

**MINUTES OF THE MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD
HELD IN JACKSON, MISSISSIPPI, ON TUESDAY, NOVEMBER 14, 2017**

The Mississippi Environmental Quality Permit Board held a meeting in the Commission Hearing Room of the Department of Environmental Quality, located at 515 East Amite Street, on November 14, 2017. Dennis Riecke called the meeting to order at 9:00 a.m. with the following members and designated representatives present:

Dennis Riecke for Dr. Sam Polles, Chair
Jim Hoffmann for Kay Whittington, Vice Chair
Leslie Royals
Jennifer Wittmann for Jamie Miller
Chris McDonald for Cindy Hyde-Smith
Howard Leach for Lisa Ivshin
David Dockery

Roy Furrh, General Counsel for MDEQ, was present as legal counsel. On motion by Chris McDonald and seconded by Howard Leach, the minutes of the October 10, 2017, meeting were approved.

REPORT OF STAFF PERMIT ACTIONS/CERTIFICATIONS

Staff reported to the Permit Board that staff had acted on various permits since the October 10, 2017, Permit Board Meeting pursuant to the regulations delegating this authority to the Executive Director and the Executive Director's delegation of this authority to the staff in accord with those regulations. The Permit Board voted to note and record in its minutes the reports of permit actions/certifications by staff since the October 10, 2017, Permit Board Meeting. [David Dockery abstained from voting on all Office of Geology permitting matters and James Hoffman abstained from voting on all Land and Water Resources permitting matters].

**THE PERMIT BOARD CONSIDERED THE FOLLOWING
OFFICE OF POLLUTION CONTROL MATTERS:**

Agricultural Branch

**Issuance of Coverage to Matt Palmer Poultry under the AFO General Permit
#MSG201961, Jones County**

**Issuance of Coverage to Matt Palmer Poultry under
Large Construction Storm Water General Permit
#MSR107546, Jones County**

Mrs. Tracy Tomkins, of the Environmental Permits Division, advised the Permit Board that Matt Palmer, the owner of Matt Palmer Poultry, applied for coverage under the State of Mississippi Dry Litter Poultry Animal Feeding Operation Multimedia General Permit (No. MSG201961) and the Large Construction Storm Water General Permit (No. MSR107546) for six proposed poultry houses to be located in Jones County. MDEQ received a Large Construction Notice of Intent, a Construction Storm Water Pollution Prevention Plan, a Dry Litter Poultry Notice of Intent, and a Comprehensive Nutrient Management Plan, developed by the Natural Resources Conservation Service, as part of the permit applications. The applicant proposes to disturb approximately 12 acres of land to construct six poultry houses which would house a total of 235,200 broilers. As proposed in the nutrient management plan, litter production is estimated to be 912 tons per year with 620 tons being transferred off site. The applicant has over 63.6 acres of land available for disposal of the remaining litter.

The applicant sent out contiguous landowner notifications as required by the General Permit. MDEQ received 17 letters of concern and a petition with 50 signatures from Florence Congregational Methodist Church and the Mississippi Congregational Methodist Family Camp. The letters related to concerns about odors, flies, and health conditions. The Permit Board allowed visitors to make brief presentations both for and against issuance of the permit coverages. Rev. Jimmy Holder spoke on behalf of the Florence Congregational Methodist Church and the Mississippi Congregational Methodist Family Camp. Reverend Holder expressed concerns that the poultry houses would exacerbate health problems of his elderly congregation and that they would negatively impact outdoor activities associated with the camp. Mrs. Lanette Farrish, a nearby homeowner to the proposed site, also addressed the Permit Board. Mrs. Farrish, who had previously worked 28 years in the poultry business, was concerned that the poultry houses would aggravate her existing asthma problems and health problems of her neighbors. The Permit Board also allowed Mr. Palmer, the owner, to make a brief presentation and answer questions. Mr. Palmer stated that he was investing \$2,000,000.00 to build a state-of-the-art facility and that he would "do it right" to protect his investment. Mr. Palmer mentioned he planned to build a home and live on the property. Mrs. Tomkins addressed questions regarding frequency of MDEQ inspections of poultry houses. She stated that MDEQ conducts regular inspections and also investigates all complaints lodged against poultry facilities. Mr. Palmer stated the integrator will conduct inspections as well.

