Ms. LaTrina Williams of the Environmental Permits Division advised the Permit Board that WG Construction Company, Inc. submitted a Notice of Intent (NOI) and Storm Water Pollution Prevention Plan (SWPPP) for coverage under the Multimedia Hot Mix Asphalt Facility General Permit for a new facility in Shannon, Mississippi. The Hot-Mix Asphalt General Permit covers the construction and operation of air emissions equipment and storm water runoff from hot mix asphalt facilities. MDEQ staff deemed the NOI and SWPPP technically complete. Contiguous landowners were notified of the proposed facility and MDEQ provided a 30-day public notice period to receive public comments. During the application review process, EPD received one letter from a contiguous landowner opposing the facility. The landowner stated that the facility should be located in a less populated area and further cited concerns with potential storm water runoff flowing onto her property. The contiguous landowner who opposed the project was invited to the Permit Board meeting; however, she did not attend. Ms. Williams stated that MDEQ's north regional office inspected the site of the proposed facility and found that no residential, recreational, or light commercial areas were within 650 feet of the proposed facility. Ms. Williams stated that MDEQ reviewed the applications for coverage and determined that they complied with the state laws and regulations; therefore, the staff recommended that the Permit Board issue the coverages.

On motion by Howard Leach and seconded by Chris McDonald, the Permit Board voted to accept the staff's recommendation to issue the permit.

Ultra Mulberry Farms provided the required bond and transfer form to MDEQ. The new permit number for Ultra Mulberry Farms will be P14-018AT. The staff recommended approval of the transfer request.

On motion by Chris McDonald and seconded by Jim Hoffmann, the Permit Board voted to approve the above surface mining permit transfer. (David Dockery abstained)

C & G Land Company, LLC

Hancock County

P96-064A

Staff advised the Permit Board that the site has been fully reclaimed and the property has been sold. The new landowner is completely satisfied with the reclamation and does not wish to mine the property. MDEQ staff inspected the site and recommended approval of C & G's requests.

On motion by Jim Hoffmann and seconded by Howard Leach, the Board accepted the staff's recommendation to rescind the permit and return the bond. (David Dockery abstained)

OTHER BUSINESS
