**THE PERMIT BOARD CONSIDERED THE FOLLOWING
OFFICE OF POLLUTION CONTROL MATTER:**

ENVIRONMENTAL PERMITS DIVISION

**Drying Facility Assets Holding, LLC
Pearl River County, Mississippi**

Issuance of Water Quality Certification WQC2018031

**Issuance of Modification of Coverage under the Large Construction Storm Water
General Permit MSR106120**

Mrs. Florance Bass, Manager of the 401/Stormwater Branch of MDEQ's Environmental Permits Division, advised the Permit Board that Drying Facility Assets Holding, LLC (DFAH) applied for a Section 401 Clean Water Act (33 U.S.C. § 1341) Water Quality Certification (WQC) to conduct regulated activities in waters of the state to expand its existing plant and rail yard. DFAH also applied for modification of its Coverage under the Large Construction Storm Water General Permit (No. MSR106120). The proposed plant expansion would consist of silos, storage buildings, hoppers, cleaning stations, and loading and unloading stations to coincide with the existing trans-load plant operations. The proposed rail yard expansion would add three industrial spur tracks adjacent to the existing Norfolk Southern railroad right-of-way (ROW) and within the eastern portion of the project site, and two maintenance spur tracks and five raw material spur tracks within the central portion of the plant facility boundary. This project would impact approximately 3.76 acres of emergent wetlands on a 34.98-acre parcel. DFAH proposed to mitigate the wetland impacts by purchasing credits from an approved wetland mitigation bank.

The facility obtained a WQC for the initial project construction on May 14, 2013. The WQC was subsequently modified on March 17, 2015, August 9, 2016, and March 14, 2017. The Permit Board required DFAH to avoid onsite wetlands and place the avoided wetlands in a restrictive covenant forbidding disturbance of the onsite wetlands. The Permit Board

subsequently approved a modification allowing DFAH to change the onsite wetland mitigation to off-site mitigation, and allowing it to remove the restrictive covenant governing the onsite wetland area. DFAH now seeks a Section 401 WQC to allow it to fill the wetland area, which was previously subject to the protective covenant, to expand the facility.

The proposed expansion into the onsite wetland area requires a permit pursuant to Section 404 of the Clean Water Act (33 U.S.C. § 1344) from the U.S. Army Corps of Engineers and a Section 401 Water Quality Certification from the Department. The application for Section 401 WQC is the Joint Public Notice, which began on July 13, 2018, including all subsequent revisions. A copy of the joint public notice was provided to the adjacent property owners. The Department received one letter objecting to the proposed WQC which stated concerns with flooding, local zoning issues, and noise. While the Department does not have jurisdiction over the issues stated in the objection letter, the Department requested that DFAH address the objections. Additionally, the Department notified the objecting party of the Permit Board's meeting. The objecting party did not attend the meeting.

On July 3, 2019, DFAH also requested modification of its Certificate of Coverage under the Large Construction Storm Water NPDES General Permit (MSR106120) to allow it to disturb an additional 5.29 acres of the site. DFAH submitted a revised Storm Water Pollution Prevention Plan (SWPPP) to the Department as required. The Department reviewed DFAH's modification request and SWPPP revisions and deemed them complete and adequate in addressing storm water discharges from the project site.

Mrs. Bass stated DFAH met the technical requirements for issuance of a Water Quality Certification and the requirements of the Large Construction Stormwater General NPDES permit. She recommended issuance of the Water Quality Certification, with conditions, and of the modification of the Coverage under the Large Construction Stormwater General Permit.

On motion by Dennis Riecke and seconded by Les Herrington, the Permit Board voted to accept staff's recommendation to issue the WQC to DFAH with conditions.

On motion by Dennis Riecke and seconded by Les Herrington, the Permit Board voted to accept staff's recommendation to issue modification of DFAH's Coverage under the Large Construction Storm Water Permit.

OTHER BUSINESS

MDEQ's General Counsel, Roy Furrh, informed the Permit Board that State Senator Deborah Dawkins and a group represented by a law professor at the University of Mississippi School of Law had filed evidentiary hearing requests regarding the water quality certification the Board previously issued to the Mississippi Port Authority. Mr. Furrh proposed that the Permit Board consider scheduling a Special Meeting for the evidentiary hearing on Thursday, February 20, 2020. Several Board Members responded that they may not be able to attend a meeting on the proposed date. Mr. Furrh stated he would contact the parties to determine an alternative date for a Special Meeting. Otherwise, Mr. Furrh stated the members who could not attend on February 20, 2020, could arrange for their designees to attend the Special Meeting.

Mr. Furrh also informed the Permit Board that the Petitioner in the Renaissance at Colony Park matter, Mr. Steve Maloney, had appealed the Board's denial of his request for revocation of Renaissance's water quality certification to the Chancery Court of Madison County. He stated the parties are presently working on a briefing schedule for the appeal.

Lastly, Mr. Furrh informed the Permit Board that Petitioners had appealed the Permit Board's decision in the Le Poultry matter to the Chancery Court of Pike County. Mr. Furrh stated that the staff is working to complete the administrative record and enter a briefing schedule.
