive one primary waste stream. These facilities are not authorized to accept household garbage or other similar wastes. There were 6 permitted non-MSW landfills that operated in the state during Calendar Year 2007. According to the annual reports submitted by the owners/operators, these 6 non-MSW landfills received a total of 311,082 tons of solid waste during Calendar Year 2007.

The annual report on the solid waste disposal activities conducted at each non-MSW landfill is required by the Mississippi Code Annotated Section 17-17-219 and Section IV.B.15 of the Mississippi Nonhazardous Solid Waste Management Regulations. This report contains a summary of these individual facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the locations of non-MSW landfills; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2007 for non-MSW landfills. The information is listed alphabetically by the County in which the landfill is located.

Class I and Class II Rubbish Sites

Class I and Class II Rubbish Sites are facilities that are designed and constructed to receive rubbish wastes from a variety of sources for disposal. Rubbish is a subset of the overall municipal solid waste stream generated in the State of Mississippi that includes non-putrescible types of wastes. A significant amount of rubbish wastes are managed and disposed of each year at commercial rubbish disposal facilities across the state.

Class I Rubbish Sites

Class I rubbish sites may accept those solid wastes that are defined as rubbish wastes. These wastes generally include the following materials:

- construction and demolition debris;
- brick, mortar, concrete, stone, and asphalt;
- cardboard;
- natural vegetation;
- appliances which have had the motor removed (except refrigerators and air conditioners);
- furniture;
- plastic, glass, crockery, and metal (except containers); and
- sawdust, wood shavings, and wood chips.

There were 81 permitted commercial class I rubbish sites, 2 of which were inactive during Calendar Year 2007. According to the annual reports submitted by the facilities, a total of 1,407,700 tons of rubbish wastes were disposed of at the remaining 79 active class I rubbish sites during Calendar Year 2007.

Also, one emergency building and structural debris disposal site which was authorized to receive class I type rubbish wastes resulting from Hurricane Katrina clean up efforts continued to operate during the early months of Calendar Year 2007. According to the annual reports submitted by this emergency site, a total of 27,338 tons of wastes were received for disposal during Calendar Year 2007.

Class II Rubbish Sites

Class II rubbish sites may accept limited types of inert rubbish wastes. These inert wastes include natural vegetation, brick, mortar, concrete, stone, and asphalt.

