**Thursday, May 27, 2021
9:00 A.M.
Room 104A
515 East Amite Street
Jackson, Mississippi 39201**

Zoom Meeting

AGENDA

- 1. Call to Order - Chair**
- 2. Approval of the April 22, 2021 Telephonic Commission Meeting Minutes**
- 3. Request from the Northeast Mississippi Solid Waste Management Authority for a Variance to State Siting Criteria for the Proposed Expansion Area at the Authority's Municipal Solid Waste Landfill**

The Mississippi Nonhazardous Solid Waste Management Regulations (11 Miss. Admin. Code Pt. 4 Ch. 1.), states that *“New landfills shall be located where there are adequate naturally occurring geological materials present of low permeability to act as a buffer between the base of the landfill liner and the top of the uppermost aquifer. Such materials shall generally consist of clays, silty clays, clayey silts, or other soils which have an average hydraulic conductivity of 1×10^{-6} cm/sec or less. The thickness, or depth, of these materials shall extend to at least five feet immediately beneath the base of the landfill liner.”* The Northeast Mississippi Solid Waste Management Authority is proposing an expansion of the disposal area at the existing Northeast Mississippi Regional Landfill and portions of the proposed disposal area (approximately 14%) do not appear to have the required naturally occurring buffer. Staff of the MDEQ Waste Division will present information regarding the landfill siting criteria and information on the existing Northeast Landfill. The Authority will present the details of their proposed expansion plans and relative information regarding the proposed variance request.

- 4. Commission Approval of Brownfield Agreement - Delmar Plaza Holdings, LLC**

The staff recommends that the Commission approve the Brownfield Agreement between the Commission and Delmar Plaza Holdings, LLP regarding the remediation of brownfield property located at 12057 Highway 49 North in Gulfport, Mississippi. The administrative record for this environmental response project is referred to as the Exclusive Cleaners site. The Exclusive Cleaners, which is located within the Delmar Plaza Shopping Center, released dry cleaning solvents which has resulted in soil and groundwater contamination at this location. Delmar Plaza Holdings, LLC has agreed that the proposed remediation measures will be through the biological enhanced reductive dechlorination (ERD) and in-situ chemical reduction (ISCR) pathways, filing a land use restriction with the property deed, and entering into a Brownfield Agreement. The Brownfield Agreement Site will be subject to an environmental covenant restricting the future site use, including all impacted media. The draft Brownfield Agreement has completed the 30-day public comment period on May 10, 2021. No comments were received. The staff of the MCEQ has evaluated the proposed Brownfield Agreement and believes that, with the conditions and restrictions contained within the proposed Brownfield Agreement, the site will be in compliance with all applicable State and Federal laws and standards and will be protective of the public health and the environment once the Brownfield Agreement is completed.

- 5. Restrictive Use Agreed Order and Environmental Covenant for FC Meyer Packaging, LLC**
(For Reporting Purposes Only)

Pursuant to the Commission's delegation regulations (11 Miss. Admin. Code Pt. 1, R.1.1.Y.), the Executive Director of MDEQ approved the Restrictive Use Agreed Order and Environmental Covenants between the Commission and FC Meyer Packaging, LLC regarding the remediation of property located at 101 Ascher Street, Quitman, Clarke County, Mississippi. FC Meyer Packaging, LLC operated the site as a cardboard packaging manufacturing facility. Environmental Site Assessments have revealed presence of Trichloroethene impacting groundwater at concentrations in excess of Target Remediation Goals (TRGs). Therefore, remediation of the site is necessary. The staff of the MCEQ has evaluated the proposed Restrictive Use Agreed Order and Environmental Covenant and believes that, with the conditions and restrictions contained within; the site will be in compliance with applicable State laws

and standards and will be protective of the public health and the environment. This agenda item is for reporting purposes only.
