--More Helpful Information--

**New Permit Language affecting all NPDES and Pretreatment facilities:**

Monitoring results obtained during the previous reporting period shall be summarized and reported on a Discharge Monitoring Report (DMR). DMRs submitted after December 20, 2016, shall be submitted electronically using the MDEQ NetDMR system.

**Important Reminder:**

MDEQ is having trouble with permittees submitting their new permit application on time, which is due 6 months before expiration of current permit. All major facilities ( $\geq$  1MGD flow) and minor toxic pretreatment must begin sampling at least 2 years before new application due date, at 2.5 years into the current permit. Small municipal domestic (<1MGD) must begin sampling a year before due or at the 3.5 year after permit issuance mark (also 18 months before permit expiration).

<b>Start</b>	<b>1 year in</b>	<b>1.5 years in</b>	<b>2 years in</b>	<b>2.5years in</b>	<b>3 years in</b>	<b>3.5 years in</b>	<b>4 years in</b>	<b>4.5 years in</b>	<b>5 years</b>
<b>Issue Permit</b>				<b>Start sampling if Major or Minor Toxic</b>		<b>Start sampling if small municipal domestic</b>	<b>Small commercial begin app, no sampling required</b>	<b>ALL Permit Applications Due</b>	<b>Permit Expiration</b>

The courses below are offered free by MSRWA (MS Rural Water Assn), and typically, there will be 2 DEQ Sponsored hours and 4 Non-DEQ Sponsored hours offered at each class. Half the hours needed for renewal can be Non-DEQ Sponsored hours. Classes, dates, and locations may change; please keep up to date with [www.msrrwa.org](http://www.msrrwa.org). Please email [agraham@msrrwa.org](mailto:agraham@msrrwa.org) north region or [rparker@msrrwa.org](mailto:rparker@msrrwa.org) south region for additional information on classes.
