RE: **Hercules Hattiesburg Facility – Hattiesburg, MS – Monthly Progress Report (October 2021)**

**USEPA Region IV, RCRA 3008(h) Order
Docket # RCRA -04-2014-4201(b)**

**USEPA Region IV, RCRA 3013(a) Order
Docket # RCRA -04-2011-4251**

Dear Mr. Budeir:

This report summarizes the activities accomplished from October 1 through October 31, 2021, in order to comply with Resource Conservation and Recovery Act (RCRA) 3008(h) and RCRA 3013(a) Orders for the former Hercules Hattiesburg Plant.

TASKS INITIATED, CONTINUED, OR COMPLETED DURING OCTOBER 2021

- Participated in conference calls with the U.S. Environmental Protection Agency (USEPA) and Mississippi Department of Environmental Quality (MDEQ) on October 11 and October 26, 2021, to discuss the site status and path forward for the project.
- Received preliminary comments via email on October 27, 2021, related to the *Long-Term Groundwater Monitoring Optimization Plan* (submitted on April 30, 2021) and participated on a call with the USEPA and MDEQ on October 28, 2021, to discuss preliminary responses.
- Finalized and submitted the *Poly Pale™ Area Pilot Test Completion Report* (dated October 29, 2021), summarizing the results of the air sparge/soil vapor extraction (AS/SVE) pilot study and proposing the next steps for the Poly Pale™ Area.
- Initiated preparations for the 2021 second semiannual monitoring event, including the scope for the Restrictive Use Agreed Order (RUAO), Area #1, Area #2, Poly Pale™ Area, and Northeast Plume Boundary Delineation monitoring programs.

- Continued preparation of the *2021 First Semiannual Consolidated Monitoring Report*, summarizing the May 2021 sampling events for the RUAO, Area #1, Area #2, Poly Pale™ Area, Northeast Plume Boundary Delineation, and Hattiesburg Formation monitoring programs.

PROBLEMS AND DELAYS

- Completion of essential activities continues during the COVID-19 pandemic. Significant delays have been minimized, and the project team has been following applicable health and safety guidelines during activities.

TASKS PLANNED FOR NOVEMBER 2021

- Conduct the 2021 second semiannual monitoring event, including the scope for the RUAO, Area #1, Area #2, Poly Pale™ Area, and Northeast Plume Boundary Delineation monitoring programs.
- Address review comments provided by the USEPA on the *Long-Term Groundwater Monitoring Optimization Plan*.
- Continue preparation of the *2021 First Semiannual Consolidated Monitoring Report*, summarizing the May 2021 sampling events for the RUAO, Area #1, Area #2, Poly Pale™ Area, Northeast Plume Boundary Delineation, and Hattiesburg Formation monitoring programs.
- Continue submission of ongoing USEPA Data Archival and ReTrieval electronic data deliverables.
- Participate in conference calls with the USEPA and MDEQ to discuss the site status and path forward for the project.

COMMUNITY INVOLVEMENT

- None.

PERSONNEL CHANGES

- None.

USEPA/MDEQ SUPPORT NEEDED

- Review the *Final Dense Non-Aqueous Phase Liquid Supplemental Investigation Report* submitted on July 29, 2020, incorporating new data and addressing USEPA comments on the draft version.
- Review the *Supplemental Groundwater Investigation Report* submitted on September 25, 2020, summarizing the assessment data for groundwater quality delineation along property boundaries.
- Review the *Draft Baseline Risk Assessment Report* submitted on January 29, 2021, including the human health and ecological risk assessments for the site.
- Review the *Impoundment Basin and ET-10 Decommissioning Completion Report* submitted on April 28, 2021, summarizing the decommissioning activities completed in accordance with the *Revised Interim Measures Work Plan* (dated November 7, 2014) and the *Final Interim Measures Design Report* (dated March 17, 2015).

Mr. Maher Budeir
Page Three
November 19, 2021

- Review the *Draft 1,4-Dioxane Treatment Pilot Test Work Plan* submitted on May 27, 2021, describing the proposed methodology to assess an in-situ approach as a viable technology for treatment of 1,4-dioxane at the site.
- Review the *Draft Thermal In-Situ Sustainable Remediation Pilot Test Work Plan* submitted on September 17, 2021, describing the proposed methodology to assess the use of a sustainable thermal approach to expedite groundwater quality restoration at the site.
- Review the *Remedial Design Work Plan for the Sludge Pits* (dated September 28, 2021), describing the selected remedy and associated data that will be used to complete the voluntary remedial action for the sludge pit area.
- Review the *Poly Pale™ Area Pilot Test Completion Report* submitted on October 29, 2021, summarizing the results of the AS/SVE pilot study and proposing the next steps for the Poly Pale™ Area.
- Participate in conference calls to discuss the site status and path forward for the project.

Please call me at 302-995-3456 if you have any questions regarding this Monthly Progress Report.

Sincerely,

for Timothy D. Hassett
Project Coordinator
