

## **PART II**

### **ATTACHMENTS AND OPERATIONAL DATA**

#### **WASTE TIRE COLLECTION FACILITY** **(Commercial/Multi-User Sites)**

Please submit the following information as a part of the application for a commercial/multi-user waste tire collection facility. (Note: We request that all information be typewritten).

##### **A. Property Information and Maps**

1. Attach a legal description of the proposed property site, including acreage.
2. Attach a site map, drawn to scale, showing the storage areas, property boundaries, buffer distances, roads and other physical characteristics of the site.
3. Attach a City, County, or United States Geological Survey (USGS) topographical quadrangle map of the area which outlines the property boundaries of the site and the location of the site in relation to the City or County. The map may be a high quality photocopy.
4. Attach a list of the complete names and addresses of the immediately adjacent property owners to the site.

##### **B. Local Government Regulations**

Attach a letter or other documentation from the appropriate county or city official confirming that the siting of this facility will be in conformance with all local laws, regulations, and ordinances, or that no such laws, regulations, or ordinances are applicable.

##### **C. Plan of Operation**

A plan of operation for the collection facility should be submitted including:

- a. A description of the operation including how the tires will be managed from the time of unloading of an incoming load of tires to the time that the tires are transported off the site for recycling or disposal.
- b. A description of how the storage requirements of Sections C.2 and C.3 of the Waste Tire Management Regulations will be met with regards to whole waste tires and Section C.6 (if applicable) of said regulations with regards to reusable tires separated out for resale/retread.

**Commercial/Multi-user Waste Tire Collection Facility  
Permit Application  
Page 2 of 5**

- c. The maximum amount of whole tires proposed for storage on site at any given time. (This limit should generally not exceed 5000 at any given time and all waste tires must be removed from the site within 90 days of arrival).
- d. Documentation of compliance with the financial responsibility requirements of Section F of the Waste Tire Management Regulations should be provided including a detailed analysis of closure/clean-up costs and documentation of the financial mechanism used for proving financial responsibility.
- e. A fire prevention plan and information demonstrating that the local fire prevention officials have been notified of the proposed facility.
- f. A mosquito prevention control plan such as details of routine fogging or other mosquito control measures.
- g. A description of site security and monitoring provisions and signs identifying the site.
- h. The days and hours of operation of the facility.
- i. Details of all waste tire transportation activity into and out of the collection site including the names and identification numbers of all known haulers authorized to enter or leave the site, the names and addresses of the authorized processing and/or disposal facilities to which the tires will be transported or names and addresses of the authorized mobile processor conducting on site processing of the tires.
- j. Provide a description of the service area from which waste tires are to be accepted at the proposed facility. This service area should be consistent with the service area approved in the local solid waste management plan for the proposed facility, where a service area exists.
- k. A copy of an executed contract or other written agreement with the authorized processing facility which will be accepting the tires or with the authorized mobile tire processor who may be processing them on site. If the tires are processed on site by a mobile tire processor, then documentation of a contract or agreement with an approved solid waste recycling/disposal facility for acceptance of the processed tires.
- l. A closure plan including the information detailed in Section C.14 of the Waste Tire Management Regulations.

**D. Siting Requirements for Waste Tire Collection Facilities**

(Note: For purposes of this application, an outdoor facility is any facility where the storage activity involving waste tires is not adequately enclosed within a walled or roofed structure.)

1. Is the proposed waste tire storage area located within the 100 year floodplain?

\_\_\_\_\_ yes \_\_\_\_\_ no

If yes, attach a demonstration that the facility will not restrict the flow of the 100 year flood, reduce the temporary water storage capacity of the floodplain, or result in washout of waste tires from the facility.

2. Attach information demonstrating that the proposed facility is not located in wetlands. If the property appears questionable, a letter from the U.S. Army Corps of Engineers regarding the wetlands determination will need to be obtained. For facilities located in Hancock, Harrison, or Jackson Counties, a letter from the Mississippi Department of Wildlife, Fisheries, and Parks (Bureau of Marine Resources) may need to be obtained.

3. Will the proposed storage operation be located within 250 feet of the banks of any river, stream, lake, reservoir, or coastal water? (outdoor facilities only)

\_\_\_\_\_ yes \_\_\_\_\_ no

4. Will the collection facility be located in an area which may result in recurring washout of waste tires, such as within or along the banks of a drainage ditch, channel or basin, or other surface water drainage area?

\_\_\_\_\_ yes \_\_\_\_\_ no

5. Attach information demonstrating that the proposed facility will not affect a federally or state listed endangered or threatened species or attach documentation that the proposed operation is in compliance with all statutes, rules, and regulations within the jurisdiction of the U.S. Fish and Wildlife Service and the Mississippi Department of Wildlife Fisheries, and Parks concerning listed endangered or threatened species.

6. Attach documentation from the Mississippi Department of Archives and History containing comments regarding the impact of the siting of the proposed storage operation to any cultural resource listed in, or eligible for listing in, the National Register of Historic Places. If the initial determination is that a significant and adverse impact will occur, attach documentation of appropriate mitigation.

7. Is the proposed facility located within 0.5 miles of a national, state, county, or city designated park or an outdoor recreational area, such as a golf course or swimming pool, owned by a city, county, or other public agency? (outdoor facilities only)

\_\_\_\_\_ yes \_\_\_\_\_ no

If yes, attach a letter from the person or agency responsible for managing the park or recreational area consenting to a smaller setback distance.

8. Is the proposed facility located within a national forest land, a national wilderness area, or national wildlife refuge area, as designated by the appropriate federal agency? (outdoor facilities only)

\_\_\_\_\_ yes \_\_\_\_\_ no

Is the proposed facility located within a state wildlife management area, state game management area, or state natural area, as designated by the Mississippi Department of Wildlife, Fisheries, and Parks? (outdoor facilities only)

\_\_\_\_\_ yes \_\_\_\_\_ no

If yes to either, attach written consent for the proposed processing operation from the agency responsible for managing such area.

9. Is the proposed facility located within 0.5 miles of any licensed school, licensed day-care center, licensed hospital, or licensed nursing home, or within 1000 feet of any church? (outdoor facilities only)

\_\_\_\_\_ yes \_\_\_\_\_ no

If yes, attach a letter from the person, group or agency, which owns or operates the facility, consenting to a smaller setback distance.

10. Is the setback distance between the processing/storage areas and the property lines less than 200 feet on any side? (outdoor facilities)

\_\_\_\_\_ yes \_\_\_\_\_ no

Is the setback distance between the processing/storage areas and the property lines less than 50 feet on any side? (indoor facilities)

\_\_\_\_\_ yes \_\_\_\_\_ no

If yes, attach documentation of compliance with Section III.T.2 - Property Line Setbacks of the Mississippi Nonhazardous Waste Management Regulations.

11. Is the proposed facility located within 1500 feet of a single family dwelling unit (e.g., a house, mobile home, townhouse, condominium, apartment, etc.) at the time of this application? (outdoor facilities only)

\_\_\_\_\_ yes \_\_\_\_\_ no

If yes, attach documentation demonstrating compliance with Section III.x of the Mississippi Nonhazardous Waste Management Regulations.
