MINUTES OF THE MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD HELD IN JACKSON, MISSISSIPPI, ON TUESDAY, SEPTEMBER 13, 2022

The Mississippi Environmental Quality Permit Board held a meeting in the Commission Hearing Room of the Department of Environmental Quality, located at 515 East Amite Street, in Jackson, MS, on September 13, 2022. David Snodgrass, Chair, called the meeting to order at 9:00 a.m. with the following members and designated representatives present:

David Snodgrass for Jess New, Chair
David Dockery, Vice Chair
Doug Mann for Mississippi Department of Wildlife, Fisheries and Parks
Chris Hawkins for Kay Whittington
Jennifer Wittmann for Joe Spraggins
Chris McDonald for Andy Gipson
Les Herrington – not present

Roy Furrh, General Counsel for MDEQ, was present as legal counsel. On motion by Chris McDonald and seconded by Doug Mann, the minutes of the August 9, 2022, meeting were approved by the Permit Board.

REPORT OF STAFF PERMIT ACTIONS/CERTIFICATIONS

Staff reported to the Permit Board that staff had acted on various permits since the August 9, 2022, Permit Board Meeting pursuant to the regulations delegating this authority to the Executive Director of the Mississippi Department of Environmental Quality and the Executive Director's delegation of this authority to the staff in accordance with those regulations. The Permit Board voted to note and record in its minutes the reports of permit actions and certifications by staff since the August 9, 2022, Permit Board Meeting. [Chris Hawkins abstained from voting on all Land and Water Resources permitting matters and David Dockery abstained from voting on all Geology permitting matters].

Air II Branch

Northeast Mississippi Solid Waste Management Authority,
Northeast Mississippi Regional Landfill
Tippah County, Mississippi

Reissuance with Modification of Solid Waste Management Permit No. SW07000010433, Modification of NPDES Storm Water Permit No. MSS049301, and Reissuance of Title V Air Permit to Operate No. 2620-00055

Trent Jones, Chief of MDEQ's Waste Division, presented three permits related to the proposed expansion and continued operation of the Northeast Mississippi Solid Waste Management Authority (Authority), Northeast Mississippi Regional Landfill, located in Tippah County, Mississippi. The Northeast Mississippi Solid Waste Management Authority is a consortium of local governments in Benton, Prentiss, and Tippah Counties that joined together to conduct various solid waste management activities including the operation of the municipal solid waste landfill. The landfill is currently operated by a contract operator, Waste Services of Northeast Mississippi, Inc., a subsidiary of Waste Connections, Inc. Permit Board members were provided copies of the proposed draft permits, permit rational or basis documents and a copy of the public notice the week before the meeting.

The existing landfill is located at 2491 County Road 302 near Walnut, Mississippi, in Tippah County. The Permit Board originally permitted the Authority to operate a 32-acre municipal solid waste landfill at this location in February 1995. The landfill was expanded by 50 acres in October 2006, and the current permit allows an 82-acre disposal area. Having operated within that general footprint for the last 25 years, the landfill now has limited disposal capacity remaining. Thus, on July 9, 2019, the Authority adopted a resolution to modify its solid waste management plan to expand the landfill by 72.7 acres. The Mississippi Commission on Environmental Quality approved the plan revision in its Administrative Order No. 7048 20 dated June 22, 2020.

The total permitted disposal area of the landfill proposed is approximately 154.7 acres. The Authority has submitted an application for the expansion and renewal of the solid waste permit to increase the permitted disposal area of the landfill by 72.7 acres to add to the existing disposal area of 82 acres. The expansion area is located directly east of and adjacent to the existing landfill disposal area.

The Authority requested two variances from the regulatory siting criteria. First, the Authority requested a reduction in setback distance from the approved disposal area to the property line. The regulations typically require a 500-foot setback distance for landfills but allow for reducing the setback to not less than 250 feet if the permit applicant can demonstrate adequate visual screening. The proposed reduced setback distances from the property lines to the new disposal area are as follows: 285 feet to the north; 250 feet to the south; and 450 feet to the east. The Authority asserts that adequate screening is present and will be maintained. The proposed setback reduction is also consistent with the setbacks previously approved for the existing landfill disposal area and the Authority has proposed to maintain visual screening.

Second, the Authority requested a variance from the natural geology buffer requirements. Specifically, the regulations require landfills to be located where there are naturally occurring,

low-permeability geological materials present to act as a buffer between the base of the landfill liner and the top of the uppermost aquifer. The thickness, or depth, of these materials must extend to at least five feet immediately beneath the base of the landfill liner. Geologic investigations determined that suitable, naturally occurring clays are present at or near ground surface in most areas, but due to the natural topography of the area, some portions of the disposal area need to receive fill material to be brought up to design grades for the landfill liner system. To supplement the areas of the expansion that may not have naturally occurring clays directly below the liner system at the desired design elevations, the Authority requested that it be allowed to construct a comparable clay buffer in those areas. The regulations do not provide for MDEQ or the Permit Board to consider or grant a variance to the natural geology siting requirement; thus, the Authority petitioned the Commission for a siting criteria variance pursuant to Miss. Code Ann. § 49-17-17(i). The Commission considered and approved the Authority's variance request at its regular meeting on May 27, 2021.

