Water Pollution Control Revolving Loan Fund (WPCRLF) Program, Adoption of FY-2022 Intended Use Plan

Mr. Mike Freiman, Director of MDEQ's Surface Water Division, stated the proposed FY-2022 Intended Use Plan was previously forwarded to the Commission for review. This document identifies the loan funds available to our communities for the construction of wastewater collection and treatment facilities, the communities to receive these loan funds, the loan interest rate, program deadlines, and other related information. Ultimately the information is submitted to EPA as part of the Capitalization Grant Application. Public comments on the draft Intended Use Plan were solicited through a public comment period and a public hearing and no comments were received. EPA Region 4 had a few comments during their review of the Intended Use Plan which resulted in minor text changes or added detail. On behalf of staff, Mr. Freiman recommended the Commission adopt the proposed FY-2022 Intended Use Plan and approve a corresponding Commission Order. Following staff presentation and after deliberation, on motion made by Mr. Winstead and seconded by Ms. Martin, the Commission unanimously voted to adopt the FY-2022 Water Pollution Control Revolving Loan Fund Intended Use Plan and issue a corresponding Commission Order.