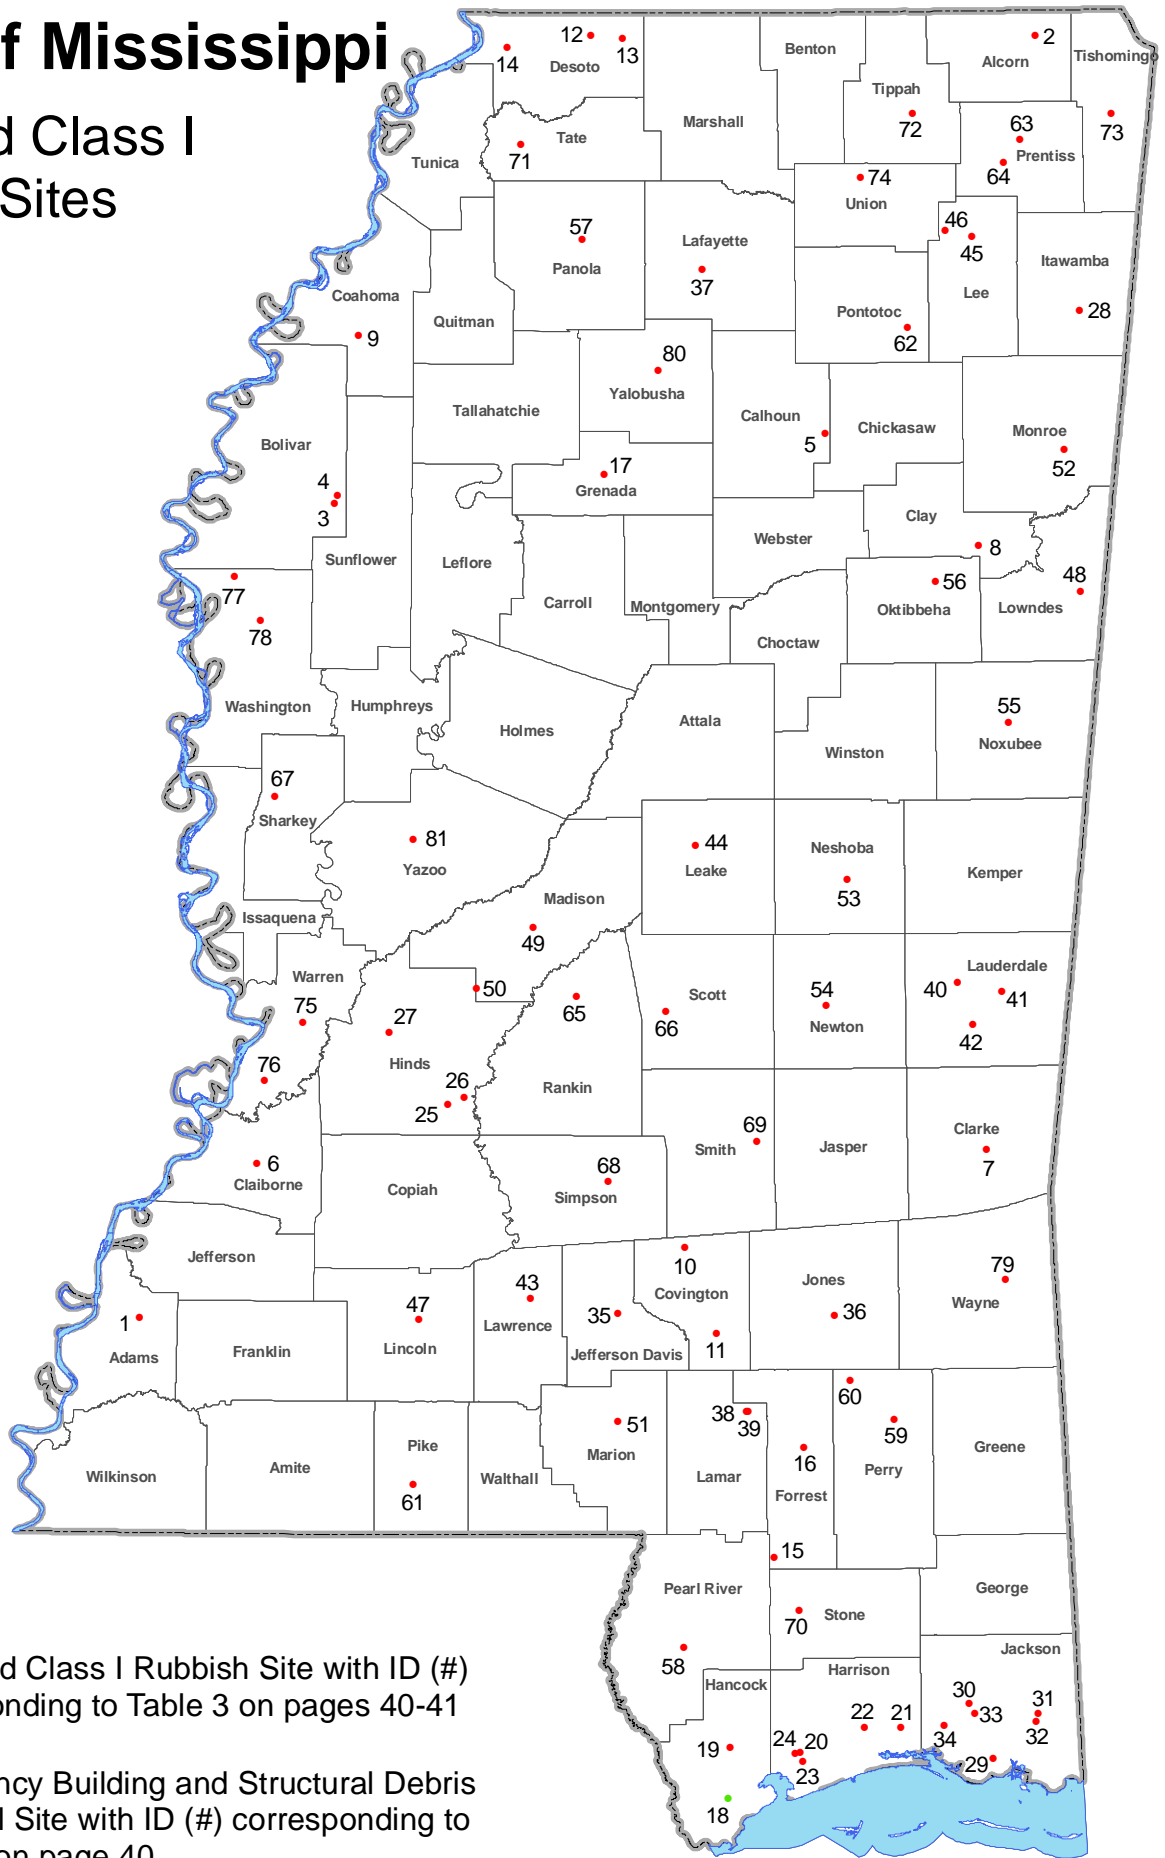

There were 77 permitted commercial class II rubbish sites, 12 of which were inactive during Calendar Year 2007 and 5 that did not report. According to the annual reports submitted by the facilities, a total of 216,084 tons of rubbish wastes were disposed of at the 60 active class II rubbish sites during Calendar Year 2007.

An annual report on the solid waste disposal activity conducted at each rubbish site is required by the Mississippi Code Annotated, Section 17-17-219, Section VI.E.16 of the Mississippi Nonhazardous Solid Waste Management Regulations, Section T of Statewide General Permit No. SWGP-R1 for class I rubbish sites, and Section R of Statewide General Permit No. SWGP-R2 for class II rubbish sites. This report contains a summary of information from these facility reports as provided by the facility owners. The report includes the following information:

1. A state map showing the locations of the permitted class I rubbish sites and the remaining emergency building and structural debris disposal site that was temporarily authorized for disposal of class I type rubbish wastes from Hurricane Katrina clean up efforts;
2. A summary of the information provided by rubbish site owners in the individual annual reports for Calendar Year 2007 for the permitted class I rubbish sites and the emergency building and structural debris disposal site previously referenced. The information is listed alphabetically by the County in which the facility is located;
3. A state map showing the locations of the permitted class II rubbish sites; and
4. A summary of the information provided by rubbish site owners in the individual annual reports for Calendar Year 2007 for the permitted class II rubbish sites. The information is listed alphabetically by the County in which the facility is located.

PART II

**NON-COMMERCIAL SOLID WASTE
DISPOSAL FACILITIES**

This page intentionally left blank.