Mrs. Tomkins stated that MDEQ had inspected the facility and concluded that the facility met the requirements of the laws and regulations including the regulatory siting criteria. Mrs. Tomkins recommended that the Permit Board issue the coverages under the AFO General Permit and the Large Construction Storm Water General Permit.

On motion by Chris McDonald and seconded by Jennifer Wittmann, the Permit Board voted to accept the staff's recommendation to issue the permit coverages. Permit Board member David Dockery voted against the motion.

WASTE DIVISION

SOLID WASTE PERMITTING AND CERTIFICATION BRANCH

Canton, City of, City of Canton Sanitary Landfill

Mr. Mark Williams, Chief of MDEQ's Waste Division advised the Permit Board that the City of Canton had applied for renewal of two permits for the continued operation of the City's municipal solid waste landfill. The two permits, if re-issued, would authorize the continued operation of the landfill located on 303 Soldier Colony Road in Canton to accept non-hazardous solid wastes from residences, businesses, and industries within the City as well as from Madison, Hinds, Holmes, Rankin, Simpson, Warren, and Yazoo Counties. Mr. Williams further advised the Board that the landfill had been originally permitted in 1986 and that it currently was being operated by the City under the following two individual environmental permits: Solid Waste Management Permit (No. SW04501B0378) addressing the design, construction, operation and closure of the municipal solid waste landfill and an Individual NPDES Storm Water Discharge Permit (No. MSS058548) for the management of non-contact storm water at the landfill.

Mr. Williams indicated that MDEQ had received and reviewed renewal applications for both of these permits from the City of Canton. He indicated the City's renewal application for the individual storm water discharge permit did not include any proposed modifications and would continue to authorize the discharge of non-contact storm water runoff from the site to Bear Creek, which is in the Big Black River Basin. Mr. Williams advised that the City's renewal application for the solid waste management permit included a request for modification that would result in an increase in the current permitted final height for the landfill and would reduce the lateral footprint of the landfill. The permitted final height for portions of existing disposal Cells 2 and 3 would be increased from 265 feet to 300 feet above Mean Sea Level. The reduction in the lateral footprint of the landfill would remove approximately 78 acres of the footprint added to the landfill as an expansion in August of 2004. Mr. Williams indicated the 78-acre area was being removed because the City determined the area was not in the City's corporate limits and including this area in the permitted footprint would trigger certain air pollution control regulatory requirements. Mr. Williams indicated that the solid waste management permit would authorize a current lateral disposal footprint that consisted of the existing 49-acre disposal area.

MDEQ staff reviewed the City's application and demonstration of compliance with the applicable locational criteria for an existing municipal landfill including setback and siting requirements related to adjacent property lines, surface waters, wetlands, endangered species, historical properties, and a number of other locational requirements. Based on that review, the staff developed draft permit recommendations for the facility and advertised a 30-day public comment period from September 22, 2017, until October 26, 2017, regarding the draft permits. Staff also held a public hearing to receive comments on the draft permits on October 26, 2017.

Mr. Williams informed the Board MDEQ received a written comment letter from Mr. Robert Riddell, a business owner in Canton within the public comment period. Mr. Riddell was concerned about the confusion regarding the area that was actually permitted for the City and asked that MDEQ delay a recommendation on the permits. Mr. Williams indicated that the updated permits would actually address and resolve the concerns that Mr. Riddell expressed in his letter and stated that staff intended to move forward with its recommendation. Mr. Williams asked whether Mr. Riddell was present in the audience to address the Board; but received no response from those in attendance.

Mr. Williams stated that MDEQ staff had evaluated the permit renewal applications, supporting documents and information, issues involved in resolving a compliance matter regarding exceedance of the height restriction, and the public comments on these proposed permits and the associated modifications. Mr. Williams asserted staff's position that under the constraints and limitations within the proposed permits, the facility would be able to operate within all state and federal laws and regulations. Consequently, Mr. Williams recommended on behalf of MDEQ that the Permit Board re-issue Solid Waste Management Permit (No. SW4501B0378) and Individual NPDES Storm Water Discharge Permit (No. MSS058548) to the City of Canton for the continued operation of the City's municipal solid waste landfill.

Upon motion by Mr. James Hoffmann and seconded by Mr. Howard Leach the Permit Board unanimously voted to re-issue the solid waste management permit and the NPDES storm water discharge permit to the City of Canton.

**THE PERMIT BOARD CONSIDERED THE FOLLOWING
OFFICE OF GEOLOGY MATTERS:**

Mining and Reclamation Division
