RE: COMMUNITY ENGAGEMENT PROGRESS REPORT NOVEMBER 2020 THROUGH JANUARY 2021, KUHLMAN ELECTRIC CORPORATION CLEAN UP ACTIONS, CRYSTAL SPRINGS, MISSISSIPPI

Dear Ms. Collier:

This report provides a summary of community engagement actions for the Kuhlman Electric Corporation (KEC) environmental clean-up in Crystal Springs, Mississippi, as required by the Community Engagement Plan approved by the Mississippi Department of Environmental Quality (MDEQ) on July 17, 2012. This report will cover the period from November 2020 through and including January 2021. Future reports will continue to be provided quarterly.

KEC has continued to be actively engaged with the community, despite COVID-19 limitations. During this quarter, KEC with its consultants Environmental Management Services (EMS) and Caffee, Caffee and Associates (CCA) has updated and notified Crystal Springs residents of remedial activities through one-on-one dialogue and quarterly newsletters.

The following Corrective Action Plan milestone activities were initiated or continued during this reporting period:

- Soil Vapor Extraction System Operation and optimization design (ongoing).
- Capacity Plan Implementation –
 - Operation of new City wells CSW-WA9 and CSW-WA10 continued.
 - City wells CSW-WA1 and CSW-WA2 remain out of service.
 - Installation of new supply pipeline efforts initiated (approximately 83% complete).
 - Preparations to bring new City Well CSW-WA11 online.
 - Evaluation of potential additional supply well locations continued.
 - SVE performance monitoring data evaluation continued.
- Groundwater monitoring continued.

Progress in implementing the Community Engagement Plan as it relates to these specific milestones, above, is detailed in Table 1 (attached). There were no required activities that were not completed.

Melissa McGee-Collier

Page 2

Community relations are conducted on an as-needed basis, designed to meet the requests and needs of the public. The current status is as follows:

Points of Contact

The local contact is Craig Flagge, Health Safety Environment Manager for the Hitachi ABB Power Grids Crystal Springs facility.

Fact Sheets

Fact sheets are available on an ongoing basis, as requested from the public. Fact sheets available are:

- Soil Vapor Extraction
- Air Sparging
- Monitored Natural Attenuation
- Groundwater Corrective Action Plan

Media Releases and Briefings

There were no media releases or briefings.

Public Notices

There were no Public Notices required or completed.

Information Repository

Final reports are submitted to MDEQ for deposition in the information repository, maintained by MDEQ online at <https://www.deq.state.ms.us>. Final reports are also maintained at the Crystal Springs Public Library Information Desk, 200 South Jackson Street, Crystal Springs, MS. During this reporting period, the library is closed due to the COVID-19 pandemic; therefore, reports and newsletters will be provided for public access through the Crystal Springs City Hall. The following submittals will be made to MDEQ and the Crystal Springs Library once it reopens:

- Semi-Annual Groundwater Assessment Report 2020 (January 2021).

Local Briefings and telephone briefings

Caffee, Caffee and Associates (CCA), on behalf of KEC, continues to hold individual meetings as requested, as well as telephone conversations each quarter. CCA has maintained communication and a presence in the community each month to reassure residents of KEC's community engagement efforts. Additionally, representatives hold one-on-one talks with businesses and churches in Crystal Springs while hand delivering copies of the KEC newsletter (see Direct Mail below) during normal quarters. These actions were reduced during this quarter due to COVID-19 concerns.

Melissa McGee-Collier

January 31, 2021

Page 3

Public Meeting, Open Houses and Small Group Meetings

CCA has continually offered updates during the reporting period, as requested, not including those who received newsletters (see Direct Mail below).

Direct Mail

KEC continues to distribute copies of the quarterly newsletter, the Kuhlman Cleanup News. The most recent version was issued in January 2021. Over 1600 newsletters will be made available at City Hall and any open businesses. No individual distribution was conducted due to COVID-19 precautions. Businesses and churches receive copies of the newsletter to ensure a broad distribution and that interested individuals have multiple locations to obtain a copy. The January issue of the newsletter provided updates on the soil vapor extraction system, water quality monitoring, and municipal supply augmentation progress. A copy is attached.

Comment Period and Comment Responses

MDEQ has not notified KEC of any other public notice/comment periods required at this time.

Upcoming Activities

KEC will provide the next quarterly update in April 2021. Please do not hesitate to contact me with any questions you might have at 601-892-6567.

Sincerely,

Craig Flagge

JANUARY 2021

CURRENT PROGRESS AND UPCOMING PROJECTS

Soil Vapor Extraction Progress

The Soil Vapor Extraction system continues to operate well. In preparation for upgrades to the system, the electrical service has been modified and the telemetry and other equipment are being installed. The recent ambient air testing within the plant was completed with no indications of vapors from the subsurface. The semi-annual report on the SVE is being prepared now for submittal to MDEQ.

QUESTIONS OR COMMENTS?

If you have any questions or concerns, we want to hear them!

Please submit all questions or comments to

Brenda Bell Caffee

of

Caffee, Caffee and Associates

at 601-336-7212.

City Water Supply Pipeline

The new water main that is being installed is 83% complete with nearly 14,000 feet of piping already installed. A search is underway for another water supply well installation location. A portion of the new pipeline has been tied into the existing main in preparation for putting the new well CSW-WA11 online. Electrical service is being installed to the well and as soon as that is completed, the well will be tested again and the necessary MDOH approvals obtained for the well.

City Water Supply

The existing City wells continue to be sampled monthly and reported to MDEQ and the City.

FACT SHEETS AVAILABLE

Fact sheets are always available, upon request, to describe the processes and procedures being used. Any of these fact sheets can be requested by contacting Caffee, Caffee and Associates.

UPCOMING EVENTS

- Continued operation of the full-scale Soil Vapor Extraction system
- Continued monitoring of existing public supply wells

PUBLIC DOCUMENTS REPOSITORY

All Public documents referenced in the January 2021 Newsletter are available at your local Crystal Springs Library for review or you can also visit <http://www.deq.state.ms.us/>