Industrial and Institutional Landfills

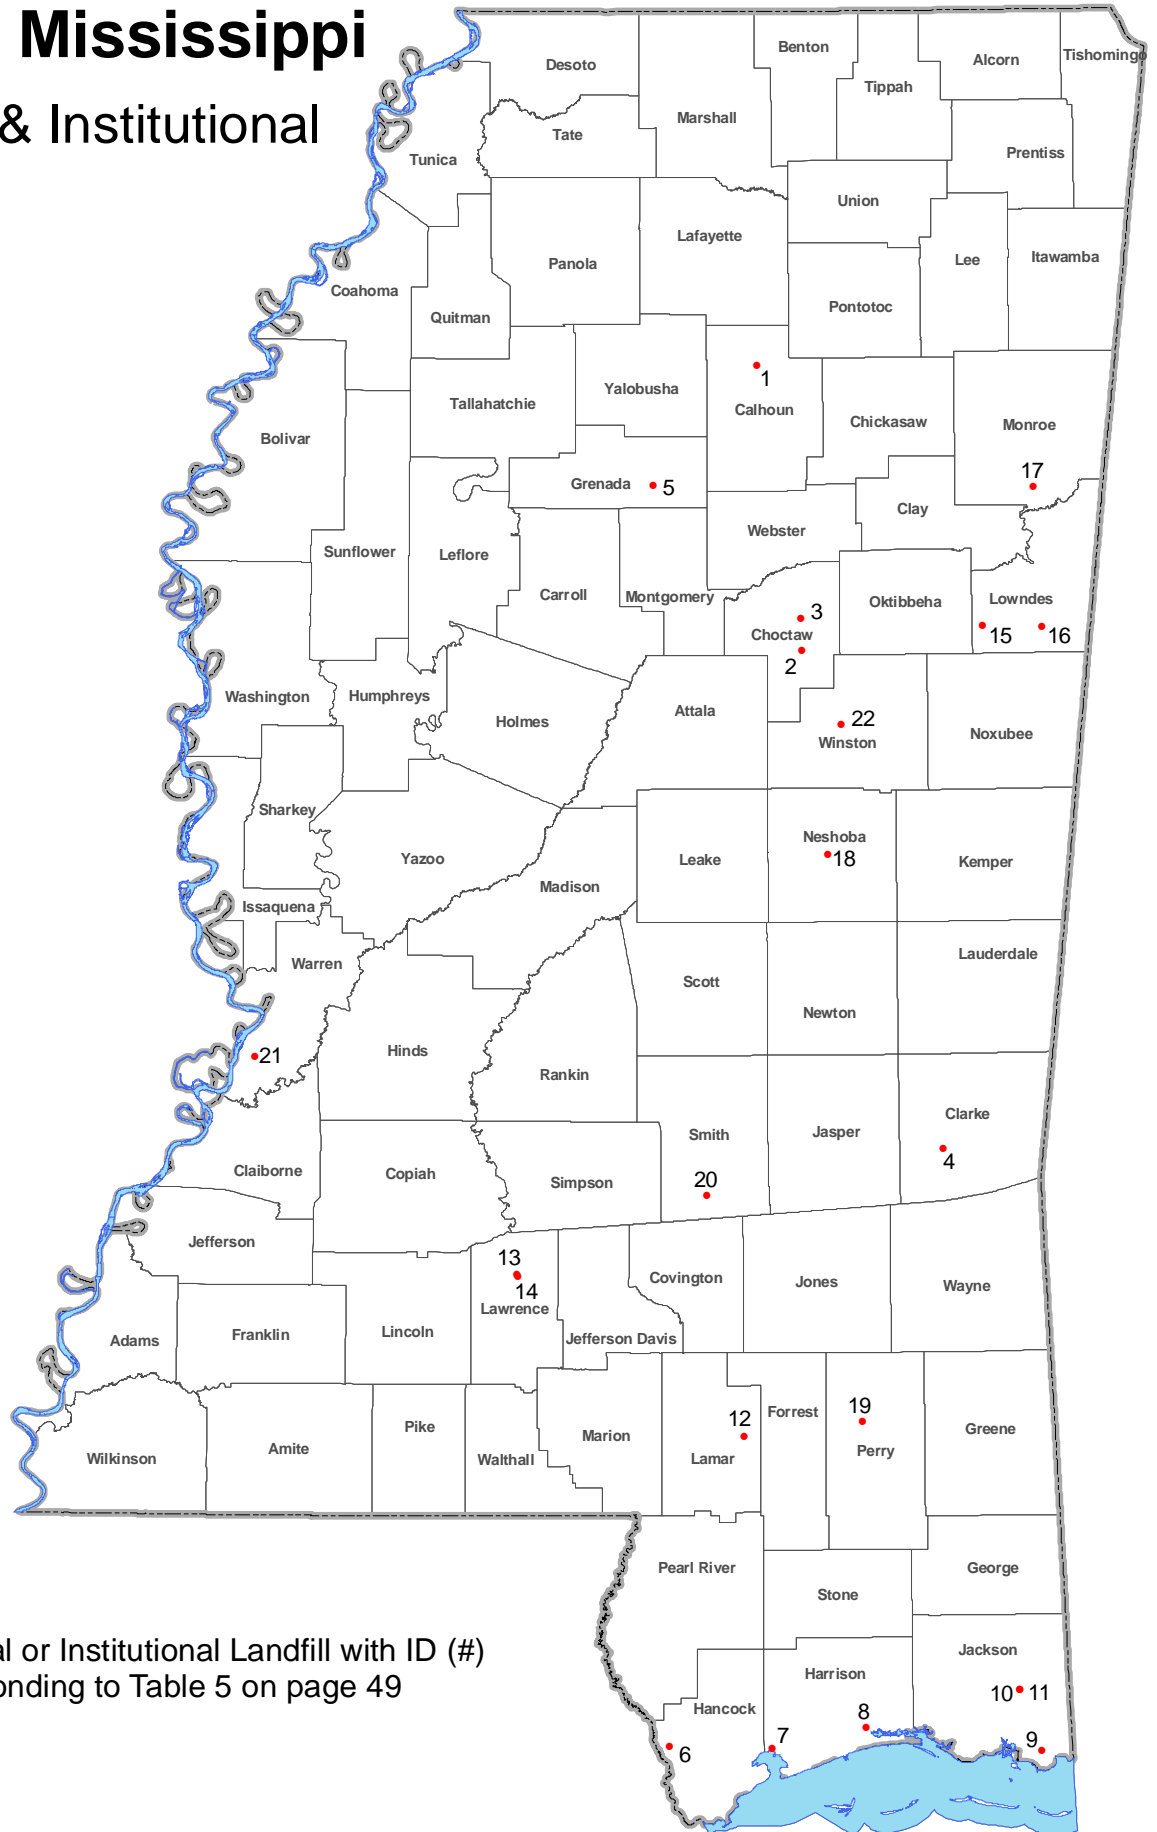

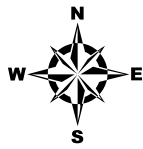

Industrial and Institutional Landfills are disposal facilities that are designed and constructed to receive nonhazardous industrial wastes and certain special wastes from one primary source for ultimate disposal. These disposal facilities are generally owned and operated by the industry or institution that generates the wastes. There were 22 permitted industrial and institutional landfills, of which 3 were inactive during Calendar Year 2007. According to the annual reports submitted by the owners/operators, a total of 3,275,055 tons of solid waste were disposed of at the 19 active landfills during Calendar Year 2007.

The annual report on the solid waste disposal activities conducted at each industrial and institutional landfill is required by the individual facility permit conditions. This report contains a summary report on the disposal activities conducted at landfills in Mississippi during Calendar Year 2007. The report includes the following information:

1. A state map showing the locations of industrial and institutional landfills; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2007 for industrial and institutional landfills. The information is listed alphabetically by the County in which the facility is located.

Industrial and Institutional Rubbish Sites

Industrial and Institutional Rubbish Sites are facilities that are designed and constructed to receive class I and/or class II rubbish wastes from industrial or institutional sources for disposal. These disposal facilities are generally owned and operated by the industry or institution that generates the wastes and are categorized as either class I or class II rubbish sites depending upon the types of waste disposed. There were 18 permitted industrial or institutional rubbish sites, 6 of which were inactive during Calendar Year 2007. According to the annual reports submitted by the owners/operators, a total of 74,622 tons of solid wastes were disposed of at the 12 active industrial rubbish sites during Calendar Year 2007.

The annual report on the solid waste disposal activity conducted at each rubbish site is required by Section VI.E.16 of the Mississippi Nonhazardous Solid Waste Management Regulations, Section T of Statewide General Permit No. SWGP-R1 for class I rubbish sites and Section R of Statewide General Permit No. SWGP-R2 for class II rubbish sites. This report contains a summary of the individual facility reports as reported by the facility owners. The report includes the following information:

