

# Energy Efficiency Rebate Programs for Mississippi Industrial Customers

Pollution Prevention (P2) Webinar hosted by the Mississippi Department of Environmental Quality and Mississippi Manufacturers Association

Thursday, July 12, 2018

10:00 a.m.–11:00 a.m.

Utility companies offer a variety of rebates and financial incentives for industrial customers who engage in energy efficiency projects that require capital expenditures. These rebate programs are provided to help defray the cost of the energy efficiency projects. This webinar will feature presentations by representatives of each of Mississippi's five regional utility providers focusing on their respective rebate programs.

## After completing Webinar:

- You should be aware if rebates and incentives available from each of the state's regional electric and gas suppliers.
- You should know how to initiate the process of applying for an energy project rebate.

## Presenters:

- Tennessee Valley Authority
- CenterPoint Energy
- Mississippi Power Company
- Atmos Energy
- Entergy Mississippi

## Registration:

There is no charge for the webinar, but registration is required.

Register online at <https://bit.ly/2KnKZXW> or call Barbara Hopkins at (601) 292-1125.

After registration, you will receive a confirmation email with instruction for how to join the webinar.

## Moderator:

Wally Majors, Utility Analysts, Inc.
