

**MINUTES OF THE MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD
HELD IN JACKSON, MISSISSIPPI, ON TUESDAY, APRIL 11, 2017**

The Mississippi Environmental Quality Permit Board held a meeting in the Commission Hearing Room of the Department of Environmental Quality, located at 515 East Amite Street, on April 11, 2017. Michael Bograd called the meeting to order at 9:00 a.m. with the following members and designated representatives present:

Michael Bograd, Chairman
Dennis Riecke for Sam Polles, Vice Chair
Leslie Royals
Jennifer Wittmann for Jamie Miller
Chris Hawkins for Kay Whittington
Chris McDonald for Cindy Hyde-Smith
Howard Leach for Lisa Ivshin

Roy Furrh, General Counsel for MDEQ, was present as legal counsel. On motion by Leslie Royals and seconded by Dennis Riecke, the minutes of the March 14, 2017, meeting were approved.

REPORT OF STAFF PERMIT ACTIONS/CERTIFICATIONS

Staff reported to the Permit Board that staff had acted on various permits since the March 14, 2017, Permit Board Meeting pursuant to the regulations delegating this authority to the Executive Director and the Executive Director's delegation of this authority to the staff in accord with those regulations. The Permit Board voted to note and record in its minutes the reports of permit actions/certifications by staff since the March 14, 2017, Permit Board Meeting. [Chris Hawkins abstained from voting on all Land and Water Resources permits and Michael Bograd abstained on all the Office of Geology permits.]

Issuance of Air Construction Permit, 1280-00058, Jackson County

**Modification to Air Prevention of Significant Deterioration
(PSD) Permit, 1280-00058, Jackson County**

Mr. Harry Wilson, Chief of the Environmental Permits Division, presented to the Permit Board a proposed issuance of Permit to Construct Air Emissions Equipment for the ISO II Reactor Replacement Project at Chevron Pascagoula Refinery. Mr. Wilson also requested the Permit Board to consider the proposed modification to Chevron's existing PSD Permit. This modification would revise Chevron's PSD Permit to reflect the as-built completion of Chevron's Pascagoula Base Oil Project.

The Department issued a public notice on December 28, 2016, which allowed public comment until February 9, 2017. MDEQ held a public hearing on February 9, 2017. MDEQ also extended the public comment period approximately 2 weeks until close of business on February 24, 2017.

The Response to Comments document addressed comments and questions that MDEQ staff deemed relevant to the proposed permit actions. MDEQ did not respond to comments submitted which were not specifically related to the proposed permit actions, or where the Department had no regulatory jurisdiction. MDEQ sent the Response to Comments document via email and U.S. Mail on March 30, 2017, to interested parties who attended the hearing. Prior to the Permit Board meeting, MDEQ staff provided the Permit Board membership with the "Response to Comments" document, as well as the draft permits, the information relative to (rationale) document, and the Preliminary Determination document.

There were no visitors present to speak for or against the proposed permits. Mr. Wilson stated that MDEQ had concluded that the permit applications and proposed permits met requirements of the applicable laws and regulations including the regulatory siting criteria. Mr. Wilson recommended issuance of the Air Construction Permit and the Modification to Air Prevention of Significant Deterioration (PSD) Permit.

On motion by Dennis Riecke and seconded by Howard Leach, the Permit Board voted to accept the staff's recommendation to issue the permits.

Surface Mining Permit:

Birdsong Construction Company, Inc.	P14-018A	Madison County
Storm Water Coverage	MSR 322309	

Mr. James Matheny presented Birdsong Construction Company, Inc. surface mining application (No. A1878A) to the Permit Board. On April 5, 2016, the Office of Geology received a surface mining permit application and a mining storm water application. The operator proposed to open pit mine 48.75 acres to a total depth of 12 feet for borrow material. This is in addition to the previously permitted 31.25 acres at the same location. Reclamation will consist of 3 to 1 slopes; grass cover; and a pond. On September 29, 2016, this application went to public notice. MDEQ received several letters of opposition to this proposed expansion. Ms. Patricia Sanders was present to address the Permit Board and stated that she was opposed to the proposed expansion of the surface mine based on concerns that Birdsong, since 2012, had not followed the guidelines set by Madison County Board of Supervisors and MDEQ regulations including the early 6 a.m. hauling, caution lights not being installed, silt fencing not properly installed to keep erosion and dirt from the roadway, that they have mined dirt outside the permitting area, repairs and maintenance to the road to ensure safety of the residents had not been completed, dump trucks have not abided by the weight limits resulting in pot holes, eroding roadway, and a tedious commute. Ms. Sanders also asked if a public notice was required for the pending expansion of the surface mine, and if so there was not one posted on the road. Ms. Sanders also asked if there had been a study done on the site in relation to wetlands, archives and privately owned wells within a one mile radius of the site that could be affected by groundwater contamination from the mine. Ms. Sylvia Ann Thomas was also present to reiterate to the Permit Board that she was association president of North Livingston Road Homeowners Association representing over 160 residents affected by this mine and spoke on their behalf indicating they were in total agreement with the concerns that Ms. Sanders had previously stated and felt that the company has been very dishonest in their intentions and has not fulfilled their promises of a pond, dam, or subdivision. Mr. Trey Heigle was also present to speak for and on behalf of this application. Mr. Heigle spoke of the process of building a dam and road repairs they are working on and how pleased he believed everyone would be once it was finished. General Counsel, Roy Furrh, with MDEQ asked Mr. Matheny about any wetlands on the site and Mr. Matheny responded that the applicant had a Corps of Engineers determination done that concluded that no wetlands were present. Mr. Furrh also asked Mr. Matheny if he had noticed any sediment leaving the site during his visit the day before. Mr. Matheny responded that he did not notice any sediment leaving the site. Mr. Matheny indicated the surface mining permit and storm water coverage met all applicable laws and regulations and recommended the Permit Board issue the surface mining permit and storm water coverage.

On motion by Dennis Riecke and seconded by Leslie Royals, the Permit Board voted to approve the surface mining permit and storm water coverage. (Michael Bograd abstained). The surface mining permit number will be P14-018A while the storm water coverage permit number will be MSR 322309.
