Freedom's Image, LLC (Rankin County) requested rescission of its Surface Mining Permit No. P18-004T. Staff inspection of the site revealed that the permitted area is a subdivision with utilities, homes, grassed lots, and a pond. There are no further plans for mining, and the site is fully reclaimed as a subdivision. The staff recommended approval.

Dixon Gravel and Construction (Rankin County) requested rescission of its Surface Mining Permit No. P83-007. The operator has not conducted commercial operations at the site for over ten years. Staff inspection of the site revealed that the permitted area is fully reclaimed. The reclaimed areas are now being used for various farm and cattle operations such as pasture, pond, planted pine timber, and workshop building. There are no future plans for mining and the site is fully reclaimed. The staff recommended approval.

On motion by Dennis Riecke and seconded by David Snodgrass, the Permit Board accepted the staff's recommendations to rescind the permits and return the bonds. (David Dockery abstained).

**THE PERMIT BOARD CONSIDERED THE FOLLOWING  
OFFICE OF GEOLOGY MATTERS:**

**Mining and Reclamation Division**

**Surface Mining Application**

**Memphis Stone and Gravel Company  
Desoto County**

**Surface Mining Permit Application  
#A2048**

Mr. Ron Porter, with the Surface Mining and Reclamation Division of MDEQ's Office of Geology, presented Memphis Stone and Gravel Company's surface mining permit application (No. A2048) to the Permit Board. Memphis Stone and Gravel Company proposed to open pit mine 59 acres, to a total depth of 50 feet, for sand and gravel. Sediment and erosion will be controlled by diversion berms, drainage ditches, and terraced slopes. Reclamation will consist of a pond with grassed slopes. If approved, the new permit number will be P20-011.

Mr. Porter began by stating that during the application and public notice process, Mr. Robert Tipton Jr. sent a letter of concern stating that he lives 300 to 350 feet from the mining area. Mr. Tipton stated he was concerned that the land disturbance activities would adversely impact the surrounding environment, would adversely affect his family's health, would cause alterations to his home's foundation, and would decrease the value of his home and property. He also stated concerns regarding impacts to the community's health and property values due to the close proximity of the proposed operation. Mr. Tipton verbally reiterated his concerns to the Permit Board during the telephonic meeting. The operator responded to Mr. Tipton's comments during the telephonic Permit Board meeting call.

Mr. Allen Parks, Vice President of Memphis Stone and Gravel Company, stated that the company has been operating at this location since the 1970's. Mr. Parks stated the DeSoto County Board of Supervisors granted its latest approval of the mine in 2019. Mr. Parks stated that numerous public hearings were held giving the public ample opportunity to state concerns. In response to Mr. Tipton's concern regarding increased truck traffic, Mr. Parks stated the company had modified the project to greatly reduce truck traffic. The company also obtained approval to move the mined material via conveyor to its existing wash plant which should satisfy one of Mr. Tipton's and other neighbors' primary concerns.

Mr. Parks indicated the mining limits (excavation area boundary) would be approximately 600 feet away from Mr. Tipton's home, and the permit boundary would be approximately 400 feet. With regard to property values, Mr. Parks stated the company has seen no evidence that its activities affect property values. He stated that there had been tremendous development around this project area over the last four decades since the company has been operating.

Permit Board member Les Herrington asked whether the vehicle transit would be covered when it was not loading or unloading. Mr. Parks responded that the over-land conveyor that moves the raw material from the mining excavation to the wash plant is mostly open, but the material is naturally moist so there is no real generated dust. Mr. Parks also stated the conveyor is not operated during inclement weather. He stated the conveyor is covered when it crosses the railroad and that there are measures in place to limit any spillage below.

Mrs. Jennifer Wittmann, Permit Board chair, also asked Mr. Parks to confirm that mining operations would be more than 600 feet from Mr. Tipton's residence. Mr. David Leveritt responded, on behalf of the company, that the actual excavation would be slightly over 600 feet from Mr. Tipton's residence. Mr. Leveritt indicated that the permit boundary would be a little over 400 feet from Mr. Tipton's residence. Mr. Porter confirmed that the regulations specify a minimum 300-foot buffer.

Mr. Porter stated that after careful review of the project, and after meeting with the permit applicant and Mr. Tipton, the Office of Geology found that the application met the requirements of surface mining rules and regulations of the state of Mississippi; therefore, staff recommended issuance of the permit

Upon motion by Les Herrington and a second by Dennis Riecke, the Permit Board voted to approve the issuance of the surface mining permit. (David Dockery abstained)

#### **OTHER BUSINESS**

MDEQ's General Counsel, Roy Furrh, reminded the Permit Board that there will be an Evidentiary Hearing on the All South Construction Company matter immediately following the next regular Permit Board meeting on November 10, 2020, at 9:00 a.m. Mr. Furrh stated that three individuals requested the hearing regarding the Permit Board's grant of a final 80 percent surface mining bond release to All South. Mr. Furrh stated that the meeting will likely be held in person, in the Commission Hearing Room at 515 E. Amite St., Jackson, Mississippi, unless otherwise notified. Mr. Furrh indicated that there will be live testimony at the hearing, and Hearing Officer Leyser Hayes, a court reporter, and witnesses will be present. Due to the COVID-19 pandemic, all present will be required to wear masks and observe social distancing; further, the number of guests in the Commission Hearing room will be limited.

Lastly, Mr. Furrh gave a brief general overview on the recent Gold Coast Matter which has recently been in the press. Mr. Furrh reminded the Permit Board that over a year ago, the Permit Board issued a permit to allow Gold Coast to dispose of wastewater at the Pelahatchie facility. Mr. Furrh stated MDEQ had received some complaints related to the Pelahatchie facility regarding in part odor, flies, and a discharge which resulted in a fish kill. As a result, the Mississippi Commission on Environmental Quality issued two different orders to Gold Coast. The first order required in part Gold Coast to cease and desist from discharging additional wastewater in the Pelahatchie lagoon. The second order required in part Gold Coast to drain its lagoon. Mr. Furrh stated that Gold Coast requested an expedited evidentiary hearing before the Commission regarding the two orders and that the hearing had been tentatively scheduled for October 22, 2020. Mr. Furrh stated he was providing a general overview of the matter to the Permit Board but he could not elaborate on the merits of the matter.

#### **CONFIRMATION OF THE NEXT REGULAR PERMIT BOARD MEETING**

Chair Jennifer Wittmann confirmed that the next Regular Meeting will be held in person at 515 E. Amite St., Jackson, MS, unless otherwise informed, on November 10, 2020.

#### **MEETING ADJOURNED**
