**MDEQ Lifts Water Contact Advisory for Station 4 in Bay St. Louis**

(JACKSON, Miss.) -- The Mississippi Department of Environmental Quality (MDEQ), through its Beach Monitoring Program, lifted a water contact advisory Tuesday for the following beach monitoring station:

- Station 4 -- Bay St. Louis Beach -- from the box culvert east to Ballantine Street.

Water samples at this station show the area has attained acceptable bacteria levels. The Gulf Coast Research Laboratory, which performs water sampling of the Mississippi Gulf Coast beaches for MDEQ, notifies the agency when an area returns to acceptable levels and safe conditions.

More information on the Mississippi Beach Monitoring Program is available at:

<http://www.usm.edu/gcrl/msbeach/index.cgi>.

To receive beach advisories directly, send an email to [rwilbur@deq.state.ms.us](mailto:rwilbur@deq.state.ms.us) for inclusion in a public group email list, text "MDEQbeach" to 95577, or follow MDEQ on Twitter: @MDEQ.
