

## UST Manufacturer Certifications required by MDEQ

**Note:** “Required” only applies if you use the testing equipment listed or install the UST component listed. If you do not own the testing equipment or install the UST component then there is no need to acquire or maintain certifications. The list below may not be a complete list and may be modified by MDEQ at any time. The primary focus of certifications that we require are:

- 1.) For “precision” devices such as tank tightness testing equipment, line tightness testing equipment, and precision sump testing equipment.
- 2.) For “primary” UST components where training is necessary to ensure that the installer has the level of expertise necessary to complete the job in accordance with the manufacturer’s current specifications. “Primary” referencing particularly the tank and piping which routinely hold product where certification is available by the manufacturer (excluding flexible connectors, ball valves, check valves and pipe fittings).
- 3.) MDEQ views certifications required as a condition of the manufacturer’s warranty to imply that certification is required. Certifications in this category that will be required by MDEQ include UST products made to contain a release from a UST component. Examples include installation of double walled secondary containment sumps, new or retrofit secondary containment sump penetration fittings.

**Please contact MDEQ for questions regarding any certification not listed that may apply.**

Tank Installation Certifications required			
Manufacturer	Tank Type		Period
Containment Solutions	FRP	Petroleum Tank Installation	2 years
	FRP	Double Walled sump installation	2 years
Xerxes	FRP	Manual training	Unlimited
	FRP	Sump Installation manual training	Unlimited
Piping Installation Certifications required			
Manufacturer	Piping Type	Certifications	Period
Fiber Glass Systems	Red Thread IIA, 3000L, 3000LCX	Bonder Training	2 years
Franklin Fueling Systems	UPP Piping	UPP Installation	2 years
	APT	APT Installation	2 years
NUPI	Smartflex	NUPI Installation	2 years
OPW	OPW flex pipe	Installation	2 years

<b>Secondary Containment Sump Penetration fitting</b>			
<b>Manufacturer</b>	<b>Penetration Type</b>	<b>Certifications</b>	
Diversified Products Manufacturing, Inc.	Traditional boots	New & Split Repair	3 years
Bravo Systems	FRP Entry Fittings		3 years
	FRP Retrofit Fittings		3 years
Icontainment	Split Repair Fittings		2 years
<b>ATG Manufacturer Certifications</b>			
<b>Manufacturer</b>	<b>Equipment</b>	<b>Certifications</b>	<b>Period</b>
All ATG manufacturers that provide certification for "Start-Up" programming of ATGs.			
<b>Testing Certifications required</b>			
<b>Manufacturer</b>	<b>Equipment</b>	<b>Certifications</b>	<b>Period</b>
Hasstech	Acurite	Pipeline Tester	2 years
Estabrook's EZY Chek Systems	EZY 3 Locator Plus	Tank Tightness tester	2 years
	Product Line Tester	Product Line Tester	2 years
Franklin Fueling Systems	Incon TS-ST5	Sump Test System	2 years.
Mesa Engineering	Mesa 2-D Method with ACT water level sensor	Tank tightness tester	2 years
Purpora Engineering	Alert Tank Testing System	Tank Tightness Tester	2 years
Purpora Engineering	Petro-Tite Line / Leak Detector Tester	Line Tester	2 years
Vaporless Manufacturing, Inc.	USTest 2001P and 2000U	V.M.I. Tank Tester	2 years
	Model 300-P	Sump Leak Tester	2 years
Tanknology	VacuTect	Tank Tightness Test	3 years
	Sure Test	Tank Tightness Test	3 years
	U3 Ullage Test		3 years
	TLD-1	Line Tester	3 years
<b>Testing Equipment certifications required</b>			
<b>Manufacturer</b>	<b>Equipment</b>	<b>Certifications</b>	<b>Recertification Period</b>
Estabrook's EZY Chek Systems	EZY 3 Locator Plus	Tank tightness tester	Annual
Vaporless Manufacturing, Inc	USTest 2001P and 2000U	V.M.I. Tank Tester	2 years
	Model 300-P	Sump Leak Tester	2 years
Tanknology	Sure Test	Tank Tightness Test	Annual
	U3 Ullage Test		Annual

<b>Cathodic Protection Testing Certifications</b>		
<b>Organization</b>	<b>Certifications</b>	<b>Recertification Period</b>
Alabama Petroleum Equipment Contractors	Cathodic Protection Tester	3 years
Petcon, Inc.	Cathodic Protection Tester	2 years
NACE	Cathodic Protection Tester 1	3 years
	Cathodic Protection Technician 2	3 years
	Cathodic Protection Technologist 3	3 years
	Cathodic Protection Specialist 4	3 years
Steel Tank Institute	Cathodic Protection Tester	3 years
