MDEQ Lifts Water Contact Advisories for Two Stations

(JACKSON, Miss.) -- The Mississippi Department of Environmental Quality (MDEQ), through its Beach Monitoring Program, lifted two water contact advisories Saturday for the following beach monitoring stations:

- Station 7 -- Pass Christian East Beach -- from Espy Avenue east to Hayden Avenue.
- Station 9 -- Gulfport Harbor Beach -- from Alfonso Drive east to Arkansas Avenue.

Water samples at these stations show the areas have attained acceptable bacteria levels. The Gulf Coast Research Laboratory, which performs water sampling of the Mississippi Gulf Coast beaches for MDEQ, notifies the agency when an area returns to acceptable levels and safe conditions.

More information on the Mississippi Beach Monitoring Program and the stations under an advisory, if any, are available at: <http://www.usm.edu/gcrl/msbeach/index.cgi>.

To receive beach advisories directly, send an email to rwilbur@deq.state.ms.us for inclusion in a public group email list, text "MDEQbeach" to 95577, or follow MDEQ on Twitter: @MDEQ.
