Total Maximum Daily Load Report on  
Organic Enrichment/ Low Dissolved Oxygen for Beaver Bayou Watershed.

MDEQ is giving public notice regarding the Beaver Bayou Watershed in the Yazoo River Basin. This water bodies have been listed on the State of Mississippi's List of Impaired Water Bodies. Waters on this list are required to have Total Maximum Daily Load (TMDL) developed for each listed pollutant. A TMDL is the maximum amount of a pollutant that a stream can assimilate without violating water quality standards. This TMDL has been prepared for Organic Enrichment/ Low Dissolved Oxygen.

Prior to proposing this TMDL to EPA for approval, MDEQ is asking for public comment on this draft document. Copies of the draft TMDL may be obtained and/or inspected by contacting MDEQ at the above address and telephone number or by email. Persons wishing to comment upon the draft TMDL are invited to submit comments in writing to Shawn Clark at the address shown above or by email ([sclarck@mdeq.ms.gov](mailto:sclarck@mdeq.ms.gov)) no later than 5:00 p.m. January 15, 2020. All comments received during the public notice period will be considered prior to proposing the TMDL to EPA for approval.
