

**MINUTES OF THE MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD
HELD IN JACKSON, MISSISSIPPI, ON TUESDAY, MARCH 9, 2021**

The Mississippi Environmental Quality Permit Board held a meeting in the Commission Hearing Room of the Department of Environmental Quality, located at 515 East Amite Street, on March 9, 2021. COVID-19 protocols were implemented at the in-person meeting related to mandatory social distancing and face mask requirements. Limited seating was available at the meeting in order to comply with social distancing requirements. Visitors were able to attend the meeting in person subject to available seating or were able to participate telephonically. Jennifer Wittmann, Chair, called the meeting to order at 9:00 a.m. with the following members and designated representatives present:

Jennifer Wittmann, Chair, for Joe Spraggins
Les Herrington, Vice Chair
Doug Mann for Dr. Sam Polles
Chris Hawkins for Kay Whittington
David Snodgrass for Jess New
Chris McDonald for Andy Gipson
David Dockery

Roy Furrh, General Counsel for MDEQ, was present as legal counsel. On motion by Doug Mann and seconded by Chris Hawkins, the minutes of the February 9, 2021, meeting were approved by the Permit Board.

REPORT OF STAFF PERMIT ACTIONS/CERTIFICATIONS

Staff reported to the Permit Board that staff had acted on various permits since the February 9, 2021, Permit Board Meeting pursuant to the regulations delegating this authority to the Executive Director of the Mississippi Department of Environmental Quality and the Executive Director's delegation of this authority to the staff in accordance with those regulations. The Permit Board voted to note and record in its minutes the reports of permit actions and certifications by staff since the February 9, 2021, Permit Board Meeting. [Chris Hawkins abstained from voting on all Land and Water Resources permitting matters and David Dockery abstained from voting on all Geology permitting matters].

**THE PERMIT BOARD CONSIDERED THE FOLLOWING
OFFICE OF GEOLOGY MATTERS:**

Mining and Reclamation Division

Surface Mining Bond Releases

The Permit Board, on motion by Doug Mann and seconded by Chris Hawkins, voted to accept staff's recommendations regarding the following bond releases (David Dockery abstained):

Eutaw Construction Company, Inc.	Itawamba County	P20-006	Initial 90%
Lakeland Terrace, LLC	Rankin County	P02-009A	Initial 70%

**THE PERMIT BOARD CONSIDERED THE FOLLOWING
OFFICE OF POLLUTION CONTROL MATTERS:**

ENVIRONMENTAL PERMITS DIVISION

AIR II BRANCH

Amite BioEnergy, LLC

Wood Pellet Manufacturing Facility

Gloster, Amite County, Mississippi

Issuance of a Modified Permit to Construct Air Emissions Equipment (0080-00031)

Amite BioEnergy, LLC, Wood produces wood pellets from green wood material at its wood pellet manufacturing facility in Gloster, Amite County, Mississippi. Because the manufacturing process generates air emissions, Amite BioEnergy obtained a Permit to Construct Air Emissions Equipment (Permit Number 0800-0003) on November 26, 2012. Amite BioEnergy began operating the facility in 2015. It applied for modification of its permit to install equipment allowing it to increase production and also allowing it to install a regenerative catalytic oxidizer (RCO) to reduce its emissions of volatile organic emissions (VOCs). Krystal Rudolph, Chief of MDEQ's Environmental Permits Division, stated that MDEQ halted its review of Amite BioEnergy's Title V Operating Permit application to investigate new information it had received concerning pellet mill emissions. After collecting emissions data from its sister facility in Louisiana, Amite BioEnergy disclosed that it may not have fully complied with its VOC permit limits or with the Prevention of Significant Deterioration regulations. After conducting VOC emissions testing, Amite BioEnergy reported that it had been violating its VOC permit limits since 2016. MDEQ took an enforcement action against Amite BioEnergy, and in November of 2020, MDEQ and Amite BioEnergy entered an Agreed Order requiring, among other things, that Amite BioEnergy add a regenerative catalytic oxidizer to reduce its VOC emissions and return the facility to compliance. To ensure compliance with permit limits on VOCs and other pollutants, MDEQ included performance standard and operational restrictions in the draft permit and included more comprehensive monitoring, recordkeeping, and reporting requirements.

