The EPA is working with various parties to conduct a vapor intrusion study in the Eastern Heights residential community located close to the Grenada Stamping facility. This study is part of a precautionary approach to protect public health and the environment.

Representatives from EPA, the Mississippi Department of Environmental Quality (MDEQ— the State environmental agency), and the Agency for Toxic Substances and Disease Registry (ATSDR) will be available to share information regarding the ongoing investigation.

### **Timeline of Activities on Tuesday, January 26, 2016**

**2 to 4 p.m.** - Afternoon Meet and Greet Session with Agency representatives on hand to answer questions and meet with community members. No formal presentation will be given.

**6 to 8 p.m.** - Presentations given by representatives from EPA and MDEQ summarizing results from ongoing environmental studies.

**8 to 9 p.m.** - Evening Meet and Greet Session immediately following presentations with Agency representatives on hand to answer additional questions and meet with community members.
