APPLICATION FOR PERMIT TO DISPOSE OF WASTE BY WELL INJECTION

I. Applicant: _____
(Individual, Corporation or Other Legal Entity)
Address: _____
City: _____ State: _____ Zip: _____
Telephone No.: _____

II. Location of Injection Well
a. Latitude _____ Longitude _____
b. _____ ¼ of _____ ¼ of Section _____, Township _____, Range _____
County _____
c. Name and address of Surface Owner _____

III. Injection Well Design and Operation
a. This Application is for (chose answer from below): _____
1. New Injection Well
2. Existing Permitted Injection Well
3. Permit Modification
b. Type of Operation or Process: (i.e., sulphuric acid plant, petro-chemical plant, etc.)

c. Type of Waste _____

d. Depth of Well _____
e. Depths and Geologic Name of Injection Zone _____

f. Depths and Geologic Name of Injection Interval _____

g. Injection Volumes:
1. Average Daily Volume _____ 2. Maximum Volume _____

IV. Other Submittals Required for Permit Application:

- a. Maps and attachments depicting the following:
1. The approximate boundaries of the tract of land on which the waste disposal activity will be conducted.
 2. The location of the injection well as related to plant boundaries and to adjacent survey lines.
 3. The general character (land use) of the areas adjacent to the place or places of disposal such as residential, commercial, recreational, agricultural, undeveloped, etc.
 4. The boundaries and ownerships of tracts of land adjacent to the plant boundaries. Attachments must include a list containing names and mailing addresses of the tract owners that is keyed to provided maps. Source of the information (e.g., city, county, school or water district records, etc.) should be provided.
- b. A list of mineral interests owners for the tract of land on which the injection well will be operated. A complete mailing address for each owner should be provided. Also include other mineral interests which could be affected considering waste movement over the life of the project.
- c. A detailed justification for subsurface disposal explaining why alternative methods of waste disposal are considered less satisfactory in terms of environmental protection than the proposed subsurface disposal method. Indicate whether this waste is presently being produced, and if so, what method is being used for disposal. Describe in detail the manufacturing processes and products from which the waste arises.
- d. Technical requirement report (Refer to 40 CFR 146.14).

V. **Contact:** _____
 (Individual Authorized to Act for Applicant During Permitting Process)

Address: _____

City: _____ **State:** _____ **Zip:** _____

Telephone No.: _____

I, _____
 (Name of Company Official) (Title)
