RE: COMMUNITY ENGAGEMENT PROGRESS REPORT AUGUST THROUGH OCTOBER 2017, KUHLMAN ELECTRIC CORPORATION CLEAN UP ACTIONS, CRYSTAL SPRINGS, MISSISSIPPI

Dear Ms. Collier:

This report provides a summary of community engagement actions taken for the Kuhlman Electric Corporation (KEC) environmental clean-up actions in Crystal Springs, Mississippi, as required by the Community Engagement Plan approved by the Mississippi Department of Environmental Quality (MDEQ) on July 17, 2012. This report will cover the period from August 2017 through and including October 2017. Future reports will continue to be provided quarterly.

KEC has continued to be actively engaged with the community. During this quarter, KEC with its consultants Environmental Management Services (EMS) and Caffee, Caffee and Associates (CCA) has updated and notified Crystal Spring's residents of remedial activities through community meetings, one-on-one dialogue, and the quarterly newsletters.

The following CAP milestone activities were initiated or continued during this reporting period.

- Soil Vapor Extraction System Operation and evaluation (ongoing).
- Capacity Plan Implementation –
 - Operation of new City wells CSW-WA9 and CSW-WA10 initiated.
 - City wells CSW-WA1 and CSW-WA2 taken out of service.
 - Survey for new supply pipeline complete.
 - Easement acquisition for new supply pipeline initiated.
 - SVE performance monitoring data evaluation continued.

Progress in implementing the Community Engagement Plan as it relates to these specific milestones, above, is detailed in Table 1 (attached). There were no required activities that were not completed.

Several community relations actions are conducted on an as-needed basis, designed to meet the requests and needs of the public. The status of these actions is as follows:

Points of Contact

The local contact is Lorraine Stoer, Managing Director for the ABB Crystal Springs facility.

Fact Sheets

Fact sheets are available on an ongoing basis, as requested from the public. Fact sheets available are:

- Soil Vapor Extraction
- Air Sparging
- Monitored Natural Attenuation
- Groundwater Corrective Action Plan

Media Releases and Briefings

There were no media releases or briefings.

Public Notices

There were no Public Notices required or completed.

Information Repository

The information repository is maintained by MDEQ online at <https://www.deq.state.ms.us> and at the Crystal Springs Public Library Information Desk, 200 South Jackson Street, Crystal Springs, MS. MDEQ adds approved documents and final reports only. During this reporting period, the following submittals were made:

- Soil Vapor Extraction System First Semiannual Report 2017 (August 23, 2017)

Local Briefings and telephone briefings

Caffee, Caffee and Associates, on behalf of KEC, has continued to hold several small group and individual meetings, as well as telephone conversations each month during the reporting period, including attendance at the Chamber of Commerce meetings. CCA has maintained communication and a presence in the community each month to reassure residents of KEC's community engagement efforts. Additionally, representatives held one-on-one talks with businesses and churches in Crystal Springs while hand delivering copies of the KEC newsletter (see Direct Mail below).

Melissa McGee-Collier

Page 3

Public Meeting, Open Houses and Small Group Meetings

CCA has continually offered updates through monthly small group meetings during the reporting period not including those who received newsletters (see Direct Mail below). During this reporting period, CCA also attended the 2017 Fall Bazaar at Chautauqua Park to provide updates to the community.

Direct Mail

KEC continued to distribute copies of the quarterly newsletter. KEC also published the twentieth edition of a quarterly newsletter, the Kuhlman Cleanup News in October 2017. Over 1500 newsletters will be distributed. Newsletters are delivered to more than 300 individuals, local businesses, and churches. Businesses and churches receive copies of the newsletter to ensure a broad distribution and that interested individuals have multiple locations to obtain a copy. This issue of the newsletter provided updates on the soil vapor extraction system, water quality monitoring, and new municipal supply well progress. A copy is attached.

Comment Period and Comment Responses

MDEQ has not notified KEC of any other public notice/comment periods required at this time.

Upcoming Activities

KEC will provide the next quarterly update in January 2018. Please do not hesitate to contact me with any questions you might have.

Sincerely,

Lorraine Stoer

Shawn Kwasy
EHS Manager

KUHLMAN CLEANUP NEWS

OCTOBER 2017

*Newsletter on Kuhlman Environmental
Cleanup in Crystal Springs*

CURRENT PROGRESS AND UPCOMING PROJECTS

Soil Vapor Extraction Progress

In late 2016 and early 2017, soil sampling was conducted beneath the plant to evaluate the progress that has been made as a result of operating the SVE Soil Vapor Extraction (SVE) system. The results indicate that the chemicals in the soil have been extremely reduced below the plant. Some of the chemicals are no longer detected at all. We are continuing to operate the system and optimize its performance so that we can continue cleaning up the remaining chemicals below the plant.

2017 FALL BAZAAR AT CHATAUQUA PARK

KEC representatives talked with the area residents and provided updates on the plans and work underway. There were over 70 vendors present at this event. It is through these endeavors that we can continue to keep the residents of Crystal Springs abreast of our activities.

Questions or Comments?

If you have any questions or concerns, we want to hear them! Please submit all questions or comments to Brenda Bell Caffee of Caffee, Caffee and Associates at 601-336-7212.

City Water Supply

We are moving forward with obtaining property easements for the new raw water main and finalizing bid documents and project plans for the same. This water main is intended to replace the existing main and provide a reliable long-term means to transport water from the two new supply wells installed by KEC.

GROUNDWATER MONITORING

The semi-annual sampling of the groundwater monitoring wells was performed this quarter. Both on-site and off-site are continuing to be monitored. We are awaiting the latest analytical results. Results are submitted to MDEQ in a report format that consists of a discussion of results, tables, figures, and appendices, which include the laboratory reports.

FALL CITY WELL SAMPLING

We continue to sample City owned water supply wells south of the plant to ensure the protection of the city water supply. Regular sampling will continue for City supply wells CSW-WA1, CSW-WA3, and CSW-WA8. Regular sampling will also continue to be conducted at the treatment plant. The water sampling is being completed monthly. The results are submitted to MDEQ.

FACT SHEETS AVAILABLE

We understand that the terms sometimes used in the newsletters and reports can be a little confusing. For this reason, fact sheets are always available, upon request, to describe the processes and procedures being used. Any of these fact sheets can be requested by contacting Caffee, Caffee and Associates.

UPCOMING EVENTS

- Continued operation of the full-scale Soil Vapor Extraction system
- Continued monitoring of existing public supply wells

PUBLIC DOCUMENTS REPOSITORY

All Public documents referenced in the October 2017 Newsletter are available at your local Crystal Springs Library for review or you can also visit <http://www.deq.state.ms.us/>
