

**MINUTES OF THE MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD
HELD IN JACKSON, MISSISSIPPI, ON TUESDAY, DECEMBER 10, 2024**

The Mississippi Environmental Quality Permit Board held a meeting in the Commission Hearing Room of the Department of Environmental Quality, located at 515 East Amite Street, in Jackson, Mississippi, on December 10, 2024. Doug Mann, Chair, called the meeting to order at 9:00 a.m. with the following members and designated representatives present:

Doug Mann for Lynn Posey, Chair
Chris Hawkins for Kay Whittington, Vice Chair
Brian Perry for Andy Gipson
Jennifer Wittmann for Joe Spraggins
David Snodgrass for Jess New
David Dockery

Brittany Partridge, Deputy Director of Environmental Health for the Mississippi State Department of Health, for Les Herrington (was present and voted only on the JWC Environmental, LLC action items)

Roy Furrh, General Counsel for MDEQ, was present as legal counsel. Chair Doug Mann called the meeting to order. On motion by David Snodgrass and second by Chris Hawkins, the Permit Board voted to adopt and approve the minutes for the regular Permit Board meeting held on November 12, 2024.

REPORT OF STAFF PERMIT ACTIONS/CERTIFICATIONS

Staff reported to the Permit Board that staff had acted on various permits since November 12, 2024, Permit Board Meeting pursuant to the regulations delegating this authority to the Executive Director of the Mississippi Department of Environmental Quality and the Executive Director's delegation of this authority to the staff in accordance with those regulations. The Permit Board voted to note and record in its minutes the reports of permit actions and certifications by staff since November 12, 2024, Permit Board Meeting. [David Dockery abstained from voting on all Office of Geology permitting matters and Chris Hawkins abstained from voting on all Office of Land and Water Resources permitting matters].

OFFICE OF POLLUTION CONTROL

Waste Division – Solid Waste Permitting Branch

JWC, Environmental, LLC – Lauderdale County Waste Transfer Station Lauderdale County – Solid Waste Management Permit No. SW380060622

Trent Jones, Chief of the Waste Division, Office of Pollution Control, MDEQ, presented the matter for the Permit Board's consideration and indicated the agenda item is a solid waste management permit application and draft permit for the proposed operation of a new municipal solid waste transfer station known as the Lauderdale County Transfer Station to be owned and operated by JWC Environmental, LLC (JWC). Permit Board members were previously provided with a project summary memo, copies of the MDEQ public notice, copies of the public comments on the draft permit, MDEQ responses to the public comments, the draft permit and the permit rationale document. Mr. Jones indicated there were visitors present that wish to address the Permit Board including concerned citizens and representatives of JWC and Lauderdale County. The Mississippi Nonhazardous Solid Waste Management Regulations provide that a "transfer station" means a fixed facility used for the primary purpose of transferring solid waste from one solid waste transportation vehicle to another. Currently, there are 32 operating municipal solid waste transfer stations located in Mississippi.

Mr. Jones added the proposed Lauderdale County Transfer station would be located at 3201 Southern Way Boulevard in Meridian, Lauderdale County. The proposed facility is on approximately 7 acres located within the Key Brothers Industrial Park established by the Lauderdale County Economic Development District. The proposed transfer station includes the construction of a fully enclosed 5,000 square foot building for the primary purposes of collecting and temporarily storing municipal solid waste from residential and commercial sources. The facility design included in the application calls for short haul garbage trucks or other waste transport vehicles to enter the building and unload waste on the tipping floor within the building. Equipment would then be used to push the waste on the floor to a chute that would transfer the waste to a long-haul vehicle sitting at a lower elevation. When the long-haul vehicle reaches capacity, or at a minimum, once each week, the long-haul vehicle would transport the waste to an approved municipal solid waste landfill or other permitted disposal facility for final disposal. Additionally, the facility may sort and segregate recyclable materials from the incoming waste stream or receive pre-sorted recyclables, for temporary storage, prior to transporting the recyclables to a legitimate end-use facility, recycling facility, or disposal facility. The permit application estimates the collection and transfer of 70 to 100 tons of waste materials per day at the facility.

Mr. Jones mentioned JWC has submitted a solid waste permit application for the proposed operation of the described facility. Based on the information provided in the application, it appears the facility can be constructed and operated in a manner consistent with the Mississippi Nonhazardous Solid Waste Management Regulations. The draft permit includes standard requirements and conditions for the proper containment and storage of waste materials, the routine removal of wastes (at least weekly), the daily cleaning of tipping floor and equipment, the proper management of any wastewaters, and the daily collection of any windblown materials or litter, and any other operating requirements.