1. A state map showing the locations of industrial and institutional rubbish sites; and
2. A summary of the information provided by the rubbish site owners in the individual annual reports for Calendar Year 2007 for all non-commercial rubbish sites in Mississippi. The information is listed alphabetically by the County in which the facility is located.

PART III

**SOLID WASTE LAND
APPLICATION FACILITIES**

This page intentionally left blank.

Solid Waste Land Application Facilities

Land application facilities are sites where solid waste is applied to the land through incorporation, injection, or other application for soil amendment or conditioning purposes or for biodegradation of the waste. A significant amount of municipal wastewater sludge (commonly referred to as biosolids), non-municipal wastewater sludge, and other waste streams from industrial sources are land applied each year at the permitted land application facilities across the state.

There were 31 permitted land application facilities, 18 of which were inactive during Calendar Year 2007. According to the submitted annual reports, a total of approximately 40,978 dry tons of solid waste was land applied during Calendar Year 2007 at 13 active land application facilities in Mississippi. Approximately 32.69% (13,394 dry tons) of the total waste applied during Calendar Year 2007 was municipal wastewater sludge (biosolids) and the remaining 67.31% (27,584 dry tons) was waste other than municipal wastewater sludge such as pulp and paper mill sludge, wood ash, and other materials.

An annual report on activities conducted at each land application site is required by the individual facility permit conditions. This report contains summary information on the activities conducted at the permitted land application sites in Mississippi during Calendar Year 2007. The report includes the following information:

1. A state map showing counties where land application sites are permitted; and
2. A summary of operational information contained in the individual annual reports for Calendar Year 2007 for land application sites. The information is listed alphabetically by the County in which the facility is located.

This report does not include information on those materials land applied as soil amendments under the MDEQ beneficial use determination program.
