MISSISSIPPI COMMISSION ON ENVIRONMENTAL QUALITY NOTICE OF FINAL RULEMAKING

NOTICE IS HEREBY GIVEN that on February 24, 2022, the Mississippi Commission on Environmental Quality (Commission) voted to amend Title 11 of the Mississippi Administrative Code, Part 2, Chapter 6, titled "Air Emissions Operating Permit Regulations for the Purposes of Title V of the Federal Clean Air Act". The action is reflected in Commission Order 7179-22.

I. Substance of the aforementioned actions.

The amendments to "Air Emissions Operating Permit Regulations for the Purposes of Title V of the Federal Clean Air Act", involve revisions necessary to implement a modified fee system for the Title V program to ensure continued and long-term compliance with state and federal law requiring the program to be adequately and equitably funded. The revisions retain the emissions-based portion of the fee calculation and incorporate a maintenance fee based on a source's number of applicable air regulations. Other changes include removal of the 4,000 ton per pollutant maximum, establishing an appropriate minimum fee each year after an annual evaluation, removal of outdated information, and other editorial changes for improved clarity.
