MDEQ Lifts Water Contact Advisory for Station 7A in Long Beach

(JACKSON, Miss.) -- The Mississippi Department of Environmental Quality (MDEQ), through its Beach Monitoring Program, lifted a water contact advisory Saturday for the following beach monitoring station in Harrison County:

- Station 7A – Long Beach -- from Oak Gardens eastwards to Girard.

Water samples at this station show the area has attained acceptable bacteria levels. The Gulf Coast Research Laboratory, which performs water sampling of the Mississippi Gulf Coast beaches for MDEQ, notifies the agency when an area returns to acceptable levels and safe conditions.

More information on the Mississippi Beach Monitoring Program is available at:

<http://www.usm.edu/gcrl/msbeach/index.cgi>.

To receive beach advisories directly, send an email to rwilbur@deq.state.ms.us for inclusion in a public group email list, text "MDEQbeach" to 95577, or follow MDEQ on Twitter: @MDEQ.