In addition to the reissuance and modification of the solid waste management permit, the Authority requested modification of its storm water permit to allow discharge from two additional outfalls to two different unnamed tributaries of Hurricane Creek and to construct a second sedimentation/settling pond prior to the existing discharge from Outfall 0001.

Finally, MDEQ determined that the Authority's Title V permit should be reissued with changes to address new federal requirements regarding collection and control of landfill gas. The current and proposed Title V Operating permit require landfill emissions be monitored and controlled by a gas collection and control system.

Mr. Jones stated that staff drafted proposed permits and advertised a 30-day public comment period from June 22, 2022, through July 26, 2022, and held an online public hearing on July 26, 2022. Mr. Jones stated that MDEQ received no public comments during the comment period. Further, no visitors commented regarding the proposed permits at the Permit Board's meeting. Mr. Jones stated that staff evaluated the permit applications, including the proposed buffer zones and geologic siting criteria, and the supporting information and concluded that under the constraints and limitations within the proposed permits, the landfill can operate within all state and federal laws and regulations. Mr. Jones recommended that the Permit Board issue the permits.

Representatives from the Authority and the contract operator were present.

On motion by Chris Hawkins and seconded by Doug Mann, the Permit Board granted the requested property line buffer zone setback variance from the disposal area requested by the applicant-Northeast Mississippi Solid Waste Management Authority.

On motion by Chris McDonald and seconded by Chris Hawkins, the Permit Board approved MDEQ staff's recommendation and issued the modification of the NPDES Storm Water Permit No. MSS049301 to Northeast Mississippi Solid Waste Management Authority.

On motion by Doug Mann and seconded by Jennifer Wittmann, the Permit Board approved MDEQ staff's recommendation and reissued with modification the Title V Permit to Operate Permit No. 2620-00055 to Northeast Mississippi Solid Waste Management Authority.

On motion by Jennifer Wittmann and second by Doug Mann, the Permit Board approved MDEQ staff's recommendation and reissued with modification the Solid Waste Management Permit No. SW0700010433 to Northeast Mississippi Solid Waste Management Authority.

THE PERMIT BOARD CONSIDERED THE FOLLOWING OFFICE OF GEOLOGY MATTERS:

Mining and Reclamation Division

Surface Mining Permit Bond Releases

On motion by Doug Mann and second by Chris McDonald, the Permit Board approved staff recommendations, provided through James Matheny, and granted the following surface mining permit bond releases (David Dockery abstained):

DDB Construction Company	Hinds County	P14-006	Final 10%
EP Engineered Clays Corporation	Monroe County	P86-015T	Final 10%
Eutaw Construction Company	Panola County	P16-016	Final 10%
Eutaw Construction Company	Hinds County	P17-017	No Release
Preston Dobbs Trucking and Gravel Sales	Monroe County	P10-010T	Final 10%
Rankin County School District	Rankin County	P18-005	Initial 90%

Surface Coal Mining Permit Bond Release-MLMC Red Hills Mine Choctaw County, MS-002, Renewal 3

James Matheny, Director of MDEQ's Office of Surface Mining and Reclamation Division, indicated Mississippi Lignite Mining Company (MLMC) is requesting a full release of Phases I, II, and III reclamation obligations for the BRO4p3 "2022 Loblolly Pine," which consists of approximately 323 acres of reclaimed land at the Red Hills Mine in Choctaw County, Mississippi. Surface Coal Mining Permit MS-002 is 4,678 acres and the current bond is $49,787,265. The mine is located approximately six miles northwest of Ackerman on the west side of Mississippi Highway 9. The mine is currently operating under Permit No. MS-002, Renewal 3, issued February 13, 2018. MLMC does not seek adjustment to the approved bond because of this application; however, the Permit Board may consider and determine an additional eligible bond reduction amount in the future.

Notice for the proposed bond release was published once a week for four consecutive weeks in the *Choctaw Plain Dealer* and the *Clarion Ledger* seeking public comments. Certified letters were sent to all adjoining property owners, local government bodies, planning agencies, sewage/water treatment facilities, and water companies in the locality of the permit area notifying them of the application. Certified letters were also sent to applicable state, federal, and tribal governments. The MDEQ staff received no objections to the proposed bond release.

On motion by Doug Mann and second by Jennifer Wittmann, the Permit Board approved the surface coal mining permit bond release for the 323 acres of reclaimed land for the BRO4p3 "2022 Loblolly Pine" (MS-002, Renewal 3) to MLMC Red Hills Mine (David Dockery abstained).

OTHER BUSINESS

Roy Furrh, General Counsel of MDEQ, indicated Les Herrington, Permit Board member from the Mississippi State Department of Health, was absent due to working on the City of Jackson water situation. He also suggested the Permit Board meeting in October would last longer and have a lengthier agenda than this month.

CONFIRMATION OF THE NEXT REGULAR PERMIT BOARD MEETING

Chair David Snodgrass confirmed that the next Regular Meeting will be held on October 11, 2022.

MEETING ADJOURNED

On motion by Chris McDonald and second by Doug Mann, the Permit Board voted to adjourn the meeting.

There being no further business to come before the Permit Board, Chair David Snodgrass adjourned the meeting.

DATED at Jackson, Mississippi, this the 13th day of September 2022.

CHRIS WELLS
EXECUTIVE DIRECTOR

DAVID SNODGRASS
PERMIT BOARD CHAIR
