**RE: COMMUNITY ENGAGEMENT PROGRESS REPORT MAY THROUGH JULY 2021,
KUHLMAN ELECTRIC CORPORATION CLEAN UP ACTIONS, CRYSTAL SPRINGS,
MISSISSIPPI**

Dear Ms. Collier:

This report provides a summary of community engagement actions for the Kuhlman Electric Corporation (KEC) environmental clean-up in Crystal Springs, Mississippi, as required by the Community Engagement Plan approved by the Mississippi Department of Environmental Quality (MDEQ) on July 17, 2012. This report will cover the period from May 2021 through and including July 2021. Future reports will continue to be provided quarterly.

KEC has continued to be actively engaged with the community, despite COVID-19 limitations. During this quarter, KEC with its consultants Environmental Management Services (EMS) and Caffee, Caffee and Associates (CCA) has updated and notified Crystal Springs residents of remedial activities through one-on-one dialogue and quarterly newsletters.

The following Corrective Action Plan milestone activities were initiated or continued during this reporting period:

- Soil Vapor Extraction System operation, monitoring, and optimization design (ongoing).
- Capacity Plan Implementation –
 - Operation of new City wells CSW-WA9 and CSW-WA10 continued.
 - City wells CSW-WA1 and CSW-WA2 remain out of service.
 - Installation of new supply pipeline efforts continued (pending final resolution of railroad crossing logistics).
 - Preparations to bring new City Well CSW-WA11 online.
 - Evaluation of potential additional supply well locations continued.
- Groundwater monitoring continued.
- Evaluation of potential additional monitoring well locations.

Progress in implementing the Community Engagement Plan as it relates to these specific milestones, above, is detailed in Table 1 (attached). There were no required activities that were not completed.

Melissa McGee-Collier

July 31, 2021

Page 2

Community relations are conducted on an as-needed basis, designed to meet the requests and needs of the public. The current status is as follows:

Points of Contact

The local contact is Craig Flagge, Health Safety Environment Manager for the Hitachi ABB Power Grids Crystal Springs facility.

Fact Sheets

Fact sheets are available on an ongoing basis, as requested from the public. Fact sheets available are:

- Soil Vapor Extraction
- Air Sparging
- Monitored Natural Attenuation
- Groundwater Corrective Action Plan

Media Releases and Briefings

There were no media releases or briefings.

Public Notices

There were no Public Notices required or completed.

Information Repository

Final reports are submitted to MDEQ for deposition in the information repository, maintained by MDEQ online at <https://www.deq.state.ms.us>. Final reports are also maintained at the Crystal Springs Public Library Information Desk, 200 South Jackson Street, Crystal Springs, MS. Newsletters will be provided for public access through the Crystal Springs City Hall, as well. The following submittals were made to the Crystal Springs Library:

- Semi-Annual Groundwater Assessment Report 2020 (January 2021).
- Soil Vapor Extraction System Second Semiannual Report 2020 (April 2021).

Local Briefings and telephone briefings

CCA, on behalf of KEC, continues to hold individual meetings as requested, as well as telephone conversations each quarter. CCA has maintained communication and a presence in the community each month to reassure residents of KEC's community engagement efforts.

Representatives routinely hold one-on-one talks with businesses and churches in Crystal Springs while hand delivering copies of the KEC newsletter (see Direct Mail below) during normal quarters. These actions were reduced during this quarter due to COVID-19 concerns.

Melissa McGee-Collier

July 31, 2021

Page 3

Public Meeting, Open Houses and Small Group Meetings

CCA has continually offered updates during the reporting period, as requested, not including those who received newsletters (see Direct Mail below). In June, CCA hosted an informational booth at the Crystal Springs 2021 Tomato Festival.

Direct Mail

KEC continues to distribute copies of the quarterly newsletter, the Kuhlman Cleanup News. The most recent version was issued in July 2021. Over 1600 newsletters will be made available at City Hall and any open businesses. Businesses and churches receive copies of the newsletter to ensure a broad distribution and that interested individuals have multiple locations to obtain a copy. The July issue of the newsletter provided updates on the soil vapor extraction system, water quality monitoring, and municipal supply augmentation progress. A copy is attached.

Comment Period and Comment Responses

MDEQ has not notified KEC of any other public notice/comment periods required at this time.

Upcoming Activities

KEC will provide the next quarterly update in October 2021. Please do not hesitate to contact Craig with any questions you might have at 601-892-6567.

Sincerely,

Jonathan Mikiska
Hitachi ABB Power Grids

CURRENT PROGRESS AND UPCOMING PROJECTS

Soil Vapor Extraction Progress

The SVE system continues to perform well. The results of the 2020 Semi-Annual Soil Vapor Extraction System Report were submitted to MDEQ in April 2021.

QUESTIONS OR COMMENTS?

If you have any questions or concerns, we want to hear them! Please submit all questions or comments to Brenda Bell Caffee of Caffee, Caffee and Associates at 601-336-7212.

City Water Supply

Completion of the new Raw Water Main Project is awaiting final approval by the Canadian National Railroad for a crossing under the railroad right of way. The City Public Works uncovered the 12" Cast Iron Raw Water Main near the Water Treatment Office so the tie-in of the new raw water line can be planned in detail. That work is in progress and will be coordinated with the City.

GROUNDWATER MONITORING AND SAMPLING

Groundwater sampling of the monitoring wells was completed for the first semi-annual event and the report is being prepared for review. We also continue to sample City owned water supply wells. The samples are currently being analyzed and will be submitted to MDEQ.

Water Supply Well

The electrical Control Panel for Well CSW-WA11 on Harmony Road is being installed after an extended supply related delay. Once installed, the well will be tested for final approval by the Department of Health. A search is underway for a fourth well location in the eastern areas near Harmony Rd.

2021 ANNUAL TOMATO FESTIVAL

Kuhlman Electric Corporation participated in the annual Tomato Festival with an informational table. It is through these endeavors that we are able to keep the residents of Crystal Springs abreast of our remedial activities. We applaud the Kuhlman staff and all the community residents that participated in the 5K run. Good health to all!

FACT SHEETS AVAILABLE

Fact sheets are always available, upon request, to describe the processes and procedures being used. Any of these fact sheets can be requested by contacting Caffee, Caffee and Associates.

UPCOMING EVENTS

- Continued operation of the full-scale Soil Vapor Extraction system
- Continued monitoring of existing public supply wells

PUBLIC DOCUMENTS REPOSITORY

Select documents have been made available at your local Crystal Springs Library for review or you can visit <http://www.mdeq.state.ms.us/>
