Mississippi Power Company no longer plans to use lignite for its operation. Liberty Fuels requested modification regarding reclamation activities that will take place at the Liberty Mine. Mr. James Matheny, Director of the Mining and Reclamation Division of MDEQ's Office of Geology, stated that there was already a reclamation plan in place; however, because Liberty Fuels was no longer going to use the mine, it requested modification to reflect the current conditions. Pursuant to the modification request, reclamation activities west of State Road 493 will not necessitate relocation or affect the right-of-way of the road. The Klondike Cemetery. Liberty Fuels will also avoid impacts to the Klondike Cemetery, which is located at the intersection of Fort Stephens Road and State Road 493, by establishing a 100-foot buffer around the perimeter of the cemetery to protect the cemetery during reclamation activities. Mr. Matheny stated that MDEQ held a public hearing regarding the modification request and that the Sierra Club commented at the hearing. No visitors at the Permit Board meeting made comments either for or against the modification request.

Mr. Matheny stated that MDEQ staff evaluated the modification application and stated that, with proper constraints and limitations within the proposed permits, the project will operate within all State and Federal laws and regulations and will protect the public health and the environment. MDEQ staff anticipates the reclamation to be completed by the end of 2020.

On motion by Dennis Riecke and seconded by Chris McDonald, the Permit Board voted to approve the following Surface Coal Mine Modification: (David Dockery abstained)

**THE PERMIT BOARD CONSIDERED THE FOLLOWING  
OFFICE OF POLLUTION CONTROL MATTERS:**
