CURRENT PROGRESS AND UPCOMING PROJECTS

Soil Vapor Extraction Progress

The Soil Vapor Extraction system continues to operate effectively. Routine monitoring continues to be performed and the system is still removing chemicals from below the building. A routine maintenance shutdown included a change of carbon in the two-vapor absorption cannisters and drive belt replacement.

City Water Supply

Planning for a Test Well is underway at one possible location, as KEC continues to pursue another new City supply well. We are negotiating with property owners and evaluating bids to choose the most qualified contractor.

New City Water Line

KEC has acquired easements from landowners to allow the installation of the new water supply pipeline and technicians are performing a ground penetrating radar (GPR) survey of portions of the planned route to identify possible underground obstacles and utilities.

GROUNDWATER MONITORING AND SAMPLING

Regular sampling will also continue to be conducted at various locations in the City and at the treatment plant. No chemicals associated with the former KEC operations have been detected in the water distributed to the City of Crystal Springs. KEC submits results to MDEQ and the City of Crystal Springs. The report will be available for public review once MDEQ completes their review.
UPCOMING EVENTS

- Continued operation of the full-scale Soil Vapor Extraction system
- Continued monitoring of existing public supply wells

PUBLIC DOCUMENTS REPOSITORY

All Public documents referenced in the April 2019 Newsletter are available at your local Crystal Springs Library for review or you can also visit http://www.deq.state.ms.us/

RE: COMMUNITY ENGAGEMENT PROGRESS REPORT MAY 2019 THROUGH JULY 2019, KUHLMAN ELECTRIC CORPORATION CLEAN UP ACTIONS, CRYSTAL SPRINGS, MISSISSIPPI

Dear Ms. Collier:

This report provides a summary of community engagement actions taken for the Kuhlman Electric Corporation (KEC) environmental clean-up actions in Crystal Springs, Mississippi, as required by the Community Engagement Plan approved by the Mississippi Department of Environmental Quality (MDEQ) on July 17, 2012. This report will cover the period from May 2019 through and including July 2019. Future reports will continue to be provided quarterly.

KEC has continued to be actively engaged with the community. During this quarter, KEC with its consultants Environmental Management Services (EMS) and Caffee, Caffee and Associates (CCA) has updated and notified Crystal Spring’s residents of remedial activities through community meetings, one-on-one dialogue, and the quarterly newsletters.

The following CAP milestone activities were initiated or continued during this reporting period.

- Soil Vapor Extraction System Operation and evaluation (ongoing).
- Capacity Plan Implementation—
  - Operation of new City wells CSW-WA9 and CSW-WA10 continued.
  - City wells CSW-WA1 and CSW-WA2 remain out of service.
  - Planning for new supply pipeline efforts continued.
  - Evaluation of potential additional supply well locations continued.
  - SVE performance monitoring data evaluation continued.
- Groundwater monitoring continued.

Progress in implementing the Community Engagement Plan as it relates to these specific milestones, above, is detailed in Table 1 (attached). There were no required activities that were not completed.

Several community relations actions are conducted on an as-needed basis, designed to meet the requests and needs of the public. The status of these actions is as follows:

101 Kuhlman Drive, Crystal Springs, Mississippi
Points of Contact

The local contact is Craig Flagge, HSE Manager for the Crystal Springs facility.

Fact Sheets

Fact sheets are available on an ongoing basis, as requested from the public. Fact sheets available are:

- Soil Vapor Extraction
- Air Sparging
- Monitored Natural Attenuation
- Groundwater Corrective Action Plan

Media Releases and Briefings

There were no media releases or briefings.

Public Notices

There were no Public Notices required or completed.

Information Repository

The information repository is maintained by MDEQ online at https://www.deq.state.ms.us and at the Crystal Springs Public Library Information Desk, 200 South Jackson Street, Crystal Springs, MS. MDEQ adds approved documents and final reports only. During this reporting period, the following submittals were made:

Local Briefings and telephone briefings

Caffee, Caffee and Associates (CCA), on behalf of KEC, continues to hold individual meetings as requested, as well as telephone conversations each month during the reporting period. CCA attended the City of Crystal Springs 2019 Tomato Festival. CCA has maintained communication and a presence in the community each month to reassure residents of KEC’s community engagement efforts. Additionally, representatives held one-on-one talks with businesses and churches in Crystal Springs while handing delivering copies of the KEC newsletter (see Direct Mail below).
Public Meeting, Open Houses and Small Group Meetings

CCA has continually offered updates during the reporting period, as requested, not including those who received newsletters (see Direct Mail below).

Direct Mail

KEC continued to distribute copies of the quarterly newsletter. KEC also updated its distribution lists and published the quarterly newsletter, the Kuhlman Cleanup News, in July 2019. Over 1800 newsletters will be distributed. Newsletters are delivered to 125 individuals, various local businesses, the local library, City Hall, Chamber of Commerce, and 42 churches. Businesses and churches receive copies of the newsletter to ensure a broad distribution and that interested individuals have multiple locations to obtain a copy. This issue of the newsletter provided updates on the soil vapor extraction system, water quality monitoring, and municipal supply augmentation progress. A copy is attached.

Comment Period and Comment Responses

MDEQ has not notified KEC of any other public notice/comment periods required at this time.

Upcoming Activities

KEC will provide the next quarterly update in October 2019. Please do not hesitate to contact me with any questions you might have at 601-892-6567.

Sincerely,

Craig Flagg
HSE Manager, ABB Crystal Springs, MS

| Capacity Plan for Potable Water Supply, City of Crystal Springs (submitted to MDEQ, and MDOH June 8, 2012). | Summer 2012 | - Concurrently submit to the mayor of the City of Crystal Springs for review and comment. 
- Publish in quarterly newsletter to interested parties. 
- Update civic leaders. 
- Approved document will be placed in public repository. | - Capacity Plan for Potable Water Supply approved by MDEQ in December 2012. 
- Quarterly Newsletter distributed to Crystal Spring's residents and businesses in January 2013. 
- Mayor and Civic leaders were updated through the Newsletter. 
- Documents placed in the public repository. Also available upon request. | - None at this time. This milestone is complete. | - None at this time. |
| Capacity Plan Implementation Interim Treatment System Final Design | Summer – Fall 2012 | - Will be submitted to MDEQ, MSDH, and engineers selected by the City of Crystal Springs. 
- Approved design will be placed in the public repository at the Crystal Springs library and on the MDEQ website. 
- Public notice upon approval. 
- Update civic leaders. 
- Publish in quarterly newsletter to interested parties. | - The bench study and final design was successfully completed. 
- The MDSH issued a letter of concurrence with the proposed interim treatment system design in November 2012. 
- The final design was approved by MDEQ in December 2012. 
- Public notice and updates to civic leaders were provided via quarterly newsletter in January 2013. | - None at this time. Design is complete. | - None at this time. |
