NCL Waste LLC (NCL) applied for environmental permits for a proposed new municipal solid waste landfill on North County Line Road in Madison County, Mississippi. After considering the matter at the Permit Board's December 10, 2019, meeting, the Board voted to continue the matter to January 14, 2020, to allow MDEQ staff to respond to additional Permit Board questions. MDEQ's General Counsel Roy Furrh restated the procedural history of the permit application, as follows: NCL proposed the permits in January 2017; after nearly three years of working with the company on its permit applications, MDEQ went to public comment on August 22, 2019; MDEQ held a public hearing on September 26, 2019; and MDEQ extended the public comment period to October 28, 2019. Mr. Furrh reminded the Permit Board that in addition to the public comments submitted during the public comment period, the Permit Board considered opinion statements from the public and from NCL representatives at its December 10, 2019, meeting. Mr. Furrh stated that after the December meeting, MDEQ staff provided written answers to the Permit Board's additional questions before the January 14, 2020, meeting. MDEQ did not make an additional staff presentation; however, MDEQ staff members Mark Williams, Trent Jones and other MDEQ permitting staff were present to answer the Permit Board's questions.

Mr. Williams and Mr. Jones answered several questions from the Permit Board members regarding in part the timing and compliance with the regulatory buffer zone requirement related to the Woodland Springs subdivision; the updated disclosure statement; the buffer zone proposed by NCL which is 250-feet from the disposal area to the property lines except for the 500-foot buffer zone provided to benefit the Thomas Lane residents; the differences in the proposed project in 2012 and the current proposed project; and the prior determination of need by Madison County for the proposed landfill.

Mr. Jones stated that MDEQ staff had determined the permit applications were complete and that MDEQ did not have any information that would prevent permit issuance. Mr. Jones recognized that the Board could consider the significant comments received and the previous decisions of the Commission and the Permit Board.

Mr. Hawkins moved to issue the solid waste management permit and Mr. Dockery seconded the motion; however, the motion failed to carry as Mr. New, Mr. Herrington, Mr. Riecke and Mr. Choate voted against the motion. On a subsequent motion, Mr. Herrington moved for the Permit Board to take no action on the permit applications until Madison County provides an updated needs assessment on the proposed NCL Landfill. Mr. New seconded the motion and the Permit Board voted in favor of the motion with only Mr. Choate voting against the motion. Mr. Herrington stated for clarification that his motion was intended to include all permits be tabled until such time as Madison County updated its needs assessment, and all members of the Permit Board were polled to make sure they understood the motion and to confirm their votes on the motion.

Mr. Riecke, on behalf of the Mississippi Department of Wildlife, Fisheries, and Parks, stated he voted against issuance because Madison County has not demonstrated need since 2003 and because MDEQ staff had been inconsistent with its previous recommendation in 2012.

OTHER BUSINESS

MDEQ's General Counsel, Roy Furrh, reminded the Permit Board that the Mississippi Ethics Commission requires each Permit Board Member to file a Statement of Economic Interest with the Ethics Commission annually. The statement is due on the first of May, and the statement must be filed electronically. Mr. Furrh stated that MDEQ sent an email reminder to the Permit Board Members with a link to the Ethics Commission website where they may file their Statements of Economic Interest online. Mr. Furrh also stated that each Permit Board member must sign a federal EPA ethics form regarding the NPDES program, which must also be executed annually, and that Chris Thigpen with MDEQ's Legal Division, is present with the forms for the Board members' review and signature before a notary public after the meeting. Mr. Furrh asked the Permit Board members to provide updated designation letters from their Agency heads as well.

Mr. Furrh also informed the Permit Board that an evidentiary hearing has been scheduled for May 12, 2020, following the regular meeting of the Mississippi Environmental Quality Permit Board for the Mississippi State Port Authority matter.
