OFFICE OF POLLUTION CONTROL MATTERS:**

**401/Stormwater Branch**

**Brian and Marie Sanderson, Residence**

**Issuance of Water Quality Certification  
WQC2017069, Jackson County**

Brian and Marie Sanderson applied for a Clean Water Act Section 401 Water Quality Certification (WQC2017069) to build a 480 square foot guest cottage on their single family residential lot in Ocean Springs, Jackson County, Mississippi. Florance Bass, Manager of MDEQ's 401 and Stormwater Branch, stated that the proposed project would impact 0.56 acres of wetlands. Ms. Bass stated MDEQ and the U.S. Army Corps of Engineers issued a joint public notice of the proposed project on March 24, 2017, and that MDEQ received three letters objecting to the proposed project. Ms. Bass stated that Mr. and Ms. Sanderson were required to mitigate the wetland impacts and that they would do so by purchasing credits in an approved mitigation bank. MDEQ staff distributed the objection letters, MDEQ's Permit Rationale, and photographs of the proposed project site to the Permit Board members for review prior to the meeting. Ms. Bass stated the WQC met all regulatory criteria and recommended issuance of the WQC which includes special conditions. Permit Board Member Jennifer Wittmann stated that the Mississippi Department of Marine Resources had approved filling of the wetland area and noted that Mr. and Ms. Sanderson had to purchase the mitigation credits before they could proceed with the project. The Permit Board invited comments from the audience regarding the WQC and no one spoke for or against issuance of the WQC.

On motion by Jim Hoffmann, and seconded by David Dockery, the Permit Board voted to accept the staff's recommendation to issue the WQC coverage.

| Hunter Sand and Gravel | Yazoo | P00-030 | No Bond Release |
|------------------------|-------|---------|-----------------|

Hunter Sand and Gravel requested an initial 90% bond release for a 10-acre gravel mine it operated six miles south of Yazoo City. Mr. Clarence Hunter, owner of Hunter Sand and Gravel, stated he only mined the site for two to three years and it had been more than 18 years since he last mined the site. Mr. Hunter stated the current landowner was mining the site. He stated that when he left the site, he reclaimed the approximate four acres that he mined. He informed the Permit Board that he did not request a bond release earlier because he thought a form MDEQ provided had to be signed by the landowner before the bond could be released. Mr. James Matheny, with MDEQ's Office of Land and Water, stated the form MDEQ provided was a permit transfer form and that the landowner was not required to sign before the bond could be released. He stated that MDEQ staff had inspected the site and did not see signs of recent mining by the landowner, that he had never seen anyone else mine this site, and that it looked like no one had mined the site in quite some time. He stated the permittee was required to reclaim the site and the site had not been restored to 3:1 slopes as required by the permit. Mr. Hunter stated that the pit had high walls before he mined it and that MDEQ should have taken photographs of the site before mining commenced. Mr. Matheny pointed out that Mr. Hunter had mined the site without a permit and that his permit was issued after-the-fact. Mr. Matheny stated MDEQ staff recommended a 0% bond release because the site had not been fully reclaimed.
