**Office of Pollution Control
Environmental Permits Division
Municipal Branch**

**Mize POTW, Smith County
Permit No. MS0035980
Consideration of Buffer Zone Variance Request**

Bradley Crain, Chief of the Municipal Branch, Environmental Permits Division, Office of Pollution Control, MDEQ, presented the matter and indicated Mize has requested a variance to the regulatory siting criteria for the location of a proposed wastewater treatment system addition. The variance request is to reduce the siting criteria from the regulatory requirement of 150 feet to 88 feet from the treatment facility to the property boundary for the installation of a chlorine disinfection system to supplement the existing wastewater treatment system. A minimal 10-foot buffer is required.

Pursuant to Mississippi Commission on Environmental Quality Regulation 11 Miss. Admin. Code Pt. 6, R.1.1.1.C(2), the Permit Board may consider requests for siting criteria variances from the 150-foot buffer zone requirement upon sufficient proof that affected property owners within the subject buffer zone have had timely and sufficient notice of the proposed facility. The Permit Board shall consider any comments from the affected property owners prior to taking action on a variance request. Prior to the meeting, the Permit Board members were provided copies of the affected property owner notice letters which were dated September 7, 2023. The Permit Board members were also provided an email written by Mark Roberts at the request of Debbie DuBose Roberts and Phyllis Dubose Horn (2 of the heirs of the Estate of Mattie Opal DuBose) who are affected property owners. The e-mail indicates the DuBose heirs may choose to be in attendance and/or participate at the Permit Board meeting on October 10th.

Tramone Smith, with WGK Engineers, spoke on behalf of Mize and indicated the addition of chlorine disinfection (tablet) would be an upgrade to the Mize wastewater treatment system. Mr. Smith indicated moving the chlorine disinfection system away from the affected property owners would cost Mize close to \$200,000 which the Mississippi Development Authority would not fund.

Chair David Dockery asked if any of the affected property owners would like to address the Permit Board, but there was no response from the audience. Vice-Chair Doug Mann asked if any of the DuBose heirs would like to address the Permit Board and again there was no response from the audience. Chair David Dockery asked some drainage questions related to the system which Bradley Crain answered and indicated the discharge point for the facility would not change.

Thereafter, on motion by Les Herrington and second by Chris McDonald, the Permit Board voted to grant the requested regulatory variance to the Town of Mize and reduce the regulatory requirement from 150 feet to 88 feet from the treatment facility to the property boundary to accommodate the installation of the chlorine disinfection system to supplement the existing wastewater treatment system.
