SYSTEM IN ACCORDANCE WITH THE NATIONAL AND STATE PRETREATMENT STANDARDS

THIS CERTIFIES THAT

FACILITIES ISSUED A CERTIFICATE OF PERMIT COVERAGE UNDER THIS PERMIT ARE GRANTED PERMISSION
TO DISCHARGE REMEDIATED GROUNDWATER INTO STATE WATERS AND/OR INTO PUBLICLY OWNED
TREATMENT WORKS OR WASTEWATER COLLECTION AUTHORITY SYSTEMS

in accordance with effluent limitations, inspection requirements, and other conditions set forth herein. This permit is issued in accordance with the provisions of the Mississippi Water Pollution Control Law (Section 49-17-1 et seq. Mississippi Code of 1972) and the regulations and standards adopted and promulgated thereunder, and under authority granted pursuant to Section 402(b) of the Federal Water Pollution Control Act. The issuance of this permit does not relieve the covered facility from complying with any requirements which the Publicly Owned Treatment Works (POTW) Authority or Wastewater Collection Authority may deem necessary as a prerequisite to the use of the sewage collection system and associated treatment works.

T-1	<p data-bbox="231 511 451 544">INTRODUCTION:</p> <p data-bbox="231 576 1995 755">Facilities that receive coverage under Mississippi's Underground Storage Tank Groundwater Remediation General Permit (UST General Permit) may discharge remediated groundwater associated with leaking underground storage tanks into waters of the State, a local Publicly Owned Treatment Works (POTW) or Wastewater Collection Authority collection and/or treatment systems with capacities of 0.010 Million Gallons per Day (MGD) or more. This Underground Storage Tank Groundwater Remediation General Permit (UST General Permit) covers new and existing remediated groundwater discharges associated with leaking USTs. Remediated groundwater discharges that enter waters of the State, POTWs or Wastewater Collection Authorities are subject to regulation and compliance with the conditions set forth in this permit.</p> <p data-bbox="231 787 1701 820">This permit may also authorize the discharge of remediated groundwater from facilities specifically designated by the Executive Director.</p> <p data-bbox="231 852 1869 885">This permit replaces the previous UST Groundwater Remediation General Permit that expired on January 31, 2022. ACT2 (UST) Permit Applicability and Coverage:

Narrative Requirements:

Condition No.	Condition
T-1	<p>PERMIT AREA:</p> <p>The UST General Permit covers all areas of the State of Mississippi. [11 Miss. Admin. Code Pt. 6, Ch. 1.]</p>
T-2	<p>ELIGIBILITY:</p> <p>(1) This permit may cover new and existing remediated groundwater discharges associated with leaking Underground Storage Tanks (USTs). Facilities that receive coverage under Mississippi's Underground Storage Tank Groundwater Remediation General Permit may discharge remediated groundwater associated with industrial activity into waters of the State, a local Publicly Owned Treatment Works (POTW) or Wastewater Collection Authority systems with capacities of 0.010 MGD or more.</p> <p>(2) A facility is eligible for coverage under this general permit for discharges of pollutants of concern to water bodies for which there is an EPA-approved Total Maximum Daily Load (TMDL) if measures and controls are incorporated that are consistent with the assumptions and requirements of such TMDL. To be eligible for coverage under this general permit, the facility must incorporate in its effluent limitation any conditions applicable to any discharge(s) necessary for consistency with the assumptions and requirements of such TMDL. If a specific wasteload allocation is established that would apply to the facility's discharge subsequent to permit issuance, the facility must implement steps necessary to meet that allocation.</p> <p>(3) Remediation systems eligible for coverage under this permit are defined as "short-term" and are therefore not subject to a specific buffer zone requirement. However, the remediation unit shall be located as far from inhabited dwellings as is practicable.</p> <p>(4) Remediation systems must implement best management practices, as necessary, to protect storm water contamination associated with exposed equipment and/or materials.</p> <p>(5) Discharges must not cause nor contribute to violations of State Water Quality Standards.</p> <p>(6) Coverage under this permit is available only if discharges and discharge-related activities are not likely to jeopardize the continued existence of any species that is listed as endangered or threatened ("listed") under the Environmental Species Act (ESA) or result in the adverse modification or destruction of habitat that is designated as critical under the ESA ("critical habitat"). Submission of a signed NOI will be deemed to constitute the regulated entity's certification of eligibility. [11 Miss. Admin. Code Pt. 6, Ch. 1.]</p>