MDEQ went to public notice on the draft permit and provided a 45-day public comment period which began on December 18, 2020, and ended on February 1, 2021. The Environmental Integrity Project submitted comments expressing concerns with Amite BioEnergy's previous noncompliance. MDEQ provided these comments to the Permit Board along with MDEQ's Response to Comments, an updated draft permit, an updated permit review summary, and a copy of the Agreed Order in advance of the Permit Board's meeting. MDEQ proposed updates to the permit to clarify that the facility may not increase its production until the RCO is operational. Ms. Rudolph stated that the limits and requirements in the proposed Permit to Construct will be included in the Title V permit which MDEQ will continue to draft after the Permit Board rendered its decision regarding the modification application. Representatives for Amite BioEnergy attended the meeting, but did not address the Permit Board. If representatives from the Environmental Integrity Project had dialed in to the meeting, they did not address the Permit Board when given the opportunity to do so.

MDEQ staff recommended issuance of the permit. Ms. Rudolph stated that the draft modified Permit to Construct contained the proper constraints, limits, and requirements that would allow Amite BioEnergy to operate within all state and federal air environmental laws and regulations.

Permit Board member Les Herrington moved to accept the staff's recommendation for the issuance of the proposed modification to the Permit to Construct Air Emissions Equipment, Permit Number 0080-00031, and Chris McDonald seconded the motion. The Permit Board unanimously voted in favor of the motion.

MUNICIPAL BRANCH

**Wilco Properties, Inc.,
Cypress Creek Plantation
Olive Branch, Desoto County, Mississippi**

NPDES Permit Number MS0050962

Consideration of Buffer Zone Variance Request

Bradley Crain, Manager of MDEQ's Environmental Permits Division's Municipal Branch, presented a request for a buffer zone variance related to the proposed modification of NPDES Permit Number MS0050962 for Wilco Properties Inc., Cypress Creek Plantation. Wilco Properties (Wilco) has a Certificate of Public Convenience and Necessity for sewer service in Desoto County, Mississippi, from the Mississippi Public Service Commission (PSC). Wilco Cypress Creek currently provides sewer service to a residential subdivision named Cypress Trail Subdivision located in Olive Branch, Mississippi. Wastewater is initially treated by an aerobic treatment unit (ATU) at each individual home. Partially treated wastewater is then transported by pipe to a centralized lagoon for further treatment, and then disinfected prior to discharging into an unnamed creek thence into the Coldwater River.

On August 18, 2018, Wilco submitted sewer collection plans and specifications to MDEQ for a new phase of Cypress Trails Subdivision. Wilco plans to collect and treat sanitary sewer generated from the new phase. Mr. Crain stated the proposed new phase would use ATUs at each individual home. MDEQ determined during the review of the plans and specifications that it would require Wilco to perform monthly inspections of the individual ATUs and require homeowners to repair nonfunctional ATUs within 30 days. After Wilco agreed to MDEQ's requirements, MDEQ approved the sewer plans and specifications on March 26, 2019.

Mr. Crain stated the PSC was concerned that the monthly ATU inspection requirement could lead to a potential future rate increase. As a result, Wilco submitted updated plans to MDEQ on July 21, 2020, replacing the plans for individual ATUs with a plan to expand Wilco's existing Cypress Creek lagoon system in order to treat the wastewater generated from the new phase of Cypress Trails. However, the expanded lagoon would not comply with the 150-foot property line buffer zone because it would only be

61.39 feet from the property to the west. The property owner within the buffer zone, Mr. Artis Parker, objects to the expansion.

