MDEQ Lifts Water Contact Advisory in Biloxi *Three Other Advisories in Effect*

(JACKSON, Miss.) – The Mississippi Department of Environmental Quality (MDEQ), through its Beach Monitoring Program, lifted a water contact advisory Friday for sampling station 13A (Biloxi East Beach). Advisories remain in effect for stations 1, 7, and 8.

The advisory was lifted for:

► **Station 13A -- Biloxi East Beach -- near Holley St. -- from Dukate St. east to Kuhn St.**

Advisories are still in effect for:

► **Station 1 -- Lakeshore Beach -- near Lakeshore Dr., Bay St. Louis -- the extent is from the Silver Slipper Casino east to Pointset Ave.**

► **Station 7 -- Pass Christian East Beach -- from Espy Ave. east to Hayden Ave.**

► **Station 8 -- Gulfport West Beach -- from Marie Ave. east to Camp Ave.**

These segments of beach are not closed; however, there may be an increased risk of illness associated with swimming in these areas.

When water samples show that levels are safe for human contact, the advisories will be lifted. Swimmers are reminded that the Beach Task Force has a standing recommendation that swimming not occur during or within 24 hours of a significant rainfall event.

More information about the Mississippi Beach Monitoring Program and the status of beach advisories is available at: <http://opcgis.deq.state.ms.us/beaches>. A list of Frequently Asked Questions about the program can be found at: <http://opcgis.deq.state.ms.us/beaches/moreinfo.html>.

To receive beach advisories directly, send an email to rwilbur@mdeq.ms.gov for inclusion in a public group email list, text "MDEQbeach" to 95577, or follow MDEQ on Twitter: @MDEQ.