T-3	<p data-bbox="199 511 2013 544">THIS PERMIT DOES NOT AUTHORIZE:</p> <p data-bbox="199 568 2013 722">(1) Discharges which result in violation of State Water Quality Standards. If a discharge authorized under this permit is later determined to cause or have the reasonable potential to cause or contribute to the violation of an applicable water quality standard, MDEQ will notify the regulated entity of such water quality violation(s) in writing and will provide the information used by MDEQ to make this determination. The regulated entity must take all necessary actions required to ensure future discharges do not cause or contribute to the violation of a water quality standard. If such violations remain or re-occur, then additional measures may be required by the Permit Board. Compliance with this requirement does not preclude any enforcement activity as provided by the Clean Water Act for the underlying violation.</p> <p data-bbox="199 755 2013 850">(2) Activities that affect waters of the State, including wetlands, without obtaining the necessary U.S. Army Corps of Engineers (COE) individual Section 404 permit or coverage under a COE nationwide or general permit. Appropriate documentation must be submitted with the Underground Storage Tank Notice of Intent (USTNOI). [11 Miss. Admin. Code Pt. 6, Ch. 1.]</p>

ACT3 (UST) Obtaining Coverage:

Submittal/Action Requirements:

Condition No.	Condition
S-1	<p>HOW TO OBTAIN AUTHORIZATION:</p> <p>(1) Owners and/or operators desiring coverage under this permit for remediated groundwater discharges associated with leaking USTs must submit an Underground Storage Tank Notice of Intent (USTNOI) in accordance with the requirements of this permit.</p> <p>Beginning December 21, 2025, applicants must submit UST Notice of Intents electronically as required by 40 CFR 127.16.</p> <p>(2) Upon review of the USTNOI and other required submittals, the MDEQ staff may require additional information, recommend that coverage not be granted and/or that an alternate permit would be more appropriate. The MDEQ staff recommendations may be brought before the Mississippi Environmental Quality Permit Board (Permit Board) for review and consideration at a regularly scheduled meeting or at a special meeting at its discretion.</p> <p>(3) Coverage under this permit will not be granted until all other required MDEQ permits, certifications and approvals are satisfactorily addressed.</p> <p>(4) Owners or operators are authorized to discharge remediated groundwater under the terms and conditions of this permit only upon receipt of written notification of approval of coverage by the Permit Board staff. Discharges to waters of the State, POTWs or wastewater collection systems without written notification of coverage or issuance of an individual National Pollutant Discharge Elimination System (NPDES) Permit is a violation of the Mississippi Air and Water Pollution Control Law 49-17-29(2)(b). [11 Miss. Admin. Code Pt. 6, Ch. 1.]</p>
S-2	<p>REQUIRING AN INDIVIDUAL PERMIT OR ALTERNATIVE GENERAL PERMIT:</p> <p>(1) The Permit Board may require any coverage recipient to apply for and obtain either an individual or an alternative general NPDES permit. Any interested person may petition the Permit Board to take action under this paragraph. The Permit Board may require any coverage recipient to apply for an individual NPDES permit only if the coverage recipient has been notified in writing. Such notice shall include reasons for the Permit Board's decision, an application form and a filing deadline. The Permit Board may grant additional time at its discretion, upon request. If a coverage recipient fails to submit a requested application in a timely manner, coverage under this permit is automatically terminated at the end of the day specified for application submittal.</p> <p>(2) Any coverage recipient may request to be excluded from permit coverage by applying for an individual permit or coverage under another general permit. The applicant shall submit an individual application (EPA Form 1 and EPA Form 2D for new discharges and EPA Form 1 and EPA Form 2C for existing discharges) or the appropriate Notice of Intent.</p> <p>(3) Coverage under this permit is automatically terminated on the issuance date of the respective alternative individual permit or general permit coverage. When the request for an alternative individual permit or general permit coverage is denied, coverage under this permit continues unless terminated by the Permit Board. [11 Miss. Admin. Code Pt. 6, Ch. 1.]</p>
