

**MINUTES OF THE MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD
HELD IN JACKSON, MISSISSIPPI, ON TUESDAY, FEBRUARY 10, 2026**

The Mississippi Environmental Quality Permit Board held a meeting in the Commission Hearing Room of the Department of Environmental Quality, located at 515 East Amite Street, in Jackson, Mississippi, February 10, 2026. Brian Perry, Acting Chair, called the meeting to order at 9:00 a.m. with the following members and designated representatives present:

Brian Perry for Andy Gipson, Acting Chair
John Banks for Kay Whittington
David Dockery
Les Herrington
William Watkins for Jess New
Ryan Jones for Lynn Posey

Absent: Jennifer Wittmann for Joe Spraggins

Anderson Thomas, Senior Attorney for MDEQ, was present as legal counsel. Acting Chair Brian Perry called the meeting to order. On motion by Les Herrington and second by Ryan Jones, the Permit Board voted to adopt and approve the minutes for the regular Permit Board meeting held on January 13, 2026.

REPORT OF STAFF PERMIT ACTIONS/CERTIFICATIONS

Staff reported to the Permit Board that staff had acted on various permits since January 13, 2025, Permit Board Meeting pursuant to the regulations delegating this authority to the Executive Director of the Mississippi Department of Environmental Quality and the Executive Director's delegation of this authority to the staff in accordance with those regulations. The Permit Board voted to note and record in its minutes the reports of permit actions and certifications by staff since January 13, 2026, Permit Board Meeting. [John Banks abstained from voting on all Office of Land and Water Resources permitting matters. David Dockery abstained from voting on all Office of Geology permitting matters].

OFFICE OF POLLUTION CONTROL

Environmental Permits Division

401/Stormwater Branch

Elliott Land Developments, LLC – Old Spanish Trail Subdivision Jackson County

Carrie Barefoot, Branch Manager of the 401 Water Quality Certification and Stormwater Branch within the Environmental Permits Division, presented two permit actions for the Board's consideration related to Elliott Land Developments, LLC, Old Spanish Trail Subdivision, a proposed single-family residential development to be located adjacent to Old Spanish Trail in Gautier, Jackson County, Mississippi. The first action is a request for a Section 401 Water Quality Certification, and the second action is a request for coverage under MDEQ's Large Construction Stormwater General Permit.

WATER QUALITY CERTIFICATION

The applicant submitted a request for Water Quality Certification on June 9, 2025, with subsequent revisions provided on September 12, 2025, to conduct regulated activities in jurisdictional waters associated with the construction of a residential subdivision. The initial joint public notice, dated March 5, 2024, described the proposed activities to include the filling of approximately 74.09 acres of wet pine savannah wetlands for the construction of a 328-lot residential subdivision. The original project site encompassed approximately 105 acres, of which 100.80 acres were identified as wetlands.

During the regulatory review process, revisions were made to the project design and layout. These revisions were based on updated property boundary surveys conducted by the applicant, as well as the incorporation of applicable local conditional use and zoning requirements related to project design, density, and construction setbacks. As revised, the total project site is approximately 107.89 acres in size, with 103.24 acres identified as wetlands. The revised proposal includes impacts to approximately 69.06 acres of wet pine savannah wetlands associated with the construction of a 300-lot single-family residential subdivision, including access roads, utilities, and two detention ponds. The applicant proposes to provide in-kind compensatory mitigation through the purchase of credits from an approved mitigation bank.

In addition to the Water Quality Certification, the proposed project requires authorization pursuant to Section 404 of the Clean Water Act from the U.S. Army Corps of Engineers, Mobile District and Coastal Zone Consistency from the Mississippi Department of Marine Resources. As previously stated, the U.S. Army Corps of Engineers, Mobile District published a joint public notice for the project, and notice was provided to adjacent property owners. During the public notice period, one letter of objection was received by the Department. The concerns raised in this objection included the extent of wetland impacts and whether additional avoidance or minimization measures could be incorporated; the adequacy of proposed stormwater management and the use of low-impact development practices; potential impacts to wildlife corridors; the possible presence of gopher tortoise habitat; potential downstream flooding concerns; and whether the no-build alternative had been adequately considered.

In response, the applicant submitted a letter dated March 14, 2025, addressing each concern. Regarding water quality, the applicant explained how avoidance and minimization were incorporated into the revised design, including a reduction in residential lots and wetland impacts. The applicant also stated that construction and post-construction stormwater controls were designed to comply with the Large Construction General Permit and MDEQ requirements. For wildlife concerns, habitat surveys were conducted and did not identify suitable habitats for threatened or endangered species.

MDEQ staff reviewed the public comments and the applicant's responses as they relate to water quality and stormwater management and find that the concerns raised have been adequately addressed within the scope of the Department's regulatory authority.

CONSTRUCTION STORMWATER

The second permit action for this project is a request for coverage under the Large Construction Stormwater General Permit. On August 25, 2024, the applicant submitted a Large Construction Notice of Intent and an associated Storm Water Pollution Prevention Plan and provided subsequent revisions to address the revised site design. Construction activities will disturb approximately 68.2 acres for site clearing, grading, and the construction of residential lots, access roads, utilities, and detention ponds.

Best management practices proposed to be used during construction include stabilized construction exits, silt fencing, 50-foot undisturbed natural buffers where practicable, enhanced sediment controls where buffers cannot be maintained, temporary and permanent vegetative stabilization practices, and two sedimentation basins equipped with skimmers. The Notice of Intent and Storm Water Pollution Prevention Plan were reviewed by staff and determined to be complete and to meet the minimum requirements for addressing stormwater discharges from the project site.

In preparation for today's meeting, Permit Board members were provided with detailed project materials. These include the public notice of application, public comments and responses, the request for Water Quality Certification which includes the Large Construction Notice of Intent and Storm Water Pollution Prevention Plan, and a draft Water Quality Certification with proposed conditions. The materials provided reflect the most recent versions of the applications and plans submitted by the applicant.

In conclusion, MDEQ has reviewed the request for a Section 401 Water Quality Certification and the request for coverage under the Large Construction Stormwater General Permit. Based on that review, staff finds that the applications contain the components required by applicable state and federal regulations.

There being no public comment or questions from the Board, the Board moved to vote. On motion by William Watkins and second by Les Herrington, the Board voted unanimously to approve both permit actions.

OTHER BUSINESS

Senior Counsel Anderson Thomas informed Board members and others in attendance there were no other matters for consideration.

CONFIRMATION OF THE NEXT REGULAR PERMIT BOARD MEETING

Acting Chair Brian Perry confirmed the next regular meeting of the Permit Board was scheduled for Tuesday, March 10, 2026.

MEETING ADJOURNED

There being no further business to come before the Permit Board, on motion by Lester Herrington and second by David Dockery, the Permit Board voted to adjourn the meeting. Acting Chair Brian Perry then adjourned the meeting.

DATED at Jackson, Mississippi, this the 10th day of February 2026.

CHRIS WELLS