On the telephone call for the meeting were property owners Artis and Barbara Parker along with Ronda West (their daughter) who has interest in their property; Nicholas Kreunen, an engineer representing Wilco; Chad Fisher, Developer of Cypress Trails Subdivision; and Dan Williams with Wilco. Speaking on her own behalf and on behalf of her parents, Ms. West objected to the variance request for various reasons including concerns with odors, bacteria, mosquitos, flooding, negative impacts of lagoon treatment chemicals on landscaped trees and on metals in their workshop and around the home, and negative impacts on property values. Ms. West also stated the proposed lagoon expansion could limit any future plans for building on the property. Mr. and Mrs. Parker reiterated this was their stance and they strongly opposed the variance request.

Mr. Kreunen commented that the distance to the nearest dwelling on the Parkers' property was around 350 to 360 feet. Also, he stated that a large portion of the 150-foot buffer was encompassed by a large ditch on the Parker's property. Mr. Kreunen also stated that the main reason for the request for changes to the design was due to the PSC's concerns regarding a future rate increase to perform monthly inspections on the ATUs. Mr. Fisher stated the variance was Wilco's last option and requested the Permit Board approve the variance.

Mr. Roy Furrh, General Counsel, cited the regulations, 11 Miss Admin. Code Pt. 6, R.1.1.1C.(2)(f), and read the provisions of the regulations regarding what the Permit Board may consider in determining whether to grant a buffer zone variance. A Permit Board member asked what treatment would be used to control odors and Mr. Crain stated there were no mechanical means to control odors.

Upon motion by Doug Mann and seconded by Chris McDonald, the Permit Board voted to table the variance request, until more detailed information from Wilco Properties and MDEQ staff could be presented to the Permit Board for consideration.

OTHER BUSINESS

Hearing on Gold Coast Commodities, Inc.'s Motion to Continue and to Stay Evidentiary Hearing regarding the revocation of Gold Coast's State Operating Permit No. MSU218003, Rankin County

Hearing Officer Doug Levanway

Gold Coast Commodities, Inc. (Gold Coast) filed a Motion to Continue and Stay the evidentiary hearing scheduled for April 13, 2021. Gold Coast requested the evidentiary hearing after the Permit Board revoked its state operating permit on November 10, 2020. MDEQ opposed the Motion. The Permit Board held a Motion hearing at which it heard arguments from Gold Coast's and MDEQ's General Counsel. Attorney Andy Taggart argued the Motion on behalf of Gold Coast, and Roy Furrh argued against the Motion on behalf of MDEQ. Hearing Officer Doug Levanway presided over the Motion hearing, but was not authorized to vote on the matter. After considering the written pleadings, and hearing arguments made by Gold Coast's and MDEQ's legal counsel, on motion by Mr. McDonald and seconded by Mr. Hawkins, the Permit Board unanimously voted to deny Gold Coast's Motion to Continue and to Stay Evidentiary Hearing.

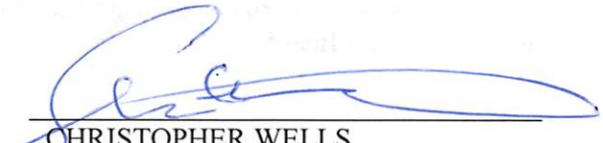

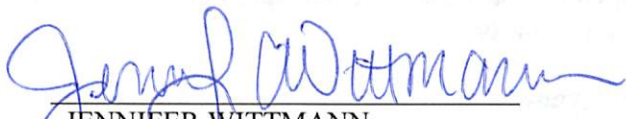

CONFIRMATION OF THE NEXT REGULAR PERMIT BOARD MEETING

Chair Jennifer Wittmann confirmed that the next Regular Meeting will be held on April 13, 2021.

MEETING ADJOURNED

There being no further business to come before the Permit Board, Chair Jennifer Wittmann adjourned the meeting.

DATED at Jackson, Mississippi, this the 9th day of March, 2021.

CHRISTOPHER WELLS
EXECUTIVE DIRECTOR
JENNIFER WITTMANN
PERMIT BOARD CHAIR