Mr. Jones indicated prior to the submittal of the solid waste permit application to MDEQ, the Lauderdale County Board of Supervisors also considered the site of this facility. State Law requires that local governments modify their local solid waste management plans to include new or expanding solid waste management facilities prior to submitting solid waste permit applications. JWC submitted a request to amend the Lauderdale County Solid Waste Management Plan and the Lauderdale County Board of Supervisors (County) held public hearings on a proposed municipal solid waste transfer station in March 2021 (for a different location) and in May 2021 (for the current location). Based on local comments related to this facility and other solid waste planning needs and requests, the County elected to begin a process to comprehensively update the local plan. The County hired a consulting group and established a local advisory committee comprised of local government and community representatives to

assist with the development of the plan. The County, in cooperation with the municipalities of the City of Meridian and the Town of Marion, ultimately developed a comprehensive plan for the County, the Lauderdale County Solid Waste Management Plan (Plan), to address solid waste management needs in the county. The County completed the comprehensive update process locally and held a public hearing on June 6, 2022, on the comprehensive update to the plan, which included the addition of a new municipal solid waste transfer station proposed by JWC in the Key Brothers Industrial Park. The county received several public comments on the transfer station during the public hearing. On August 15, 2022, the Board adopted a resolution approving the Plan, which included the addition of the proposed transfer station. The Mississippi Commission on Environmental Quality through the MDEQ Executive Director, provided conditional approval of the comprehensive plan, and issued Administrative Order No. 7303 24 on January 29, 2024, and issued Administrative Order No. 7343 24 on August 14, 2024, which fully recognized the addition of the Lauderdale County Waste Transfer Station to be located in the Key Brothers Industrial Park established by the Board. The City of Meridian, by letter dated February 27, 2024, indicated the location of the proposed solid waste transfer station is in conformance with all applicable local laws, regulations and ordinances.

For the proposed permit, the MDEQ Waste Division released a public notice requesting public comments on the proposed draft solid waste permit for the transfer station on October 17, 2024. The notice was published in a local newspaper and established a 30-day public comment period from October 17, 2024, until November 16, 2024. Additionally, the MDEQ Office of Community Engagement mailed 19 notices to individuals and/or entities, 10 to residents who had attended Lauderdale County's public hearing conducted during the County's planning process and 9 adjacent property owners. Copies of the public notice were also mailed to the Board and the City of Meridian.

During the public comment period, MDEQ received three (3) written comments and three (3) phone/verbal comments, all in opposition to the proposed permit action. One of the written comments included a petition with 154 names of local residents opposed to the proposed permit. Two of the other commentators specifically requested a public hearing to be held by MDEQ to receive additional comments on the draft permit. In accordance with Miss. Code Ann. Section 49-17-29, the Permit Board, at its discretion, may hold a public hearing or meeting to obtain comments from the public on its proposed action. MDEQ did not hold a local public hearing on the draft permit, but did provide notification to those that commented during the public comment period and the other members of the community listed in the petition that the matter would be considered at the Permit Board meeting scheduled for today-December 10, 2024. In total, MDEQ sent out 174 notices of the scheduled Permit Board meeting.

Mr. Jones closed by indicating MDEQ has reviewed and evaluated the environmental permit application, the supporting documents and information, and the public comments on the proposed permit based on the matters that are within MDEQ's environmental regulatory jurisdiction. Based on that review, MDEQ believes the permit application that has been provided is complete. MDEQ recognizes the public comments received and have attempted to provide information on these matters to the Permit Board for consideration.

After the MDEQ staff presentation, Doug Mann, Chair, allowed public comment and recognized Josh Todd with the Board who commented in favor and mentioned the historic need for the proposed permit. Harrison Cook on behalf of JWC spoke in favor of the project and how there is no recycling in east Mississippi but there is a great need. Kelly Blackwood, an attorney with Bradley Arant Law Firm representing Southern Pipe and Supply, requested the Permit Board hold a separate public hearing in Meridian due to the public's interest and input before making a decision; the public hearing related to the site held by the County was over 2 years ago; and voiced her opposition to the proposed permit. Garner Vance, another attorney with Bradley Arant representing Southern Pipe, also commented against the proposed permit voicing his concerns about the alleged lack of public notice. Richard Harrell, an engineer with FC&E and consultant for Southern Pipe, spoke in opposition to the proposed permit citing in part the need for additional permits. Scott Rush, a professor at Mississippi State University, also spoke against the proposed permit and the potential for the attraction of vultures which could roost at Southern Pipe. Southern Pipe employees-Heath Robertson, Marty Davidson and April Davidson spoke in

opposition to the proposed permit. Jeffrey Blackwood, an attorney with Bradley Arant and representing Southern Pipe, spoke against the project. Josh Pratt, an employee with Southern Pipe, spoke against the proposed permit. Community residents Sadie Martin, Felecia Johnson and Shontonia (Shon) Willis commented against the proposed permit. Meridian City Councilman (Ward 2) Dwayne Davis spoke against the proposed permit.

