Re: Indoor Air Sampling Schedule, Former Holley Automotive/Coltec Industries Facility,
Water Valley, MS

Dear Messrs. McKercher and Lightsey:

As you are aware, on September 20, 2017, First Environment, Inc. ("First Environment"), on behalf of EnPro Industries, Inc. ("EnPro"), submitted a letter request to the Mississippi Department of Environmental Quality ("MDEQ") for a modification to the indoor air sampling program at the Former Holley Automotive/Coltec Industries Facility, Water Valley, Mississippi (the "Plant"). Specifically, First Environment proposed a bi-weekly sampling for the four interior room indoor air sampling locations (IA-1, IA-2, IA-6, & IA-17) and semi-annual sampling of three locations at the west, center, and east areas of the Plant (IA-C16, IA-K13, and IA-G4).

On September 28, 2017, the MDEQ approved First Environment's proposed bi-weekly sampling schedule for the four interior room indoor air sampling locations and requested that IA-C16, IA-K13, and IA-G4 be sampled on a quarterly basis. Accordingly, First Environment proposes the following sampling dates through September of 2018.

Bi-weekly sampling of IA-1, IA-2, IA-6, & IA-17

- 10/05/17 - 10/06/17
- 10/19/17 - 10/20/17
- 11/02/17 - 11/03/17
- 11/16/17 - 11/17/17
- 11/30/17 - 12/01/17
- 12/14/17 - 12/15/17
- 12/28/17 - 12/29/17
- 01/11/18 - 01/12/18
- 01/25/18 - 01/26/18
- 02/08/18 - 02/09/18
- 02/22/18 - 02/23/18
- 03/08/18 - 03/09/18
- 03/22/18 - 03/23/18
- 04/05/18 - 04/06/18

New Jersey

California

Georgia

Illinois

Mississippi

New York

Puerto Rico

Canada

- 04/19/18 - 04/20/18
- 05/03/18 - 05/04/18
- 05/17/18 - 05/18/18
- 05/31/18 - 06/01/18
- 06/14/18 - 06/15/18
- 06/28/18 - 06/29/18
- 07/12/18 - 07/13/18
- 07/26/18 - 07/27/18
- 08/09/18 - 08/10/18
- 08/23/18 - 08/24/18
- 09/06/18 - 09/07/18

Quarterly sampling of IA-C16, IA-K13, and IA-G4

- 11/30/17 - 12/01/17 (early December 2017)
- 03/08/18 - 03/09/18 (early March 2018)
- 05/31/18 - 06/01/18 (early June 2018)
- 09/06/18 - 09/07/18 (early September 2018)

Please note that these sampling dates are subject to the continued receipt of reasonable access rights to the Plant. Additionally, based on a continuing review of sampling results or other conditions that are likely to affect indoor air conditions (such as changes to the mitigation system, plant shut downs, power outages, and structural changes to the Plant), First Environment, on behalf of EnPro, may propose to the MDEQ appropriate changes to the sampling plan and/or schedule in the future.

If you have any questions regarding the indoor air sampling schedule, please do not hesitate to contact me.

Very truly yours,

FIRST ENVIRONMENT, INC.