A number of concerns were raised during the public comment period at the meeting and discussed, including but not limited to, the alleged failure by JWC to provide documentation that it controlled the property; the potential need for a Special Use Permit from the City of Meridian; the Public Notice provided to the local Post Office and the Lauderdale County Chancery Clerk indicated that the notice needed to be posted on the last day of the public comment period rather than the beginning day of public comment; no minutes for a meeting between JWC and MDEQ; the potential need for an Industrial stormwater, a large construction stormwater and pretreatment permits; increased traffic, safety concerns and traffic flow; the alleged absence of a map indicating buffer zone distances; the potential for roosting vultures; the alleged compliance issues at a rubbish facility in Lauderdale County owned and operated by JWC principals; noise; environmental justice; the investment and jobs provided by the Southern Pipe distribution center which is located nearby in the Key Brothers Industrial Park; the odors at Pine Ridge Landfill; the cluster of waste facilities; and diminution of neighboring property values.

Permit Board members Jennifer Wittmann, Doug Mann, David Snodgrass and Chris Hawkins asked questions of MDEQ staff and commentors. Trent Jones indicated the City of Meridian had provided a wastewater "will serve" letter and the posting of the public notice with the Post Office and the Lauderdale County Chancery Clerk was not required by law or regulation. Chris Lafferty, Lauderdale County Administrator, answered some questions, indicated the County planned to lease the property to JWC if the permit was issued and spoke in favor of the permit.

After the public comment and discussion, on motion by Jennifer Wittmann and second by Chris Hawkins, the Permit Board voted to move into closed session to discuss whether to move into executive session to discuss a matter that could lead to prospective litigation. Thereafter, the Permit Board left the Commission Hearing Room and relocated into a MDEQ conference Room for discussion. The audience remained in the Commission hearing room.

Shortly thereafter, Donna Hodges, Senior Attorney of MDEQ, announced to the audience in the Commission Hearing Room, that on motion by Jennifer Wittmann and second by David Snodgrass, the Permit Board voted to move into executive session to discuss a matter that could lead to prospective litigation.

Thereafter, the Permit Board returned to the Commission Hearing room, and Roy Furrh, General Counsel of MDEQ, announced that on motion by David Snodgrass and second by Chris Hawkins, the Permit Board voted to close executive session and return to open session.

After returning to the open session, Doug Mann, Chair, asked for any proposed motions from the Permit Board members. On motion by Jennifer Wittmann and second by David Snodgrass, the Permit Board voted to delay consideration of the JWC proposed transfer station permit; granted Southern Pipe's request for a public hearing on the proposed permit in Meridian to be conducted after the holidays; and instructed the permit applicant to engage the public and describe and clarify the operations and site plan of the proposed transfer station.

OTHER BUSINESS

Roy Furrh, General Counsel of MDEQ, wished the Permit Board members and the audience a happy upcoming Christmas holiday.

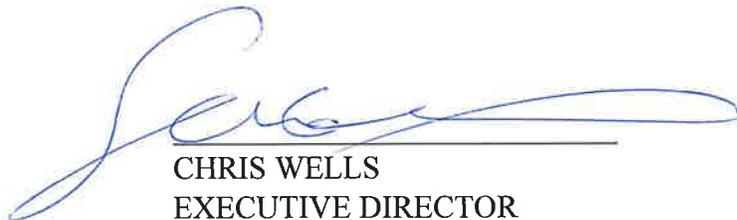

CONFIRMATION OF THE NEXT REGULAR PERMIT BOARD MEETING

Chair Doug Mann confirmed the next regular meeting of the Permit Board was scheduled for Tuesday, January 14, 2025.

MEETING ADJOURNED

There being no further business to come before the Permit Board, Chair Doug Mann adjourned the meeting.

DATED at Jackson, Mississippi, this the 10th day of December 2024.
